COMPULSORY EDUCATION.

For a number of years leading educators of New York state have been endeavoring to secure the enactment of a Compulsory Education law more complete and satisfactory than the one put on the statute book some twenty years ago. This result has now been accomplished. The bill passed by the Legislature attracted a large degree of public attention, but it received a substantially unanimous vote in both houses, and Governor Flower has signed it. The measure promises to serve the purpose in view, assuming that it is adequately enforced.

This measure had been defeated in former years, owing to the fears of Roman Catholics that a compulsory education would interfere with their parochial schools; but after some modifications of the hill had been made Senator Bradley and other Roman Catholics in the Legisfature supported it heartily.

The important section of the bill is as follows

Every child between eight and sixteen years of age, in proper physical and mental condition to attend school, shall regularly attend upon instruction at a school in which at least the common school branches of reading, spelling, writing, arithmetic, English grammar and geography are taught, or upon equivalent instruction by a competent teacher elsowhere than at a school as follows: Every such child between fourteen and sixteen years of age, not regularly and lawfully engaged in in any useful employment or service, and avery such child between eight and twalve years of age, shall so attend upon instruc tion as many days annually, during the period between the first days of October and the following June, as the public school of the district or city in which such shild resides shall be in session during the same period. Every child between twelve and fourteen years of age, in proper physical and mental condition to attend school, shall attend upon instrucmon.during such period, at least eighty mentar days of actual attendance, which shall be consecutive, except for holidays, encations and detention by sickness which holidays, vacations and detentions shall not be counted as a part of such sighty days; and such child shall, in addition to the said eighty days, attend upon instruction when not regularly sud lawfully engaged in useful employment or service. If any such child shall so attend upon instruction elsewhere than at a public school, such instruction shall he at least substantially equivalent to me instruction given to children of like age at the public school of the city or Estrict in which such child resides; and men attendance shall be for at least as many hours of each day thereof as are reguired of children of like age at public schools: and no greater total amount of helidays and vacations shall be deducted From such attendance during the period such attendance is required than is alowed in such public school to children of akonge. Occasional absence from such attendance not amounting to irregular attendance in the fair meaning of the serm shall be allowed upon such excuses only as would be allowed in like cases by the general rules and practice of such public school.

One important section of the act prosides for the punishment of firms who shall employ children of the school age

It shall be unlawful for any person. from or corporation to employ any child between the ages of eight and twelve years in any business or service whatever furing any part of the term during which the public schools of the district in which the child resides are in session; or to employ any child between the ages of twelve and fourteen years of age who does not, at the time of such employment, present a certificate signed by the superintendent of schools of the city or district in which the child resides, or, where there is no superintendent, by such other officer as the school authorities may designate, cerliving that such child has complied with the law relating to attendance at school azging the school year between September and July, then current; and any person who shall employ any child contrary to the provisions of this section shall, for such offence, forfeit and pay to the treasarer of the city or village or to the supersisor of the town in which such offence shall occur, a penalty of \$50, the same when puid, to be added to the public school moneys of the city, village or disseict in which the offence occurred.

Another section of the bill authorizes ari "attendance officer" to arrest without wagrant any child between eight and sixteen years of age who is a truant from school. Truant schools are to be established in the cities, and the city authori-

maintenance and instruction of truent A SENATE SENSATION. children in such schools.

This law will go into effect January 1895. The Superintendent of Public Instruction is authorized to appoint an assistant at a salary of \$2,500 yearly to see to its enforcement.

Such State Superintendent may withhold one-half of all public school moneys from any city or district, which in his judgment, wilfully omits and refuses to enforce the provisions of this act, after due notice, so often and so long as such wiiful omission and refusal shall, in his judgment, continue; but whenever the provision of this act have been complied with all moneys so withheld shall be paid over

by said State Superintendent to such city or district. It is to be hoped that the members of the next Legislature of this state will see the wisdom of passing a similar law There is much ignorance in many of the industrial centres and thousands of children between the ages of eight and twelve years are employed in the mines factories, etc., to the detriment of their

To Investigate an Attempt to Bribe Two Senators.

FORTUNES OFFERED FOR VOTES.

The Senators Not Personally Approached in the Matter, but the Evidence Against the Attempted Briber Seems Complete. Mr. Gallinger Begins a Lengthy Speech.

WASHINGTON, May 17 .- Senator Lodge washingros, May 17.—Senator Lodge, of Massachusette, soon after the senate met yesterday, introduced a resolution authorising the appointment of a committee of five senators to investigate charges of attempted bribery of senators in connection with the pending tariff bill. The resolution was laid over.

It is learned definitely that certain senators have received intimations that a money consideration could be secured for their votes against the tariff bill. The negotiations apparently have gone no fur-ther than intimations to the clerks of Sen-ators Kyle and Hunton. These intimations came from a North Dakotz man who is known as a lobbyist on several schemes. He was formerly a member of congress.

