HEADQUARTERS REPUBLICAN STATE COMMITTEE, Philadelphia, Feb. 24, '94.

To the Republican Electors of Pennsylvania:

I am directed by the Republican State Committee to announce that the Republican electors of Pennsylvania, by their duly chosen representatives, will meet in State convention at Harrisburg, Pa., on Wednesday, May 23, at 11 o'clock a. m., for the following purpose, to wit:

For the nomination of candidates respectively for Governor, Lieutenant-Governor, two members of Congress from the state at large, Auditor General, Secretary of Internal Affairs, and for the transaction of such other business as may be presented.

Attention is called to the rule adopted at the State Convention of 1893 providing for the basis of representation as follows:

Representations in future state conventions shall be based upon the vote cast at the Presidential or gubernatorial election immediately preceding, one delegate being allotted to each legislative district for over 2,000 Republican votes and an additional delegate for a fraction exceeding 1,000 votes, each district to have at least one delegate.

By order of the Republican State Com. B. F. GILKESON, Chairman.

Attest: J. E. REED, Secretary.

A. D. FILLEROLF, Secretary.

The representatives to which each district of the county is entitled to is as follows:

First district, 1; Second district, 1; Third district, 1; Fourth district, 1.

The wealth in South Carolina averages but \$348 per capita, while that of Ohio is \$1,076. Yet there are people who want the South Carolina idea to rule the whole country.

WHEN we look at what the Tariff-Defenders have made of their own poverty-stricken section, what encouragement is there for committing the destinies of the whole country to their weak and wicked hands?

THERE is no need of overflowing this country with immigrants. There is plenty of land elsewhere for them. South America contains more arable land than North America, and, besides, there are Africa and Australia. Let them go there and build up homes, as we have done.

BRACKENRIDGE, Miss., wants its name changed. Don't blame it. While there are great numbers of private individuals of the highest respectability of that name, yet it will always be associated in the public mind with a Vice-President of the United States who broke his oath, and tried to drag his state into rebellion, and with a Congressman involved in the filthiest private scandal that has ever come to light in the National Capitol.

TWO pennies in the slot machines continues to make trouble. A fresh case has arisen near Flatbush, L. I. It seems an enterprising merchant residing a few yards from a church put up a machine chock full of chewing gum. The children found it out. They could not resist. Recently all the pennies given to the Sunday school children have found their way into the slot machine and the money for the conversion of the heathen, as well as for Sunday school purposes generally, is short, and about ceased, in fact. There is trouble ahead for that machine.

SUNDAY BALL PLAYING.

In a recent issue of the Presbyterian there is a very timely editorial on Sunday ball playing. It says:

"Sunday ball playing is coming to be a serious evil, and one of the rankest forms of Sunday desecration. In the past the various leagues have announced when and where Sunday games would be played, and in some places the public conscience has been stirred sufficiently to have them stopped, but they have been offener resuscitated. This year there seems to be a general determination to afford ample opportunity to the public for all who regard Sunday as a day of amusement and recreation, and we join the Christian at Work in sounding a note of warning and protest. Out of 700 games scheduled by the National League to take place between April 10 and September 30, thirty-six of them are fixed for as many Sundays in different parts of the land. Four of them are to be played at Cincinnati, eleven at Louisville, eleven at Chicago and ten at St. Louis. The Western League presents a still worse showing. Seventy-six Sabbath games are announced by this organization, every one of its clubs being down for from eight to twelve Sunday games. The Eastern League, however, is more regard-

ful for the Sabbath, only two of its eight clubs, the Buffalo and Troy, playing games on Sunday.

Summing the entire count in the different leagues we find one hundred and twenty-eight games announced for the next five months."

It is to their credit that the clubs of Boston, Erie, New York, Binghamton, Springfield, Philadelphia, Wilkes-Barre, Providence, Pittsburg, Syracuse, New Orleans and Mobile refuse to play on Sunday. These exceptions serve to redeem the different leagues from total condemnation and entitle them to honorable mention.

It is unfortunate that the National League was not more regardful of the Sabbath when their schedule was arranged.

Sunday base ball has a tendency to detract from the game as a national pastime and the wonder is that more frequent protests are made against it. Time limit cannot be offered as an excuse. If the season be not long enough the number of games should be reduced. It is gratifying to know that the State League has no Sunday games in its schedule, and this certainly entitles it to more honorable mention than either of the leagues indicated above.

