A BOMB IN CHURCH.

Terrible Act of a Cowardly French Anarchist.

THE MISOPPANT HIMSELF KILLED.

No Doubt That He Intended to Throw the Infernal Machine Into the Midst of the Worshipers, but Not a Single One Was Injured.

Panis, March 16.—At 2:30 yesterday afternoon a bomb was exploded just in-side the main door of the Church of the Madeleine. One person, supposed to be the author of the explosion, was killed The explosion, which was evidently premature, mutilated in a horrible manne man who was carrying the bomb. It is generally believed that it was the inten-tion of the miscreant to throw the bomb into the midst of the worshipers, who were gathering for the afternoon service.

Four persons have been taken into cus tody on suspicion of being accessories of the man who was killed. The police had the greatest difficulty in getting their prisoners to the station, the mob which had gathered making several attempts to

seize the prisoners and lynch them.

As the smoke cleared away and the peo ple regained their presence of mind it was seen that the remains were those of a man who was so shattered by the explosion that his intestines and brains lay in all di-rections, while his blood was spattered over a large area. Upon the body of the man were found a number of papers and a portrait of Ravachol, the executed an-

The infernal machine had apparently

exploded prematurely while in possession of the anarchist, and therefore and done but very little damage to the edifice. The door by which the bomb thrower entered the church was the probable cause of his death. This door opens and shuts with a heavy swing, and it is believed that the bomb thrower, pushing open the door and having the bomb upon his per-son, forgot or did not know of the strong swing of the door, and in closing it struck him and exploded the bomb.

The corpse of the bomb thrower was at

once removed from the Church of the Madeleine to a morgue. After it arrived there Dr. Alphonse Bertillon made an an thropometrical measurement of the body, and found that it coincides with the an archist Pauwells, who was an intimate friend of the anarchists Bastard and Paul

number of rivets, similar to those used by skin dressers, was found on the body, and Panwells was a skin dresser, Panwells was born at Courcell, Belgium,

When the corpse was lifted up to be taken to the morgue it was found that one of the hands tightly elenched a re-volver. Both hands were badly injured, though there were no woulds on the face.

The news of this intest anarchist outrage has created a feeling of decided consternation in official circles, as it was be lieved that the wholesale arrest of anarch

ists recently made, the untiring efforts of the police in visiting residences supposed to contain anarchists, the decuments found by the police, and the repressive legislation which followed the explosion of Valilant's bomb in the chamber of dep-uties led everybody to believe that the government had succeeded in crushing ant all the most dangerous seeds of an

When the news reached the chamber of deputies it created a feeling of consterna-tion. M. Dubest, minister of justice, said that everything pointed to the fact that the man found dead inside the church was the person who had the bomb in his pos session, and who undoubtedly intended to throw it into the midst of the large con gregation which was expected to be present at the leaten services.

The police last night searched the lodg-ings of Pauwells' mother, who lives at St. Lions, and selzed a large amount of corespondence and anarchistic documents.

Bloodshed in Phillipsburg's Strike.

Phillipshoro, N. J., March 16.—The trouble at the Standard slik mill culmin-ated last night in bloodshed, although nobody was dangerously hurt. When the mill shut down for the day deputy sheriffs started to escort several girl weavers who remained at work to their homes crowd followed the deputies, yelling cab" and making threats. Deputy John Keller was struck in the face with a large stone, which broke his nose. Keller drew his revolver and fired into the crowd, the ball striking a young man in the hip and inflicting a bad flesh wound. Keller was arrested. During the shooting one of the girls fainted.

The Treasury Deficit.

WASHINGTON, March 16 .- The cash balance in the treasury at the close of business yesterday was \$137,840,119, a gain of \$65, 162 over Wednesday. The net gold was \$107,252,745, a loss of \$93,722. The receipts from customs during the first half of the present month aggregated \$6,124,438; from internal revenue, \$6,673,560 and from miscellaneous sources \$546,011, making a total receipt of \$13,344,009. The expendi tures for the same time amounted to \$16, 042,000, showing a deficit for fifteen days of \$2,000,000 and for the eight and a haif months of the fiscal year \$51,855,965.

Professor Hartshorn's Coming Trial. NEW CASTLE, Pa., March 16.-The court has fixed upon next Monday for the com-mencement of the trial of Professor Hartshorn, the ex-high school principal charged with child murder, procuring a criminal operation, etc. The case will be stubbornly fought on both sides. The defense will undertake to show that the bones found in the stave, and which are alleged by the prosecution to be those of the child of Miss Alda Robinson, are turkey bones, and it is said that four well known doc-tors will swear to this.

Opposing a Secessionist.

Gromerown, Colo., March 16.—Citizens politically opposed to Mayor Parker, of secession notoriety, are endeavoring to secure an injunction restraining the city clerk from placing Parker's name on the city ticket for re-election. The grounds upon which the injunction is asked is that he has shown himself a traitor by advocat-ing secession of the silver states and annexation with Mexico.

For Bobbing the Mails.

DETROIT, Murch 16.-Thomas O'Brien, & car cleaner employed by the Michigan Central railroad, was arrested here yester-day, charged with robbing the mails. Seventy-five letters were found on his per-son. The arrest closes the investigation of hundreds of cases of losses in mails passing over the Michigan Central.

TRIM WALKING TOILETS.

They Seem Saverely Simple After the Frills of the Prevailing Mode,

Serge and cheviot are the favorite mate Serge and cheviot are the favorite materials for walking toilets this spring; then come the fancy weaves in light woolen fabrics and bonche effects. The various shades of green, brown and purple prevail, and black is also popular. Sleeves are cut in one piece from shoulder to wrist, or are made with one or more puffs extending from the shoulder to the clow, but in all cases they are very tight around the fore-arm. Plain tailor made styles are still in vogue, and the vest has not declined in fa-yor, while revers are seen on almost every

description of bodice, from the morning jacket to the ball corrage.

Beside the galliones, passementerie and artistic burtons which are emptyed as trimming for street cowns, they are often rendered more challenge and striking by the skillful introduction of a small quantity of

fine brocade or righly colored velvet in the form of a vest or plastron. Fancy as well as plain velvets are thus used with excel-

apring design which seems severely simple after the frills and furbelows of the ger erally prevailing mode. It is made of fawn colored vignone, fine and of light weight. The bell skirt is plain except for the wide facing of vignone which is stitched on around the bottom and the four stitched straps of spinach green cloth which adorn the front just above the facing and are fastened down at the ends by fawn colored crochet buttons. The bodice, which is extremely long and tight in the usual English style, has a rather short basque, and a Has style, has a rather short basque, and a strap of green cloth follows the waist line above each hip and is battoned in place. The revers of the fawn colored corsage ex-tend to the waist and display an open waist coat of green cloth that parts over a gree-plastron which, with the standing colla-is embroidered with fawn colored cor-ling banding a clove have decine sufficient. The boulfant sleeves have flaring enfis-green cloth, and a green velvet toque co-pletes the costume. June Chollet.
