

A START FOR THE POLE.

Walter Wellman and Party Off for Spitzbergen.

A UNIQUE ARCTIC ENTERPRISE.

What the Young Explorers Hope to Accomplish—Novel Features of the Expedition—The Frozen North's Fascinating Mystery May Soon Be Solved.

New York, March 14.—Mr. Walter Wellman, the well known journalist, sailed on the steamer Britannia today en route for Spitzbergen, from which point his expedition will make a summer dash for the north pole. Mr. Wellman was accompanied by three other Americans—Professor Owen B. French, late of the United States coast and geodetic survey and an experienced and capable scientist; Dr. Thomas B. Mohr, a successful Washington physician, and Charles C. Dodge, the artist and photographer of the expedition. The enterprise is under the leadership of Mr. Wellman, and the three men named are his lieutenants.

Ten hardy young Norwegians, ambitious and experienced in arctic exploration, will join the party in Norway, and the expedition will sail from Tromsø, Norway, for the islands of Spitzbergen about the last of May. At Dane's Island, which is very near the eightieth parallel—that point of latitude so far north that many explorers have

A VETERAN'S VERDICT.

The War is Over. A Well-known Soldier, Correspondent and Journalist Makes a Disclosure.

Indiana contributed her thousands of brave soldiers to this war, and no state bears a better record in that respect than it does. Its literature is rapidly acquiring an enviable place in war and literature. Solomon Yewell, well known as a writer as "Sol," has won an honorable position. During the late war he was a member of Co. M, 2d N. Y. Cavalry and of the 11th Indiana Infantry Volunteers. Regarding an important circumstance he writes as follows:

"Several of our old veterans here are using Dr. Miles' Restorative Nervine, Heart Cure and Nerve and Liver Pills, all of them giving splendid satisfaction. In fact, we have never seen remedies that compare with them. Of the Pills we must say they are the best combination of the qualities required in a preparation of their nature we have ever known. We have none but words of praise for them. They are the outgrowth of a new principle in medicine, and those who try them will be fully convinced. The Restorative Nervine, Dr. Miles' Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles \$5, express prepaid. They positively contain neither opiates nor dangerous drugs."

CAUTION.—If a dealer offers W. L. Douglas shoes at a reduced price, or says he has them without name stamped on bottom, put him down as a fraud.

Hours: 11:30 a.m. to 9 p.m. Successful treatment by mail.

LOTS

Of holes in a skimmer
Lots of ways of throwing away money. One of the best methods of economizing is to invest in real estate, thoroughly reliable companies—other life, fire or accident, such as represented by

DAVID FAUST
No. 120 South Main Street, Shenandoah, Pa.

never reached and few have ever passed it—headquarters will be established, and then the party will steam to the edge of the great ice pack about a degree farther north. After a landing is effected the steamer will return to Dane's Island, and about the 10th or 15th of May the dash for the pole will begin.

That marvelous new metal, aluminum, has been utilized in the construction of sledges, boats and other apparatus, and thus equipped with far lighter paraphernalia than any previous explorer Mr. Wellman expects to be able to push on north at the rate of from ten to twenty miles per day. As he will have only about 60 miles to travel before the pole is reached, he expects to either reach the goal or a point very near it in fifty days. He will then return to the edge of the pack in fifty days more, his steamer will pick him up and he will then return home.

Mr. Wellman has carefully studied the great problems before him, and expects to profit by the knowledge gained by previous explorers who have traversed the pack and to avoid their mistakes. His early start is for the purpose of getting far north before the pack begins its drift toward the south. Away back in 1877 Sir Edward Parry pushed on northward over the pack at the rate of from sixteen to twenty miles per day, but his honest spineage compelled him to break his loads into parts and pass from five to seven times over the same road.

Other explorers, handicapped with old time sledges and boats, have been compelled to progress in the same slow manner, but Mr. Wellman believes that with his light aluminum outfit retracing his steps will be unnecessary, and that every mile traveled will take him a mile farther toward the pole. At the start the drift of the ice pack will not be against him, and when he returns later in the season it will assist him in his homeward journey.