Horsemanship Her Act Son.

PAULSBORO, N. J., May 14.—John Langford, 34 years old, of this place, had his aged mother arrested and brought before a justice of the peace on the charge of assault and battery. She was bound over by the court to keep the peace.

The mother had become enraged at her son because he had sent disrespectful letters to her since she had been confined to her bed through the mails, and when they met she gave him a vigorous horse-whipping.

Bad feeling has existed between mother and son for ten years on account of her marrying a young woman against her wishes. Because of this marriage he lost a fortune of several thousand dollars left by his father.

Pipe Line Tapped and Set on Fire.

ATHENS, Pa., May 14.—The main line of the United States Pipe Line company, running through the forest nine miles from this place, has been tapped and the oil spurting from the hole in a regular fountain has been fired. The man who broke into the pipe line also cut the telegraph line. A large force of men has been ordered to the scene to fight the fire, which is now spouting to the tree tops in a fountain of flame. The United States Pipe Line is an anti-Standard concern. The act is supposed to be in revenge for some real or imaginary grievance.

An Infant Hero.

NIAGARA FALLS, N. Y., May 14.—The heroism of little Willie Ford, burned to death after saving his grandmother's life, is the theme of all praise today. Willie was a mere baby, not yet 8 years old, but he was wise enough to run to the room of his grandmother, Mrs. Peter Muldoon, and warn her of the danger. "Mamma, the house is on fire!" he shouted. She dressed hastily and left the house, but Willie had disappeared, having lost his way in the smoke. Only his charred body could be found.

Arrested for Breach of Promises.

ALLENTOWNS, Pa., May 14.—Dr. Daniel P. Buchmann, a prominent physician in the upper part of Lehigh county, and located in Weisenburg township, came to town, and while watching a circus parade was arrested by Deputy Sheriff Harry Bower, charged with breach of promise by Miss Amelia Fritz, who asks for \$10,000 damages. The arrest created a great sensation, and the case promises to become a Breckinridge-Pollard scandal on a small scale.

More Candidates for Sibيريا.

ST. PETERSBURG, May 14.—Arrests continue to be made as the result of the discovery by the police of the organization known as "The Friends of Political Liberty." One hundred persons, a majority of whom were students, were arrested yesterday on the charge of either being members of the organization or indirectly interested in its work. It is certain that many of the prisoners will be transported to Siberia.

Switchmen in Convention.

EVANSVILLE, Ind., May 14.—The International convention of the Switchmen's Aid Association of North America began its session here today. There are 232 delegates present from every part of the United States. A parade took place this morning prior to the opening of the convention, and was participated in by over a thousand men. The session will be secret, and it is expected will last two weeks.

Another Kansas Lynching.

STRONG CITY, Kan., May 14.—George Rose, the murderer of Assistant Postmaster Carl Kohl, was taken from jail by fifty masked men Saturday midnight. He was taken to a railroad bridge, a rope fastened around his neck and the other end to the bridge, and he was then shoved off. Death was instantaneous.

Two Drowned While Out Hailing.

QUEBEC, May 14.—Four men named Bolvin, La Chance, Devareunes and Blondin, while sailing in a small boat on the St. Charles river yesterday were thrown into the water by a squall. Bolvin and La Chance were drowned.

ALL OVER THE GLOBE.

Dr. Fieger's Pleasant Pellets are known. Pills of American manufacture easily lead. Why? Because they're smaller; they're vegetable extracts; they're concentrated. There are many liver pills, yet there must be a reason why Dr. Fieger's Pellets give the best satisfaction. Probably because they're sugar-coated, small as grains of mustard seed, therefore, easily swallowed. Most of all—they act in a natural way, and are effective in result. Then, too, after they're taken they can't be felt—so different from the old-fashioned pills, with their griping and violence.

For indigestion, pain in stomach, constipation and habitual constipation, as well as sick and bilious headaches, these "Pellets" bring such a lasting cure, that they can be guaranteed. Your money is returned, if they do not give satisfaction.

The stepping-stone to Consumption is Catarrh. It don't pay to let it go, when the makers of Dr. Sage's Remedy will give \$500 if they can't effect a permanent cure of your Catarrh.

HAUNTED BY FLAMES.

Talmage's Brooklyn Tabernacle Again Totally Destroyed.

