LOOKS BAD FOR BUTTZ.

Taking Testimony in the Alleged Effort to Bribe Senators.

THE ACCUSED MAN IDENTIFIED.

Both Senator Bunton and His Son and Senator Kyle's Clerk Declare Positively That Buttz Was the Man Who Attempted to Corrupt the Senators.

Washington, May 23.—The committee to investigate the charges of bribery in the senate began taking testimony yesterday. Only one witness at a time was al lowed to enter the committee room, Sena-tor Hunton being the first one called. The senator remained with the committee senator remained with the committee about half an hour, and after he smerged from the committee room Eppa Hunton, Jr., was called in and asked to state what he knew of the alleged effort to bribe his father. He was detained only about fifteen minutes. Both witnesses were cantioned by Senator Gray against giving the newspapers any report of the proceedings, the senator remarking that when this branch of the inquiry should be concluded the

proceedings would all be made public.

Both Senator Hunton and his son were questioned very closely as to the ef-fort at bribery, and the latter was required to give as accurately as he could the language of the man who had at-tempted the bribery. Both stated that C. W. Butz was the man who had approached

the younger Hunton.
The correspondence between the son and the father on the subject of the attempted bribery was laid before the committee. The narrative did not differ materially from the story heretofore given to th press by Senator Hunton.

Major Buttz was the principal witness during the afternoon. He was accompanied by his attorney C. H. McCowan. Buttz was before the committee for about an hour, and was excused with the roquest that he be in attendance again to

Fragmentary references to the proceedings leave little room for doubt that when the report of the Buttz testimony is published it will make very racy reading. He first demanded a transcript of the report of the testimony of proceeding witnesses, but compromised by accepting a proposi-tion that the reporter should read the portions of the testimony of other witnesse which reflected upon him in any way.

Buttz was thus confronted with the statement that Senators Kyle and Hunton had identified him as the man who had attempted to corrupt them, and having in his letter to Senator Hansbrough laid the responsibility for this charge at the doors of the newspapers, and relieved the sens-ters from all blame, he was placed in a somewhat embarrassing position, and the brief references to his testimony obtain-able indicate that he made an effort to excuse himself and explain away the entire charge. He explicitly denied any intention on his part to corrupt the senate, and made more remarks the petinence of which the committee found it difficult to understand. It is also understood that he politely declined to answer some of the

more pertinent questions put to him by members of the committee.

Other witnesses of the afternoon s.ssion were Duncan McFarlane, Senstor Kyle's cierk and James W. Walker, an attorney of this city, who gave Butta, letter of introduction to Epps Hunton, Jr. Mr. Walker stated that when Butts had asked for a letter to Mr. Hunton he had stated that he wanted to employ him as attorney in a land case and had given him no other reason for wanting to know that gentleman. Mr. McParlane told how, after Senator Kyle had referred Butta to him, he had talked with him and made notes upon his conversation. He con-firmed Senator Kyle's statement and said explicitly that Buttz had made a direct preposition to bribe the senator to vote

against the tariff bill. He also submitted his notes on his conversation with Butta. Mr. Buttz said when he left the com-mittee room that he had been sworn to serreey and could not reveal a word of the proceedings. Senator Gray also declined to give out anything concerning Mr. Buttz's testimony.

PHILADELPHIA, May 22.—An important meeting of bituminous coal mine operafors from the central Pennsylvania region, where the miners are now on strike, was held in this city yesterday afternoon. If they fail to do so by that time the mines will be thrown open to whoever seeks employment, and those men who decide to go to work will be protected by the operators. A resolution was adopted to the effect that the operators unanimously agree that it is impossible to pay their employes more than the present wages of forty cents a ton.

A Lively Session of the General Assembly at Saratoga.

PROFESSOR SMITH'S APPEAL CASE.

It Will be Brought Up on Thursday Morning, and Will Doubtless be Pushed to a Speedy Settlement-Dissatisfaction with the Moderator.

Saratoga, N. Y., May 22.—Yesterday was the liveliest in the General Assembly. A report from the judicial committee in the Smith case was expected, and it came early. The waiter by the parties of the right to be heard before the vote to determine whether the appeal shall be entertained will result in saving a very considerable amount of time, and it binds the assembly in honor to entertain the appeal. The fixing of Thursday at 10 o'clock as the time for hearing the case gives

as the time for hearing the case gives promise of a speedy settlement.

The debate on the theological seminaries was whittled down to two speeches. The application of gag law by the moving of the previous question was a little too harsh for even this assembly, but it was in the line of the plans of the leaders. They are to all appearances bent on the adoption of the majority report as it stands and will brook no delay. Mr. Sterry, who moved the previous question,

was simply a little premature.

Complaints are heard on all sides of the inefficiency of the moderator. In the tur-moil witnessed yesterday an ardent com-missioner was moved to shout the quesmissioner was moved to shout the ques-tion: "Who is the moderator;" being pro-voked thereto by conflicting rulings by three or four persons upon the plat-form. Apparently only the presence of the stated clerk prevented anarchy, but even that could not exclude confusion. In the temporary absence of the clerk in the afternoon a set of resolutions was ac-cepted and adopted by separate votes without giving an opportunity for discussion, and before hearing the usual speeches of the chairman and secretary of the board represented.

Scenes of uproar such as those which accompanied the motions looking to delay of action in the seminary question are seldom seen in the General Assembly, but this is the second within four days. A large attendance greeted the considera-tion of the main question of the day, but the afternoon session was confined mainly to the commissioners, many of them be ing absent

The Armor Plate Scandal.

One thousand dollars is made available for the use of the committee in prosecuting its work. Power is given to summon witnesses, administer oaths and secure the production of books and papers.
