TRIUMPHANT KELLY.

His Followers Command the Respect of Citizens,

THE MARCH FROM COUNCIL BLUFFS.

The Industrials Policy Their Commander Like Veteran Soldiers-They Are Well Provided with Food-Coxey's"Unknown" Checkmated by the Commander.

OMAHA, April 17,-Smooth shaven and sunburned, but with bright eyes and firm steps, General Kelly's troops marched out of Conneil Bluffs at 3 o'clock yesterday afternoon. At the head of the pro-cession rode the general on a spirited sor-rel horse loaned him for the occasion by a sympathizing citizen. Along the street the general was given an ovation, and several times was stopped by citizens who demanded a speech and the privilege of shaking hands. By his side rode Sheriff Hazen, who went more as a pilot than a peace officer. Behind, with regular pla-toon formation, blankets rolled and bundles carried knapsack fashion, trudged the army with step as firm as the muddy

road would permit.

Parks Mill, the first station east of the Rock Island, five miles out, was chosen as the camping place for the night. Kelly "hoped" that a train of empty box cars would pass through during the night. It would then be captured.

At 2:30 the bugle sounded "fall in," and in half an hour the army was under way. S. H. Finney, who loaned General Kelly his horse, also supplied two hig trucks, or which the provender and other impediments of the army was loaded, and as the cornet, which does duty both as a bugle and in the band, rang out "John Brown's

and in the band, rang out "John Brown's Body," the departure was taken. The men were in excellent spirits. Not a sick man was with them. All the sick had been transferred to the hospitals. About 150 joined the army on Sunday and posterday. Twenty-four hours had sufficed to rest the men. Several who deserted here and at Council Bluffs have been locked up. During the stay of the army in this vicinity there was no drink-ing in camp, and absolutely no disorder. Many people went to the camp during the day and contributed cash and clothing to the commissary department. Kelly left with provisions enough to last two or three days, and in possession of about \$400 in money.

THE "UNKNOWN" CHECKMATED. The Crowd to Hear Coxey Deprived Him of an Audience.

COMBERLAND, Md., April 17.—Coxey has not backed out of his enterprise, but today he will take water. The road over the mountains between this point and Williamsport was too rough and steep to tempt the travelers, and, taking advan-tage of the inflow of large cash contribu-tions that have been received during the stay in Cumberland Coxey hired canal boats to take the party eighty-five niles down the canal to Williamsport. Coxey will work his floaters in blocks of two, one barge for the men and the other for the horses and camp paraphernalis. The canal company was not anxious to trans-port the party, but Coxey showed his abilities as a manager, telegraphing to Washington for the permission of General Manager Nicholson to pass the hoats through the locks and securing job lot freight rates at fifty-two cents a ton on all of his company, men, horses and lum-ber. This was twelve cents higher than the rate on coal, but will make three days

of pleasant travel. The company has been docllity itself since the reappearance of Coxey in camp. Pizzaro, formerly known as the "Great Unknown," sunk out of sight and was forgotten in twelve hours after his expulsion from "Camp Victoria," which was the title bestowed on the Cumberland ball park by Browne in commemoration of his restoration to command. Smith Pizzaro's last play for notoriety and favor was made last night, and was neatly checkmated by Coxey. Smith advertised the appearance of himself, Jesse Coxey and the veiled lady at a twenty-five cent lecture in Cum-berland. Coxey then sowed broadcast a flaming band bill announcing a free lec-ture by himself and Browne just across the street from Pizzaro's, adding to the announcement that Jesse Coxey would not appear at any meeting, contrary re-ports notwithstanding.

Smith was out pointed. Coxey's hall was crowded to the doors, and the audience applauded vigorously the old stories and similes of Browne, who, in spite of his uncouth appearance and rough speech, is a great stump artist. But across the street the ex-patent medicine man leaned wearly on the restrum. He had not single auditor. All looks like amouth sailing for the Commonweal for a week to come, and there is little prospect of any other mutiny. Barring such an occurrence, or the coming of phenomenally bad weather there now seems to chance of Sun weather, there now seems no chance of the Commonweal's breaking up before reaching Washington.

INVADING ARMIES ELSEWHERE. The Denver Contingent Destroys Thirty Freight Cars by Fire.

Vandalia, Ilis., April 17.—General Frye and his army of Commonwealers arrived at Altamont, twenty miles east of here. They camped near the town, but the citizens refused to aid them in the least. Feys has about 200 men following him now, 156 having deserted him at Vandalia. This contingent went south, aiming to go to Sandevaland and strike the Baltimore and Ohio Southwestern at that point. At Effingham, Ills., where the army is resting today, the citizens were more generous in their treatment Mayor Arnold, in behalf of the city, has provided them with food. The men are intelligent and well behaved. The army seems to be losing strength and numbers on account of the long and tiresome march.

