The borough authorities cannot be too a tive in cleaning up the town. The streets are in a fearful condition. Rivers and lakes of mind are abundant

BECAUSE a Catholic priest of Troy, N Y had the temerity to utter a public protest against the Wilson bill, the local Democratic newspapers are angrily protesting against his appointment to a Bish spric for which he had been suggested as a candidate. This is mixing politics and religion with a vengeance.

THE first year of complete and undismuted control of the National govern ment by the Democratic party in a third of a century has just closed. A comparison of its results with those of the last year of complete Republican control shows that while in all the important hems the Republican ledger revealed a good balance on the right side, the Demperatic national account book jexhibits most deplorable deficits.

A SAN FRANCISCO paper observes with wisdom and wit that the tariff hen "is sitting at Washington. The period of inembation is going to be 21 days, but whether that newtran and somewhat peevish hird is sitting on eggs, axe. heads or trace chains" is not yet clearly proven. It matters fittle what this hen is sitting on, for if present indications hold there will not be enough of her (Wilson) bill to dig out the early spring worm for her Democratic chickens to live on:

A POTTSVILLE young man who went to Camden to marry a young woman with whom he had but a brief acquaintance has discovered that the object of his affections has two other husbands liv ing. It is the same old story of marrying n insteand repent at leisure and just the k nd of a case the marriage Reense law was intended to circumvent. Young people who may be smitten by some one or other of the opposite sex should bear the sase of the Pottsville young man in mind. Their intended marriages may be delayed for a few days and their neighbors may match is a hasty one and but a slight acintance eviets between the makers. the delay may be of profit to one, or the

Tue general depression in businesransed by the Wilson bill affects every class of wage earners in America, and particularly the miners. Owing to the depression, coal is not needed for steam purposes, and work is therefore slack at coal mines and prices are ruinously low. Iron for machinery, structural work, etc. s not in demand and American Iron ore miners are actually suffering for the necessaries of life. The same can be said of other classes of miners. The Wilson bill alms to make this state of affairs permanent by opening American markets to the mineral products of European coun tries, the British Provinces, Mexico and Cuba. It is a bill that is framed directly in the interest of foreign nations and against the interests of Americans.

SENATOR D. B. HILL, of New York, Is now playing the part of the great Dennoeratic defender of American industries. The dissatisfied Senators are divided into four classes. Those opposed to a sugar duty and favoring an increase of the whiskey tax; those who want a discriminating duty on augur in the interest of the refineries, those who oppose both a sugar sinty and any increase on whiskey, and those who simply desire a modified Mo-Kinley bill. Chief among the latter is Mr. Hill. It is to him that all the repre sentatives of the manufacturing industries are turning for help. He is to be the new Samuel J. Randall of the Democracy, and with free trade in the disfavor it is now, and which must increase during the next three years, his adherents say he will be the logical Democratic candidate in 1896. There are a great many strings being pulled in this tariff fight, and it socks as though the people must grin and bear it until it is settled.

The Evening Herald PENSION BILL PASSED.

The Appropriations Go Through the House Unamended.

THE TARIFF BILL IS FINISHED.

It Is Now Before the Full Pinance Committee of the Senate, but May Not Beach the Senate Itself for Two or Three Weeks

WASHINGTON, March 8 .- After five days of debate the penalon appropriation bill, carrying \$151,000,006, was passed by the house yesterday afternoon without division. Throughout the debate there had been no criticism of the amount carried by the bill, the debate being, on the one hand, confined to an assault on the manner in which the present commissioner had administered the office and his alleged unauthorized suspension of pen sions, and on the other to a defense of the attempt of the commissioner to purge the rolls of those who were not entitled to a place upon them. Yesterday there were several very spirited speeches—those by General Henderson, of Iowa, Mr. O'Neill, in closing the debate, and ex-Speaker

All the amendments to the bill save one, that of Mr. Fickler, to make the re-ports of examining surgeons open to the inspection of the applicant or his attor-neys, were defeated. They all fell under points of order that they were not ger-mane. The one which attracted most at-tention was that of Mr. Enlos, to repeal a portion of the provision included in the act of last December to prevent the sus-pension of any pension except on thirty one, that of Mr. Pickler, to make the re pension of any pension except on thirty days' notice, so as to permit the suspen-sion is case of plain prima facts evidence that the pensioner had secured his pen-sion by forgery, perjury or other palpable

This amendment was offered at the suggestion of Commissioner Lochren himself who, under the opinion of the attorney general, declared that if the act of last December stood over \$500,000 would have to be paid out to suspended pensioners who were proven beyond question not to he longer similed to the pensions they had been drawing. Mr. Outhwaite, the chairman of the committee of the whole, however, ruled the amendment out on Mr. Martin's point of order that it was not

germane.

An exciting and interesting debate was precipitated in the senate by Mr. Harris' motion for the second reading of the seignicrage bill. This was opposed by Mr. Sherman, who moved its reference to the finance committee, and in the course of a strong speech in opposition to the bill said that its object was to divert a trust fund from its legitimate purposes—a thing which in Ohio would be a penitentiary of-fense. His motion was defeated, however, and the bill taken up as unfinished busi ness, and almost before anyone was aware of what had happened it passed its third rending and was on the point of passing the senate. Then its opponents recovered from their surprise and endeavored to pre-vent its passage, and on request of Scin-ter Sherman it went over.