A BIG HOTEL ALSO WIPED OUT.

The Fire Spread to Adjoining Buildings, and the Total Loss Will Reach Nearly Two Million Dollars—The Catastrophe Undoubtedly Caused by Electric Wires.

BROOKLYN, May 14.—"Talmage's Tabernacle burned down," is an old story in Brooklyn. Three times has it been told to the world, and just at present it is a question if there will ever be another "Talmage's Tabernacle" in Brooklyn, though pledges of assistance have already been made since the structure was destroyed at noon yesterday. This edifice, the fourth in which the doctor has preached in Brooklyn, was situated on the northerly side of Greene avenue, and extended from Clinton avenue on the west to Waverly avenue, 200 feet away. Adjoining the church was the Hotel Regent, eight stories in height, with a frontage of 90 feet on Clinton avenue and extending back 390 feet to Waverly avenue. The fire spread from the Tabernacle to this hotel, and then to the dwelling houses on Greene avenue and Waverly avenue opposite the church. Both the Tabernacle and hotel were totally destroyed. The wind carried the blazing clinders in such quantities in a southerly direction that dwelling houses on Washington avenue, two squares away, and also the Summerfield Methodist church were set on fire by them, but the greatest loss on any of these structures did not exceed \$15,000. The total loss, however, reaches nearly \$2,000,000.

When informed of the fire Dr. Talmage commanded the few people remaining in the church, and they lost no time obeying the command. Two of the trustees, who were in their room in the tower, were overcome by smoke and had to be carried out. Within ten minutes after the first alarm had been given the church was doomed and the flames had extended to the Hotel Regent, which was soon beyond control of the firemen.

There were not wanting dramatic incidents during the day. From the fifth floor of the hotel Mrs. Loomis, one of the guests, and her newly born babe had to be carried down the fire escape to the streets. Mother and child were removed to the Seney hospital, where they are said to be in no danger. Just as Mrs. Loomis had been rescued from what might have been a horrible death a woman appeared at a window on the eighth floor, frantically shrieking and waving her hands to the horror-stricken crowd below. In less time than it takes to write it, however, the woman, who turned out to be the assistant house-keeper, Mrs. Keene, was brought down the fire escape in safety. Almost immediately after this a man, who proved to be President Bogardus, of one of the Brooklyn street railroads, carried out his own trunk and deposited it on the sidewalk. George McCoy, another boarder, went back after some valuable papers, against the protests of friends, but came out successful. Fireman Gaffney had an epileptic fit from heat prostration, and two other firemen were prostrated.

The trustees of the Tabernacle met last night and decided to rebuild, but not on the same site. The insurance, the receipts and the money realized from the sale of the present site would enable them to pay off all their debts. Then, according to the plan, they would raise \$200,000, and within a year would begin to build. About \$70,000, it is thought, would be sufficient to pay for a site, and a less expensive building would be erected. It was decided that Dr. Talmage's tour around the world should begin tonight, as arranged. He will start in the evening for Philadelphia and proceed from there to Atlanta, Ga. After visiting some southern cities he will go to San Francisco, and sail from there to Honolulu, going afterward to New Zealand, Australia, India, Spain, England and other foreign countries.

Dr. Talmage held quite a reception at his home, No. 1 South Oxford street, during the afternoon, so great was the stream of sympathizers who called, among them Rev. Tunis S. Hamlin, of Washington. He had preached the dedication sermon of the building then burning some three years ago, and when he grasped the hand of Dr. Talmage he said:

"Doctor, you have my deepest sympathy; but you should not be so fiery."

The two men clasped hands for a moment, and then Dr. Talmage replied:

"It is a blessing that only the building is gone; the work will continue, and we can all thank God that no life or limb is injured."

Dr. Talmage made a graphic statement of the incidents connected with the fire. He said:

"At the close of the church service I was standing at the foot of the pulpit shaking hands with hundreds of people from all lands. I was about through and walked toward the center of the church, where my wife stood, when she called my attention to the springing out from the top of the organ. I saw at once that it was under full headway, and my first impulse was to look around and see how many people were in the house, and to my great joy there were only about twenty people, and with twenty-five doors to get out through, I felt that they would escape. I then went into my study, back of the platform, passing under the blazing piping, to get my hat and coat, and with which I soon returned.

