influence against the continuance of it. So, though peace reigns in the Palmetto state now, no one can tell how long it will last. Repeal is already the uppermost In the Great Strike of the Conquestion in politics there. The reformers who put this law through the Legislature will resist the repeal of it more stubbornly than ever since it has occasioned some thing like a civil war, because they will fear a complete reaction on the temperance question. Hot-blooded, and accustomes to weapons the moment argument falls, it will be a wondar if weapons are not often drawn before the dispute is ended. Meanwhile the outbreak in South Carolina will discourage all attempts to establish in other states a system of liquor regulation of a similar kind.

FRICK'S CHIEF ENGINEER KILLED.

After Being Shot His Head Was Crushed with Stones-His Death Quickly Avenged by the Killing of Several Strikers-Over a Bundred Arrested.

Uniorrows, Pa., April 5.—It would take columns to tell in detail the exciting areats of yesterday, the third of the big coke strike now on in the Connellaville region. At least nine lives have been sacrificed, and unless the strong arm of the military interferes the dead will be counted by scores instead of tens. The rioting began early in the morning, but the climax was not reached until 8 o'clock in the afternoon, when a body of strikers, numbering several hundred, marched into the bering several hundred, marched into the Davidson works of the H. C. Frick Coke company, at Connellsville, Payette coun-ty, where men were working. The strikers had been therein the morn-

ing to get the men out, but no one was working. In the afternoon, when they returned, deputies had been placed to receive them. When the strikers approached ceive them. When the strikers approached they were ordered to stop. They came on and tried to get at the men on the ovens, and then the deputies fired. The strikers returned the fire and charged, driving the deputies and men from the plant. Chief Engineer Paddock, of the Frick company, ran up in the tipple of the works. The strikers followed and shot him in the back of the lead. Thus they

him in the back of the head. Then they beat him and crushed his head with stones and three his body from a tipple window to the ovens, forty feet below. They then attempted to fire the tipple, but left when they saw the depattes returning with a large force from Connellsville.

Hearing of Paddock's murder, hundreds volunteered to avenge his death. The pursuing party, in command of County Detective Frank Campbell, over-took the strikers, who fired in return, but ran on. Three strikers fell, one being killed instantly, shot through the body, and two others were fatally wounded. Another of the strikers who got the start on the main body was shot by a deputy at Bradford, a mile distant. He was also killed instantly, the ball penetrating his neck.

Eleven strikers were captured where the first battle took place, and the pursu-ing party kept up the charge until Dawson, a point seven miles distant, was reached, where fifty-three more of the strikers were captured. All of the efforts of the deputies and more level headed cit-izens were needed to prevent the lynching of the eleven who were taken back to Con

The law abiding element had their way, and at 8 o'clock a special train arrived here with saxty/four of those who were in the mab that killed Paddock. A great crowd greeted their actival, and amid cries of "lynch them" the prisoners were hurried up a back street to jail. A large body of the strikers were present and made a rush to resone the preseners, but were held bank by the big crowd and the deputies. At unidatight thirty more of the same band of strikers were brought to the jull here. At the jull Hugh Coll assistant chief engineer of the Frick company, identified five of the prisoners as among those who killed

At the Mayfield plant of the Makure company two men were fatally shot dur-ing the day. The strikers charged the men at work in the morning, but were driven off by the deputies after a striker was shot through the body. In the after mon, they returned and reneved the at-tack. There was much firing and a dep-nty was faially wounded. At a riot at the

destruction of property, That the strike is a success so far as the outhern end of the region is concerned is admitted by all, and the final success of the movement will depend entirely upon the resistance put forward on the north-ern end. At the present time all the works south of Connellaville and west of the Youghigheny river are shut down, while all the works north of Councilsville are in operation except the Donnelly plant of the McClure company. All the workmen of W. J. Rainey are out. This is the first time in ten years that the labor organizations have been able to get Rainey's men out, and the strikers are generally elated