The amount which it was intimated Sen ator Kyle could receive was \$14,000, and pulsory education law; it is the only true \$1,000 was to be retained by the man mak ing the negotiation as a commission. McFarlane, Mr. Kyle's clerk, says the matter never went any further than an intimation. He promptly informed Mr. Kyle. The latter is now in South Dakota, but will return to Washington on Satur

Senator Hunton talked freely about the attempt made to bribe him to vote against the tariff bill, although he said that he is very sorry the matter had be come public at this time. He said the mat-ter first came to his attempton about a month ago through a letter from his son dated at Warranton, Va., the home of the senator. He immediately laid the matter before six or eight of his most intimate friends in the senste, that they might

know what was going on.

He never saw the man who offered the bribe, and declines to give his name. All the negotiations, if the proceedings could be called such, were conducted through his son. The man went to Warrenton early in April, carrying a letter of intro duction from a man whom Mr. Huntor did not know any better than the man be introduced. He proposed to pay Senator Hunton \$25,000 for his opposition to the tariff bill, and young Mr. Hunton immediately informed his father of the prop

osition.
"Do you think the proposition was made in earnest?" the senator was asked.
"My son is satisfied that it was, and

furthermore, was satisfied that \$300,00 would be paid if W had appeared that that sum would have secured the coveted vote. Mr. Hum and that the negotiater did not say whom he represented.

Senator Lodge when asked after ad-journment for an explanation of his reso-lution for an investigation of the reported attempt to bribe said:

'I know nothing of the matter person ally, but the statement is specific, and coming so soon as it does after the publication of the alleged efforts of the sugar trust to influence legislation by unfair means I have thought that a committee should be appointed to inquire into the whole subject. It is my opinion that it such work is going on all the facts should be known, and my only purpose in pre-senting the resolution is to bring them out.

Ex-Representative C. W. Buttz, of Butts ville, N. D., whose name is mentioned in connection with the alleged attempt to purchase the vote of Senators Kyle and Hunton on the tariff bill, has determined to ask a full investigation at the hands of the senate of the charges-made against him. Major Buttz makes a general de-mal of the charges against him, and told Senstor Hansbrough that he wanted a personal investigation as speedily as possible

The senate waded through two morpages, comprising thirteen paragraphs of the tariff bill, yesterday. The actual con-sideration of the schedules did not begin until almost 3 o'clock. Two hours after the bill was taken up were occupied by Mr. Gallinger in the delivery of the preliminary chapters of a set tariff speech which he announced included a history of American tariff legislation from the time the Pilgrim fathers first set foot on Ply-mouth Rock. Three Republican senators, Messrs. Quay, Dolph and Gallinger, now have portions of long undelivered speeches in readiness to be used in case the Republicans resolve upon a last ditch fight. Whether the Republicans will persevers in their present policy, seek to defeat the bill by strategy, or decide to allow the majority to pass the bill if they can muster a sufficient number of votes is the un-known and undetermined question in the senate situation.

As a result of the uncertainty as to the Republican attitude Senator Harris this morning called up his resolution for 10 o'clock sessions. This precipitated a spir-ited debate, which is liable to last until adjournment.

In the house the agricultural appropriation bill was taken up at an early hour, and about two-thirds of the bill was considered. Only two amendments increasing appropriations were made, one for \$800. to continue the experiments with flax and hemp in the state of Washington and the other increasing the appropriation for the purchase and distribution of seed from

New Jersey Legislature.

TRENTON, May 17.—The Republican members of the legislature have agreed to diourn at 3 o'clock this afternoon until Wednesday of next week, when they will come back and pass over the governor's vetoes any bills which he may return to them with his objections. They will probably have to remain here Thursday and Friday to finish up all business, when they will take a recess until September. The hill placing the control of the state capitol in the hands of the state comptroller, state treasurer and governor defeated in the senate. The bill making the state heard of education non-partisan and to consist of two members from each congressional district passed.

A Whole Family Poisoned.

DECATUR, Ind., May 17 .- Word has just been received from Monroe that the fam-ily of Mart Alder were poisoned by some unknown person. A brother of Alder called at the house and found the entire family, consisting of Alder, his wife and two small children, prostrate on the din-ing room floor, the two children dead, the mother beyond the reach of medical aid and Alder very ill. It is thought that was nominated for some enemy of the family put poison in court and W.T. C tendent of schools.