Mr. Wellman carries with him his aluminum boats and sledges—the first ever built in America—and tests have demonstrated that they are by far the lightest and at the same time the very strongest boats and sledges of their size that the world has ever seen. The entire equipment of the party of fourteen will be about 5,500 pounds, and as forty heavy draft dogs will assist in carrying it, the average weight per man and dog will be about 150 pounds.

One novel feature of Mr. Wellman's scheme of exploration is that it is strictly a newspaper expedition, and if Mr. Wellman's plans are carried out the world will be apprised of his progress toward the pole, a thing that has never before been done in the case of any previous polar expedition. Members of his party will be sent back from time to time to the edge of the ice pack with letters describing the progress of the expedition and the discoveries made by the explorers. At the edge of the ice pack the dispatches will be taken on board Mr. Wellman's steamer, which will return to Norway, whence the world will receive the news.

Whether Mr. Wellman's dash for the pole will be successful or not remains to be seen, but if his novel plan is even partly carried out he will succeed in reaching a degree of latitude farther north than that reached by any previous explorer. With Wellman, Peary, Nansen and possibly Jackson in quest of the pole this year, it seems highly probable that 1894 will mark the solution of the frozen north's fascinating mystery.

Pennsylvania College Clubs Concerts.
STATE COLLEGE, Pa., March 14.—The banyo and glee clubs of the Pennsylvania State college will appear in the following cities during the week of the Easter vacation: Williamsport, March 29; Booth Creek, March 30; Clearfield, March 31; Tyrone, April 2; Altoona, April 3; Bellefonte, April 4. Receptions have been arranged at all the places to take place after the concert. There will be thirty students in the two clubs.

Killed Her Husband with a Hammer.
New York, March 14.—Mary Dunne, 28 years of age, was placed on trial in general sessions for the murder of her husband, George Dunne, on Oct. 14, 1893. The woman was drunk that day and beat her husband over the head with a hammer until she killed him.

The Weather.
Fair; slightly cooler; variable winds, becoming northwesterly.

DANA'S SARSAPARILLA THE KIND THAT CURES SCROFULA AND ECZEMA
A WONDERFUL CURE | MINNER'S TESTIMONY
I wish to extol the virtues of DANA'S SARSAPARILLA. Mrs. Day's health was unusually good up to the age of 40. At this time she began to manifest the first signs of scrofula. We had used a variety of remedies, with but little good result, but DANA'S SARSAPARILLA in its purified and concentrated form cured her. I must say it is a grand combination of remedial agents.
My son was also troubled with Eczema, from hands to elbows, being one of the most severe cases. He has also been cured by the use of DANA'S SARSAPARILLA.

POLLARD'S CONTINUOUS CASE
Judge Bradley Deals with the Pugnacious Lawyer with a Reprimand.
WASHINGTON, March 14.—Judge Bradley rebuked Henry Pollard today with a warning to the lawyers in the Pollard Breckinridge case over the pugilistic encounter of the night before. He also called attention to a report that the lawyers in the case had come to the court armed, but this report was quickly disproved.
Apart from these accessories of the case the day was uneventful. Miss Pollard failed to appear at all, being in a state of great nervous excitement, her friends said. Her presence was not essential, as most of the day was consumed in reading a long deposition, after which Sister Cecilia, of Pueblo, Colo., was called to identify the mysterious volumes of Irving, by which it is expected to prove that Miss Pollard gave birth to a child in the North-western convent, near Cincinnati, in 1887 or '88. The contested point of importance, the motion of the defendant to exclude certain affidavits, was decided in his favor, at which he seemed greatly incensed.
The evidence of Sister Cecilia was interrupted by adjournment as she was about to answer the question as to whether she identified Miss Pollard as the lady who had given birth to a child in a convent near Cincinnati.

