The Miners' Joint Convention Adjourns Without Result.

PAILED TO AGREE ON A SCALE.

President McBride, of the Miners' Union Declares That the Men Are in the Fight to Stay, and Are Prepared for Future Fights.

CLEVELAND, May 18 -The joint conven-CLEVELAND, May 18 — The joint conven-tion of mine operators and mine workers has been obliged to adjourn without ar-riving at an agreement. Yesterday morn-ing, after the joint conference committee had reported that they could not agree, Operator H. L. Chipman, of Ohio, and a member of the conference committee, made a brief address. He recounted the history of the committee meeting and said that the operators offered sixty-five and fifty-six cent scales, while the miners still held out for seventy and seventy-five

cents. He said that, in view of the pres-ent depression and the strained condition of manufacturing interests, the operators could not concede the advance asked.

President McBride was the first speaker for the miners. He said he was willing to

have a vote taken on the compromise of-fered by the operators; but he would guarantee that the miners would be unanimous against it. Continuing, he said: "As a native born citizen, I blush to Vork. think that the business interests are builded upon the starvation and degrad-ing wages paid the laborers at present. We want you to give living wages and in-crease the price of your coal so you can get a fair profit. There can be no com-

builded upon the starvation and degrading wages paid the laborers at present. We want you to give living wages and increase the price of your coal so you can get a fair profit. There can be no compromise along the lines of starvation wages. The miners make no threats, but they stand together penceably, earnestly and determined as ever, and will go on so finishing the present fight and prepared for future fights."

Following President McBride, F. L. Robbins, of Pennsylvania, seenred the floor and made a strong address for the operators.

Vice President Penna, of the miners association, then took the floor and spoke in their behalf, making an able argument to show that the operators were in a position to pay living wages now as at any time in the past.

When the conference reassembled in the afternoon the speechmaking was continued, Mr. Chapusan, of Pittsburg, speaking for the operators, and Patrick MoBryde and John Cairns for the miners window, asked the operators and spectators to retire from the ball in order that the miners might hold a conference. This was done, and a senference lasting an hour was held.

At its conclusion President McBride offered a resolution reciting that, whereas a large number of operators who had refused the hand of reconciliation and peace which had been extended to them, the miners believed that any settlement arrived at in the absence of these operators would only add to and accentuate the miners helieved that any settlement arrived at in the absence of these operators would only add to and accentuate the miners helieved that any settlement arrived at in the absence of these operators would only add to and accentuate the minerable condition of the miners, and that it was impossible to make any sattlement with the operators who had neithed the conference to reach a settlement, the minerable condition of the miners, and that it was impossible to make any sattlement with the operators who had neithed the conference to reach a settlement, the minerable condition of the miners, and that forts of the operators the conference to reach a settlement, the miners asked their co-speration in bring-ing penceable and persuasive measures to pear upon the absent operators to induce

them to agree to treat with the miners. These resolutions were offered to the conference as expressing the views of the miners and as there seemed to be nothing nore to do the conference adjourned sine

The coal operators met last night and adopted a statement of their standing. It declares that the operators of Ohio and Pennsylvania responded to the invitation to consult with the mine workers in good faith, and did all in their power, under the present trade conditions, to effect a settlement of the strike, but that the mine workers, in secret session, refused to agree PHYRICIAN AND SURGEON.

Indicting the Gamblers

ELIZABETH N J. May 18.—The Union county grand jury, in finishing its labors in Elizabeth, brought in twony-seven in-dictments, six of which are against three saloon keepers who allowed gambling in their saloons. Judge Van Sycie, who had charged the jury about gambling in the city, told them that by indicting the gam-blers they did what the law abiding people expected of them.

SCROFULA AND ECZEMA:

WONDERFUL MINISTER'S

I wish to exted the virtues of DANA'S SARSAPARILLA. Mrs. Day's health was unusually spood up to the age of 40. At this time ecrofule taint manifested itself in form of Eczema. We had used a variety of remedies, with but little good result, but DANA'S SARSAPARILLA proved so effective that I must say it is a grand combination of remedial agents.

My son was also troubled with Eczema, his arms, from hands to elbows, being one solid mass of scales. He has also been cured by the use of DANA'S SARSAPARILLA. REV. A. J.DAY, East Greenbush, N. Y. ALL DRUGGISTS.

Terrible Work of a Cyclone in a Little Ohio Town.

FIVE OF ONE HOUSEHOLD KILLED.

Their Home Blown Away and Their Bodtes Terribly Mangled and Dismembered Two Others Fatally Hurt-The Cyclone Carried Everything Before It.

KUNKLE, O., May 18.—A cyclone passed one-fourth of a cycle west of here at 4.00 yesterday afternoon, killing five persons. fatally injuring two others and slightly wounding several more. The dead are: Daniel Barrett, right leg

broken, right arm torn off and internally injured; Mrs. Daniel Barrett, legs torn from the body and entrails torn out, Martha Dase head crushed died two hours afterward, George Osinger, body beaten into a shapless mass: Myrtia Dass died soon after Injured-Charles Cole, fatally hurt in

ternally: Mrs. Charles Cole, head crushed will die: Jennie Creek, head crushed wil

The scene of the cyclone is a hard one to describe. Houses, fences, trees and ob-structions of all kinds in the path of the storm have been carried away and, noth ing is left to mark the spot where they stood except huge boles in the ground.

The scene devastated is about a quarter of a mile wide and six miles in length, the great funnel shaped cloud traveling in an irregular, southeasterly course, the greatest damage being done about a mile from where it rose.

The building in which were Daniel Bar-rett, his wife and their two granddaughters. Myrtla and Martin Dase, is so com-pletly demolished that not even a portion of the foundation is left. The first rem-nants of the house are at least 100 yards from where it stood.

Mrs. Barrett, who was the worst man-gled, was carried over a quarter of a mile and dropped in a cemetery, her diamem-bered limbs being found about one hun-dred yards farther on. Daniel Barrett was dred yards farther on. Daniel Barrett was carried about forty rods from where the cyclone struck him. His hand was torn off at the wrist and scattered to the winds. One leg was beaten into puip, and he suffered internal injuries. He was still breathing when found, but died soon afterward without becoming conscious.

Martha and Myrtia Dase, who were in

another part of the house, were left near where the house seems to have gone to pieces. Martha, the eldest, aged 14, was apparently injured only about the head, which was crushed in on the left side. showing a great hole from which the brain

Mingled with blood the younger, aged Mingled with blood the younger, agen 10, lay almost in the arms of her sister, and the bones in all parts of her body were broken and ground into the flesh. Nothing could be done to relieve the little one's sufferings, and she died at 10 o'clock. George Oxinger, a hired man of Har-rett's who was in the field ploughing, saw the storm coming and made for the barn.

He succeeded in getting his horses inside and started for the house, which was about ten rods distant from the barn, and exactly in line with the storig. Witexactly in line with the storm. Witnesses say that the man was lifted from the ground and whirled into the air at least a hundred feet. His lifeless body was found a hundred yards from where it was lifted into the air, his bones protrading from the flesh.

Senator Vauce's Committee Successor.

Washingtow, May 18.—The vice president appointed Senator Gray chairman of the senate committee on privileges and elections, made vacant by Senator Vance's death. He resigned the chairmanship of the committee on patents, to which post tion Senator Call was promoted. Senator Call resigned the chairmanship of the committee on civil service and retreachments, thus making a vacancy there, to which Senator Jarvis was appointed.
