Evening Herald.

Shennudoah, Pe

SATURDAY, MARCH 3, 1894.

THE men with political putts are now hard at work and their strength will soon he known. Monday night will settle the question.

GROW has caused as much constelnation in the Pennsylvania Democratic ranks as the bull did in the china whop.

ALL the Suemandoah water cases have been argued and are in the bands of the court at last. This is a great relief to both sides, although the cases had dragged so long that most of the citizens of Shenandoah forgot that any were pending.

MRS. GEN. GRANT, who was reported as having gine to Southern California to make it her permanent home, and which possibly was her full intention, has announced her distermination to return to the East an soon as the spring opens.

FROM the drift affairs are taking in connection with the public water works it looks as if it wouldn't take much to precipitate a la v suit between the contractor and the Borough Council. It seems odd that the contractor, engineer and Council cannot get together and talk the matter over. Indeed, some people have said it luol's auspiclous.

THE death of M C Reinhold, E q., is deeply regretted. He was a young man of ex eliest attainments and would have been a shining figure in the legal profession and political circles of this county within a very few years. He had already attained a standing in both which many men of more pretentious and of more invite age might have envied.

EXPERIENCED and shrewd politiciaus say that a deleated candidate holds friends longer and gains new ones. quicker by accepting defeat gracefully. The man who goes about trying to explain his defeat turns the admiraually into disgust. This applies to

Lord Rosebery Summoned to Windsor by Queen Victoria.

GLADSTONE DECLINES A PEERAGE.

Henry Labouchers, the Badical Leader, Will Not Support the New Premier, and Believes That a Government Headed by a Peer May be Overthrown.

LONDON, March 8.-By command of the queen Mr. and Mrs. Gladatone proceeded to Windsor Castle yasterday afternoon, and will remain as the gnests of her majesty until this evening. Mr. Bayard, the United States ambassador, and Mrs. Bayard were among the guesta who dined with the queen at Windsor Castle last evening.

At noon today a privy council was held at Windsor Castle, and upon this occasion Mr. Gladstone tendered his resignation of the premiership. The Earl of Kimberly,

ford president of the council; Earl Spen cer, first lord of the admiralty, and the other ministers, with the exception of Lord

Rosebery, were present. Reachery, were present. In his consultation with the queen Mr. Gladstone explained fully to her majesty the reasons for his retirement. The queen expressed her regrets that the country adoutd less his service, and offered him a peerage. This Mr. Gladstone declined to necept. Mr. Gladstone recommended that and the performance of the sum-Lord Rosebery be appointed as his suc-cossor. A telegram was sent later to Lord Reachery, who is at Epson, summoning him to Windsor for 8 o'clock this after-mon. It is understood that he will accept the premiership, but there will only be two other changes in the cabinet.

Mr. Henry Labouchere, in an interview today, was asked what he would do if Lord Roschery became premier. In reply Mr. Labouchere add that if the Conservatives moved want of confidence in such a gov ernment he would not support the govern-ment, and he thought that at least twenty members were in full sympathy with his view of the situation, and that if they were driven to extremes they would overturn a government headed by a peer.

The Associated Press learns upon good authority that Mr. Gladstone will not ac-cept any position under the reorganized administration.

administration. The general feeling in the Liberal clubs is that if Mr. Gladstone was to remain a member of the cabinet it would hamper-his successors and take away their free-dom of action, though it is understood that he has intimated his desire to give his successors currend and concernition his successors counsel and co-operation whenever required.

Bunters Devoured by Wild Beasts.

DURAT, Mex., March 3.-A party of Americans left here about fifteen days ago on a hunting expedition in the Sierra Ma-drid mountains. After reaching the little town of Salto they went in search of big game. Soon after leaving Salto the party became separated and three of the mem-bers were lost in the mountains. The bodies of two of them were afterward found. They had been partly devoured by wild benets, but whether they died tion of his friends into pity and event- from exposure or were killed by panthers it was impossible to tell. Their names were H. L. Denton, aged about 35, and T. indoah politicians as well as P. Hall, aged about 40 When cell ing man is named Frank Turnstal, of Pennsylvania

FINANCE AND TRADE

The Demand for Lower Priced Goods Resulting from Low Wages.

NEW YORK, March 3.-R. G. Dun & o.'s weekly review of trade says: With Co.'s weakly review of trace any ing the little definite information regarding the outcome of fluancial or revenue disputes outcome to fluancial or revenue to the perhaps more people have come to the bellof that the end will answer their wishes. Certainly rather mors are taking limited risks in business. The passage of the seignoirage bill by the bouse has not time to produce much effect, but is not financially reassuring. More works have resumed or increased

hands or hours than have stopped or ra-duced, but numerous reductions in wages continue to bessen the purchasing power of these at work. The demand from dis-tributors is almost exclusively for me dium or low priced woolen and exton goods, for \$1.59 and not \$3 boots, for shoes rather than boots. Some sale a and trade - find indications that stock and trade to the interactions time stock the higher priced goods remaining on hand are much larger than usual. In all branches of the woolen manufacture the domand is yet far below the usual market. The most encouraging feature of the

week's record is the continued decrease in number and importance of failures. The number and importance of failures. Fine number reported in February is 1,260 atr. 2,080 in January, and the full hidminies were probably less than \$15,000, 000, against \$20,046,497 in January. In No. 6.69, against \$30,000,400 in January. In No-vember and December the amount ex-cended \$30,000,000. Fos the past week the failures have been 246 in the United States, against 200 for the same week has year, and 42 in Canada, against 45 hast year, scarcely any being of much importance.

