RESULTS OF THE CHANGE.

We may be permitted to review the effeers of the change brought about by a considerable number of men who got fired voting the Republican ticket, a few years ago. Some of them had become imbued with the notion that the Republi can doctrine of Protection to Home Infustry was false political economy, and that the tariff should be reformed on lines that would do away with all disgriminations in favor of our own industries and products of our own manufacture They proved that protective duties for nished undue advantages to favored classes and laid burdensome taxes upon the majority of the people for the benefit of a few, and began to insist that they should be abolished, in order that our markets should be open to all the world and our own products should have fre access to foreign markets in exchange.

They wanted a reform, especially s tariff reform, and they began voting the Democratic ticket on the strength of promises made by the Demogratic party. By their aid the Democrats carried the election of 1992, and are now in full posses son of power in the National Government. The coursey has had one year of i. The results must be somewhat bewildgring to the respectable gentlemen whose tors contributed to them so potentially Up to the time when these gentlemen torned the scale so effectively in favor of the party now in power the country was ransound and healthy financial coudition. Manufactures were flourishing, business active, tende fively, capital productive, labor illigrally remunerated, the sumtry prosperous and the people happy. All this is changed. The medicine of Reform has been working. Never was polltical change so destructive; never in a single year was there such fearful havor n the business interests of a nation.

Not only that. With the strengthening of the Democratic party by the accession of the Reformers, and its rapid advance so power in consequence, there came the signation to office of irresponsible and rekless demagogues, who not only prostituted positions of public trust to the most base and mercenary uses, but shamelessly and audaciously resorted to the and high-handed crimes to perpetuate their power and establish their misrule in permanence. In almost every community where the Democratic party by the aid of the respectable advocates of Reform has succeeded in gaining control it has made a record so infamous that Democrats themselves draw back from it in disgust and do not attempt to defend it. In the two states of New York and New Jersey the trusted leaders of the party have been guilty of an array of crimes and misdemeanors before which the honest citizen a ands appalled. And these are the results of the unreasoning Impatience of respectable, honest and sincere citizens who could not abide the gradual process of a party which, with all its imperfectcons, had discharged the responsibilities of power through thirty of the most trying years in the Nation's history so wisely and so well that all the world wondered at its matchiess progress. Was it not a

DISPATCHES from Chicago say that Mayor Hopkins has asked for the resignations of the police justices in that city. The Mayor is reported as saying that several of the justices are corrupt, and that they do not punish crime as they sught to punish it. He declares that it is the duty of these police justices as to strike terror to the hearts of criminals so lar as it is in their power to do so, and that they have failedlin doing their duty

## The Evening Herald. AGAINST INCOME TAX.

Determined Effort to Eliminate It from the Tariff Bill.

MR. HILL WILL LEAD THE ATTACK.

Democratic Members of the Senate Pinance Committee, However, Will Make a Stubbern Fight for What They Consider a Popular Feature of the Measure.

WASHINGTON, March 10.—Undoubtedly there will be a determined effort when the tariff bill reaches the senate to have the income tax feature of the bill sliminated, and it looks as if the Democratic senators who are not satisfied with the bill would make this portion of it their chief point of attack. Senator Hill will lead off in the assault upon the income tax in his forthcoming speech, and he probably will be supported by Senators Smith, Brice, Murphy and a few other Democratic senators, as well as by a majority of the Republican senators. The opponents of the tax claim that the bill will provide sufficient reve-nue to meet the requirements of the govermoent without the additional amount which the levy on incomes would give, and that because of this fact there is no longer any excuse for it.

The majority, if not all the Democratic members of the linance committee, how-ever, will hold out stubbornly for the tax. One of them has said that he believed it to be the most popular feature of the bill, and while they would expect to loose some Democratic votes on an amendment to strike out this part of the bill they would got the votes of all three of the Populist senators and of about ten of the Republican senators

After clearing the calendar of a number of bills of minor interest the senate, at i o'dook yesterday, took up the seignlorage bill. After an agreement that a vote should be taken on the motion to recon-sider at 2 o'clock next Wednesday, and on the final passage of the bill at the same hour on Thursday, Mr. Vilas address the senate in opposition to the bill. I speech was of a fragmentary description, owing to numerous interruptions. The senate went into executive session at h schafe went into executive session at a o'clock, and when the doors were reopened adjourned until Monday.

The house devoted the entire day to the consideration of the District of Colum-

his appropriation bill. The only feature of interest was the wholesale charges of corruption made by Mr. Kilgore against the press of the city and the warm defense of the press by Mr. Blair. Two amend-ments of Mr. De Armond, one to wholly eliminate the government as a tax paying factor in the expenses of the district, and the other to reduce the share borne by the general government from one-half to one third, were defeated.

BALTIMORE, March 10.—Cardinal Gib-bons is in daily expectation of a decision from Home in regard to the removal of the ban of the church from the orders of Odd Fellews and Knights of Pythias, which was submitted to the pope by the last plenary council.