A Lawyer's Mysterious Disappearance.
TUNIKANNOCK, Pa., March 14.—Tunkannock is much mystified over the disappearance of Henry Harding, one of the most prominent lawyers of the place. He left town two weeks ago, ostensibly to attend the Grand Army encampment at Philadelphia. He did not go there and the last such of him was at Gettysburg. He is supposed of considerable wealth and has a lucrative law practice. His domestic relations are pleasant and no cause can be assigned for his disappearance. He was a prominent candidate for president judge of the Forty-fourth judicial district, and his chances for the nomination at next Monday's convention were considered good. Foul play is feared.

The New Jersey Treasury Fight.
TRENTON, March 14.—George B. Swain called upon Governor Werts with his counsel, Major Carl Lantz, and made application for his commission as state treasurer. The governor refused to grant him, saying it could not be given until the court decided the legality of the body that elected him. Mr. Swain and his counsel, Mr. Lantz, then went to the office of State Treasurer Gray and demanded possession of the office. Mr. Gray refused to relinquish it until Mr. Swain presented his commission. Mr. Lantz notified Mr. Gray that they would protest against the drawing of any checks except by Mr. Swain.

American Indorse the British.
NEW ORLEANS, March 14.—The steamer Gussie, from Bluefields, brings news that the marines from the British cruiser Tamar are in possession of the town, and that the British admiral had raised the martial law declared by the Nicaraguans against the Nicaraguans to leave the place. The British ordered the Nicaraguans to leave the place, and they did so, going up the river to Rama. The British are now in power, and their action is said to be indorsed by the American residents.
Election Riot at Biddeford, Me.
BIDDEFORD, Me., March 14.—This city went Republican by 300 majority. The Republicans carried every ward and elected nearly the whole ticket. Biddeford has been Democratic since 1883. Excitement at the polling places reached fever heat when Marshal Charles B. Harmon and several officers had a pitched battle with Democratic constables. Clubs were freely used by both sides. Constables Dolloff and William Breton were arrested.

All Hands Undoubtedly Drowned.
VICTORIA, B. C., March 14.—The fate of the schooner Mary Brown, for which the United States government sent the steamer Wolcott to search, has at last been determined. A party of Indians found the schooner on the rocks of Bank Island, with a hole in her bow, masts gone and boats smashed. Captain Brown and James O'Brien, of the Lynde and Hough Commercial company, and nine other white passengers are unquestionably drowned.

Another Penny Bridge Victim.
LONG ISLAND CITY, March 14.—The body of William Martin, of Brooklyn, the ninth victim of the Penny Bridge disaster, was found in Newtown creek, opposite the Queens County works. The bodies of the other eight victims were all recovered in a few days after the accident.

Maryland's Anti-Polity Law.
ANNAPOLIS, Md., March 14.—Representatives of the Society for the Suppression of Vice have succeeded in pushing ahead the bill to prevent policy playing, and it will probably be passed by the house today.

TAKE THE BEST CURE THAT COUGH WITH SHILOH'S GURE
This GREAT COUGH CURE promptly cures whooping cough, Croup, Sore Throat, Hoarseness, Whooping Cough and Asthma. For Consumption it has no rival; it cures the lungs, and will cure you if taken in time. Sold by Druggists on a guarantee. For a Lamb Back or Chest use SHILOH'S BELLADONNA PLASTER. 25c.

SHILOH'S CATARRH REMEDY.
Have you Catarrh? This remedy is guaranteed to cure you. Price, 50c. Injector free. Sold by C. H. Hagenbuch, Shenandoah.

IN SENATE AND HOUSE

The Lower Body Wants Information Regarding the Carnegie Contracts.

WASHINGTON, March 14.—The House yesterday began the consideration of the bill making appropriations for the ordinary expenses of the government, and fair progress was made. Only three amendments of any importance were adopted: One appropriating \$40,000 for lighting Hay Lake channel; another, \$64,000 for the public building at Buffalo; and another of \$9,000 for repairing the postoffice at New York. The latter was fought by the appropriation committee. The only other amendment of importance offered was one by Mr. Morse (Mass.), to treat of the appropriation for the interstate commerce commission. When the sense of the house was tested upon the Morse proposition it was overwhelmingly defeated, but Mr. Haines (N. Y.) made the point of no return in Congress. Just before the adjournment Mr. Cummings' resolution calling upon Secretary Herbert for information regarding the alleged violation of the armor plate contracts by Carnegie, Phillips & Co. was passed.

