HEADQUARTERS
 REPUBLICAN STATE COMMITTEE,
 Philadelphia, Feb. 24, '94.

To the Republican Electors of Pennsylvania:

I am directed by the Republican State
 Committee to announce that the Republi-
 cans of Pennsylvania, by their duly
 chosen representatives, will meet in
 State convention at Harrisburg, Pa., on
 Wednesday, May 23, at 11 o'clock a. m.,
 for the following purpose, to wit:

For the nomination of candidates re-
 spectively for Governor, Lieutenant-Gov-
 ernor, two members of Congress from the
 state at large, Auditor General, Secretary
 of Internal Affairs, and for the transaction
 of such other business as may be pre-
 sented.

Attention is called to the rule adopted
 at the State Convention of 1883 providing
 for the basis of representation as follows:

Representations in future state conven-
 tions shall be based upon the vote cast at
 the Presidential or gubernatorial election
 immediately preceding, one delegate being
 allotted to each legislative district for
 over 2,000 Republican votes, and an ad-
 ditional delegate for a fraction exceeding
 1,000 votes, each district to have at least
 one delegate.

By order of the Republican State Com.
 B. F. GILKESON, Chairman.

Attest: JERIE B. HENX,
 A. D. FILLEROLF, Secretary.

The representatives to which each dis-
 trict of the county is entitled to is as fol-
 lows:

First district, 1; Second district, 1; Third
 district, 1; Fourth district, 3.

In Australia women are generally em-
 ployed as railway station agents. In
 many of the small stations a woman is in
 sole control, being ticket-seller, telegraph
 operator and baggage mistress. They
 receive about 50 cents a day.

A CINCINNATI man recently presented
 his wife with a piano lamp, which she
 said she would call after him. On asking
 her the reason, she replied: "Well, dear,
 it has a good deal of brass about it, it is
 handsome to look at, it is not remarkably
 brilliant, requires a good deal of attention,
 is sometimes unsteady on its legs, liable
 to explode when half full, flares up occa-
 sionally, is always out at bedtime and is
 bound to smoke."

An exchange says that a rediscovery of
 the mine worked by De Soto and his fol-
 lowers 300 years ago has probably been
 found. W. C. Padgett, a man who operates
 a sawmill in the mountains of Georgia,
 has discovered some relics in the shape of a
 stone mortar and other implements. He
 secured the services of an old mining
 engineer to inspect the place. In one of
 the excavations they found the spur of a
 quartz vein, in which there was a consid-
 erable quantity of gold. The old en-
 gineer said that it was a valuable find,
 and believes it is the exact spot where De
 Soto and his followers located and mined
 for gold and silver 300 years ago.

HEARTS throb with pity at tragedies on
 the stage. How many are touched by
 the real tragedies occurring around them
 almost daily? Such as that near Pitts-
 burg last week, for instance—a girl of 17
 dying by her own hand. A pleasant home
 was found for her in the town of Freedom,
 name of happy argury, and she was on
 the road to better things when a blather-
 ing imbecile, reviving her wretched past,
 drove her away. After that, desperation,
 poison, death. Would she see her father?
 No; nor be buried near her mother, per-
 haps because that would be to desecrate
 that mother's resting place. She would
 sleep her last sleep alone. If she had been
 a boy of 17 her sins might have found her
 out and not have interfered seriously
 with her prospects. A boy can live them
 down. But the girl—the girl of 17, ignor-
 ant, wilful, perhaps—she can hide them
 only in the grave. The blathering im-
 becile who knows of them is delighted to
 tell of them. Will his heart throb with
 pity at this tragedy? Oh, no. It will
 doubtless when he sees a tragedy on the
 stage, where girls die every night for so
 much a week. What a mockery it all is.
 What a mockery life itself is to most of
 us, to be sure, when we have the courage
 to be candid.

COMMANDER DAVID R. PIERCE, Depart-
 ment of New Hampshire, G. A. R., in his
 general orders calling for the observance
 of Memorial Day this year, reminds his
 comrades that ceremonies commemorative
 of heroic deeds and patriotic devotion are
 not peculiar to this generation or country.
 For nearly 600 years the Swiss people have
 held annual memorial services in honor
 of the little band of mountaineers who
 defeated and almost annihilated an Aus-

trian army of 30,000 men under Prince
 Leopold at Morgarten. These memorial
 exercises, furnishing as they do an object
 lesson in patriotism, have contributed
 very largely towards making Switzerland
 what she is to-day, the source whence all
 the world receives its inspiration of loyal
 devotion to country. It was not until
 1898 that the Grand Army began decorat-
 ing the graves of fallen comrades, and
 when, in 1870, Congress stamped this
 practice with its approval, and set apart
 May 30 as Memorial Day, which the Grand
 Army should dock with flowers the graves
 of the nation's defenders, there was a
 universal expression of approbation from
 all loyal and patriotic hearts. Annually
 since that time the Grand Army has faith-
 fully and scrupulously observed this an-
 niversary.

