SENATORS GUILTLESS But the Committee Decides That Buttz Attempted Bribery.

EDWARDS STILL NON-COMMITTAL.

The Newspaper Men Still Refuse to Divulge the Source of Their Information, and the Committee Has Decided Upon a Pian of Action.

WASHINGTON, May 26 .- The special com-WASHINGTON, May 26.—The special com-initize appointed to investigate the obarges of attempted senatorial bribery on the part of Charles W. Buttz yesterday sub-mitted their report to the senate. Buttz is found by the committee to have made the attempt at orbery, despite his donial, and Senators Hunton and Kyle are exon-wrated from all blane. The romot of the committee consists of

The report of the committee consists of two printed pages, and the testimony given before the committee seventy-six pages. Among other things the report

"It appears from the testimony submitted that a certain Charles W. Buttz, of North Dakota, but domiciled in Washington since December last, where he has been engaged as a lobbyist and claim in warrenton, Va., during the absence of the senator, say to his son, Eppa Hunton, Jr., that he would pay him a contingent fee of \$35,000 if he would, by presenting arguments as to the pending tariff bill, induce his father, Senator Hunton, to vote against it. This offer was declined at once and peremptorily by Eppa Hunton, Jr. and the whole matter was communicated by him to his father. "It is also established that Buttz, dur-

ing the month of March last, approached Senator Kyle, of South Dakota, with a propcontain that \$15,000 would be paid to him (Senator Kyle) if he would vote against the pending tariff bill. The said Butts, when making this proposition, also stated to Senator Kyle that the money was in the hands or control of an agent of cer-tain bankers and capitalists of New York city, and that the money was in Washin,

"Both senators are shown by the testimony to have communicated the facts to everal senators shortly after the inter-

views took place. "There is no evidence to show the truth of Mr. Butts's statements to Senator Kyle and to Mr. Espa Hunton, Jr., that a syn-dicate of backers and capitalists had raised a sum of money to be used for the purpose of defcating the pending tariff bill, or that there was an agent of such a syndicate in Washington, or that he had or has any knowledge of the existence of such a syndicate, or that he was the agent or representative of any one. He further denies that he had any money himself."

The testimony taken before the com-mittee does not differ from that which was published at the time the charges were made and when the testimony was taken. Both Senator Hunton and his son testified

FINANCE AND TRADE. HE COMMITTED SUICIDEI

The Reports for the Current Week Rather Discouraging.

A VAST ARMY OF NON-PRODUCERS.

The Total Number Idle as the Result of Strikes Estimated at Over a Quarter of a Million-But Works Besuming Exceed Those Stopping.

NEW YORK, May 20.-Bradstreet's Trade Review says: The unfavorable conditions prevailing in commercial and industrial fireles throughout the country, together with the prospect for no material im-provement during the summer, marks the present season as probably the duliest rela-tively for twenty years. At no time since panic and husiness depression manifested themselves last year hat populate to the volume of sales of machandise, the manufacture of staple goods, and the in-disposition of merchants generally to huy, except for absolutely immediate wants, been so pronounced and so general throughout the country as during the past few weeks. Superficial examina-tions of business conditions leading to unwarranted optimistic conclusions as to the nearby future of trade have not been wanting, but us a matter of fact based on comprehensive and careful examination, the next few months promise a continuance if not an intensifying of existing conditions of extreme duliness and depression. Quite unfavorable advices come from Pittsburg, where there are numerous shutdowns, involving large numbers of men. The total number of industrial employer die as a result of coal scarcity is placed at 5,000, and the total number idle owing to the strike is 210,000. In other industrial lines 3,000 men are reported idle as a re-sult of strikes, making the total number now idle 25,000 Au encouraging indus-trial feature is the probable settlement of next sensor's iron and steel wages scale without a strike. Advices from the south present a con-

tinuous report of excessive duilness, ex-cept that there are gains in sales of planation sumplies.

R. G. Dun & Co.'s Weekly Review anys: Storms and floods, prolonged strikes and large exports of gold have done their utost this week to give business a vacation. But the wants unsatisfied during the past year, belated and much lessened, and yet greater than those of any other nation. nave caused a volume of trade quite large

for the sensor. Prices of products still tend downward without much speculation. It is not sur-prising that farmers retain wheat at present prices where they can. Corn has been stronger, notwithstanding large recepts and insignificant exports. Cotton has re-covered a shade, though receipts for the week were nearly as large as last year and exports much smaller. The astonishing cheapness of wheat and cotion will affect the rapidles of movement in the fall, and also will directly leases the amount of money required in moving the crops. While the iron industry especially, and

many others to some extent, have been re-stricted by scarcity of coal and coke, the number of works resuming has been greater than the number stopping from other causes. But the demand for manufactured products instead of increasing appears for the moment rather smaller than before. It is a waiting seasom, but the disposition to wait is this year much intensified. Failures diminiabed in importance, the

amount of liabilities for the third week in May being only \$2,305,130, and for three weeks \$7,855,973, of which \$2,855,857 were of manufacturing and \$5,035,007 of trading concerss. The number of failures re-ported this wook is NS in the United States, against 369 for the same week last year, and in Canada 28, against is last

The committee overraled Judge Ditten-the committee overraled Judge Ditten-befor's objections and again called Mr. Edwards in and repeated its demand that he give the names requested in the first and instance, and received his final decision not to comply with the demand. He was then excused. Mr. Shriver, of the New York Mail and Express, also defined to inswer questions.

During the afternoon Sanator Caffery and ex-Congressman Ben Lefevre were before the committee. Both witnesses volunteered their appearance. Their names had been connected with the operations of the sugar trust in its supposed ef-forts to influence legislation by Mr. Edwards in his published letter, in which hi asserted that Senator Caiffory had drafted the sugar schedule in a committee room of the Capitol in the presence of Mr. Havemeyer and others friendly to his in terests, including Mr. Lefevre, while the finance committee was waiting in an-other room. The committee was repre-sented as anxiously awaiting the action of these representatives of the two branches of the sugar industry the manu-facturers and growers, and Mr. Have-meyor was pictured as standing over the shoulders of Mr. Caffery while Mr Caffery way the put the sugar amendment in shape for the Both Senator Caffery and committee. Mr. Lefevre denied the story The committee took up the question pre-sented by the refusal of the newspaper men to respond to questions, and has de-
