A lover of pictures, a man of means, making a tour of the art galleries of the world, realized that the luxury of seeing all these beauties was limited to the very wealthy, and to them only by wearisome and expensive traveling and time. "Why not in the present age of perfect photographic reproduction, why not reproduce the most beautiful, the most popular, the most noted of these art treasures?" was the question he saked himself. Why not indeed; no sooner thought of than he applied his means and prestige to secure large photographs of the choice pictures.

The result is "MASTERPIECES FROM THE ART GALLERIES OF THE WORLD." The original idea was to issue the book in parts just as is now being done; but to charge \$2.50 a part or \$100.00 in all. That is the whole idea. Now, a syndicate of newspaper publishers has purchased the photographs and plates and is issuing them to "Boom Circulation."

Such is the force of nineteenth century invention, machinery, enterprise, and desire for circulation For the first part, bring to this office
