People would hardly think of giving a canny bird whiskey, but when a bird falls ill and loses its voice the probability is that it has taken cold. Canny birds take cold very easily and have pneumonia and pleurisy and consumption just like human beings. When the bird droops, a few drops of whiskey and cork sandy given at intervals of an hour will often effect a complete cure. Only a couple of drops can be given at a time, or the canny will become tipsy and fall about the cage like a drunken man, but the treatment is the best possible for a canny with a cold.—St. Louis Globe-Democrat.

KELLY'S MEN IN A FIGHT.

It is Precipitated by the Over Officiousness of Deputies.

OTTUMWA, Ia., May 17.—There is intense excitement in Eldon over Kelly's army. As a boat was coming down the river the citizens called it ashore for the purpose of giving the men buttermilk. Immediately deputy sheriffs from Rock Island rushed down to prevent a landing. Some one threw a stone at the Kelly men, breaking the ribs of one man and rendering another unconscious.

Another lot of Kellyites attempted to land on the east bank of the river, the camp being on the west side. The deputies endeavored to prevent a landing, and a pitched battle followed. Conductor Charles Martin was struck on the head with a club, and it is thought his skull was fractured. The people generally blame the deputies. When the row was on Kelly's men in camp roared lustily across, but Kelly ordered them all back to camp.

Holly and Burlington for assistance and both responded promptly, rendering good services. With their help the flames were at once controlled. Twelve houses were wholly or partially destroyed.

HARD FOR YOUNG GIRLS.

Trying Preparation for Entrance into Society—What Paine's Celery Compound Does.

To be graceful, entertaining, accomplished in music and French, easy talkers on topics of the day, yet in ancient history—this and much more is what society expects of the young girls who "come out" at 18 or 19.

In the few years before 20 so great a change is wrought that we almost, as if by magic, see a woman, where but a short time before was only a child.

If, during these critical years, constant mental exertion absorbs blood and nerve force, the system grows feeble and suffers from lack of nourishment.

The vital mistake of the thousands of girls who yearly break down in schools and colleges is just here: A vigorous, healthy body and brain must have an unlimited supply of pure, rich blood, fully capable of building up growing tissues and repairing the waste of hard worked nerves and brain and body.

This is just what Paine's celery compound is providing to-day for overworked, anxious, "run down" people all over the United States and Canada.

If care be taken that no part of the body be poorly nourished, a great deal of hard work and study can be safely gone through. But when young girls are seen to grow thin, pale, spiritless, and nervous, there is plainly starvation of some of the important organs and a craving of the blood and nerves for better nutrition.

Paine's celery compound was first prepared by Prof. Edward E. Phelps, M. D., LL.D., of Dartmouth college, with the full scientific knowledge of a medical man of his day of what tired, weak, nervous women need to make them well and strong.

The happy effects of Paine's celery compound in all cases of debility, nervous weakness, and impoverished, impure blood are astonishing. It makes people well where everything else fails.

This remarkable remedy makes sickly, feeble women strong; does away completely with the languid feeling that comes from underfed nerves and blood.

As a sure sign of its radical effect on the system for good, it is noticed that in a short time the eyes grow clearer and brighter, the cheeks ruddier, and the mind more active and hopeful.

Paine's celery compound cures dyspepsia, sick headaches, neuralgia, rheumatism, and every symptom of impure blood, and permanently cures the most difficult diseases of the liver, kidneys and heart.

Thousands and thousands of men and women who have taken Paine's celery compound are to-day perfectly well and happy.

BIG FIRE IN PAWTUCKET. Fifty Thousand Tons of Coal on Fire—The Loss Half a Million.

PAWTUCKET, R. I., May 17.—This city was illuminated last night by a blaze from fully 50,000 tons of coal consumed in a disastrous fire on the river front yesterday afternoon. A conservative estimate places the loss at \$500,000. The fire started from a spark wafted from a plumber's kettle to the barn of the Newell Coal and Lumber company, whose entire property is in ashes. The flames communicated with the coal and lumber yards of Olney and Payne Bros., and their stock and structures were wholly consumed. The flames next started across the river, enveloping in their fold the coal and lumber yards of the J. T. Cottrell company and the City Coal company, which were heavily stocked, and are also heavy losers. Three tenement houses were destroyed, and the tenants barely saved their effects. A two-story dwelling on Lumber street was also destroyed. The schooner A. M. Hopkins was burned to the water's edge.

Fatally Burned While Playing Indian. WASHINGTON, May 17.—Bertram Curtis, an 11-year-old boy, was fatally burned Monday afternoon while playing circus with a number of his little friends. He lingered in great agony until yesterday, when death came to his relief. The circus was held in the rear of his father's house, and young Curtis took the part of an Indian, wearing a costume of bagging, such as is used in covering tea chests. He figured in a scene showing the destruction by fire of some ancient city, and it was in this that his light costume caught fire and he was burned.

A GREAT MILITARY EVENT.

The Preparations for the Liberty Jubilee to be held in Reading on July 4.

This is an era of centennials, and the American people during the period covering the past two decades have been celebrating any number of them. It is exactly 100 years since George Washington made a trip through the Schuylkill valley, and, standing at the grave of Conrad Weiser, the Pennsylvania German pioneer of Berks county, near Womelsdorf, used this expression: "This good man deserves large then, but a number of landmarks are still pointed out as of historic interest in connection with this visit to Washington. The Reading Press Club has had under way for the past six months arrangements for the proper celebration of this centennial anniversary, and they have now reached such a stage that that organization has decided to let the public fully into its confidence.

It is proposed to hold a grand Liberty Jubilee on the fair grounds, in Reading, on the 4th of July, next, and to make it a sufficient interest to attract visitors from a radius of 40 miles. The club will issue a monster newspaper to be called the Liberty Jubilee Courier, which will herald the attractions of that day. The invitations extended to the Phoenixville battery, Reading Artillerists, and Hamburg military company, all connected with the National guard, have been accepted, and these organizations will participate in large numbers, in military and other dress parties, a sham battle and other military movements, in which our people are always interested, while acceptances are awaited to invitations sent to Pottsville and Pottstown companies. There will be outdoor sports without number, including a base ball game between two crack teams, horse and bicycle races, the latter under the auspices of Penn Wheelmen; balloon ascension and parachute jump and a variety of 4th of July entertainment for the thousands who will gather on that day. The railroad companies will give the public benefit of excursion rates to Reading. This hospitable city is always worth a visit, but never more so than on the coming 4th of July, when the natal day of American independence will be celebrated in the old-fashioned style of our fathers and grandfathers, to which have been added modern attractions of more than ordinary interest, all combined to make it a treat for all visitors. As its name indicates, the Press Club is composed of the active newspaper men of Reading, a chartered association six years old, and they promise lots of noise, fun, frolic, amusement and patriotic enthusiasm on the coming 4th.
