WARRING RAILROADS.

Fight for the Possession of a Small Strip of Land.

RESULTS IN AN EXPENSIVE WRECK

As Yet There Has Been No Loss of Life, but It is Not Unlikely That the Warring Factions May Soon Meet in Battle Array.

BRADFORD, Pa., March 20.—There is a figurative volcano, threatening another eruption here at any moment, and a battle may be fought that will almost certainly involve serious consequences. The Buffalo Rochester and Pittsburg Railroad com pany, engaged in the preliminary skirm-ishing early in the morning with the Western New York and Pennsylvania

road, arrayed on the other side in this city.

It is all about a strip land which both companies claim. The strip is 50 feet wide and 550 feet long, abutting on the Western New York and Pennsylvania tracks. During the night the Buffalo, Rochester and Pittsburg people, with a force of 500 men, Inid a side track over this strip. In doing this strategic act under cover of the night they undermined the track of the Western New York and Pennsylvania. They were discovered, still at work, at 3 o'clock in the morning by the Western New York and Pennsylvania people.

The Western New York and Pennsylvania officials mustered the strongest at tacking forces available on the sudden alarm, and a desperate effort was made to drive off the 500 men in the service of the B., R. and P. company. A heavily loaded train of W. N. Y. and P. cars was rushed down to cover the point that had beer weakened by the operators of the other force. The load was tremendous, and the undermined track gave way, carrying the train down. The wreck fell upon B., R., and P. cars, which had been run in during the night to help hold down a piece of that company's track, and an allaround smashup was the result.
All this time the big B., R. & P. en

gines were pushing the gondolas, which they run on the newly made switch, down towards Main street, and a building which stood nearby was torn from its foundation and piled on the sidewalk, a complete wreek. The B., R. & P. forces has poswreck. The B., R. & P. forces has pos-session of the strip, and held it all day. The local authorities speedly took a hand, but in case of another collision they will be unable to cope with the railroad forces.

COXEY'S CRUSADERS.

They Will Begin the March on Washing-ton Next Sunday.

Massillon, O., March 20,-From present indications the Coxey army will be ready to march from here next Sunday. But few of his followers have arrived thus far, but every day's mall brings letters from various parts of the country saying that companies are being organized, and that they will be on hand to join the army.

Coxey and Carl Brown, his assistant, say it is ridiculous to think of failure in connection with the movement. They say they cannot fail. They have planned an attack, a retreat and a method of forming a second attack. There will be no dis-order. "The conduct of the army," says Coxey, "will be, as the name implies, an 'army of peace." Extensive preparations are being made

at the Coxey farm. A red and green band wagon with a high platform will be used from which to address crowds. In the center there will be a ruge red wheel, ou which will be wound a petition five miles in length. At each place the assembled multitude, after addresses by Brown and Coxey, will be invited to clamber up and sign their names. After reaching Wash-ington the five miles of petition will be unloaded on congress. There will be ban-ners with inscriptions as follows:

ners with inscriptions as follows:
"Interest bearing bonds feed on nothing
but gold and honest labor:" "Peace on
earth, good will to man, but death to the
Hispock of interest on bonds;" "We worklagmen want work, not charity," "How
can we buy at the stores with charity and
cast off old clothes?"

Singular Shooting Affray.

HAZLETON, Pa., March 20.—Adam Seitz, a prominent citizen of Highland, was mysteriously and probably fataily shot late at might. He was returning to his home fr m Eckley when he noticed a strange appearing figure, evidently that of a man disguised in a cloak, cross the road a few rods in front of him. He shouted at the man and a pistol shot rang out on the air in response. The ball took effect in Seitz's breast, and after staggering a few yards he fell to the ground unconscious, and was obliged to lay in the woods until morning. It is not thought that the not was intended for Seitz, the general opinio being that a gang had been lying in wait

He was in such a condition, however, that he could not get away. The inmates of the bouse were also ordered to leave. Lost His Stealings on the Races. St. Louis, Mo., March 20.—Chief of Detectives King, of East St. Louis, made an important arrest at the Eastside race track. The capture was that of Fred C. When arrested he had but little money, having less all he had, he said, on the races.

In the matter of fancy work, fashion is unmistakably retrograding. For 10 years past we have enjoyed the reign of good taste. In place of stiff monstresities of en-troidery in crude and impossible color artistle adaptations of natural forms have tints. Now there is a revival of the former cross stitch patterns are reappearing, and it indix very much as if old fashioned woodwork—attornan covers, slippers and that sort of thing—were on its way to the front

Parislennes are pretending to busy them. Paristenness are prefending to thisy them-selves over a new kind of work which they call has embroddery. A sketch is given of a pincushion cover in this style. A stiff spiny of flowers is outlined with twinted white sifk cord on a rad or old gold satis ground, while the inside of the petals and leaves is filled in with a variety of small famer state as in white atts, which yet al-low the satis ground to show. The stems are worked in yourney stem time, not too are worked in various stem sites, not too close. This is a simple and rapid sort of embroidery and may be employed for other articles than pinnishions—only do not expest anybody to recognize the species of flower represented. Jupic Choller.
