PRESIDENT CLEVELAND has gone off on another fishing trip. This is a sure indication that he doesn't know where the party "is at" in the tariff muddle, and that he will let them fight it out for a while till he makes up his mind on the next move

A SAND of Western "Industrials" re seived at Omaha, Neb., an offer of \$1.40 per day and per man to work on a rall road contract. To the credit of the Commonwani cause be it said that the offer was indignantly spurned. What! Sell kennet labor to a bloated railway monop ely for mere wages? "What are we here

A GERMAN sect is reported to have sprung up, which proposes to establish a solony where people shall go naked and live entirely on fruit and herbs. There is a suggestion of luxurious case about life in such a colony-a freedom from the wear and tear of manual labor-which will appeal strongly to the mind of the advanced Commonwealer. However, the average Coxevite is at present satisfied to take the clothes from other people's backs, sather than his own, and to live rather on the fruit of other people's labors than me that of tree or vine. The German sect is distinctly more progressive

A MEALTH writer, discussing the effects of rinegar on digestion, says: "The miproscopists have discovered that the eals of vinegar sometimes take up their abode to the alimentary canal as parasities, and become a source of irritation and disturbance to the digestive organs. And now, ascording to Virchow's archives, they have been investigating the influence of acids upon salivary digestion, or the conversion of starch into sugar, and the but has appeared that acetic acid, connected with tartaric and oxalic acids, very meterially hinders this portion of the digestive process. It is worthy of note, as being in the line of scientific progress, that many of the most skillful shels are substituting in their culinary arccesses lemon juice for vinegar, thus avoiding at once the wriggling sels and the mischief-making acid."

MARY, mother of Washington, was a woman of strong character and many pesulfarities, including an independent arit and a sharp tongue. It is said that she did not change the fashion of her miment for more than 20 years, and cut and made her own garments in defiance of public opinion and changing atyles. refused to let them in shot through the When she went visiting, the sight of her approach caused every member of the household to seize a broom or a dust brush, or in some manner to assist in atraightening up things so that her fastidious and critical taste might not be offended. She performed her daily duties at precisely the same manner, every morning, regardless of changing constitions and circumstances, and the neighbors always set their clocks and watches by the ringing of her dinner bell.

bast year was bad for gambling-den keepers at Monte Carlo as well as in New Jersey. Perhaps it would be more accurate to say it was a less good year than usual: for the gambling share, like death. has all seasons for his own, and makes out pretty well, even in the worst of them At Monte Carlo, as is disclosed by the annual report, the last year's profits were \$600,000 less than those of the year before That is a considerable failing off, and in consequence we need not be surprised to mera that the market value of Monte Uselo stock has declined from \$500 to \$425. Bot as the par value of the stock is only \$109, it evidently is still worth more than the paper it is printed on. In spite of the great decline in profits, the year showed a balance of \$4,400,000 to the good, out of which a dividend of \$40 on each \$100 share was paid, besides \$200,000 to the Prince of Monaco and \$150,000 to the press ! There seems no imminent danger of the concern becoming bankrupt.

the unsettled Government lands, which are only waiting for settlers to come to make them productive. There are thouand St. Cloud land districts, north of this city, in the Rainy Lake region, and on the upper waters of the Mississippi. The land can be had for the settlement, and if a great body of men were to turn their attention to such a settlement they would get all the encouragement they needed, and all the help, too. For a year or so the land would not, perhaps, give a living to the men and their families, but it soon would, and the contributions made would sustain them until the production began. A few thousand men turned loose in the Northern Minnesota lands could soon build homes for themselves, with each other's aid, and soon have crops planted. The regions accessible contains vast tracts of rich agricultural lands.

HARVARD STUDENTS DROWNED Four Lost in Boston Harbor by the Up setting of a Satiboat.

Boston, May 16.—Edwin Stanton Bach of New York city, William Campbell Truesdell of Newark, N. J., John Farnum Browne of Philadelphia and Franklin Whitall of Philadelphia, all students at Harvard college, were drowned in the up er harbor near Thompson's Island Sun day afternoon. The bodies of Browns and Bach have been recovered. Boatkeeper Hutchins, at City Point, late on Sunday afternoon let a catboat to four young men. who told him they were to be gone but a few hours. When the boat was not refewhours. When the bost was not re-turned Monday be went out on a search, but saw nothing to indicate that his prop-erty had been wrecked.