"There is mercy on top of the disaster. If it had occurred half an hour before it would have been the calamity of the century. The church and all the rooms adjoining were packed with people, and the people would have left the whole scene one of indescribable horror. Or if it had occurred two or three hours later, when the Sunday school was in session, there would have been a thousand households bereft."

"Personally I feel not the least disappointment, none the less faith in God nor loss of hope for the future. This long procession of disasters is inexplicable—like what occurs sometimes in a family, four or five dying from scarlet fever—it is inexplicable; we must simply accept the fact. Our church has been burned three times, and it has always occurred on a Sunday. It is a mystery that I adjourn till the next world shall let me know."

When asked for his own opinion as to the cause of the fire, he said emphatically:

"Electric light! Electricity caused this fire, as it did that of the last Tabernacle on Schermerhorn street. It was some mis-arrangement of the electric wires that set this fire, which is only partially harnessed. It is one of the greatest agents of beneficence and power in the future, but just now it has its bits in its mouth and almost beyond our control. Electricity was undoubtedly the cause of the fire."

THE STRIKE AT PULLMAN

The Strikers Will Not Attempt to Prevent Others from Working.

CHICAGO, May 14.—An occasional visitor to Pullman yesterday would not have believed that the employes of one of the largest industries in the world were out on strike. The men accepted the advice given them to either attend church service or remain indoors, and very few of the strikers were to be seen on the streets.

The shopkeepers in the Arcade who heretofore allowed the men almost unlimited credit now demand cash for the necessities of life. It is the same in Kennington, and here the effect of the strike is more noticeable than even in Pullman. The most serious question which is agitating the minds of the men is, "Where is the financial assistance coming from?" They argue rightly that the American Railway union cannot assist the men, yet, for the great majority of them have only joined the union during the past week.

"Another serious phase of the situation is, "Will Mr. Pullman allow the men to occupy his houses without paying rent?" Mr. Parent, assistant manager of the works, expresses himself rather freely on this question, and says that he is confident that the men must either pay rent or be put out.

The officers of the company are prepared for a long seige, they say, and have over 300 cars in the shops that are ready for use at a moment's notice, and the much mooted idea that the committee of strikers can tie up the company's cars on the railroad lines is received with ridicule.

"We cannot help but win this strike," says Mr. Bender, one of the committee. "Mr. Pullman will be compelled to come to our terms. It is nonsense on his part to say that the American Railway union cannot tie up the Pullman cars. We can do so, but we will only take this step as a last resort."

"Will the men allow any others to take their places at the works without any interference on your part?" was asked.

"Most decidedly," replied Mr. Bender.

"Mr. Pullman can employ any one he likes, and before we will tolerate any violence from any of the men we will swear in 2,000 men to protect the works."

A Hundred Injured in a Fire Panic.

BRAZDORF, Pa., May 14.—The barrel house at Emery's refinery in this city took fire, presumably by spontaneous combustion, and was destroyed. The loading racks and five oil tank cars standing on a side track of the Buffalo, Rochester and Pittsburgh road were also burned. While thousands of people were watching the firemen a tank car holding 4,100 gallons of benzine let go with a mighty roar. Fortunately the burning benzine which was flung into the air in sheets of liquid fire had consumed itself before settling down over the crowd. The explosion was followed by a panic, and in the stampede men as well as women and children were thrown down and trodden over by the fleeing masses. Thirty-five firemen were so badly so that the skin peeled off their faces and hands, and the hair was singed off their heads and faces. The total number burned and injured in the stampede will probably reach a hundred persons, but the property loss will not exceed \$2,000.

Suicide to Escape Arrest.

NEW YORK, May 14.—The examination of Under Sheriff Pugsley, of Westchester county, was postponed yesterday until today. Pugsley was admitted in \$2,000 bail furnished by Sheriff Duffy, of Westchester county. On Friday night last, Pugsley attempted to arrest in this city Joseph Schnellback, who shot Mrs. Schelling in Westchester county last Tuesday. Pugsley drew his revolver and fired a shot at the same time Schnellback did. Schnellback was killed. An autopsy showed that Schnellback was shot by a bullet from his own revolver, and not by one from the weapon of Pugsley. It is believed the man committed suicide to escape arrest.

General Dechert's Death.

PHILADELPHIA, May 14.—Robert P. Dechert, brigadier general of the First brigade, National Guard of Pennsylvania, and ex-city controller of Philadelphia, died at the home of his brother, Henry M. Dechert, 3014 Walnut street, after a long illness.

