

Each for Spring Goods Doubles the Strain on Tired Shop Girls—Vacations a Long Way Off—How Many Keep Well and Strong.

O men with sisters dear, O men with mothers and wives, It's not the linen you're wearing out, But human creases lives.

If Thomas Hood could have looked into one of the big retail stores in any city with the endless streams of eager buyers and the palefaced shop girls behind the counters, he would have included women as well as men in his appeal for more humanity.

In order that some may go finely clad and have leisure, thousands of tired working girls must wear out health, good looks and strength by long, close hours in offices, behind monotonous store counters and in factories.

"Women," as Dr. Weir Mitchell says, "are by physiological nature more liable to be nervous and thin-blooded than are men." It is a sad drawback in the face of the duties of life that a very little emotional disturbance, anxiety or nervous strain suffices to overcome the woman as it does not the man, and that the same excesses which make him irritable make her nervous.

The greatest friend tried, feeble women have to-day is Paine's celery compound, the remarkable discovery of Prof. Edward K. Phelps, M. D., of Dartmouth college. This greatest nerve regulator and blood purifier yet known is the mainstay of a great proportion of humes throughout the country where nervous weakness and feebleness have entered.

Paine's celery compound begins at once to rebuild the shattered nerves and nerve centers all over the body. It is the one great spring medicine, because it quickly removes impurities from the blood; gives new life and vigor by filling every tiny ramification of the blood vessels with rich red blood, capable of making healthy tissue.

"The difference between the knowledge of to-day," says a well-known scientist, "and that possessed before Dr. Phelps' studies of the nerves and their intimate connection with every process in the body, is enormous. Dyspepsia, for example, is now ranked as a nervous disease, and as in the case of other nervous weakness, it is readily curable by attending closely to the nutrition of the nerve centres with Paine's celery compound. Diseases of the kidneys, heart and the liver are cured in the same radical way by providing abundant and appropriate nutrition for these parts."

"Not more food but better," is the watchword of the best medical skill—better food for nerves and nerve centers. When the system is completely nourished the tired-out, run down feeling vanishes and the craving of the nerves called neuralgia, rheumatism and heart trouble ceases.

"There is one remedy deserving the name of spring medicine—that is Paine's celery compound," said a very careful physician. Sick headache, sleeplessness, mental oppression and lack of energy are cured by Paine's celery compound. It makes people well.

Along between the rails as car No. 33 ran down St. Nicholas hill, mindful of the loud warning from the motorman's gong.

A reliable authority on sporting events states that the Cox-Green pigeon match will positively be shot in Mahanoy City on Saturday afternoon.

Green was here on Monday or Tuesday to make arrangements for the park, and Cox is expected here to-day to practice on the ground over which he will shoot.

The latter said he is a favorite in the betting to the amount of 100 to 70 and so, with no Green money in sight, James Stone will probably be referee and give the sports all assurance that the match will be on the "dead level."

The borough was yesterday threatened with a law suit by a pair of unscrupulous vendors to whom the Chief Burgess had given lodging the night before.

On being called for breakfast by Officer Hessel, yesterday morning, they only grunted and nestled up closer to the steam pipes for another snooze.

It was after dinner on the Chief Burgess, in passing the place, heard the lodgers clambering to get out. When released they were very angry and threatened to bring suit for loss of time and inconvenience to their appetites, but were quickly lusted out of town by the chief.

A Good Firm. The advertising agency of N. W. Ayer & Son, of Philadelphia, is unquestionably the largest and probably the best equipped of any in the United States. It has more and larger patrons than any other, and taking one thing with another, it is unquestionably the best. They are entitled to the credit of securing for their patrons better service than can be counted on from any other. It should be, and doubtless is, a great source of pride and satisfaction to Mr. Ayer and Mr. McKinney that they have been able, while remaining in Philadelphia, to build up a larger advertising business than has ever been secured before by any advertising agency in New York or elsewhere.

"THE BEST CIGAR CURED HAM" in the United States is made in Cleveland by The Cleveland Cured Ham Co., and called the Rose Ham. All their cigs are in sympathy with the United States Government. Every ham is branded on the back with the cut of a rose, and the words "Rose Gov. Insp." in a circle.

BEN BUTTERWORTH BEGINS

The Case May Not Reach the Jury Until Next Week.

WASHINGTON, April 12.—The local demand for oratory was largely satisfied yesterday by the finish of Colonel Phil Thompson's speech in the Pollard-Breckinridge trial and the beginning of a plea by Major Ben Butterworth, another member of congress. Beginning is said advisedly, for although Major Butterworth talked more than half of the day he progressed no further than the first relations between his client and Madeline Pollard, back in 1884. His whole argument was devoted to the point that the young woman had not been the pure and unsophisticated girl of 17 when the silver haired colonel met her at she had represented herself to be. It was a strong display of oratory. His speech was free from the vulgarities which Colonel Thompson dealt in, probably was as clear a presentation of such a case as could have been made, and was proportionately well received by his audience.