Yesterday/aftermoon, however, a searching party found the boat upside down When it had been partly righted the bodies of Browne and Bach were found clinging to the mast. Each was locked in the arms of the other, and both had to be lifted into the smaller boat together. The men had partially disrobed. The search-ing party continued to look for the hodies of Truesdell and Whitall, but they have

ot been found. Truesdell was a third year man in the iaw school, and was graduated from Princeton in 1890. Brown graduated from Haverford college, Philadelphia last year and was a senior at Harvard. Bach was to the junior class. Whitall was a grad-uate of Harvard college last year, and sa-tered the senior class last fall to get the degree of A. B. from Harvard.

TWENTY ACRES BURNED OVER.

A Hundred Houses Destroyed, Five Hundred Families, Representing Three Thousand People, Forced from Their Homes and Over \$1,000,000 Lors.

HOSTON, May 16 .- By the torch of an incendiary over a million dollars worth of property is in sabes, over 500 families of the medium and poorer classes, consisting of over 3,000 people, are homeless, and many of them who had time to save a portion of their household furniture slept last night in the open air. Women with babies in their arms and little children huddled close together, had only the sky for a roof and the mattresses saved from the burning tenements for a bed. After 6 c'clock, the time for the workshops and business places to close, many pathetic scenes were witnessed, fathers returning to find their homes burned to the ground, and no trace of their wives and little ones. Children who had been at work as cash boys and girls in the big dry goods and other stores barred out from the streets where they re sided, and could flad no trace of their pa

The fire covered a space of twenty scres, and as far as can be tearned six per sons have been injured, and none fatally The fire started in the Boston league bal park in a pile of tumber which was tying under the right field bleachers, directly back of first base. In a moment it had leaped up to the seats, and fanged by a brisk breeze, swept towards the grand stand. So rapidly did the flames spread that before the occupants of the grand stand realized it the fire was upon them and they were forced to fice.

The left field bleachers were next ig nited. Meanwhile the sparks had faller upon the houses on Berlin street, and the flames surged on towards Tremont street, reaching out to the right and left until the entire square between the ball grounds and Tremont street and extending north from Walpole street to Burke street was a mass of burning buildings. The Sher-win Kindergarten school house, a brick atructure, checked the progress of the fire for only a moment, and that, too, was quickly numbered among the structures consumed. The buildings on the south side of Walpole street were soon burned. The flames shot down towards Coventry street, on that side of Tremont street near est the ball grounds. They awept on in this direction for three squares as far as Burke street, devouring the homes of the mer and women who were working with fran tic energy to get out their household goods, and even before they could remove those to a safe place the walls burned and crumbled down

west side of Tremont street from Waipole to Burke was a brilliant mass of flames, which swept across to the opposite side and soon engulfed the buildings for four blocks. By this time the residents of the tenements for pearly half a mile around had become alarmed and were moving all their property into the streets and seek ing for places of safety So rapidly did the fire eat its way, however, that those in the blocks adjoining Tremont street did not have time to save their household effects and barely escaped with their The streets were filled with fright ened woman and children, poor people who were trying to save a part of their small property and hurrying firemen and policemen. Furniture of all kinds littered the sidewalks, and the firemen were greatly hampered by the obstructions

By 6 o'clock the conflagration had crossed Tremont to Cabot street. Shortly after 6 o'clock several steamers arrived from Lynn, Salem, Beverly, Brook-line and Lawrence, and every effort was made to stop the fire at Cabot street. But it could not be checked, and not until it bad burned from Cabot street half way through to Warwick street and north to Burke street was the limit of the burned district on the southeast side of the ball grounds reached

While the firemen were fighting on this side the fire was speading from Walpole toward Milford place, on the southwest side of the ball, grounds, and in haif an hour all the buildings in this block were in ruins. The fire burned on until 1 reached Ruggles street at one point, and consumed the houses on both sides of Chapel street, and laid low the structures on Sudbury street. At Ruggles street, or the west, and Cabot street, on the south east, the fire was practically stopped, and at 7:30 the fire was under control and in no danger of spreading further it is es-timated that about a bundred buildings have been burned and about 500 families rendered homeless Prominent insurance men place the loss at over a million do: lars and the insurance at about two
