A PROPER STEP.

The Shenoy Hill Traction Company offers a reward of \$200 for information that will lead to the arrest and conviction of the person or persons who placed the obstruction on its St. Nicholas road and caused the death of a motorman and serious injury to two other persons. The company will spare neither efforts or money to bring the guilty party to justice and it is hoped the residents of St. Nicholas and vicinity will aid the company, for the crime was nothing less than murder and murder cannot be tolerated in any civil community.

A plea that the party who placed the obstruction on the rail did not realize the awful possibilities of the act should not be considered. It is no excuse and the guilty one should be made an example for others.

The placing of obstructions upon a railroad is inexcusable under any circumstances and we are sorry to say that in this particular case the circumstances seem to indicate that the act was prompted by a vindictive spirit. The place at which the accident occurred and the manner in which the obstruction was placed show that some second hand is responsible for the death of Motorman John Welsh, and he should not be allowed to escape.

If the act was due to a desire for revenge it was as cowardly as it was criminal, and in the latter sense it was the vilest act of which man can be guilty of, for it was not only aimed toward the bodies of a score of innocent people, but so planned as to place upon the Traction Company responsibility for the loss of human life when in fact the company was not in the slightest way accountable.

The scoundrel who did the work has succeeded thus far in covering up his tracks, but through the agency of his own conscience, if he has one, or some other manner, the murder will out; and we hope that when the guilty one is apprehended that time will not have been wasted in the punishment he so richly deserves.

It is said there is partiality shown in some of our schools by certain teachers, and that the children of school directors are granted more liberties than the other pupils. When the boomer fits can wear it. And you can bet it fits.—Sunday News.

It will be interesting to note the course Superintendent Whitaker will take on the above complaint. When the HERALD called attention to a case where a child had suffered from an injudicious act the Superintendent got into quite a stew over the matter and attributed the complaint to "some motive." He was backed in his scores by the News. The charge made above is a direct one upon certain school teachers and we will patiently wait and see how far Mr. Whitaker will go in the matter.

SENATOR MILLS says of the present tariff bill that there is very little margin between the protection afforded by it and the McKinley bill, but that he would vote for the former if it contained but a 5-cent reduction of taxation. And to think that to get to this point the American people have suffered already a loss of more than a thousand millions of dollars, and a prospect of losing as much more before the Democratic fool tariff tinkering begins.

A NEW JERSEY girl of sweet 16 who ran away from home because her mother whipped her is not content to return on the simple ground that all will be forgiven. She insists that her parents shall make an affidavit previous to her return that they will refrain from beating her in the future. This is stronger ground in favor of a girl's rights than any daughter of the Republic had previously taken.

COMPETITION in storage rates between Europe and the United States is another invitation to foreigners to make the United States their home. If it would have the effect of encouraging the better class of immigrants the reduction in rates could be regarded with approval, but such is not likely to be the result, for according to the latest information a large number of the better disposed foreigners already

here contemplate a return to their native countries because of the discomforts and privations enforced upon them as the natural result of the largely prevailing strikes. They think they can do better in their old homes. If a like sentiment prevailed among the turbulent who are investigating and participating in the lawless doings in the coal regions, it would be a blessing, but they have not thus far manifested a disposition to leave us.

A GENIUS has just invented an engine that consumes its own smoke. This is without a doubt a clever invention, but what is mostly needed is an invention to catch the smoke of the cigarette smoking dude, who persists in blowing the same in your face. Such an invention would be a blessing and a great favor conferred on a suffering native.

THE movement to increase newspaper postage from one to eight cents a pound is a tax on public education which is not justified either upon the score of economy or of any other plea. There is no one cause that has contributed more to the wide diffusion of public knowledge than cheap postage.

ONE of the most dangerous practices, and one that is bound to result disastrously, sooner or later, is of boys that jump on moving coal and freight trains. Almost nightly a number of these boys make it a practice to jump on moving coal and freight trains.

THE suicide of Joseph M. Gilek was a most lamentable affair. In his death Girardville lost one of its most respected and enterprising citizens and the Republican party one of its firmest, energetic and zealous workers.

MURDER BY WHOLESALE.

A Wealthy California Rancher Charged with Killing Nine Persons.

YREKA, Cal., May 15.—The grand jury has brought in indictments accusing G. Decker, a wealthy rancher, of the murder of his wife, Margaret E. Decker, and her babe, twenty-seven years ago, and Rosie Stone, a granddaughter, about eight years ago.

