Two Prisoners Escape.

BEVERLY, N. J., March 26.—Harry and Charles Dorsey, two well known burglars, escaped from the Warren county jail by climbing through an aperture in the top of a cell to which they had access. The hole had been made by prisoners who had previously escaped. Before leaving the jail the prisoners took the precaution to fasten all the prisoners in their cells by means of a bolt lock which is connected with the cell doors. They also provided against pursuit by William Johnston, who is acting as "dead watch" on George Andrews, a condemned murderer. Slipping quietly through the corridor, they approached the murderers' cell, and quickly closing the cell door, locked it.

All the Churches Crowded and Many Beautifully Decorated.

Very impressive services were held in the Trinity Reformed church yesterday morning and evening and both were well attended. The chancel presented a beautiful appearance, being decorated with lilies, roses of various hues and geraniums. In all the windows at the sides of the church large pots of blooming geranium plants were also placed. Rev. Robert O'Byrne, in preaching, interesting sermons on the resurrection and many people partook of the sacrament at both services. On the floor of the church was a handsome new Brussels carpet, which was presented by the Ladies Aid Society. The society also made an Easter presentation of a handsome silver platter for communion service. Several new members were taken in last evening and the congregation now numbers about four hundred.

Sloan, sporting editor of the Chicago Inter-Ocean, had gone to Cripple Creek to ascertain whether assurances could be given that there will be no interference by the state with the Corbett and Jackson fight, he said: "My advice is not to make any arrangements for an international fight in this state. We have enough fight on our hands at present."

PROFESSOR GARNER RETURNS

The "Monkey Man" Learned Little from Contact with Simians.

NEW YORK, March 25.—Professor Richard L. Garner, the "monkey man," so called because he is attempting to learn the language of the gorilla and chimpanzee, has returned to New York. He tells a very interesting but not valuable story of his studies in the habits of the gorilla.

He left this city in July, 1892, and made his studies in Lake Fernan Vas, about one degree distant from the equator. Here he set up his steel cage in a dense jungle and waited for developments. He had no phonograph and his photographic apparatus would not work. He remained in the cage from April 23, 1893, until Aug. 6, 1893, and during that time saw many gorillas.

He has learned six or eight words of the chimpanzee language and thinks they have about forty or fifty altogether. Gorillas, he insists, have marital relations, but they are polygamous, and they are not exactly like that of a man, and he brought several specimens back with him. He will lecture in this country until he raises money enough to take him back to Africa and continue his studies of monkey life.

A Burglar Shot Down.

WILKESBARRE, Pa., March 26.—C. J. Boyle, owner of a grocery at Plymouth, was aroused from his slumbers about 2 o'clock in the morning by hearing some one walking around in the store room. He finally looked the door close and looking out the window, he saw the intruder carrying off a sack of flour. In less than twenty minutes the thief came back, and re-entered the store. When he picked up another sack of flour, Boyle, who was concealed in the store, shouted to him to halt. The burglar paid no attention, and Boyle fired, the ball entering the back of the thief, who fell. The burglar was found to be George Jones, a well known character about town. He said his family was in need of flour to keep them from starving. It is not thought that he will die.

Hundreds of Cattle Killed.

BUFFALO, Wyo., March 25.—Last week's blizzard, continuing seventy hours, has never been approached in severity by any other in this locality. Traffic is entirely suspended, and a communication by wire with the outside world has only just been restored. Snow is drifted from ten to twenty feet deep in every direction. The mail coach took five days making one trip from Clearmont, thirty miles. The loss of stock is terrible. In one herd near Buffalo, containing stock which had been fed all winter, over 20 per cent. perished. The loss of range stock will likely be one-half.

Governor Walla's Powers.

DENVER, March 25.—The supreme court handed down a written reply to the questions propounded by Governor Walla last week as to who are the legal members of the fire and police boards. The decision declares that the governor had the power to remove Orr and Martin, but had no right to call out the militia to oust them. The old board, notwithstanding the decision, does not intend to give up the control of the departments. The supreme court does not expressly say that it must, and the lawyers, as usual, are reading the opinion both ways.

Mother and Baby Cremated.

SAN FRANCISCO, March 25.—Mrs. Jennie Irving Ross and her 5-month-old babe were burned to death in a fire which occurred at the residence of her father, A. K. Irving, at 8 o'clock in the morning. Miss Cecile Irving, jumping from a window, ruptured the tendons of her leg, and may be a cripple for life. The fire was evidently of incendiary origin.

The Shortage Grows Smaller.

TRENTON, March 25.—The investigation into the shortage in the office of the Trenton branch of the Adams Express company has been concluded. The amount short is about \$500.
