Representative Boatner, of Logislana, Introduces a Resolution Charging the Directors with Irregularities and Pro-

viding for a Legal Contest, WASHINGTON, March 15.-One of the most important propositions yet submit-ted to congress was presented to the house today by Representative Bontner, of Lou-Islana, a leading member of the commit-tee on the judiciary. The proposition, as Representative Boatner has drafted it, recircs with explicit detail numerous de-faults of the Union Pacific railroad and utiguous lines to meet the debt due the nited States. It charges the present directors of the road and those in past boards of directors with a violation of their trust, an improper absorption of our-side lines and the voting of dividends con-trary to law and against the interests of the United States.

We are receipt of a communication in high the writer, referring to the recent highest special control to institute suit ainst the present and past directors their heirs and legal representatives, to collect \$55,000,000 and interest due the United States. With interest the amount of litigation would execed \$40,000,000. It would be the largest lawsuit ever instituted in this enoughty, if not the largest in any country. By the terms of the resolution the department of justice would be relieved from forther action in the Union Pacific cases, and the suit would be prosecuted by special counsel as a special case. The Joint resolution places \$100,000 at the disposal of the president for the employ-ment of connect. It is provided that the counsel shall int be in any way connected to present or past service with the Union Pacific road or with any of the directors.

The Boarner resolution has been drawn with great care, and after consultation among the legal authorities of the house who, it is declared, are not entirely satis-fied with the manner in which the gov-ernment's interests have thus far been protected and prosecuted. The resolution outning many type written pages, and its reliminary features, contained in nu-morous whereases, saverely arraign the nion Pacific management and its boards

The nets of congress granting aid to the Union Pacific are cited in the resolution, including Section 4 of the act approved fareh 3, 1853, providing that thereafter no fyidends shall thereafter be paid by the Inton Pacific except from carnings; and but no stock shall be board or mortgage or pledite made on the property or future earnings without the leave of congress, except for the purpose of funding or re-newing the deat of the United States. The resolution then tecites that the

The resolution goes on to say that the produce of the two calibratis by the calon Paulin was made by the directors, were thouselves stockholders of the man Paritie was at the time president of

he Kinnene Pacific.
It is further specified that dividends new been voted in violation of the agts of 1878 and 1878; not out of actual carnings, and while the Union Pacific was still in default to the United States. These pay-ments from 1877 to 1884 are stated to have

been 83,08,000.
Another specification redites that the directors paid the interest on the first mortgage bands of the Oregon Short Line Hallroad company, amounting to \$4,000, too. Another specification is that the di-rectors, in violation of law and their official duties, paul subsidies to the Pacific Mail Steamship company, amounting to