General Dechert's death was caused by a complication of diseases, chiefly of the stomach and the liver, and for twenty-four hours before he expired he was unconscious. General Dechert was 62 years old. He had a brilliant war record, enlisting when 19 years old and serving throughout the war.

Resigned to Avert a Scandal.

LOSOS, May 14.—It is officially announced that the Right Hon. A. J. Mundella, president of the board of trade, has resigned. Mr. Mundella, Sir John Gorst and Sir James Ferguson were recently summoned to appear before the queen's bench division of the high court of justice for examination as to the affairs of the defunct New Zealand Land company, of which they had been directors, and it is undoubtedly this fact that led to Mr. Mundella's resignation.

A Lovelock Boy's Suicide.

FINDLAY, O., May 14.—Paul Ewing, aged 15, son of Dr. M. J. Ewing, of this city, suicided yesterday by taking forty grains of morphia. He was in love with a young girl, who would not reciprocate his affections and ended his troubles. Before losing consciousness he informed his parents that two other boys had agreed with him to do the same act. The others failed to do so, however, and say they were only joking, but they are now prostrated at the result.

An Alleged Dynamiter Arrested.

PARIS, May 14.—A valet named Tournemere has been arrested on suspicion of being the author of the bomb explosion that occurred Friday night at No. 42 Avenue Kieber, the residence of Pierre Masson. He had been under the surveillance of the police for a long time, it being thought that he was an anarchist.

NUGGETS OF NEWS

Yesterday was an extremely quiet day in the Connellsville coke region.

Richard McCarthy, ex-assistant city clerk of Long Island City, is under arrest charged with beating his wife to death.

Wyatt Tate, a Monroe county (Ky.) negro desperado, burglar and murderer, was shot dead by Murdoch Fountain, a young farmer.

Striking coal miners at Sopris, Colo., threaten to destroy a railroad bridge near that place, and it is guarded by United States marshals.

S. J. Walling, ex-president of the City National bank of Brownwood, Tex., charged with embezzlement, was acquitted by the jury.

In a fight over a watch at Chicago William J. Haddox (colored) was killed by William Ellington (white), and the latter fatally hurt. Haddox was the aggressor.

All Run Down

Always Tired, Sleepless and Without Appetite

Blood Vitalized and Strength Renewed by Hood's Sarsaparilla.

"C. I. Hood & Co., Lowell, Mass."

"For a couple of years, I was subject to feelings anything but good. I always felt tired, I could not sleep at night and the little I could eat did not seem to benefit me any."

I did not have any ambition to go around or work and in fact was not able to do a good day's work. I happened to pick up a circular embracing advertisements and testimonials for Hood's Sarsaparilla, and after reading them I decided to give Hood's Sarsaparilla a trial. I have taken five bottles and must say that I have derived wonderful benefit from it and feel like a new man."

I would recommend it to all sufferers and would urge them not to hesitate but to decide at once to take Hood's Sarsaparilla."

The White House Deserted.

WASHINGTON, May 14.—President Cleveland, accompanied by Secretaries Gresham and Carlisle, left Washington on a fishing trip Saturday night. They will go to the North Carolina coast before returning, and the trip will last a week. Mrs. Cleveland left this city last evening with her two young daughters for Buffalo, N. Y., where she will make a brief visit with her mother.

The Cost of Revolution.

BUNES AVRES, May 14.—In his message to congress, delivered upon the reassembling of that body, President Saenz Pena announced that a bill would be introduced that would definitely settle the railway guarantee question. The president further said that the present treasury reserve amounts to \$26,000,000 in cash. The last revolution has cost \$6,000,000.

Fatal Explosion on a Warehouse.

EDINBURGH, May 14.—By the explosion of a charge of powder on the cruiser Galea, while in the Firth of Forth, Gun Inspector Lawrence had his head blown to pieces, and Instructor Whitehead had his arm torn off. Two other members of the crew were somewhat hurt.

Big Planing Mill Destroyed by Fire.

PHILADELPHIA, May 14.—The sash and planing mill of John Parkes, Twenty-sixth and Pitwater, was totally destroyed by fire yesterday, entailing a loss of \$60,000. Tramps are suspected of starting the flames. Two firemen were slightly injured.
