THAT over one hundred thousand wage earners should refuse to work when there are so many thousand of unemployed seeking work is certainly an anomalous condition of things. It seems paradoxical that idleness should work so much mischief.

PERSETLVANIA employs more people in she shops and factories than the 15 South ern states combined. Pennsylvania pays more wages to labor than all the states of the South. Massachusetts spends more money in wages than all the Southern states combined, but Massachusetts has but two votes in the United States Senate, while the Southern states combined have

Nominated by Governor Warts.

THENTON, April 27.-Governor Werts cent the following nominations to the sen ate: Herman Schulk as lay judge of Essex; John W. Crane as common pleas judge of Union; William H. Baker as common pleas judge of Hunterdon; Cap-tain John R. Stevens as major by brevet, for twenty years' faithful service; Benja-min F. Les of Murcer, Barton F. Thorn of Burlington and Martin P. Gray of Camden as managers of the Home for Feeble Minded Women. The house held a short session yesterday afternoon and adjourned for the week. The senate passed the bill requiring street railways in Camden to obtain the consent of the governing body before occupying the streets.

Prohibition Versus Free Whisky.

COLUMNA, S. C., April 27.—The prohib-itionists of the state have taken a hand in the fight that is on between free whisky and prohibition. L. D. Childs, chairman of the state executive committee of the prohibitionists, sent a communication to Mayor Sloan, of this city, asking him to take cognizance of the fact that saloons are running here without molestation or restriction. He tells the mayor that he has been advised by eminent counsel that the recent decision of the supreme court means prohibition.

Three Children Cremated.

SCHANTON, Pa., April 27.-Three young children of Mr. and Mrs. Philip Schney der, who live near the outskirts of the

city, were burned to death during a fire which consumed their home. Mr. Schneyler was not at home at the time of the ire, and his wife was in the garden. She attempted to enter the house and rescue the children, who were sleeping in their rooms, but before anyone could reach them the walls of the building fell. Their bodies were burned beyond recognition.

MORE MINERS OUT.

All the Block Coal Men of Indiana Join the Strike.

THE SUSPENSION IN ILLINOIS.

Fractically All of the Miners in That State Are Now Idle-The Effort to Induce West Virginia Miners to Quit Partially Successful.

BRAZIL, Ind., April 27.-The miners of the block coal fields of Indiana have joined the general strike in the coal pro-ducing states. The block miners agreed with the operators to work until May 1, but striking bituminous miners have formed in mobs and visited the block farewell to every hope of the future, not only here, but throughout the civilized globe, to which this country is an ex-ample, upon which are based the hopes of liberty loving men throughout the world.

men to come out. Mines No. 4 and 5 of the Crawford Coal company closed yesterday. About 200 bituminous men visited Carbon, and the miners quit work there. They also visited the Eureka mine and that of the Meltatosh cher Eureka mine and that of the Meltatosh company, with simi-lar success. The employes of the Brazil Block Coal company's mine No. 8 came out Wednesday night, and the men in Nos. 3, 4 and 9 came out last night. About 200 bituminous men, headed by a band, went to Caseyville and induced the men In the mine there to join them. This forenoon the balance of the block men came out, and there is now not a mine in the whole block coal district in operation.

Fears of Riot in Illinois

SPRINGFIELD, Ills., April 37 .- The state miners' conference adjourned yesterday after a two days' session. Resolutions were passed pledging all delegates to work for the success of the miners strike, to prevent, if possible, any miners from going to work, and to protect the lives and property of all during the progress of the strike. After the adoption of a lengthy political platform the convention ad-journed. State President Crawford left here at midnight for Tolnea, as he re-ceived a telegram from Streator that 500

Acting Governor Gill received a tele-gram from Sheriff Lense, of Marshall ounty, stating that he feared trouble and bloodshed at Toluca, and asking for five or six companies of militia.

Governor Gill telegraphed at once that he did not think he was warranted in calling out the militin from the facts set forth in the telegram, as he had not proof that the strikers were armed or were likely to become riotous. Governor Gill left on the midnight train accompanied by Assistant Adjutant General Boyle for Toluca.

Maryland Miners to Stick to Work. CUMBERLAND, Md., April 27.-The meet-ing of miners of the Cumberland coal region at Knapp's meadow, near Frostburg, was attended by seventy-one men. Organizer Wilson, of the United Mine Workers' association, said that was not sufficient to take the sense of the region, and he adjourned the meeting without action. The feeling against a strike is so pronounced that the miners would not leave their work to hear the agitator.

More West Virginia Miners Out.

CHARLESTON, W. Va., April 27 .- Six of the twenty-six Kanawha mines kava struck, and it is expected that others will follow. Delegates of the United Mine Workers are straining every nerve to make the strike general. It is now throught they will succeed except with four or five nonunion mines. Part of the New river mines are still running. In the Pocshontas field the mines are running, but they will go out May 1.