The proceedings in the senate were of an extremely uninteresting character. The senate took up the discussion of the seigniorage bill, and Senators Stewart and Lindsay spoke in favor and Mr. Doherty in opposition to it. The day closed with a lively bout between Senators Dolph and Harris over the question of printing extracts from books and newspapers in "The Record."

The Earl Scabbled Prince Victor.
ST. PETERSBURG, March 14.—The recent arrival here of the sons of Prince Jerome Bonaparte, Prince Victor and Prince Louis Napoleon Bonaparte, produced a sensation in diplomatic circles, and several much commented upon reports were circulated in connection with their visit. This sensation, however, was speedily dispelled during the recent court ball. The emperor conversed with Prince Louis Bonaparte, who is a lieutenant colonel in the Russian army. Prince Victor, the elder brother, was isolated, and was not even invited to the imperial supper table.

Youthful "Injun" Held.
CAMDEN, N. J., March 14.—Justice Paul had before him three of the boys who tied Charles Berry to a stake and started a fire at his feet to torture him in Indian fashion. The names of the boys are James Dugan, Thomas Brown and James Eldridge. The boys tearfully protested that they were "playin' Injun," and merely started the fire for fun, but in view of Berry's serious condition Justice Paul committed them for a further hearing on Thursday. The physicians are trying to ward off the necessity for amputating Berry's limbs.

A Gaylord Mine Victim's Funeral.
WILKESBARRE, Pa., March 14.—The reported recovery of all the bodies from the Gaylord mine was premature. No more bodies had been found at midnight, but those on duty at the mouth of the shaft are in constant expectation of hearing a summons, which means that another victim has been unearthed. The body of McLaughlin, the first victim exhumed, was laid in consecrated ground yesterday afternoon. No one but the widow was allowed to look upon the ghastly object, and she fainted at the horror of the sight.

A Retail Strike Argument.
PHILADELPHIA, N. J., March 14.—George Holt, a boss in the Standard Silk works, was followed home from work last night by a mob numbering 2,000 people, who sympathized with the striking weavers. He was knocked down and might have been killed had it not been for the intervention of his wife. The police were powerless. Holt was badly cut about his head during the riot, but felled one of his assailants with a monkey wrench. Further trouble is anticipated.

Murderer Foes Unconcerned.
NEWARK, N. J., March 14.—Robert Alden Fales, the boy murderer, will probably be resentenced to death for the killing of Thomas Hayden. This is in consequence of the dismissal of the habeas corpus proceedings in Washington. Prosecutor Craun says that the court of pardons alone stands between Fales and death. Fales received the news of the dismissal of his appeal with indifference.

No Trouble in Costa Rica.
WASHINGTON, March 14.—Mr. Manuel M. Peralta, the minister of Costa Rica to the United States, in speaking of a reported revolution in Costa Rica, said: "No such revolution has occurred, unless some electoral squabbles at the end of February, promptly quelled, deserve that name. There is no reason whatever to fear or even predict a civil war in Costa Rica."

Accused for an Act of Charity.
BETHLEHEM, Pa., March 14.—Joseph Pearl, who was arrested for stealing a grave in the Holy cemetery, being too good to stay for one, has fled from town. Frederick Munson, who for the sake of charity drove the team containing Pearl's dead child to the cemetery, has been arrested. Munson found hundreds ready to go on his ball bond.

St. Louis Ex-Mayor Arrested.
ST. LOUIS, March 14.—J. H. Beilston, former mayor of this city, and at one time president of the State Bank of Missouri, but now a citizen of New York, was arrested here by a United States marshal, charged with being an accessory to an embezzlement with his son, Alford M. Beilston, president of the First National bank, of Vernon, Tex.

PEACE AT RIO JANEIRO.

Government Vessels Take Formal Possession of the Harbor.

