SELDOM does an opportunity occur to a great party leader like that which Gov. McKinley enjoyed last Wednesday when he stood on the very platform at Minne apolis from which nearly two years ago be had as presiding officer of the Republican National Convention announced the soloption of its declaration of principles and was enabled, truthfully to proclaim that time and experience had sindicated that discharation to the full. As be politied out in eloquent and pertinent language, the platform and candidates of that convention, admirable as they were, were rejected by the people, who have bitterly realized their mistake and would ando their work instanter if they could, for they clearly parceive that the princi ples enunciated by that convention in 1895 were true then and are true now. Since he last stood on that platform everything has changed and everything has suffered but the Reputdienn cause. Everything has been blighted but Republican princi ples, which shine forth to day with greater brightness and earry conviction to mor American citizens than ever before.

Such were the claims boldy made by Gov. McKinley, who, throughout his whole able speech, inspired by the influence of his historic surroundings, pressed the Republican banner to the fore and made it clear that it was henceforth to stay there. Not only by the fight of the country's recent bitter experience but by the front. His exposition of the inconsistency and absurdity of the Wilson bill, aspecially as amended in the Schate, and of the repudiction of Democratic presedent in the atter disregard of the interests of the inxpayers and ware earners of this country in the proposed tariff, all contributed to make his speech worthy of the time and place of its delivery. No ans who heard that speech or who has the good fortune to be able to peruse it in full can resist the impression that, as to the Republican party, its flag is still

A PARTY of young women representing Abode Island mills have gone to Washington to protest against the passage of the Wilson bill. If these young women were to read the Democratic papers they would Jearn that, in asking that their wages may not be reduced from thirty to fifty per cent, they are working in the interests of any "cariff barone" But pechaps they i don't care how much wealth thate employers may accumulate so they themselves are not put on English starvation

If there is one trait more than another to which Southern men lay claim it is chivalrousness. Whatever else that word may mean it means magnanimity. What a display of that there is in the Breckforldge case! It is easy to imagine a man breaking a marriage engagement, but imagine a man with a soul worth saving. who had suffered nothing at the hand of her he once loved, voluntarily helping to add to her disgrace. But was this das tardliness entirely voluntary? He con firmed her statement that he was a can didate for a Federal office, and confessed under cross-examination that he remained a candidate until the very day his deposition in this case was taken. He was depending on Breckinridge to secure the sppointment for him. O, chivalry, what hundred shots were exchanged between the combatants, in less than that many deeds are done in thy name!

THE law of libel was foreibly presented by a Western judge last week in charging a jury in a case of libel against a news paper. The judge ruled that whenever a newspaper finds a case of flagrant wrongdoing and evil, it is its duty and privilege to expose it and give it the widest circulation. The newspaper is the sponser of good morals in the community. In which it circulates and should be given the fullest protection. The power of the newspaper should be made the fear of every evil

DR. PANTON explains that he did no file that Breckinridge marriage certificate, first because he was sick and second because he did not know the law required it. That was unfortunate.

FASHIONS FOR CHILDREN.

White Pigor Baby Shoes Are One Vor Pretty Spring Novelty.

One piece gowns are still the favority style for little girls and children. For very little people the fullness is usually allowed to fall from the shoulders, although some times the old fashioned buby walst is seen gathered into a belt, with the full skirt sewed on. In gowns for older girls the hodies, however famefully it may be cut and trimmed, is yet attached to the skirt in the same manner and buttons at the back. Full shirred or plaited butters are preferred, with skirts gathered all the way round. The Conflict Brought About by the Animosity Existing Between Catholies and the American Protective Association. The Riot Suppressed by the Pelice.

KANSAS CITY, Mo., April 4 .- The Amercan Protective association and the Cath-olics came together in a bloody conflict at the polis of this city yesterday. It cannot be stated which side is responsible for the affray, as the partisans of each loudly charged the other with being the full cause of all the trouble. More than a seconds, and when the firing ceased the following named were lying dead, dying or injured on the povement:

Killed—Miks Callahan, city sidewalk inspector, shot through the right side.

Fatally Injured—Harry Fowler, laborer, shot through the back; Con Brosnahan, contractor, shot through the kidneys; Jerry Pate, deputy constable, shot in the

The riot was the culmination of bitter feeling which had been manifested by action and words ever since the polls opened. The two antagonistic elements were soldly divided in their choice of candidates. idly divided in their choics of candidates for mayor. The aggressive support that each side gave to its candidates during one of the hottest campaigns ever known in this city engendered a strong sentiment of rivalry. It was, therefore, in no amiable mood that the workers of the respective factions came together at the different polling places throughout the city, and that these workers came expecting trouble to occur before the day were away is apto occur before the day wore away is ap-parent from the number of deadly weap-ons that were drawn when the first shot

The riot was the climax of a series of smaller riots that took place at other points earlier in the day between the same prosing religious factions. This riot took opposing religious factions. This riot took place on the southwest boulevard, in the Fifth ward, very close to a police station, and those who took part in it had been heated to the fighting temper by reports that had been hourly arriving at the sta-tion of brawls at other polling places. Only an hour before John Gooley, a stone

mason, was shot in the back and forehead by William Henry Walker at a voting place at the corner of Fifth and Campbell streets, and it was known that the row was directly due to a flery debate between the two men regarding the principles of the A. P. A., to which Gosley was violently apposed. That Gooley was not instantly

opposed, the fact that the pistol used was a more toy of twenty two callber.

It is claimed that one of Pryor affollowers fired the first shot. That one was Mike Callahan, and he was a dead manths next moment. With their first ap-proach the fighting political workers ceased hostilities and made a quick effort to hide their weapons.

London, April 4.-In the house of com mons Mr. James Henry Dalziel, member for the Kirkenidy district, made a motion declaring that it was desirable, while retaining intact the power and supremacy of the imperial parliament, to establish a legislature for Soutland to deal with purely Scottish uffairs. Mr. Daisiel said the Scotch members of parliament had, by an overwhelming majority, voted in favor of home rule for Scotland. They entertained no anti-English feeling, their sola object being to procure for Scotland legislition that was impossible under existing conditions. The house adopted the mo-tion by a vote of 189 to 170.