All Illinois Miners Out.

SPRINGFIELD, Ills., April 27.—Two hun-dred delegates, representing 20,000 Illinois coal miners, attended the general miners' conference here, comprising the organized

THE EARTHQUAKE IN GREECE.

Further Details of the Appalling Disas ter in Which Hundreds Parished. LONDON, April 27.-The full details of the loss of life and damage to property caused by the earthquke that occurred in Greece on Friday. Saturday and Sunday last are slow in coming to hand. The Times correspondent who went to the af-

Times correspondent who went to the ar-fected districts, and who is now at Mar-tini, near Atalanta, says: I have visited several villages in this district, and everywhere a scene of ter-rible destruction presents itself. Kiparrible destruction presents itself. Kipar-issa, a small village near Atalanta, was levelled completely to the ground. Close by was the beautiful village of Broskyna, which occupied the most picturesque site in the mountain valley. This place, too, was totally destroyed. Nothing remains of the village save heaps of stons and broken timbers. Forty children of Bros-kyna, whese ages ranged from 8 to 18 rears, were in church at the time the years, were in church at the time the shock that destroyed the village occurred. The church had a stone roof, which fell upon the worshippers below. Twenty-eight of the children were killed and the others were injured. The number of dead

here was forty-three. The scene at Malesina, some eight miles away, was absolutely appalling. This was s large village lying in a deep ravine, which possibly in ancient times was the erater of a volcano. This place was so completely wiped out of existence that in most cases even traces of the house walls have disappeared, they having been swallowed in the chasms that opened in the earth. Some of the bodies of the killed have been recovered from the ruins and buried. If the shock had occurred in Ma-las an hour or two later than it did the whole population would have perished, but at the time most of the infiabitants were out of doors. Many of the survivors were badly nurt. The large village of Martini suffered al-

The targe visage of marries suffered al-most equally, although some of the houses remain standing. None, however, are fit for habitation. The number of dead here is forty-two. As at Broskyna, a number of abilities are threakyna, a number of children were in the parish church when it fell.

To Settle the Union Pacific Debt. WASHINGTON, April 27,-There is much antisfaction in congressional circles over the prospect of a settlement of the Union Pacific debt. Attorney General Olney's plan of settlement is to be presented to the house Pacific roads committee, and the railroad's plan will be presented next Tuesday. In the meantime reports come from Boston, where the annual meeting of the Union Pacific was held on Wednesday, that the government and the road have reached an agreement. The most significant feature of the agreement is that it disposes of the plan for foreclosing the government debt and taking posses sion of the Union Pacific road.

For Church Disestabilshment in Wales London, April 27.-Mr. Henry Asquith the home secretary, introduced the bill for the disestablishment of the church in Wales in Monmouth. The bill provides that the disestablishment is to go into force on Jan. 1. 1896. After that date all rights of patronage are to cease to exist, and all ecclesizatical corporations are to be dissolved. No new Welsh bishops are to sit in the house of lards. The ecclesiastical sours of Walss will no longer have correive jurisdiction, and the convocation

will not have legal power.

To Disarm the Sameans.

AUCRLAND, N. Z., April 27.-Advises from Apia, Samoa, say that the disarma ment of antives by force will be attempted after the arrival of the warships now on their way. Eight of the prisoners recently sentenced to juil for political effences have escaped. They guined the good will of the mative gnurds at the juil. When they left they survive off four stands of arms. It is believed that the recent troubles have sounded the know of the triparte control.

Pulti Was Caught Just in Time.

Lospon, April 27.-The home office has learned that Francis Polti, the anarchist who was arrested while carrying a bom! about wwo weeks ago, had already made about wwo weeks ago, had already made the casing of the bounds with which he and Formara expected to blow up the Steck Exchange. Formars was to throw the bound during the busiest hour. The excention of the plan, it is now certain, was to be delayed only as long as would be re-nuized for the mounfacture of the bomb.

GOOD SENTIMENT.

THE Hon. A. S. Hewitt, in a speechythe sther day before the Daughters of the Revolution in New York, said: Liberty is not the attribute of society. It is not the attribute of a government. It is the attribate of the individual. It has no meaning when divorced from the individual. The first result of individual liberty is she right to acquire property. There is an free government, therefore, which attacks the right of property. If you undermine the foundation of property you undermine the right of individual liberty, and you destroy free government and republican institution.

Now, throughout this land to-day, everywhere we see organizations which are en gaged in an effort-to destroy right of individuals to enjoy the fruits of their seen labor. The right of association is as sucredus any other right; but association with the object of taking away the rights of an individual, secured to him by law is association which attacks the principle of government and would destroy the sepublic. Hence you have a great work before you, not merely in calling atten tion to the underlying principles which provail in that great struggle, and which controlled the framers: of that constitution, but in training up your children and seeing to it that in the educational