There was an interesting incident during the morning when Judge Bradley carried into execution the threat he has several times made of clearing the room of spectators. Mr. Butterworth had been painting glowingly the virtues of his client, whose friendship he had enjoyed for many years, and was declaring dramatically that no man to whom Ben Butterworth had been a friend in his prosperous days would be deserted by him in adversity, when several men broke into applause.

The judge immediately ordered all who were not members of the bar to leave the court room. Only a small proportion of the spectators removed themselves in response to this order. Soon afterward the judge again took a hand in the case, admonishing Mr. Butterworth to confine himself to the evidence in the trial when the speaker was relating the comments that were being made by the public on the appearance of the principals in court. It is probable that Mr. Butterworth will consume all of today in rounding out his plea, and Judge Jere Wilson is expected to occupy not less than two days in his closing speech. In this event the case may not reach the jury until next week.

Martí and Guerra Again Chosen.

NEW YORK, April 12.—The Cuban revolutionary party has been holding an election during the last two days to choose the only two elective officers of the organization—delegate (which is another name for president) and treasurer. The election may be said to have been only a form, as but one candidate for each office was in the field. They were José Martí for delegate and Benjamin J. Guerra for treasurer. Both gentlemen are residents of New York, and they have held the same offices for the last two years. The Cuban patriots point with pride to the unanimity shown within their ranks.

Brutal Lynching in Texas.

GALESVILLE, Tex., April 12.—People in this locality are terribly wrought up over the hanging of Ed Cash by a mob. The crime was most cruelly executed, the victim being dragged out of his home in the presence of his invalid wife and strung to a tree but a few yards from the house. Not satisfied with this, the mob riddled the lifeless body with bullets, while the woman prayed for the deliverance of her husband. The murderers have not yet been captured. Mrs. Cash, who was married but a year, is momentarily expected to die. What prompted the murder is unknown.

Castelar's Desertion from Republicanism.

MADRID, April 12.—No event of greater political interest has occurred in Madrid in many years than the formal withdrawal of Emilio Castelar from the Republican group in the Cortes and his alliance with the Monarchists. The scene in the Cortes when the announcement of Senor Castelar's secession from the Republicans was made was one of great excitement, which was intensified by the announcement of several other Republicans of their intention to follow Senor Castelar into the Monarchist ranks.

Urging a Reconciliation.

LONDON, April 12.—Earl Russell, who was the respondent in the sensational and unsuccessful divorce suit brought against him in 1892 by Countess Russell, formerly Miss Mabel Scott, was served yesterday with a petition for the restoration of conjugal rights on behalf of the countess. In view of the sensational charges which the countess previously brought against her husband the result of the petition is awaited with interest. Earl Russell intends to resist the petition.

Those who never read the advertisements in their newspapers miss more than they presume. Jonathan Kenison, of Bolan, Worth Co., Iowa, who had been troubled with rheumatism in his back, arms, and shoulders read an item in his paper about how a prominent German citizen of Ft. Madison had been cured. He procured the same medicine, and to use his own words: "It cured me right quick. A neighbor and his wife were both sick in bed with rheumatism. Their boy was over to my house and said they were so bad he had to do the cooking. I told him of Chamberlain's Pain Balm and how it had cured me, he got a bottle and he cured them up in a week. 50 cent bottles for sale by Grubler Bros."

FRIGHTENED BY COXEY'S ARMY

Residents of a Pennsylvania Mountain Town Prepared for Fight.

CHALK HILL, Pa., April 12.—The march of the Commonwealth from Uniontown to this point, on the Alleghenies, was one of the most trying ones yet experienced. It was made in a driving storm, with the ground covered with a foot of snow. The stops were many, and at times it was necessary for a force of men to be sent to the rear to push along the commissary and supply wagons. The men were weary with the tramp, and gladly availed themselves of the opportunity to rest.

Six hours were consumed in the march, but at dusk camp was pitched in the old stage house near here, where each commune was placed in a room where a big fire was raging. One hundred and eighty men on foot left Uniontown and continued the tramp, undismayed by the discomforts caused by the weather. The scene was surprisingly picturesque under the foliage of white. At Hopwood, the only town passed, all houses were locked and the male portion of the community viewed the army from the portico of the postoffice. In the building were a number of Winchester rifles ready for use. There was no use for the firearms, and a sigh of relief went up when the procession had disappeared over the mountain.

BOSTON, April 12.—It is officially announced that the New England contingent of Coxe's army will start from Faulkner hall April 17, and the officers will be Major General M. D. Fitzgerald, a professional agitator, and Brigadier General McCoy, an unemployed boiler maker. Morrison I. Swift, the leader of the unemployed, is to be superintendent.

The Jersey Elections.

JERSEY CITY, April 12.—The report of the New Jersey elections caused great rejoicing among the Republicans. In Newark the Democrats will retain control of the common council. In Clinton and Irvington townships the entire Republican ticket was elected. In Millburn the Republicans now have control. Caldwell went Republican for the first time in its history. The same thing occurred in Verona. The Republicans carried Perth Amboy, Mount Clair, East Orange, Lambertville and Camden. The Democrats carried New Brunswick, Bordentown and Gloucester.