All Hope Abandoned.

All Hope Abandoned. ALLENTOWN, Pa., March 3.—Pritchard, Bella, Batko and Nickilliner, the four en-tombed miners in O. T. Williams & Sons' slate quarry at Williamstown, are still burled in the tunnel where the cave in ac-curred. The rescuing party is laboring night and day. The rock between them and the entombed quarrymen is as solid as a wall. The commerciant in the case as a wall. The coroner's jury in the case of Samuel Kreitz, who was brought out dead, brought in a verdict of accidental death. Reamley, who was taken out alive but horribly crushed, died soon after being taken to St. Luke's hospital. All hope of finding the four entombed men alive has been abandoned.

A Workman Blown to / toms.

PAULSBORG, N. J., March 3 -A fright ful explosion took place at the Repaus Chemical works, a part of the plant of the Du Ponts, at Thompson's Point, on the Delaware river near this place. One man was blown to atoms and three others na was blown to atoms and three others nar-rowly escaped a similar fate. Levi Ivins, the only workman in the building at the time, was shoveling nitro-glycerine ashes when three fellow workmen left him a short time before. All that was found of him was his head and shoulders.

Punished for Assaulting a Missionary, WASHINGTON, March 3.—The Turkish government appears to be redeeming the promise it made to United States Minister Terrell to punish the people in Amadia Asia Minor, who participated in the assault upon and abuse of Mrs. Mellin, the American mi conary, it autumn A dispatch just received from our minister at Constantinople says the eleven of the participants in the affair have been convicted and sentenced

The Farmers Gained Their Point.

EMPOULA, Kan., March 3. — The last phase of the celebrated Texas fever cattle case, in which 150 formers were seeking damages, was decided in the district court, a judgment of \$47,000 bein, entered against Hezier Brus, of Kausas City, Hezier Brus, brought cattle from Texas, which comm michted Texas fever to Kausas stock, and the farmers sued to recover damnices

Declines the Presidency of Uruguay. MONTEVIDEO, March 3 .- The two house of parliament met yesterday for the pur se of electing a president to succeed Dr. pose of checking a president to succeed Dr. Hereira Y. Obes, whose term expired on March 1. The balloting resulted in the electing of Senhor Ellauri by a majority of fifty four votes, but he declined to ac-

cept the presidency. Senhor Filauri was president of the republic in 1878.

others.

Among the bills passed by the Bor ough Council at its last meeting was one containing an item of \$2.25 for a fountain pen purchased by the Borough Treasurer. It is said the State Legislature is extremely liberal in furnishing the members with stationery, books, etc., but that body has not yet indulged in fountain pens. But, then, the Legislature is not the Borough Council of Shenandoah.

It is hoped that the new Borough Council will institute a reform in the method of conducting the business of that body. Too much time is wasted In weak arguments and vague criminnations and recriminations, and hours are spent in discussion of matters when they are not really before the body for action. In this way questions of importance are either very much delayed or wholly neglected.

THE sympathy of the country goes out to the families of the unfortunate miners who are still entombed in the Gaylord mine at Plymouth. When the terrible position of the victims in the dark, cheerless chambers in the bowels of the earth is brought to mind one is impelled to hope that they may not be found alive, for to live through such a terrible ordeal as survivers in such cases undergo must be almost worst than death. Still, life is precious and the unfortunate men may beholding as tenaciously to it and praying as hard to outlive the torture as the dear ones on the surface are hoping and praying that the husbands, fathers and sons may be found alive.

Belligerent Squatters.

BLUEFIELD, W. Va., March 8.-The entire coal belt of West Virginia is agitated over the squatters' war in Logan county. The squatters are thoroughly organized and have a large supply of dynamite in addition to their Winchesters. dynamics in addition to their winchesters. The declare they will blow up the first camp which the deputy marshals make on the contexted land. The squatters have been heaten in the courts, but cannot be prevailed on to leave peacably. They have held the disputed property for generations and some of the improvements are of a substantial character. The present owners are New York capitalists The Their claim has been clearly established

Besens Came Too Late.

FINDLAY, O., March &-At McComb Mrs. Cora Adams was putting an aprox full of connects into the cook stove when her dress caught line. Mrs. A dams rushed into the yard. A Nickel Plate train was passing. The engineer stopped and the grew rushed to the rescue. In tearing the burning clothes from her body they re-ceived many burns. They were too late, however, to save her life.

Probably Mangled Beyond Recognition. WILKESBAURE, Pa., March 3.-Search-ers at the Gaylord mine are now of the plnion that when they come to the bodies of the thirteen buried miners they will find them mangled and crushed, and that there will be but one that they can iden-tify. Tommie Leyshon was elubfooted, and the poor fellow's affliction may serve to identify him, while the others may not be known spart.
