THE GREAT STRIKE ON I

Between One and Two Hundred Thousand Miners Out.

SIXTEEN STATES ARE AFFECTED.

At Present Only the Bituminous Miners Are Affected, But Should Anthracite be Used for Steam Power the Strike May Spread.

PITTSBURG, April 21.-Today at noon the great coal strike which has been pending for several months was inaugurated. Opinions differ as to the number of men engaged in it. President John Melicide, of the United Mine Workers' union, estimates that 200,000 men are out. Scoretary-Treasurer Patrick MoBryde is quoted as placing the number at 100,000. The telegraphic reports indicate that the number

will be between these two extremes.

The strike is confined to the bituminous coal region of the United States. In this there are twenty-three districts organized, four being in Pennsylvania. The other districts are Washington, Wyoming, Col-orado, Indian territory, Missouri, Kansas, Alabawa, Tanasas, Kantank, Vis. Alabama, Tennessee, Kentucky, Virginia, West Virginia, Maryland, Ohlo, Indiana and Illinois.

Massilion (O.) operators say that 3,000 coal mines in the United States are abandoned. Of these 300 are located in Ohio. In the Pittsburg district alone there are about 120 mines and fully thirty more in

the Clearfield or mountain district.
That the operators in this and the Ohio districts believe the strike will assume great proportions has been shown by the starting during the past week of mines which have long been idle, the feverish hurry to get out soal, even coke cars being used for the purpose, and the putting of as many men at work as can be secured. They had not been formally notified of the strike, but were aware that it was coming. They have not decided what action to take in the matter.

Manufacturers and foundry owners are greatly alarmed, and do not credit assurances from operators that the strike will be of short duration, and therefore are securing all the coal they can. It is con-ceded that a strike of two weeks will cause a shortage which may result in the closing down of their works. Local con-sumers also apprehend an advance in the price of coal as a result of the strike, and are laying in a supply now, so that the coal dealers have all the orders they can attend to. Altogether no impending strike for years has caused so much general inperest and auxiety.

While the anthracite diggers will not he called out at present, it is aunounced that in case hard coal is used to raise steam where bituminous fuel is now employed, that region will be rendered inoperative by a strike. There are about 40,000 miners employed by the four companies which control the anthracite region.
"Will the strike be a success?" To those

on the inside of the organization a success ful strike is not the object of the suspen sion. But will it have the desired effect? That is, a conference of operators all over the country which will result in higher wages to the miners and more money to the operators, The operators of Ohio, Illi-nois and most parts of Pennsylvania really favor the suspension movement. They want a higher schedule of prices, but all must conform.

The State Dispensaries Closed.

COLUMNIA, S. C., April 21.—"Every dispensary in the state has received orders to close immediately" was the interesting statement given to the press by Attorney General Buchanan. The employes of the state dispensary in this city were paid off last evening and the big barroom was shut up. General Buchanan said it was the purpose of the administration to re-ceive the supreme court's decision as a suspension of the dispensary law, and in his opinion it allowed the unrestricted sale of innor. He will in a few days bring a test case to decide whether the court means prohibition or the unificensing sale of innor to obtain, and if the former Gover-nor Tillman will at once apply to the legislature for power to maintain a force of 200 constables to see that the law is not Many lawyers think that the matter will result in practical prohibi-tion. There are hundreds of places all over this state where intoxicants are flow

CRISVIELD, Md., April 21.—A pitched battle took place on Herie's Rock Thurs-day night between the Virginia boat Tangier and five Maryland oyster dredging craft. The latter claim they were in Mary-land water when fired upon by the Tangier. They returned the size with ritios, about a thousand shots in all being exchanged, but without serious results so far as known. The Marylanders are in-dignant and laid in a fresh supply of ammunition on reaching this port

SOME OF THE OUTLAWS ESCAPE.

It Is Said That Three of the Rand Were Left Behind Fatally Wounded, and That Two of the Marshal's Posse Were Killed. and Three Woundeds

GUTHRIE, O. T., April W .- The report GUTHING O. T. April 21. The Dation gains and deputy murshals, near Ingalis, fifty-five miles from this city, is confirmed. The fight occurred at the house of throce Miller, one of the outlaws. The officers surrounded the house, all of them armed with Winchesters, just about daylight. The Daltons were inside. No shois were fired notif one of the desperadoes came out just about daylight to feed the horses. He was held up and told to take a look around the premises and then return to the house, tell the bandits to come out one at a time, murmed, and surrender, or hostilities would be commenced.

would be commenced.

After looking over the field and finding in she ting distance of the house twenty men, well armed, the outlaw returned to his companions. Fully a half hour's consultation was had by the handits before a stir was made by either party, and then the officers in command of the party or dered his men to begin firing. The house is a simple weather boarded structure and not plastered, and the shots from the and not plantered, and the shots from the marshals. Winelesters quickly perforated the sides of the building. The cared han-dits returned the fire and poured a rat-ting fire on the officers through the win-dows and crysters of the house. At 16 o'clock Mrs. Miller, who had been wounded, left the house and crawled to where one of the marshale was best at the where one of the marshals was located be hind a tree. The woman was permitted to saddle a horse and leave.

to satulte a horse and leave.

A fight was kept up all day during Wednesday. Volley after volley was fired into the house by the officers, and the constant crack of the bandits' Winehesters told of their determination to hold out and refuse to surrender. Shortly after nightfull, during a bill in the firing, the bandits made a break from the house and

oandus made a break from the house and field, pursued by the deputies. The messenger who brought this news did not learn whether or not Dalton and Doolan had been killed, but was told that three fatally wounded bandits were left in Miller's house after thefr companions had broken through the line of officers. He stated that two of the officers' posses were killed and three wounded. Some of the bravest men in this territory are with the pursning party.

No Trace of the Murderers.

Trov. N. Y., April 21.—There is yet no trace of the whereabouts of the two men who entered J. A. Wait, Son & Co.'s coal office, demanded money of David Ritchie, one of the firm, and when the latter re-fused shot and killed him.