Besides these murders he is charged with other foul and unnatural crimes, committed at various times during the last thirty years. Several of these murders are susceptible of proof, others are based on suspicion, more or less well founded, though in some cases it amounts to moral certainty. Besides the three named the list comprises Edward Stone, who was Decker's second wife's son-in-law; Benjamin Decker's son; Caroline Goodrich Decker, his second wife; a 4-year-old son of Edward Stone; a hired man in Sacramento valley, name unknown, and a man in Illinois, name unknown.

Decker killed his first wife and child in 1867, literally butchering them, and burying their bones on the top of a high ridge. Their discovery a short time ago crystallized the belief prevalent for some time that he was guilty of many atrocities, and led to his arrest. After his first wife's death he married a widow named Goodrich, and lived with her over twenty years, and is believed to have gotten rid of her finally in 1890 by poison. He disposed of one child, who bothered him, in 1895. The murder in Illinois is said to have been committed before he came west, and the one in Sacramento valley after his arrival. His victims were killed because they stood in the way of the gratification of his desires, or knew of his crimes.

Fell Sixty Feet to Death.

NIAGARA FALLS, Ont., May 15.—A frightful accident occurred at the bank of the gorge here. Two boys, Fred Ellis, 14 years old, and George Cole, were playing near what is known as Hubbard's point, about opposite the mill districts of the American side. Young Ellis was on the edge of the bank leaning over, and to support himself, placed his weight on the limb of a small tree that projected over the dizzy height. The limb broke, precipitating the lad headlong down the slope for a distance of about sixty feet. He struck on a rock, crushing his skull into a jelly. The body rolled down the slope fully a hundred feet before caught. Death was instantaneous.

A Rotten Banking Institution.

NEW BLOOMFIELD, Pa., May 15.—Frederick C. Funk, who was appointed to examine into the affairs of the rotten Per County bank of Spouster, Junkin & Co. has made public his report, showing that the institution has been rotten for twenty years, being kept afloat during that time by perjury and false statements to state authorities. The liabilities are \$100,000, and the \$110,000 due depositors is entirely lost.

Robbed by Forged Checks.

BELAIR, Md., May 15.—The Hartford National bank of Belair, has been victimized out of \$3,700 by a stranger, who claimed to be from Connecticut. The stranger, who arranged to buy a farm at Priestford Bridge for \$2,500, used forged checks in victimizing the bank. His name, which was probably assumed, is withheld for prudential reasons.

A LONG STRING of diseases follows a "run-down" system when the liver is inactive and the blood in disorder. Look out for "breakers ahead" by putting the liver and blood in healthy condition. You've only to turn to the right remedy to make yourself secure from disease. Dr. Pierce's Golden Medical Discovery prevents as well as cures. Take it, as you ought, when you feel the first symptoms (langour, loss of appetite, dullness, depression) and you'll save yourself from something serious. In recovering from "La Grippe," or in convalescence from pneumonia, fever, or other wasting diseases, nothing can equal it to build up needed flesh and strength. It's a blood-purifier that has stood the test of time; for a quarter of a century the "Discovery" has numbered its cures by the thousands. The manufacturers prove their faith in it by guaranteeing it for all disorders arising from bad blood: in Scrofula, Eczema, Tetter, Salt-rheum, Erysipelas, Boils, Carbuncles, and every kindred ailment. If you receive no benefit you'll get your money back. What offer could be fairer?

BROOKLYN HANDICAP.

Final Runs of the Horses Preceding the Great Event.

SPEEDY ONES TO SELECT FROM.

Warrants Sworn Out Against the Officers of the Club for Maintaining a Lottery, and Arrests Probable—But This Will Not Prevent the Race.

NEW YORK, May 15.—Almost as many people as were at the track Sunday were on hand yesterday to watch the last appearances of the horses engaged in the Brooklyn handicap, to be run at Gravesend this afternoon.

The list of probable starters, as far as can be learned this forenoon, is as follows: Clifford, Str. Walter, Ajax, Banquet, Don Alonso, Sport, Diablo, Basselaw, Dr. Rice, Comanche, Lowlander, Blitzen, Copyright, Henry of Navarre, Herald, Marshall, Long Beach. Among these Don Alonso, Copyright and Diablo are most likely to scratch.

Clifford did the best work yesterday, for he covered a mile in good style in 1:44, and seemed to move with more freedom than he has shown since his arrival in the east. He is pretty safe to go to the post a favorite, although it will be with the public money, as the trainers and those who practically live at the tracks are not in favor of this western representative. It was thought by many that he looked a trifle tucked up and did not sweat as a horse in good condition should after a gallop of that nature. His chances ought to be good, however, for he has had the advantage of racing this year, which none of the others have, while against that is the fact that he has come here a little later than he should.

