The representatives to which each district of the county is entitled to is as follows: First district, 1; Second district, 1; Third district, 1; Fourth district, 3.

### MENE, MENE!

The handwriting is on the wall. It requires no Inspiration to interpret its meaning.

Albany defeats the Democratic ticket for city officers and turns a customary Democratic majority of five thousand into an opposition majority of thirty-five

This is the first defeat the Democrats have suffered in a municipal election at the state capital, which is now Senator David B. Hill's home.

New Jersey follows the lead of New York, Newark elected a Republican Mayor for the first time in ten years. Except in Hoboken and Paterson, where the Democrats were successful, New Jersey generally has elected Republican town officers.

What lesson do these results teach the Democratic machine in New York ! Following Brooklyn, Gravesend and New Utrecht, are they not a proof that 1894 is as unpromising a year for the bosses as was 1808 ?-N. Y. Werld, Democratic.

THE next Sheriff should be a Republit can and to accomplish this the candidate must be a well known and popular man with a good record. The Democrats always select one of their strongest men to make their fight. We have a number of good men who are seeking the place the number is Hon Ellas Davis, who has served several terms in the Legislature and has won the esteem of the people of the county, irrespective of party, by his consistent support of all measures suggested for their benefit. Mr. Davis comes from the ranks of the workingmen, having worked in the mines for years and knows well the circumstances of those who earn their bread by the sweat of their brow. If nominated and elected to the office of Sheriff he will fulfill the duties with a fidelity that will win the admiration of all political factions.

In all the districts outside of Philadelphia Hon. "Jack" Robinson appears to have everything his own way for the road company sets up certain ordinances Lieutenant-Governorship. The lenders and contracts made in 1856 with the city upon which the company refuses to pay.

If Robinson gets knocked out it will be a minerable reward for the placky fights be made and won for some of the very men who now appear to be against him. It is very doubtful that Robinson can be defeated on a fair and open contest. He has been in many battles and always won, but should be fall this time be and his friends have sufficient common sense to accept the defeat with good gruce and pick their filints: for another triel. ### THE LOCKOUT A FIZZLE

Less Than Three Rundred Chicago Works ers Affected by the Action.

CRICAGO, April 13.—The general lockout of the Chicago Building Trades workmen set for yesterday proved a grand failure. Instead of the 60,000 men whom the con-tractors claimed would be thrown out of employment less than 300 were affected. A new organization of boss builders. known as the Central Building league, announced several days ago that, owing to the airmerous strikes, the employers would take a declided stand against or ganized labor, and a lockout was declared in which, it was claimed, practically every contractor and boss builder in the city would participate. But the contractors who advocated the general lockout were not in the majority. There was not unautinity among them. It is said the most strenuous backers of the lockout have but little work on hand

Many of them did not stop and will not stop work. There is serious division and disagreement in the Central Building league, in which the lockout idea origiunied. Some of the wealthiest contractors and most extensive employers of skilled labor opposed the lockout, and will not be bound by the resolution adopted in the league by a small majority. By these men, who do not approve of the effort to pur-alize the building industry, it is stated that the leaders of the lockout firms—had but few men employed, that most of thele jobs are nearly completed, and that they ld enter upon a struggle with the inconvenience to themselves and their busi-

There is little or no indication of the lockout about the city, as work on nearly all the new buildings is still going on. Labor leaders are jubilant, claiming a victory for organized labor, and many promi-nent contractors asserted that no such movement at this time of the year could

### Castelar Not a Secoder.

Madrid, April 13.—The statement that enor Emilo Castelar, the veteran Repubions leader, had seceded from the Republican party and had become a Mon-archist, is erroneous. The real facts in the case are: Senar Celleruclo, the leader of the moderate Republican group, declared in the cortes, in the name of a number of the moderate Republicans who have hith-erio recognized the leadership of Senor Castelar, that they had abandoned the Republican party and had decided to join the Monorchists. He mided that Senor Castelar remains a Republican, although he was authorized his friends to join the Monarchists should they so desire

A Threat to Socialists.

VIENNA, April 13.—General Baron Von Schoenfeld, commander of the Second army corps, speaking at a banquet given the mayor, took occasion to threater the socialists in a manner which provoked a sensation among his hearers. He said: You may be assured of our assistance when the battle begins for the existence of society and the preservation of property. When the bourgeois stands in the front row to resist the attacks of the lawless the soldiers will come to their rescue. view of the fact that General Von Schoen-feld is in the confidence of the emperor the effect of his speech is far greater than it would have been otherwise.

FEARS THAT SEVERAL WERE LOST.

The Flames Spread So Rapidly That Workmen in the Upper Stories Must Have Perished-The Flunncial Loss Estimated at a Million Dollars.

BUFFALO, April 13.-The plant of the American Glucose company, awned by C. J. Hamilton, was burned last night. The less will be about \$1,000,000; insurance, 155,000. The works of the company are attracted on the Hamburg canal, Scott, Perry and East and West Market streets. They consisted of an eleven story brick building used for the manufacture cose and starch, an eight story brick building used as a power house and as a place for making the cattle feeding product which is made from the corn after the glucose is extracted; an eight story brick building used as a refuery, and an eight story store house. In ten minutes after the fire was discovered the whole eleven floors were on fire.

floors were on fire.

The Glucese company ordinarily employs a great number of men, but of late it has not been running at its full capacity, although it has been working day and night. There were perhaps 175 men at work last night. It will not be known until a census of the employes is taken whether one man or fifty men were cremated. It is known that some of the men escaned by the fire escanes, and some of escaped by the fire escapes, and some of those on the lower stories jumped into the canal. A great many of the men at work on the upper floors were ignorant Poles and Germans. The chances are that sev-

and sermans. The chances are that several men were burned to death.

As it was four of the men who jumped were hurt. They are: John Young, head and face; John Stein severely injured and burned; two poles who cannot speak English, names unknown, both severely in-jured, one having both legs broken.

The fire spread with incredible rapidity. In fifteen minutes the entire main build ing was a mass of flames. In twenty min utes the wails began to fall, and they fell at frequent intervals until inside of fortyfive minutes there was but one corner standing. The main building was con-nected with the power and feed house by an elevated bridge over Scott street. The flames crept across this and ignited the feed house. This burned more slowly than the main building, but for all that it was mit a short time until the flames had comete control of the buildings. Mesnwhile the Buffalo city fish market,

which stood across the street, on the cor-ner of Scott and West Market streets, caught fire. Five firemen were sent inside to fight the flames, and a number of streams were turned on the roof. A portion of a binning wall fell on it, and started the roof to burning flercely. In a few min-lites the roof fell in and burled the five fremen. Three of them escaped with no ther jujuries than a few brulses, but john Weber, of engine No. 14, was taken out unconscious. His face is badly burned. some of his ribs are broken, and he also has internal injuries. It is a question whether he lives or dies. Lieutenant Schraeder has his back and legs hurt. Hoth were taken to hospitals,

The feed house was completely destroyed, the walls all having fallen by 10 o'clock. The refinery and the store house went next, and by 11 o'clock there was nothing left of the mammoth establishment but a few tottering walls. At midnight the progress of the fire was checked, but it was not until 8 o'clock this morning that it was completely under control.

Ignorance Causes an Explosion. PHYSBURG, April 18.—One of the large agines in Oliver & Roberts' Ninth street rod mill, south side, was blown to pieces yesterday and several non-union men nar rowly escaped death or serious injury Pieces of iron were hurled in every direc tion, but, strange to say, not a man was injured. The cause of the accident was the unfamiliarity of the new men with the working of the rolls. They had placed a large piece of iron in the rolls before it was hot enough and the pressure on the engine caused the cylinders to blow up. Considerable other damage was done. The