In the morning hour Mr. Morgan introduced a resolution calling on the presi-dent for information as to the occupancy of Binefields, Nicaragus, by the British. This was agreed to. The house bill appro-priating \$45,000 for saving the Kearsarage was also passed, as did the bill permitting General O. O. Howard to accept from the French government the decoration of

ander of the Legion of Honor. Wilson tariff bill was submitted to the full squate finance committee today, and is now under discussion. Senator Voorhees said this morning that the committee would be given a few days to con-sider the bill as a whole, and that, after it should be reported to the senate, at least a week of adultional time would be per-mitted before there would be an effort to have the bill taken up in the sanate. The sugar schedule was the last thing to

receive the attention of the sommittee and the work was brought to a close by searn of the intended marriage through about that figure at one cent a pound, or about that figure, on sugar showing 80 degrees fineness according to the polariscopie test, and increasing the amount gradually with the increase of the purity of the article. It is known that the inbut it cannot be definitely stated just what

that quoted to the effect that the tax on whisky will remain the same as now stated in the Wilson bill, that the whisky tax will probably be increased to \$1.10 per gal-lon and the bonded period extended to five veare.

The Democratic members of the finance sommittee do not consider that the seigniorage bill will be in the way of the tariff bill when the time shall come for taking up the latter, as they think it will have been disposed of before the tariff can posaibly be reached.

While Mr. Voorhees believes that the finance committee will be through with the tariff bill at the end of the present week, the Republican members of the committee say they will ask for not less than two weeks, and possibly three.

Domestic Trouble and Suicide.

SCRANTON, Pa., March S .- William H. Schoonover, a young man, well connected and engaged in the grain business in this and engaged in the grain outsiness in this city, shot himself at the home of his father-in-law, E. W. Taylor, last night. It is claimed that Schoonover recently had some trouble with his wife, and the quarrel was renewed yesterday. Schoonover was a temperate man, but when he came home last night he was intoxicated. Husbard only wife had some heated work. band and wife had some heated words, and the former pulled a revolver from his pocket and threatened to shoot Mrs. Schoonover, who ran from the room. Schoonover then went to his room and shot himself. He will not live.

Cockran Meets Condert. SAK ANYONIO, Tex., March 8.—Shortly after his arrival here Hon. Bourke Cockran, of New York, called upon Frederick Condert at the residence of Lieutenani Ballinger, at Fort Sam Houston, and the two distinguished Democratic leaders were in close consultation for about two Mr. Coudert afterward left for New York. Hon. Richard Croker and party are still at the ranch of John A. Morris. Mayor Gilroy has not yet arrived.

Seven Tiloutand Miners Bestime. Bultains, O., March 8.—At a conference of the United Mine Workers of America for the Sixth Ohio district at Bridgeport, the operators met with the committee and discussed the wage question. A compromise was effected, and all the mines in the district resumed this morning, giving employment to over 7,000 have

THE BRITISH AT BLUEFIELDS

Our Senate Will Investigate the Right to

Washington, March. 8.—The resolution of inquiry concerning the landing of British marines to preserve order at Bluefields, near the mouth of Nicaragua canal, which was introduced in the senate by Senator Morgan yesterday was the result of the disension of this subject by the scenate foreign relations committee. There is apprehension in the minds of senators that the English government is making an effort to obtain a footing on the eastern coast of the lethmus, in violation of the Clayton-Bulwer treaty. Senator Morgan is especially jealous of movement on the part of a foreign country which might affect the Nicaragus canal, and organity could be specially and the country of the part of a foreign could be specially and the country of the second coun probably nothing could happen to give him greater concern than for England to secure a foothold in that region.

"Do you suppose," Senator Morgan was asked, "that the not that the Kearsarge was headed in that direction had any sig

What was she going there for!" was the response. "Of course," he added, "I don't know that such was the case, but it looks like it."

far the department of state has made no re-mest upon the navy department to see a man of war to Bluefields. Such a request would prove to be very embarrassing, for there is no ship available to send since the Kearsarge was wrecked while on her way to this very

Port.

The present incident threatens to revive the old and at one time dangerous controversy between the United States and Great Britain, which was supposed to have been terminated by the Clayton-Bulwer treaty. Therefore it is probable that Secretary Gresham will move with deliberation in the matter, and will examine the treatles and pravious correspondence on the sub-ject to satisfy himself as to the exact au shority of the British landing before he makes any move in the matter.

Bept Its Compact with the Dead. Parkusov, N. J., March 8.—A peculiar agreement entered into fifty years ago, when Undertaker Avian Gould intered when Undertaker Aving Gould intered the first body in the Sandy Hill constery, has been brought to light by the death of Jack Odeli, the oblest gravedigger in Passaic county. Fifty years ago Odell agreed with Mr. Gould to dig his grave and drive his hearse if the undertaker should die first. Mr. Gould made the same agreement with Odell, and also agreed to pay the funeral expenses if Odell died poor. Odell visited Gould's establishment about a year ago and said he had saved enough a year ago and said he had saved enough to pay for his funeral, and turned the money over to the undertaker. Mr. Gould, who is wealthy and nearly 80 years old, dug Odell's grave and drove the hearse that carried him to the cemetery.

More of Archer's Stealings.

ANNAPOLIS, Md., March S.-There is a bill before the senate to refund to George A. Pearre and others \$5,000 paid by them on account of ball for Pearre's brother. It is stated that there is no record at the treasurer's office of this money ever hav-ing been received there. Mr. Archer ing been received there. Mr. Archer who is now serving a term in the peniten tiary for misappropriation of state funds, was treasurer of Maryland at the time. Treasurer Jones says there is no record of the mency at his office. The \$5,000 was paid to Sheriff Fledderman in May, 1885.

Colorado's Extra Session.

DENVER, March 8 .- Argumenta will be heard in the supreme court tomorrow on the constitutionality of the trust deed law passed at the extra session of the legislature. Henedict and Phelps attack the law on the ground that the extra session was illegal. If this claim is sustained all the laws passed at the extra session will fail, and it is said the auditor and state treas urer and their bondsmen will be liable for every dollar paid to the members and employes of the legislature.
