Declared Unconstitutional by the State Supreme Court.

CHARLESTON OUTIZENS CELEBRATE

When the News of the Decision Reached That City Over Two Hundred "Hilled Tigers" Opened Up, and Liquer to New Bold Openly.

COLUMBIA, S. C., April 20,-The Tillman state dispensary liquor law has been de-clared unconstitutional by the supreme sourt of South Carolina, two justices conourring and one (the Tillman member of the supreme beach) dissenting from the opinion. The decision was handed down by Chief Justice McIver, Justice Mc-Gowan assenting, Justice Pope (the Till-man justice) dissenting.

The ground on which the law is de-

clared unconstitutional is that it creates a monopoly for the state. Justice Pope flied a dissenting opinion, affirming the consti-tutionality of the law. Justice Molver's decision declares the law unconstitutional in nearly every respect, and practically bolds that it cannot be upheld on any vital point. The profit to the state feature s declared victors.

Trade, the court says, is not and cannot

properly be regarded as one of the func-tions of government. It seems to the court that the question as to the right of court that the question as to the right of the state to engage in any trade or busi-ness for the purpose of gain has been prac-tically determined adversely to such right in the recent case of Mauldin against

in the recent case of Mauldin against Greenville, a local case, which the court cited as authority.

The only hope of the administration is said to be in securing a stay until June, when a new Tiliman justice will supplant Justice McGowan on the bench.

The whisky metrare more than jubilant was the decision and which a believe the decision and which a believe to the decision and which a believe to be a security of the decision and which a believe the decision and which a believe to be the security of the security of the decision and which a believe to be a security of the decision and which a believe to be the security of the secu

over the decision and whisky is being openly sold in many places in South Carolina tonight.

The friends of the dispensary law are not disheartened, despite the decision of the court. They believe the law constitu-tional, and that it will yet triumph. Governor Tillman is known to be a man of many resources, and his opponents do not believe that he will yield and close the dispensaries.

The cases in which the decision of the supreme court was rendered were brought under the old law. Governor Tillman can continue the operation of the dispensaries, claiming that the new law has not been declared unconstitutional, though its princinle is practically the same as that of the ciple is practically the same as that of the old law. This would necessitate a new ants. Before it could get up to the su-preme court there would be a change in the personnel of that tribunal, and a difand law. This would necessitate a new mion amounced themselves as in every suit. Before it could get up to the superme court there would be a change in the personnel of that tribunal, and a different result might be reached. The federal judge in this state held the dispensary law constitutional in a case brought before him. There is also some talk about an appeal to the United States supreme court.

### THE "BLIND TIGERS" ACTIVE. No Lack of Stimulants in Charleston as a

Result of the Decision.
CHARLESTON, S. C., April 20.—An hour after the news of the handing down of the dispensary law decision by the state supreme court was received here upwards of 200 blind tigers had miraculously recov-ered their eyesight and were in full blast. Many of them hung out signs inviting the passersby to "walk in and have one with the house," and people were by no means slow to accept the invitation. There was no lack of stimulants in the city, as an immense stock had been laid in when dispensary constabulary were engaged in

the Darlington riot. The general impression here is that Governor Tillman will call an extra ses-sion of the general assembly to pass a new law, and then take it up to the state supreme court, which on July I will be Tillmanite in politics by the qualification of Justics E. B. Genry. What will happen in the meautime, however, is difficult to say. Since the Darlington episode the whicky constabulary have been compara-tively inactive. No raids of either stores or private residences have been attempted anywhere in the state. The force of the constability in this city, formerly numbering from fifteen to twenty men, all armed with revolvers and Winchester rifles, has been reduced to three men, who confine their attentions to the residence of the private rifles, has been reduced to three men, who confine their attentions to the residence of the residence fine their attentions to the railroad

The Vanderbilt people se cretly sent out an engineer corps, and a line was located from Mehaffey, in Clearfield county, in which is the western ter-minus of the Beech Creek road, to Crab-Tree, the terminus of the Pennsylvania branch at Crab Tree station.