Ajax was out with Garrison in the saddle, and worked a mile in 1:51, the last furlong taking 12 1/2 seconds.

Banquet and Don Alonso galloped two miles at a two minute gait, and both may be seen at the post, but the latter is not considered likely to be much more than a pace-maker for Banquet unless he has changed materially from his condition on Sunday.

Sport had his last exercise on the road to Bayonne. His owners are still hoping that he will make up his mind to run when he gets to the post with the lot, and that he will repeat his work of last spring, when he defeated some of the horses who are with him today. Sport, however, is an eccentric animal and may not even be persuaded to try.

Diablo was out with Pessara, and last year's winner moved well, although he was not tried to any extent. He does not appear to be at all lame, but he will not have the services of Taral this year to rate him along at a comfortable pace and then, seizing the opportunity, jump into the lead at a time when it is too late to catch him. His victory a year ago is looked on as a good deal of a fluke, and few expect to see it repeated.

Basselaw was out for an easy gallop, but did not show up as well as was expected, and while Matt Allen thinks that he will get the biggest part of the money fee agrees with him.

Dr. Rice was at the track for a quiet canter and then went back to Sheephead Bay for the breather of a mile, which he did in good shape. Taral is confident of a winning, and thinks that he has the best of the lot to ride.

Comanche was worked a mile and a half at an easy clip, and McLaughlin thinks the winner will be munching oats in his stable tonight.

Lowlander, the winner of last year's Suburban, went for a gallop over the same route as Sport, and while his work of Sunday was by no means satisfactory to Lowe, the horse is expected to do better in the race.

Blitzen got a breather, but his owner is hoping for rain as the only chance for him. Copyright did a mile in 1:50, and seemed to be a little short of work. Herald went a mile at a little better than a two minute clip, and Long Beach did the same thing. The former will be backed to a man by the Monmouth Park contingent.

Henry of Navarre was not out, his owner being content with his work of Saturday. Navarre still holds the favorite with a good many judges.

DeLacey is bound to make trouble if he can't get a start, and warrants against him have been sworn out.

Presbyterian General Assembly. SARATOGA, N. Y., May 15.—The general assembly of the Presbyterian church of the north opened here this morning and will continue for four days. It is the eighteenth annual meeting, and unlike the Albany synod two years ago, at which the Briggs element was in the ascendancy, this convention will be anti-Briggs in the ratio of about four to one. The lines in the convention will be nearly all drawn on this issue, and a test of the strength of the factions will be made when a moderator is elected on Thursday.

Battle in the Sudan. TRIPOLI, May 15.—A battle between the Turcomans and the Tibboos has taken place near Kavar, central Sudan. The Tibboos lost seventy men killed, and a large number of their forces were wounded. The Turcomans then entered Kavar, capturing 600 camels and pillaging the town.

A Verdict for Letter Carriers. WASHINGTON, May 15.—The court of claims found judgments in favor of 106 letter carriers in Brooklyn for time served in excess of eight hours a day—eleven in Philadelphia and seven in New York city.

Seven Sailors Drowned. BUENOS AIRES, May 15.—The steamer Thyra has been sunk after collision with the Italian steamer Remo, near San Pedro. Seven members of the crew were drowned.

VETOED BY GOVERNOR WERTS.

New Jersey Executive Sends Back Eight Unpassed Measures.

TRENTON, May 15.—The nineteenth week of the legislative session opened last night with a lot of vetoes to consider from Governor Werts, who was too ill to attend to his duties last week.

One of the vetoes is attached to senate bill 92, which takes the appointment of bond supervisors, under the stone road law, from the governor and vests it in the various boards of freeholders, and reduces the compensation to \$8 per day. He thinks the appointing power should be transferred to the president of the state board of agriculture, if any change is made.

Another of the vetoed bills is that which gives the sheriffs of Hudson and Essex counties charge of the jails and prisoners. The governor says that the boards of freeholders have had this control for thirty-seven years, and in that period the wisdom of the provision has been demonstrated. The proposed change, he says, is for purely partisan purposes.

The governor also objects to the bill providing for a non-partisan board of state prison inspectors, upon the ground that a declaration requiring membership in certain political parties, as a necessary qualification to holding the office of inspector, or any other office, is unconstitutional, in that such a provision would disqualify the members of all other parties.

Another veto applies to the bill for reorganizing the police courts in Newark and Jersey City, on the ground that it is mere partisan legislation, and that the courts provided for to replace the old ones would be no improvement.