THE PRESBYT MIAN ASSEMBLY

The Pacific Coast Has Three Candidates for the Office of Mederator. SARATOGA, N.Y., May 17.-The hundred and sixth general assembly of the Presby

and sixth general assembly of the Freedy-terian church in the United States began at this place this morning. The organisa-tion of the body and the delivery of the sermon of the moderator occupied the morning session, but that which is occupying general attention will come late this afternoon—the choice of a new moderator. Moderatorship talk is now the order of

the hour, and one hears continually of new candidates. The Pacific coast is said to be particularly prolific in this line, having no less than three men mentioned, but their chances are generally believed to be very slight. The rumor names them as Dr. Arthur J. Brown of Portland, Ore., Dr. H. C. Minton of San Francisco and Dr. John W. Dinsmore of San Jose. Philadelphia has a candidate who has been mentioned on previous occasions and who is by no means unknown in the church at large-Dr. Samuel A. Mutchmore, editor of The Presbyterian. New York state also has a candidate in the person of the moderator of the state synod, Dr. James Gardner, of Gloversville the contest Drs. Gardner and Mutchmore, with the odds in favor of the former, unless the well known liberal spirit of the synod of New York as a whole tends to weaken him as a candidate.

Georgia Populista

ATLANTA, May 17 .- The state conven tion of the People's party in Georgia is in session here. The convention is characterised by its very large attendance and extreme enthusiasm. It indicates that so far from being a dead issue the party is very much alive in this state. Ex-Congressman Tom Watson presides. The platform willendorse the Omaha platform of the party, government ownership of raffronds, etc., and urges the doing away with the present convict system in Geor-gia. This afternoon the state ticket will be nominated. It is pretty certain Judge J. K. Hines, a prominent lawyer of this city, will be the candidate for the governorship. The Populiste would prefer to have Watson run for governor, but he intends to be a candidate for congress in the Tenth district, which he represented in the Fifty-second congress.

The Beston Configuration BOSTON, May 17.-Despite the fact shat the section burned over by Tursday's fire fifteen stables and twice as many shanties will not be a heavy one, sonsidering the immense territory burned over. Coxey's Sentence Deferred.

Washington, May 17. — Counsel for Coxey, Browne and Jones, the leaders of the Commonweal army, have made application to Justice Bradley for a writ of certiorari to take the case out of the police court and certify it to the supreme court of the district for review. Arguments were made by Representative Hudson, of Kansas, and Attorney Hyman, for the defendants, and then the case went over un til tomorrow. Meanwhile an understand ing has been arrived at by which the sen tence of the defendants in the police court which was to have taken place today, will be postponed pending Judge-Bradley's de

Revolting Murder in Pullus.

DatLas, Tex., May 17 .- A most revolting case of wife murder has been un-earthed here. The wife of L.H. Williams, an upholsterer on McKinney avenue and Harwood street, disappeared anddenly. The neighbors informed the sheriff, who finally arrested Williams and Dick John son, a negro employe, and visited the home of Williams. Near the sidewalk earth was removed, and two feet below the surface was found the body of Mrs. Williams with herakull crushed in. John son has confessed that Williams killed his wife and hired him and another negre to make away with the body.

Rutgers Students Suspensed.

Naw BRUNSWICK, N. J., May 17,-The faculty announced the punishment in the es of the unruly Rutgers sophomores Wesley W. Burden, of New York, was suspended for the remainder of the term and William B. Burtis, of Freshold N. J., will not be permitted to resume his studies until next Thanksgiving. He received a heavier sentence on account of previous insubordination. Both students were notified to leave town, and were given a noisy send off by the students.

Breckinridge's Appeal Bend Filed. Washington, May 17.—Colonel W. C. P. Breckinridge, the defendant in the suit recently won by Miss Madeline V. Pollard, resterday filed his appeal bond. The bond is for \$100, and the defendant's brother, Joseph C. Breckinridge, appears as surety. The purpose of the bond is to secure the coats of the appeal noted by Colonel Breakinridge to the court of are Colonel Breakinridge to the court of ap-peals. It is hardly probable that the case will be heard by it before next full.

Consul General Edwards Duad. BERLIN, May 17 .- W. H. Edwards, Un ited States consul general, died in this city yesterday, aged 45, after a long and severe illness, the basts of which was inflammation of the lungs. Mrs. Edwards, formerly the Baroness Heckeren van Mon, will have the body of her husband buried at Potsdam tomorrow.

A Stolen Train Relinguished.

OGDEN, Utah, May 17 .- Forty men who came from the west forcibly took posses-sion of a through freight train on the Union Pacific road, and held it five hours. They were induced to give up the train by the city marshal, who said they should have provisions. They agreed to go east on foot.

Democrats Will Make a Legal Fight. Mount Vennon, N. Y., May 17.—The board of aidermen last night canvasses the vote cast on Tuesday, and declared the Republican nomines, Edson Lewis, to have been elected by a majority of two. The Democrats will take the case into the supreme court.
