

Senator Teller's Futile Attempt to Kill the Tariff Bill.

WASHINGTON, May 24.—Senator Gorman's speech was the feature of yesterday's session of the senate. Mr. Gorman and Mr. Brice have been credited by the opposition with the joint authorship of the "compromise" amendments which consolidated the Democratic side, and Mr. Gorman especially has been subjected to much criticism both in and out of the senate. His speech, replying to a measure to the attacks that have been made upon him, explaining the necessity for the compromise and defying the theory upon which the modified bill now before the senate was constructed, attracted intense interest. The speech was prepared carefully and delivered from manuscript, a thing in itself very unusual, as Mr. Gorman heretofore has always delivered his speeches without notes. The speech was not devoid of dramatic comment on the course of the other side. It was regarded as an exceedingly able exposition of the position of the conservatives.

Mr. Gorman's speech furnished texts for the Republicans for the remainder of the day. His statement that a majority of the senate would support the bill was cut to the test by Mr. Teller, whose purpose was to "smoke out" any latent opposition to the Democratic side. Mr. Gorman's statement was justified by the vote, however, as the Colorado senator's motion to lay the tariff bill on the table was met by an unbroken Democratic front. Both Senator Hill (N. Y.), and Senator Irbey (S. C.), whose positions have been the subject of gossip from time to time, voted with their Democratic associates, as did the three Populists, including Mr. Peffer. The onslaught on the civil service commission in the house, which was started on Tuesday, was resumed yesterday, and several times the question was disposed of only to break out a moment later in another place. The appropriations for commissioners and clerks of the civil service bureau having been stricken out on Tuesday, the next paragraph, providing for the transfer to the civil service commission of clerks from the department, was stricken from the bill yesterday. The house refused to strike out, however, the appropriation of \$5,000 for traveling expenses of civil service examiners.

Probably a Double Murder. MIDDLEBURY, N. Y., May 24.—Frank Materazzo, a French cook, who has been employed in several of New York's leading hotels, is confined in prison at Monticello, awaiting the result of two pistol shot wounds inflicted by him upon Joseph Lynch and Cornelius Bresnahan, at Mountain Dale, Sullivan county. Materazzo went to Mountain Dale on May 16 last to cook at a large boarding house. He went to an Italian slum in Mountain Dale Tuesday night with two women, the wife of the hotel, Rose Murphy and Mary McLean. While there they fell in with Lynch and Bresnahan. Materazzo objected to the girls walking home with Bresnahan, and a fight followed in which Lynch and Bresnahan received wounds which will probably prove fatal.

The Standard Reaching Out. NEW YORK, May 24.—The World says: "The two greatest monopolies in Christendom, the Standard Oil Trust of America, and the Russian Oil Trust of Russia, are about to effect a new division of the world. A commercial geography is being transferred and new hemispheres mapped out under the supervision of a Russian committee and an agent of the Standard Oil magnates. These negotiations are being conducted by order and with the approval of the Russian minister of finance. A committee is working out the necessary arrangements for dividing the market of the whole world for the trade with Russian and American kerosene."

A Counterfeit Treasury Note. BALTIMORE, May 24.—The first attempt known here to counterfeit a United States treasury coin note was brought to light yesterday. The counterfeit was a \$5 note of the legal tender series of the act of July 14, 1890. The note came from Pennsylvania, and was detected at a national bank. The note is not given in the United States detector, and is believed to be evidence of a new attempt to issue spurious money.

A Wrong Initial. In the transmission of the message from Scranton the death of David B. Thomas was announced instead of that of David P. Thomas. The former gentleman, who was a merchant of this town for many years and is now located at Scranton, is alive and well. He arrived in town this morning and very unlike a dead man hustled about town drumming up trade for the wholesale house he represents.

The reports that but two or three feet of water lay in the lower levels of the collieries hereabouts is generally denied by those in a position to know the true state of affairs. This authority reports sixty feet in Schuylkill colliery and almost as much in North Mahanoy and Kingswood. In Schuylkill the pumps on the eighth level are submerged and are running under water. The same condition is said to exist at North Mahanoy and other collieries and the water is being hoisted out on the slopes by boilers and tanks. Little or no gain has been made and the condition will hardly improve with the downpour of to-day. Glendon is reported as being drowned out and work of taking out mine cars has begun to-day. It is thought this colliery may be compelled to suspend for two months. At Springdale coal will be taken from the first lift, beginning this week. The Park Place and Lehigh Valley collieries are said to have orders to keep them running full time as long as the soft coal strike continues.

A Hungarian, on his road to work on Saturday evening, was hit by stones thrown by a gang of toughs. He fell on the road and was unable to rise until assisted. The toughs scattered but all their names were ascertained and will be furnished if the party wishes to prosecute them. These people are carrying things a little too far for their own good and the sooner they are behind the bars at Boonshurg the better it will be for the community.

Quite a little excitement was raised on Sunday evening by the residents of Locust avenue who were making a fresh fire and the heavy wind in progress at that time blew the smoke down the chimney and filled the room with it. The door was then opened and the smoke escaped and some of the people who were in the room saw the smoke coming through the doorway, thought the house was on fire and gave the alarm. In about five minutes the greater part of the population of our town was on the scene. In the fire was about the size of that there is a fire before giving the alarm.

Fire broke out in the blacksmith shop at Centralia colliery on Saturday night and for a while it seemed as if serious damage would result before it could be subdued, but thanks to the rainy weather and our noble brigade of firemen, the fire was prevented. A very hot fire had been kept in the forge Saturday, as some heavy machinery was being repaired. When the work was completed the fire was drawn out on the floor and left to go out of its own accord, but contrary to expectations it set fire to the roof. Two young men on their way home noticed the blaze and promptly rushed to the colliery and gave the alarm. One end of the shop was burned out and the roof partly damaged.

Charles Grift, a Polisher, residing on Ridge street, was killed at Lehigh colliery on Saturday. He was engaged in coupling wagons at the bottom of the slope and in doing so got his head caught between them and was instantly killed. At the place where the coupling is done there is a sharp curve, and it was while in making the coupling and as the wagons were turning the curve the corners came together and squeezed his head. No one knew of the accident until his body was found some time after lying beside the track. He had only worked at this colliery three days. He was a quiet, inoffensive young man and was well liked by those who knew him. The funeral took place this morning. Interment was made in St. Ignatius cemetery.

The show on Saturday was as grand a success as the previous evening, each of the participants playing their parts with the ease and grace of professional actors. All who witnessed it any of the evenings were amazed they could not imagine that it could be produced so perfectly by home talent. Indeed, it was said by many that they played it better than the company that produced it in one of our neighboring towns last season. The audience was very small, as it generally is when a good play is produced. In this respect it seems as if our townpeople like to be taken in by a show, that is to say, they enjoy to attend the shows which are no good and stay away from the good ones. This play should have had a full house both nights as they deserved it if ever any show did. They may play in some of the surrounding towns, but better than the company that produced it in one of our neighboring towns last season.
