#### BAD FOR AMERICA

The troubles in South Carolina are more than riots-they are revolution. The most deplorable feature about them in the discredit they bring upon republican government and the sld and comfort they give to mongraphical institutions all over

Every violent shock to law and order every murderous outbreak such as disgraces the Palmetto state to-day, is a propto the tottering thrones of Europe Mugnified, miscopresented, characterized as the natural and inevitable handlwork of popular government, they are used to trighten the ignorant and the timid, and to induce them to believe in the greater stability and safety of absolutisms

On the main point in the present situ ation the Governor's position is impregnable, despite bombast and intxpediency. The Dispensary law is detestable to the people. They say it is an invasion of private liberty, that it is unconstitutional, and shall not be enforced. The Governor says: "I have sworn to see that the laws are all respected, and while this statute is law it shall be enforced." The people are clearly wrong. If the law is unconstitutional, let them appeal to it may be they have no right to resist its enforcement and to attack and kill the

they have no right to bring discredit on the whole Republic.

THE next Jury Commissioner should be an nonest, intelligent man who can recognize citizenship irrespective of nationality and deal with them accordingly. Unfortunately this has not appeared as a characteristic of many men who have filled the office in the past and for that reason they have not given satisfaction to the people. The Republicans will do well to give more attention to this matter when selecting candidates for the office. Thomas Tosh, of Shenandouls, has been urged to allow the use of his name for the candidacy next fall and has computed. Mr. Tosh is extensively known and very popular, and we cheerfully endorce him as a man fully qualified in all respects to mil the position.

BILL DALTON, the noted desperado who, it will be remembered, was killed twice last year, has just been fatally wounded. In each immance the event occurred in the Indian Territory, and the killing was done by United States Deputy Marshals.

The Eten jacket is too convenient to become quickly obsolete and is used in many of the spring coatumes for misses and young women. A suring mourning tollet is shown made of dull finished and wooken material. It has a round bell shirt trianged with three bias hands of crare of different widths. Few English Speaking Immigrants. New York, April 6.—The report of the commission on emigration for the three months ending March 31 shows that 29,299 immigrants were landed, as against 49,630 for the corresponding period in 1862. Of the immigrants landed during the past three months about 40 per cent, were Italians, and less than 1 per cent were English speaking people.