Other bills vetoed are as follows: Reorganizing the law department of Jersey City; allowing the mayors of Newark and Jersey City to appoint commissioners to change the ward lines; reorganizing the boards of chosen freeholders in counties of the first class. All are objected to because the governor thinks they are designed for partisan purposes in obtaining control of office.

The bill annexing the towns of Harrison and Kearney in Hudson county, to Essex county, is objected to by the governor because the principle asserted of severing county relations, without giving the municipality affected a chance to express their views, is hereby, rather than home rule.

The senate passed the bill, after vigorous discussion, which prevents the sale of liquor in quantities of less than two and a half gallons from wagons.

Shot and Robbed by Her Lover. JERSEY CITY, May 15.—Jennie Rupp, a young German woman, was found lying on an unfrequented road near Snake Hill with blood flowing from pistol wounds in her right ear and left breast. She was unconscious when found, but soon rallied sufficiently to tell her story. She has been employed for ten years at Rome, N. Y., and eloped from there with Bernhard Attenberger, a 22-year-old German, and her accepted lover, on Sunday. She says he induced her to walk with him to the place where she was found, and then shot her. She was robbed of everything of value, including \$35 in money and a gold watch and chain.

Officer Harvey Avenged. AUBURN, N. Y., May 15.—Lucius, alias "Pink," Wilson, was put to death by electricity in Auburn prison yesterday. Wilson's crime was the killing of James Harvey, the oldest and best-known officer on the Syracuse police force, on July 31, 1893. Harvey had arrested Wilson and the latter's brother Charles for a burglary and was taking the two men through the street to police headquarters when one of the men drew a revolver and shot the detective dead. Lucius was captured directly after the shooting, but Charles was not caught until two weeks later. The latter is awaiting trial at Syracuse.

Dying from Remorse. CINCINNATI, May 15.—The chances that Father Dominick O'Grady, who shot Mary Gilmartin on the street April 25, will ever suffer the legal penalty of his crime are remote. The man seems to be dying from remorse. He has lost all interest in life, and is living in a semi-staring state. Yesterday, when brought into court, when the lawyers argued his plea of abatement he had to be supported in walking, and when seated his head hung in a listless manner.

Wiped Out by Forest Fire. WILLIAMSPORT, Pa., May 15.—Details of the destructive forest fires at Cammel on Sunday have reached this city. The O'Brien timber camp was entirely wiped out, twenty lumbermen, many of them with their wives and families, being hemmed in by the flames, and being able to make their escape only after wading down Trout run for a distance of a mile. The forest fire is still burning.

THE best investment

in real estate is to keep buildings well painted. Paint protects the house and saves repairs. You sometimes want to sell—many a good house has remained unsold for want of paint. The rule should be, though, "the best paint or none." That means

Scrofula

The Worst Case the Doctors Ever Saw

Hood's Sarsaparilla Perfectly Cured "Dear Sirs—I wish to testify to the great value of Hood's Sarsaparilla. For some time I had been troubled with scrofula, which early last winter assumed a very bad form.

Sores Appeared on My Face and hands and gradually increased in number until they reached to my shoulder. The doctors said it was the worst case of scrofula they ever saw and also went so far as to say it was incurable. I tried ointments and other remedies but to no avail. A friend recommended Hood's

Hood's Sarsaparilla Cures Sarsaparilla, and although I was completely discouraged, as a last chance I resolved to give it a trial. After taking one bottle I noticed the sores had commenced to heal. After the sixth bottle

They Were All Healed. I continued to take it, however, until I had used nine bottles, and now I am perfectly well." Miss KATIE ROSEGRANT, Ulster, Penna.

Hood's Pills are prompt and efficient, yet easy in action. Sold by all druggists. 25c.

No Hope of Release for Evans. WASHINGTON, May 15.—Nelson F. Evans, who was convicted and sentenced to five years' imprisonment for misappropriation of the funds of the Spring Garden National bank of Philadelphia, will have to serve out that sentence, the judgment of the district court of the United States for the eastern district of Pennsylvania having been affirmed by the supreme court of the United States.

Fatal Wreck on the Lehigh Valley. OWEGO, N. Y., May 15.—Train No. 9 on the Lehigh Valley road was wrecked three miles north of this city. There were thirty-five passengers on the train. One boy, five years old, Willie Mahr, of Newark Valley, was killed outright, and eight or nine passengers were badly injured.

Justice Long Delayed. WASHINGTON, May 15.—The executors of the estate of Donald McKay got judgment yesterday in the court of claims of \$123,000 against the government for the building of gunboats during the rebellion at Boston. The executors have been pushing this claim for thirty-one years.