New York's Constitutional Convention.

ALBANY, N. Y., May 8.—The officers of
 the constitutional convention were deter-
 mined last night by the Republican can-
 didates as follows: President, Joseph H.
 Choate of New York; first vice president,
 ex-Lieutenant Governor Thomas C. Al-
 vord; second vice president, W. H. Steele
 of Oswego; secretary, Charles E. Fitch of
 Rochester.

Ambassador Hayard Going to Dublin.

LONDON, May 9.—Hon. Thomas F. Hay-
 ard, the United States ambassador, and
 Mrs. Hayard will leave London on Friday
 next for Dublin in order to spend a few
 days at the castle as the guests of Lord
 Houghton, the lord lieutenant of Ireland.

Fire Causes Business Suspension.

BRIDGE TON, N. J., May 8.—The bottle
 house attached to the works of the Cum-
 berland Glass company was totally de-
 stroyed by fire yesterday. The loss is es-
 timated at \$15,000. A large number of
 hands are thrown out of employment.

Jerry Simpson Not So Well.

WASHINGTON, May 9.—Hon. Jerry Simp-
 son is not so well. He passed a restless
 night and is somewhat weaker. At present
 he is suffering from inflammation of the
 kidneys, and the case stubbornly refuses
 to yield to treatment.

The La Champagne Finited.

NEW YORK, May 8.—The steamer La
 Champagne which went ashore at Fort
 Hamilton was floated last evening after
 her cargo had been lightened. She arrived
 at her pier at 10:30 p. m.

The Retirement of Mayor Haynes.

NEWARK, N. J., May 8.—Mayor-elect
 Lubbenker was sworn into office at noon
 yesterday to succeed Mayor Haynes, who
 had been in office for ten consecutive years.

The Gallatin School Controversy.

EBENSBURG, Pa., May 8.—The taking of
 testimony in the Gallatin school contro-
 versy was concluded this morning, and
 the arguments thereon were finished by
 10 o'clock. No decision is expected before
 the latter part of the week. Yesterday
 fifteen pupils of the school, ranging in age
 from 7 to 21 years, seven of them being
 Protestants, were examined. None of
 them, with the exception of Emma Nech-
 oll, had ever been instructed to address
 the teacher as sister. Some of them had
 seen the Catholic catechism studied dur-
 ing school hours, but always under cover.
 All stated that it was forbidden during
 school hours. Also that they had never
 seen any of the sisters display their hats,
 rosaries or crucifixes in any way that
 they would attract their special attention.

Tragedy on Coney Island.

CONEY ISLAND, May 8.—The second day
 of Brooklyn police supervision over Coney
 Island was marked by a tragedy. In the
 afternoon a man whom no one seemed to
 recognize went to the iron pier and asked
 Captain John Mutrow, keeper of the old
 pier, for permission to fish from the
 structure. As this was against the rules
 of the fish company he refused. The
 stranger became enraged at this and flew
 at the captain, giving him a terrible beat-
 ing. Shortly afterward Mr. Mutrow was
 seized with a hemorrhage from the lungs,
 and before the flow of blood could be
 stayed he died. His assailant escaped.

Imprisoned Tourists Rescued.

GRATZ, May 8.—The detachment of sap-
 pers and miners who were sent to release
 the imprisoned tourists from the stalac-
 tite cave at Lughoch succeeded in forcing
 a narrow passage into the cavern. All the
 tourists were taken out alive. The sur-
 vivors are very much exhausted, but the
 physicians attending them believe that
 they will recover. The men were rescued
 after being in the cavern 300 hours.

Hernandez Will Not be Executed.

CITY OF MEXICO, May 8.—The statement
 recently made that Colonel Neives Her-
 nandez, the Mexican army officer who was
 accused of being implicated in the Garza
 revolution, is to suffer the death penalty
 within the next few days is denied here.
 Colonel Hernandez was sentenced to
 death, but President Diaz commuted his
 sentence to twenty years' imprisonment.

