A good game of ball was played at Mahanay City park yesterday afternoon, between the Lemonade club, Captain E. John Hagan, and the Millionaires club, captained by Postmaster T. C. O'Connor. The Millionaires met defeat by a score of 12 to 8. The features of the game were Avron Brownmiller's great single-hand catch while playing short, and which put out batsman Britz; Ev. Griffith's neat scoop of a hot liner at second, and "Tommy" Glover's discovery of a fifth base on the diamond. Mr. Glover made a bold dash from first bag to right field, fully believing he was running to second, and when called out for his error, was ready and willing to "do" the umpire. John Shoener, Nugent, of the Millionaires, and Campbell, of the Lemonades, did fine work behind the bat. Nothing passed Sidney Landin at first.

NEW JERSEY LEGISLATURE.

A Bill to Wipe Out the American Protective Association.

THRENTON, May 8.—Mr. Clarke, of Essex, introduced in the house last night a bill against the American Protective Association. It provides that if any person shall combine, unite, confederate, conspire or bind himself by oath, covenant, agreement or alliance with another or others to discriminate against a member or members of any religious sect in the giving of employment, in the exercise of his suffrage, or in business or commerce, he shall be guilty of conspiracy, and shall be fined \$1,000 or imprisoned for one year, or both.

A bill was introduced in the senate by Senator Stokes giving the Pennsylvania and New Jersey Railroad company the right to construct a drawbridge over the Delaware river from Pensaunka creek to Frankfort creek, Philadelphia. A substitute was introduced to the bill reorganizing the judiciary of the state, which changes three of the districts as follows: Morris is placed with Bergen, Hunterdon and Somerset, and Warren with Sussex. The other districts remain the same, except that only one judge is allowed for first class counties. The salaries range from \$7,000 in first class counties to \$4,000 in districts of the smallest population.

The governor sent to the house three votes last night. The first was of the bill which legislates out of office John J. Matthews, superintendent of the school census, and abolishes the office. Another bill vetoed provides for the setting off of a portion of Woodbridge and Harrison townships, Middlesex county, to Union county. He also vetoes the bill which provides for the increase of the appropriation of the sum of \$125,000 for the construction of roads.

The senate passed the bill over the governor's veto which provides for the election of city officials in second class cities by common council.

Burglars Wreck a Store.

LYNN, Mass., May 8.—Shortly before 3 o'clock in the morning a loud explosion awakened occupants of houses in the vicinity of Oxford street. The explosion was in the grain and commission store of Torrence, Vary & Co. When the fire department arrived the store was filled with smoke, and a brick fire was burning. The blaze was extinguished and it was found that the interior of the store had been badly wrecked, the explosion being caused by an attempt by burglars to blow open the safe. On the floor was a complete kit of burglars' tools, a can of gunpowder and some fuse. The burglars were evidently frightened away by the force of the explosion, for they did not stop to secure any plunder. Patrick Lee and David Meara are under arrest on suspicion.

Suit Against a Baseballist.

BALTIMORE, May 8.—Caleb A. Dawley has sued "Tony" Mullane, pitcher for the Baltimore baseball club, and Charles Palmer, of the Oxford House, on the York road, for \$2,000 damages each. Dawley alleges that on Wednesday last he was beaten with a baseball bat by Mullane and with a cane by Palmer, and that Palmer caused him to be taken to the central police station in a patrol wagon. This is the fourth fatal explosion within a year at this factory.

The explosion occurred in a shed where men were at work washing nitro-glycerine. The building was situated in an extensive field, about half a mile from the government gunpowder factory. The explosion set fire to a shed thirty yards distant, in which more nitro-glycerine was stored, and caused a second explosion. Nobody was in or near this shed, and the bulk of the damage was done by the first explosion. Most of the persons injured were struck by falling glass and debris. Their injuries in most cases are slight, only three of them being seriously enough hurt to be taken to the hospital.

Portions of the bodies of the four men killed were found at a great distance from the spot where the shed was located. Mr. Bennie, the chemist in charge of the shed, is among the killed.

Troops were summoned to quell the disturbance, and after a fierce fight, the soldiers using their drawn swords, the rioters were dispersed. Four of the workmen were killed and a hundred wounded.
