

There's hardly a housekeeper in the country but has heard of Cottolene the new vegetable shortening. It is a strictly natural product; composed only of clarified cotton seed oil, thickened for convenience in use, with refined beef suet, pure and sweet. So composed.

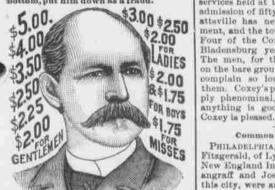

Was bound to win, and to drive out lard from the kitchens of the world. When housekeepers wish to get rid of the unpleasant features and results of lard, they should get Cottolene, taking care that they are not given cheap imitations with vegetable names, spuriously compounded to sell in the place of Cottolene.

It's easy to avoid disappointment and ensure satisfaction. Insist on having Cottolene.

CAUTION.--If a dealer offers W. L. houghas Shoes at a reduced price, or says e has them without name stamped on ottom, put him down is a fraud. Douglas Sho

YACHTING AT ATLANTIC CITY.

Famous Summer Besort.

ATLANTIC CITT, May 14.—The sacend ancy which yachting as a sport has ar-tained of recent days is something amaz-ing in rapid development. It has taken the full on in its fullest sense the nature of a fad. To be in the swim under the new order of things one must necessarily provide him-self with a boat, and attach himself to one of the several boat clubs. There are races scheduled and races rumored galare that will keep all who have interest in the sport in a state of estatic pleasure after next month. The impetus which this kind of amusement has received is due to

improvements in the way of causis lead-ing from the inlet, the Eden of the yachting clientels, and the increase of accom modations in the shape of landings. The fever to possess a craft of the type In vogue is not confined, as would be sup-posed, altogether to the male element, but the ladies have shown a remarkable taste to participate in the aquatic amusement, and several of them are in possession of

toats. To own a private yacht in At-lantic City used not frighten any one as to expense. The boats are not of the size to play the elephant trick nor is the first cost so large as to place the luxthe beyond reach of the average visitor, and admission is readily accessible to any of the three leading ynching associations, the Corinthians, Mosquiton and Cricket fleets, Commodure Harry Wootton, of the Constraints. Corinthians, who is a young local at-torney, said that an outfit, consisting of a boat and a pair of sails, can be had for \$100. He is enthusinatic over the atrides yachting as a sport is making to the front,

and expresses the opinon that the coming summer will witness yacht racing one of the principal annusements.

Waiting for the Decision of the Republican Senators' Caucus.

THE OPPOSITION TO FILIBUSTERING

A Large Number of Republican Senators Together with Older Eastern Senators, Will Oppose Tactics Intended Only to Delay a Vote on the Amended Tariff Hill.

WASHINGTON, May 14 .- The course of the proceedings in the senate this week will probably depend largely upon the re-sult of the Hepublican caucus to be held suit of the hepathican calcus to be held tonight. The Democrats are hopeful that the cancus will decide upon treating the tariff in what they consider "a business-like" maner, and letting the bill proceed upon its course without as much speech making and without the effort at delay which has been displayed by some of the Republican senators so far in the debate. There is unguestionably a large ele-ment on the Republican side of the senate chamber opposed to any course which smacks in the least of filibustering. This element includes a large number of sen-ators from the west, and also a sprinkling of the older eastern senators, who fee that they have a record to sustain against dilatory factics. The younger New England Republican senators are, however, almost a unit in favor of continuing the fight upon the lines which have been pursuch up to this time. They contend that no dilatory tactics have yet been resorted to, and that none are necessary, and they will make a strong plea in caucus to con-tinue the program heretofors pursued in

discussing the bill. If the conservative element in the Republican ranks wins in the cancus the present agreement as to hours for debate will probably be observed. If the opposite party carries the day the Democrats will most likely renew their effort to extend the hours and to force the fighting. Senator Harris said today that in case there were many more calls for a quorum from the Republican side, or if long speeches be continued, he would renew his 10 o'clock motion, but he did not wish to do this as long as there was any possibility of hold-ing the debate within legitimate bounds.

Upon the decision of the caucus will, therefore, depend whether the debate shall proceed in a comparatively orderly man-ner and the bill be disposed of with some dispatch or whether there shall be a general scramble over hours for debale, and with these changed a resort on the part of the Republicans to all the devices which this would permit to force the Democrats from their course, if not to delay the con-sideration of the bill.

sideration of the bill. Senator Aldrich said today that he ex-pected the proceedings this week to be very much on the order of those of last week. He did not believe there would be week. He do not being the hours, and he thought the entire week would be devoted to the chemical schedule, of which only seven paragraphs out of the seventy-five contained in it have been disposed of. Appropriation bills will continue to have the attention of the house during the week unless the state bank element succeeds in its efforts to have the Brawley bill taken up Wednesday.

### The Great Mine Conference.

CLEVELAND, May 14.-About a hundred coal miners who are to attend the conference to be held here today in advance of ence to be held here today in advance of the meeting with the operators tomorrow have thus far arrived in the city. President McBride also arrived this morning. Not a single operator has yet arrived, and it is impossible to hear hear town or a single operator has not a single o impossible to learn how many are expected. At one hotel twenty rooms have been reserved for operators, but that is the only place where quarters have been se-cured. The miners seem to regret the fact that more of them could not attend the conference, but they say that they have been out of work so long they have no money with which to pay railroad fare and hotel bills.