Mrs. Lease for Congress.

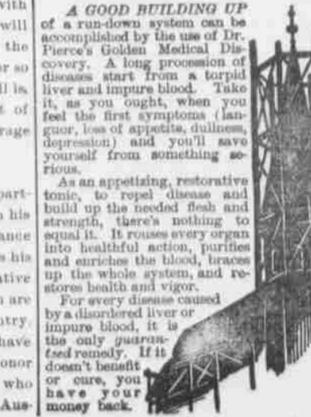

TOPEKA, Kan., May 8.—There was talk
 here of putting Mrs. Lease in nomination
 for congress-at-large, but the Populist
 leaders do not want to turn down Con-
 gressman Harris. They are willing, how-
 ever, to give her the nomination in the
 Seventh district should Jerry Simpson
 not make the race. Mrs. Lease is very
 much in earnest.

A GOOD BUILDING UP

of a run-down system can be
 accomplished by the use of Dr.
 Pierce's Golden Medical Dis-
 coveries. A long procession of
 diseases start from a torpid
 liver and impure blood. Take
 it, as you ought, when you
 feel the first symptoms (languor,
 loss of appetite, dullness,
 depression) and you will save
 yourself from something so-
 rious.

As an appetizing, restorative
 tonic, to repel disease and
 build up the needed flesh and
 strength, there's nothing to
 equal it. It rouses every organ
 into healthful action, purifies
 and enriches the blood, braces
 up the whole system, and re-
 stores health and vigor.

For every disease caused
 by a disordered liver or
 impure blood, it is
 the only guaran-
 teed remedy. If it
 doesn't benefit
 you, or cure, you
 have your
 money back.

SENATE TARIFF BILL.

Sweeping Changes in the Measure
 As It Passed the House.

GENERAL INCREASE IN THE BILL.

There Are Over Four Hundred Amend-
 ments, and in the Schedules the In-
 creases Are Very Marked—The Increase
 in Sugar—A Few of the Changes.

WASHINGTON, May 8.—During the ex-
 ecutive session yesterday Senator Jones
 presented the amendments to the tariff
 bill which have been considered and
 agreed to by the Democratic senators
 known as the compromise committee.
 There are over 400 of them, and it makes a
 new bill, or a measure greatly differing
 from the Wilson bill sent from the senate
 bill in any form in which it has been
 presented. The amendments heretofore
 presented by Senator Vest and reported from
 the finance committee are endorsed by the
 compromise committee. There is a gen-
 eral increase in the bill, and in some sched-
 ules the increases are very marked. Sen-
 ator Harris announced that notwithstanding
 the consideration of the Chinese treaty
 had not been finished that he would op-
 pose any more executive sessions, or the
 passing of any bills during the morning
 hour until after the tariff bill are disposed
 of. He also said that he would now press
 for sessions beginning at 10 o'clock in the
 morning in order that more speed might
 be made.

Among the many changes provided for
 in the amended measure are the follow-
 ing:

The new sugar schedule provides: On
 and after Jan. 1, 1895, there shall be levied,
 collected and paid on all sugars not above
 No. 16 Dutch standard in color, and on all
 tank bottoms, syrups of cane juice or of
 beet juice, melado, concentrated melado,
 concrete and concentrated molasses a duty
 of 40 per centum ad valorem; and upon
 all sugars above No. 16 Dutch standard in
 color there shall be levied, collected and
 paid a duty of 1/2 of 1 cent per pound, in
 addition to the said duty of 40 per centum
 ad valorem; and all sugars, tank bottoms,
 syrups of cane juice or of beet juice, me-
 lada, concentrated melado, concrete or
 concentrated molasses which are imported
 from or are the product of any country
 which at the time the same are exported
 therefrom pays, directly or indirectly, a
 bounty on the export thereof shall pay a
 duty of 10 of 1 cent per pound in addition
 to the foregoing rates; provided, that
 nothing herein contained shall be con-
 strued as to abrogate or in any manner
 impair or affect the provisions of the
 treaty of commercial reciprocity concluded
 between the United States and Hawaii on
 the 30th day of January, 1875, or the pro-
 visions of any act of congress heretofore
 passed for the execution of the same.

On and after Jan. 1, 1895, there shall be
 levied, collected and paid on molasses
 testing 40 degs. or less by the polariscope,
 and containing more than 30 per cent. of
 moisture, and on molasses testing above
 40 degs. and not above 56 degs. polaris-
 cope, a duty of 2 cents per gallon; if test-
 ing above 56 degs. polariscope a duty of 4
 cents per gallon.

A portion of the glass schedule is
 changed so as to read as follows: Green
 and colored, molded or pressed, and flint
 and lime glass bottles holding more than
 one pint, and demijohns and carboys, cov-
 ered or uncovered, and other molded or
 pressed green and colored and flint or
 lime bottle glassware, not specially pro-
 vided for in this act, 1/4 of 1 cent per
 pound.

Green and colored molded and pressed
 and flint and lime glass bottles, and vials
 holding not more than 1/2 of a pint, 1/4 of 1
 cent per pound; if holding less than
 1/2 of a pint, 35 cents per gross, whether
 filled or unfilled, whether contents be
 dutiable or free.

Unpolished cylinder, crown and com-
 mon window glass not exceeding 10 by 15
 inches square, 1 cent per pound; above
 that, and not exceeding 16 by 24 inches
 square, 1 1/2 cents per pound; above that,
 and not exceeding 24 by 36 inches square,
 1 3/4 cents per pound; above that, and not
 exceeding 36 by 48 inches square, 1 1/2 cents
 per pound; all above that, 1 1/4 cents per
 pound.

Provided, that unpolished cylinder,
 crown and common window glass, im-
 ported in boxes, shall contain 50 square
 feet, as nearly as sizes will permit, and
 the duty shall be computed thereon ac-
 cording to the actual weight of the glass.
 Plate glass, 24 by 36 inches, 25 cents per
 square; all plate glass above these dimen-
 sions, 35 cents per square foot. Looking
 glass plates are added to glasses dutiable
 at 10 per cent. ad valorem in addition to
 other rates chargeable thereon.

The pig iron paragraph is amended to
 read as follows: Iron in pigs, iron Kent-
 ledge, spigot-iron, ferromanganese, ferro-
 silicon, wrought and cast scrap iron and
 scrap steel, 40 per ton, but nothing shall
 be deemed scrap iron or scrap steel except
 waste or refuse iron or steel fit only to be
 manufactured.

The boiler plate paragraph is amended
 to read: Boiler and other plate iron or steel
 except saw plates hereinafter provided for,
 not thinner than No. 10 wire gauge,
 sheared or un-sheared, and sheared iron
 or steel, sheared or rolled in grooves, valued
 at 1 cent per pound or less, 1/2 cent per
 lb.; valued above 1 cent and not above
 1 1/2 cents, 6-10 of a cent per pound; not
 above 4 cents per pound, 30 per cent. ad
 valorem; valued at over 4 cents per pound,
 25 per cent. ad valorem; provided that all
 iron or steel thinner than No. 10 wire
 gauge shall pay duty as iron or steel
 sheets.

The tobacco schedule is changed to read:
 Wrapper tobacco, unstemmed, imported
 in any bale, box, package, or in bulk, 15
 per pound; if stemmed 25 per pound.
 Filler tobacco, unstemmed, imported in
 any bale, box, package, or in bulk, 35
 per pound; if stemmed 50 cents per pound.
 Provided, that the term wrapper tobacco,
 whenever used in this act, shall be taken
 to mean the quality of leaf tobacco
 known commonly as wrapper tobacco.

The cigar paragraph is amended to read:
 Cigars, cigarettes, cheroots of all kinds,
 44 per pound and 25 per cent. ad valorem,
 and paper cigars and cigarettes, including
 wrappers, shall be subject to the same
 duties as are herein imposed upon cigars.

Appeal for the Starving.

SAN ANTONIO, Tex., May 8.—Another ap-
 pel to the world for assistance has been
 received here from the suffering people of
 Zapata county. The appeal states the
 starving people have become so desperate
 that a band of twenty of them made a
 raid upon a general store the other day
 for food supplies. The raid was stopped
 by the temporary wants being supplied.
 The drought in that county has lasted for
 four years.

NEW YORK AND JERSEY BRIDGE

Another Bill for Its Construction Passed
 by the House.

WASHINGTON, May 8.—The house began
 business yesterday by making some com-
 mittee provisions for the newly elected
 members of the house. The New York
 and New Jersey bridge bill was passed
 under a suspension of the rules on motion
 of Mr. Dunphy. It meets the objections
 of the president to a pier in the river by
 referring the question to a commission of
 engineers, one to be an engineer officer of
 the army and four to be civil bridge build-
 ers, to be appointed by the president,
 whose duty it shall be to determine the
 question of practicability of building a
 bridge of a single span. A special order
 was adopted making the bills for the erec-
 tion of a new government printing office
 and a new hall of records in Washington
 the business of the house until they are
 disposed of. The printing office bill was
 discussed until 5:07 o'clock, but long be-
 fore that hour the debate degenerated into
 a tariff discussion, and Mr. Milliken de-
 livered an amusing speech arraigning the
 Democratic party for bringing on the
 financial depression from which the coun-
 try has been suffering.

The open session of the senate lasted but
 half an hour, and was devoid of all public
 interest save the introduction by Senator
 Allen, of Nebraska, who is defending
 Coxe and his lieutenants in the police
 court, of a resolution for the appointment
 of a special committee of five senators to
 investigate the alleged clubbing by the
 Washington police of the leaders of the
 Commonwealth last Tuesday. The resolu-
 tion went over. The senate spent six
 hours behind closed doors, and then
 opened them in order to agree to a confer-
 ence on a bill regulating liquor licenses in
 the District of Columbia.

Why Wolcott Was Blackballed.

WASHINGTON, May 8.—The publication
 of the fact that the application of Sen-
 ator Wolcott for membership in the Metro-
 politan club of New York city, was re-
 cently rejected created much gossip at the
 Capitol. Senator Henry Cabot Lodge, of
 Massachusetts, said: "I know nothing
 about it except what I happened to hear
 when I was in New York a few days ago.
 I was then told by members of the club
 that Senator Wolcott had been black-
 balled on account of his attitude on the
 silver question and his pronounced advo-
 cacy of the free coinage of silver." Sen-
 ator Teller corroborated this.

Disasters to the Sealing Fleet.

SAN FRANCISCO, May 8.—The present
 season has been most disastrous to the
 sealing fleet. So far the schooners Mat-
 thew Turner and Mascot, of San Fran-
 cisco, have been reported lost, with all
 hands. The Henry Dennis is said to have
 gone ashore and became a total wreck.
 The Undaunted is a wreck, and the Re-
 triever lost five of her boats and had to
 put into Yokohama. It is feared that
 Captain Snow and two sailors are lost.

Another Globe Girdering Cyclist.

NEW YORK, May 7.—H. H. Hill, of Gen-
 eeva, N. Y., a well known trick bicycle
 rider, and Eugene Peltier, his manager,
 started yesterday on a trip around the
 world. Hill is riding on a unicycle, which
 he will propel at least as far as Chicago.
 They will visit Hawaii, Australia, Japan,
 China, India, Russia, and through Europe
 to Ireland. They expect to be gone two
 years. Hill will give exhibitions at dif-
 ferent points on the trip.

Croker Objects to Drudgery.

NEW YORK, May 8.—A report of Richard
 Croker's resignation caused considerable
 excitement among the politicians. Mr.
 Croker himself, however, said in an inter-
 view that he wished to have it understood
 clearly that he did not mean to retire from
 his place at the head of Tammany Hall.
 All he wants, he says, is to have the com-
 mittees do more work than they have
 been doing, and not rely on him to do all
 the drudgery.

Do not be deceived.

Hood's Never Fails

A Business Man's Experience—
 Cured of Rheumatism.

Mr. T. W. Haus.

A well known business man in Pittsburgh, Pa.,
 writes the letter given below. Mr. Haus is gen-
 eral agent for the Maine granite quarries and
 contractor for cemetery and building work, hav-
 ing an office at No. 708 Penn Avenue.
 "G. I. Hood & Co., Lowell, Mass."
 "Gentlemen—We have a very high opinion of
 both Hood's Sarsaparilla and Hood's Pills at
 our house and with good reason. I have taken
 almost every remedy known for rheumatism,
 and feel justified in saying that Hood's Sarsaparilla
 is the only one that does me any good. I must
 admit I have not taken it steadily, but only
 when the pains of rheumatism came on.
 Hood's Sarsaparilla has

back. We are never without Hood's Sarsaparilla
 and Hood's Pills in our house, and have
 recommended both to dozens of friends. When
 any of my family are taken sick, no matter with
 what disease, the first thing we do is to give
 a Dose of Hood's Pills
 and follow it up with Hood's Sarsaparilla. I
 might write several pages in praise of this ex-
 cellent medicine, but think I have said enough
 to convince." T. W. HAUS, Pittsburgh, Pa.

 the Liberal candidate, was successful.
