Caused by Carelessness. The majority of people die somer than they should. Evidence of this fact is grow-ing daily. Waring says: "Disease is not consequence of life; it is due to unnatura consequence of life; it is due to unnature conditions of living—neglect, abuse, want Dr. Stephen Smith, on the same subject "Man is born to health and long life; dicease is unnatural, death, except from on age, is accidental, and both are preventably human agencies." This is almost invariably true of death resulting from heart displaces. Carreless over-except in proposed. sase. Careless over-exertion, intemperature of tea, coffee, tobacco, alcoholic or other stimulants are generally the causes of the difficulty, and indifference to its progress results in sudden death, or long sickness end

DENVER'S WAR OVER.

Colorado's Governor Will Submit to the Action of the Court.

OUESTIONING MR. WAITE'S SANITY.

Citizens Meet and Urge That the Governor Be Taken Into Custody and Tried. Physicians Willing to Swear That He

submit the lire and police board question to the supreme court on its merits. The governor says he is still considering the matter, but it is generally believed Mr. Stovens speaks by the book. So the Colo rado National Guard, which was ordered to be ready to take the field on short notice, will not be called into action.

Exciting reports have been flying all over the state. Many people regard the governor's military demonstration as a big bluff to show his contempt for Judge Graham, including the state of Graham's injunction, and compel the judge, if possible, to arrest him.

General McCook's ordering the United States troops to this city has been ap-proved at Washington, and he has re-moved them from the Union depot to th Gettysburg building on Champa street There they will remain until further or

Sheriff Burchinell has sent the following telegram to Secretary of War Lamont: "I am quite able to maintain peace here, unless the militia of the state is used against me. Nobody but the governor is seeking to disturb the peace, and he is acting in contempt of the district court of

Judge Bailey has issued an order for the drawing of a grand jury to meet on Mon-day. District Attorney Steele has for some time been contemplating the calling together of a grand jury to act on several cases pending, and he thinks it would be well to have it in session until the danger

of riot is passed.
"If anybody is killed in the controversy between Governor Waite and the old po-lice board the person who does the killing and the one who incites the act will be tried for murder," said District Attorney Steele today. This means that Governor Waite will be tried for murder if anybody is killed in the dispute now on. At least twenty people have called on the district attorney and urged him to have the governor tried as to his sanity. It is said that Drs. Eskeridge, Pfeifer and H. E. Lemon are willing to swear he is insane.

A meeting of business men was held in

the office of Caldwell Yeaman to consider the situation and all its phases, and suggest, if possible, some way out of the diffi-culty. It was suggested by one or two of those present that the governor might

those present that the governor might very properly be taken into custody as an insane person. This was not very seri-ously considered, however. General McCook received a joint letter last evening from Chief of Police Stone and Chief Pearse, of the fire department, stating that that Governor Waite had "some malicious and fiendish and des-perate scheme" on foot which he might put into execution at any time, and ask-ing him to call at the city hall at once for a conference. Governor Waite acknowl-edged to General McCook that he feared

asassination.
The cause of Governor Waite's obduracy. it is learned, on excellent authority, is his wife. She attended last night's conference in an angry mood and declared that the fight should go on until the last National Guardsman in the state lay dead on the pavement. Many of the Populists do not uphold Governor Waite, and Judge loxon, one of the best known Populists in the state has asked General McCook to use his influence with the governor to avert further trouble.
