

A Treat.
On Monday evening, April 30th, an illustrated lecture, "A Trip to Europe," will be delivered in the Welsh Baptist church, corner of Oak and West streets, for the benefit of the English Baptist church. The lecturer, Rev. C. H. Woodston, was born in the city of Camden, N. J., April 7, 1866. He was educated at the South Jersey Institute, Bridgeton, N. J., and was ordained in January, 1891, at South River, N. J. He is the pastor of the East Baptist church, Philadelphia, and is in the eighth year of his pastorate. His church has grown from one of the smallest churches in the city to now rank among the first, having 789 members. He has been baptized in all fifteen thousand miles—half around the globe—without accident. His lectures are illustrated by large and highly colored views secured by him from photographs taken on the spot, and are equal to the best now used by the famous lecturers in the country.

STREET WHISPERINGS.
Pungent Paragraphs From an Occasional Contributor.
In conversation with one of the leading lawyers of this town the other evening, our talk drifted upon the enormous fees sometimes paid to the members of that profession, and he cited an instance where a lawyer received a large retainer for the composition of only three words. Every one is familiar with the famous sign of the Reading railroad, "Stop, look and listen," which is placed on grade crossings along its lines, but comparatively few know the real significance of these few brief words. The rule of the roads, from a legal standpoint, is that a teamster or driver must stop, look and listen for an approaching train. Previous to the adoption of this sign, the company used the words, "Beware of the engine and cars," followed by a series of injunctions that no man walking would have patience to read. There were several accidents which brought the company into court, and the opposing counsel claimed that the signs were not clear warning. McLeod went to Judge Paxson, who wrote the admirable sign now in use by that company, "Railroad crossing; stop, look and listen," receiving for this modest composition the sum of \$4,780, a trifle over \$1500 for a word. It can fairly lay claim to being the most expensive composition on record, and shows very forcibly the value of brevity.

Many of the Brotherhood engineers, I am informed by a railroader, are still out of the employ of the Lehigh Valley Company. Some have secured employment on other roads, but a great many, however, are still receiving the monthly stipend allowed them by the organization, and will continue to be cared for until all have secured employment. Up to the present time the Brotherhood has paid out of its funds for this purpose the sum of \$20,000, or in that neighborhood.

A corner loafer—an individual that can be found in almost every community—has just been fined \$30 for insulting an Easton lady. The treatment, at first glance, seems somewhat severe, but it is only a just rebuke, and might be adopted in every town. The loafer, however, is no crime, but the young man—or old man, for that matter—who insists in the practice, and offers insults along with it, should be made to feel the power of the law. This practice is indulged in to such an extent in this town that it is becoming a nuisance, notwithstanding the many references you have made to the same in your columns.

The Board of Health evidently believes that laws and ordinances were made for enforcement and not solely to give the printers work. Repeatedly since it enacted the health regulations the board has given notice that it intended enforcing them, but it seemed that one citizen could not take the hint seriously and he has been obliged to suffer a fine. The act in no doubt feels that the punishment is severe, but the Board of Health is not to blame. It is the duty of every citizen to acquaint himself with the laws governing the borough and if this is not done he who suffers is alone to blame, because a plea of ignorance is not an excuse. The Board of Health is to be complimented on its action, as it has set an excellent example for the other authorities of the borough. If one-half the ordinances were enforced many evils which now lead to costly suits in the courts could be avoided. Let the good work go and the health authorities will ultimately win the praises and good will from all the citizens, even from some who do not seem to fully realize the value of a Board of Health at this time.

A Good Record.
Derangements of the kidneys and liver lead to impoverishment of the blood, from which spring many troublesome maladies that "never get well" of themselves. If you have any such ailments you cannot too speedily seek the aid of a potent medicine, and the safest you can employ is Dr. Kennedy's Favorite Remedy. Its efficacy has been demonstrated by the thousands of cures performed in the practice of its discoverer long before it was put forth as a proprietary medicine. No more deservedly popular medicine was ever offered to the public and none has achieved, by its merit, greater popularity.

J. W. Stone, of Gilberton, has purchased Gibley's hotel at Matzeville.
The friends of Wm. R. Middleton, of Matzeville, are presenting him very hard to work for the nomination for the Legislature. The Republicans in this district can get no stronger man. He is well fitted for the position and his Republicanism cannot be disputed. He has worked hard for the Republican party for 20 years and they should give him the nomination without opposition. He has good executive ability and is the recognized leader in this borough.
George Bevan and Ephraim Lytle visited Mahanoy City on Sunday.
The electric cars did a big business yesterday. All the companies which now is a connection made at Gilberton. The company and Borough Council should come to some terms for the benefit of the traveling public.