DA GAMA SAID TO HAVE ESCAPED.

He is Believed to Be on the British Warship Sirius, While Other Insurgent Officers Are at Sea on a French War Vessel.

RIO JANEIRO, March 14.—Yesterday at 12 o'clock precisely the Brazilian government fleet took possession of the harbor of Fort VillaGalgaon. In a short time the government forces at Fort VillaGalgaon and Fort Graciosa joined in the bombardment. The fire was not returned by the insurgents. The bombardment continued until 3 o'clock, when it ceased. Castello, San Bento, Saude, Curvelo and all the city batteries then opened a furious fire upon Fort VillaGalgaon and the insurgent warship Tamandaré. The fire was also directed upon the insurgent works at Colinas Island and at other places. The forces at Enchadas lowered the hospital flag and hoisted the insurgent ensign. The garrison at Governor's Island also took part in the attack on Fort VillaGalgaon, which was badly hammered by the government guns.

The works of Colinas Island took fire, but the flames were soon extinguished. The firing of the batteries lasted for an hour. No great damage was done. The insurgents did not fire a shot, husbanding their ammunition.
At 4 o'clock the government fleet appeared off the harbor, the torpedo boat Aurora leading. The other vessels in the fleet were the Nictheroy, America, Itaipu, Bahia, Tiradentes and Parahyba and two steamers and five torpedo boats.
Immediately upon the appearance of the squadron the rebels handed down the white ensign from one of the ships which was lying near Enchadas, and hoisted a signal which was answered from ashore. A launch containing an officer then went from one insurgent ship to another, and each vessel lowered the white flag. The torpedo boats from the government fleet outside then entered the bay. One of them went to Fort VillaGalgaon, and it was shortly followed by the launch from the rebel ship. A few minutes later the white ensign came down from the forts, and at 5:45 the government fleet came up the bay, being a welcome sight to the anxious people on shore.

There is much rejoicing in this city at the culmination of the struggle which has continued so many months, with no object seemingly but to hamper business and destroy property.
The officers of the insurgent fleet have taken refuge on board French and Portuguese warships. One French vessel has been put to sea with many of the rebel officers on board. It is said that Admiral da Gama is on board the British warship Sirius.
When the fact became known that Da Gama had offered to capitulate the government fleet entered the harbor quietly. As the vessels made their way up the bay they were saluted by the various government batteries. The greatest excitement prevails in the city. The streets are crowded, and everywhere can be heard the cry of "Vive Peloto!"

There has been much suffering in the city. All business houses have been closed and it is very difficult to get food. The whole available police force has been on duty constantly, but there has been little disturbance. Almost the whole population is gathered in the center of the city. Probably 100,000 persons have left the city. Railroad transportation to the suburbs is free, and the government is feeding the poor.

The insurgent warship Aquidaban is not in the harbor. Admiral de Mello was false to the emperor, and to President Fonseca and President Peixoto. He now proposes false to Admiral da Gama. Where he expects to go is not known.

Press Tributes to Mr. Childs.
NEW YORK, March 14.—A news clipping bureau of this city has collected and put into scrap books, at the request of the relatives of George W. Childs, six sets of obituary notices. Each set consists of two volumes. The clippings in each set, if placed end to end, would measure 1,600 feet. Of 3,500 obituary notices thus collected only one newspaper in the world has been found which has not given to Mr. Childs the most unreserved praise, and that one is in a little town in Ohio.

Farricide Carpenter Must Die.
MIDDLETOWN, Pa., March 14.—Judge Lyons delivered an opinion overruling the motion for a new trial in the case of James S. Carpenter, convicted in February of murdering his blind father at Port Royal, in December. Carpenter protested his innocence before being sentenced to death. Mrs. Hetty Carpenter, his mother, will be tried as an accessory at the April term.

Stock and Produce Markets.
Closing Quotations on the New York and Philadelphia Exchanges.
New York, March 14.—The stock market today was stagnant during the greater portion of the day, but prices were well supported and the business was distributed more widely than usual. Closing bids:
