Coats and capes are both worn, coats for reneral use being made of light cloth, un ined, with gigot sleeves. The cloth has body enough to remain in shape without lining, and the additional weight is thus avoided. The full skirt of the coat has a three or four inch satin facing inside, which suffices to make it hang properly. and his 1,300 troops spent a beautiful Sab bath in the enjoyment of more of luxury than the snown since they left home more than two weeks ago. The army reached the confines of Omalia abortly after 6 o'clock. The train was huts out American products and stands halted at a side track just fuside the city limits. Chief Seavy was there with two

> woods. The authorities provided 2,500 loaves of bread and 2,000 pounds of cooked beef, while a business firm had given 1,000 ples. All this provender was in two box cars, which were quickly attached to the Kelly train, and then the procession moved on. Chief Seavy had asked General Kelly to keep his mon on the cars, and they had been kept there. Two or three thousand people had gathered there, and many crossed to Council Bluffs with the train. At the Union Pacific transferyards in Council Bluffs there was a crowd of 7,000 or 8,000 people. Seven companies of mil-

> in making the depot sheds rattle with their yells, while the militia boys looked rather shamefacedly at each other as if they wondered why they were there. In oment the blankets and baggage were tumbled out of the cars in which the army has traveled the last six days, and a camp was pitched on the ground about one hundred yards from the depot.

After breakfast there began a reception which lasted well into the evening. Fully 50,000 people visited the camp and min gled with the soldiers. Kelly's wonderful organization was never better shown. The discipline of the army is as perfect as that of well drilled regulars. Much of this is due to the personnel of the troops, who are mainly intelligent mechanics, with not a few professional men thrown in. During the afternoon a public meeting was held, at which General Kelly and a number of ocal labor leaders made speeches.

Governor Jackson's action in calling out the militia has been criticized by the citizens rather harshiy. Governor Jackson justifies his action by saying that he had eceived many telegrams asking for pro-ection, and had finally concluded the troops would be absolutely necessary to

He will go on a lecture tour. Mr. Coxey's son has deserted the cause of his father and goes with Smith.

It has been the frequent boast of Commander Coxey that the army was an or-ganization in which mutual rights pre-vailed. "Neither Marshal Browne nor I have any more rights here than the poor-est soldier," has been asserted by him daily and reiterated by Browne, but the event of the past two days show that Cox-cy's word is law. The men had deposed Browne and took up Smith, who had or-ganized the army and established a system of discipline against which cold, star-vation, privation and weary marches could not prevail. They made him their leader with great enthusiasm, but this was in Coxey's absence. Coxey arrived at day-break. "Smith must go," he said, and Smith wast Smith went.

### CANADA AND THE TARIFF.

A correspondent of the New York San recently went to Canada, and wrote what the people along our northern border shink of the Wilson tariff bill. Here is what one man said:

"The Wilson bill was to be an avalanche of prosperity to us. Ten million dollars was stricken off of your rovenue, and we were to receive the benefit. We had our high tariff against your manufactures, but you gave us free trade. Yesterday the Ottawa ministry put 20 per cent. against your farm machinery and 712 cents against your petroleum oll.