GUTHRIE, O. T., April 17,—Coxey's army

GUTHRIE, O. T., April 17,—Coxey's army here now numbers 850. Arrangements had been about completed for box cars on the Santa Fe to Washington at 85 per head, providing the full 800 go. As yet only about half the army can raise the amount. Eyanston, Wyo., April 17.—Sixty rugged, fairly dressed men, under Captain Morgan, arrived here from the west, bound for Washington to join the Industrial army. Between 100 and 200 men are expected before night. They will push forward as rapidly as possible.

DENVER, April 17.—About 250 men have

DENVER, April 17.—About 250 men bays enrolled in the Denver Industrial army under Captain Grayson, which will start for Washington tonight if transportation can be secured. A detachment of this regiment seized a line of box cars in the Burlington and Missouri yards yesterday, intending to force the railroad to hand them east. This not being done, thirty only cars were sat on fire and distrove

Member of Concy Island's Reform League Porhaps Fatally Assaulted.

CONEY ISLAND, April 17. - Ernest Knigge, a saloon keeper who has been prominent in the Citizens' league councils, was assaulted during Sunday night by two masked men and left for dead on the floor of his barroom. Knigge opened his place on Sunday and did a good day's business. By 8 o'clock the crowd which visited the departed, and the streets were almost de-serted. Knigge started to close up his not to be so active in the Citizens' league. At the same moment the other man struck. A report has reached Great Falls from

Knigge remembered nothing more until he found himself at home at daylight yesterday. His wife waited up for him. She thought he would be home by midnight, and when he did not come became alarmed. She waited a couple of hours longer, and as he did not come then she obtained an escort and went to the saloon. The door stood open and when Mrs. Knigge entered she found her husband lying on the floor. She had him conveyed home and locked up the saloon. Dr. Hill, who was summoned, fears Knigge will never recover. That robbery was not the never recover. That robbery was not the motive of the assault is shown by the fact that the cash register, which was full of money, was not opened, and even some loose change back of the bar was undisturbed. The police have not been able to find any clew to the man's assailants. Enigge was proprietor of the Ocean House. He was recently elected an impactor of the He was recently elected an inspector of

THE STRIKE SPREADING

The Great Northern Road Tied Up West of Crookston.

IT MAY EXCEND FURTHER BAST.

While the Strikers Are Not Rictors They Prevented Attempts to Start Trains at Grand Porks and Devil's Lakes A Sheriff Calls for Protection.

St. Paul, Minn., April 17.—The Great Northern strike has reached within one division of this city, and it is probable that it will be mearer before night. On Sunday Grand Forks, N. D., was the most eastern point of the strike, but since then it has extended to Crookston, on the Fergus Falls division, and to Breckinridge, on the Breckingidge division. East of these points there was no interruption to traffic yesterday, and west there was a complete the-up. General Manager Case said this end up. General Manager Case said this end of the line was working as usual, but that he had no knowledge whatever from the other end of the line.

Friends of the strikers in this city do not favor the extension of the strike to this division, for the reason that they believe the company would have a certain advantage near its headquarters that it

would not have anywhere else.

Everything was running on schedule time from tals city to the boundary of the strike territory. The report received from the west that the Northern Pacific employes out there would probably strike in sympathy cannot be verified here, and it is

enerally discredifed.
At St. Cloud, Minn., the men last night decided to strike, and all members of the union went out at midnight. Everybody, including conductors and brakemen, went out. The men at Crookston are at the dividing line, all west of them being out, and the east not having yet gone out. There is no sign of a strike at Fergus Falls, except in the non-arrival of trains from the west. The Great Northern em-ployes at that point did not think they

ployes at that point did not think they would go out, and the railroad men there did not think the strike could possibly win. West of these points the reports are rather meagre, but are all of one kind.

At a few points trouble is feared, but generally the men are quiet and no trouble is looked for. At Grand Forks the collection would be restricted by island because of the warm weather had officials wanted to get out a train last departed, and the streets were almost devening, and had sworn in twenty deputies to protect them, but 300 men assen place. He was alone and was turning out bled at the depot and declared that no the lights when two men wearing black train could be made up there. Another close to him when he saw them. He turned and demanded to know what they wanted. One of them called him a vile name, and There was no rioting, but the 100 strikers remarked that they intended to teach him at that point stood their ground and the

Knigge a blow on the head with a large Kallapell that a "scab" who was string up soda water bottle, which was wrapped in on Saturday night in order to scare him was allowed to hang too long and did not survive. The report has not been verified, although said to have come from a reliable source in the first place. Superintendent Currier, at Helena, has

called on the shcriff for protection at Great Falls. The only change in the situation is the endorsement of the strike by the assemblies of the Knights of Labor lo-cated in that city. Mr. Hogan, of the American Railway union, who ordered the strike, is at Butte, and declares that the disapproval of the Brotherhood officials cuts no figure in the strike. He intimates that the railroad has "pulled off" those lenders, and expresses the belief that the strikers will be victorious.

Vice President George Howard, of the American Enilway union, who is here, de-nies emphatically that there is any trouble between the union and the brotherhoods, and insists that the ral loads are trying to keep the two organizations apart.
