SENATE INVESTIGATION

Congressman Warner Before the Senate Committee.

DECLINES TO ANSWER QUESTIONS.

It Is Stated by Members of the Committee, However, That the Questions on Which He Hemained Silent Were of No Great Imperiance.

WASHINGTON, June 2.—When Representative Warner, of New York, went be fore the senate sugar investigating com-mittee yesterday he announced before he was sworn his intention of reserving the privilege as a member of the house of an swering only such questions as might be thought proper. Several times during his examination he fell back upon this privilege, and refused to answer some of the lege, and refused to answer some of the questions which were asked. It is said that some of these were not very import-ant, while others were pertinent to the examination. The committee decided that It has no power to make a member of the house testify before a senate committee, and all that it can do is to certify the fact to the other house. This was the method pursued in the celebrated Credit Mobilier affair when a senator refused to testify be fore a house committee. The investigat-ing committee has not decided to take this course with Mr. Warner, and it may not

so decide.
It is understood that one of the points on which the committee sought to obtain a statement from Mr. Warner was as to the influence brought to bear upon him to cease his opposition to the sugar duty, but this failed. Mr. Warner told the committee that a large amount of his infor-mation came from conversation with members of the house who were discussing the events relating to the sugar duties He was asked who these members were and in every instance declined to give the name of any of his fellow members of the house. The committee says that the tes-timony which Mr. Warner refused to give was of a hearsay character, and not of such importance that would warrant any extraordinary methods to obtain.

There is expressed great desire to have the testimony that has recently been taken printed for use in the senate before the vote is taken on the augar schedule, and it is probable that if it is available several blocks of it will be read in the senate The points of most interest are those re-lating to the testimony of Secretary Carlisic and others relating to the sugar schedule. The point in Mr. Edwards' story as to how the schedule was drawn together with certain proceedings on a Sunday at the Capitol have been denied by all witnesses. Senator Jones has tes-tifled that he requested Secretary Carlisle to draw the sugar schedule and the secre-tary has frankly said he drew it. Senator Mills had testified that Have-

meyer came to him with a letter of intro-duction from Secretary Carlisle, but that he did not see Havemeyer. With reference to this matter, it is stated that the act was a mere matter of courtesy and routine. Mr. Havemeyer had slight ac-quaintance with Mr. (Mills, and in order to save time and insure him a conference with the senator, Secretary Carlisle, at the request of Mr. Havemeyer, gave him a note of introduction. Similar letters had been given by Mr. Carlisle to gentlemen who called upon him in connection with the tariff, some of whom were manufacturers whom he personally knew, and who desired to secure changes in the rates fixed by the committee.

The committee will not go to New York

to take testimony, nor will it resume its sessions until next week.

The Immigration Convention Adjourns. Augusta, Ga., June 2 .- The third and last day of the Southern Interstate Immigration and Industrial congress was largely social in its observance. Before adjournment a resolution was adopted declaring: 'We find the south has suffered less than any other section, and is already rallying from the recent panic. Strikers Hold Up Coul Trains. WASHINGTON, Ind., June 2.-A freight train hauling ten cars of coal from Cau-nelsburg, going to St. Louis over the Bal-timore and Ohio Southwestern road, was stopped by 300 striking miners. The crew were forced to sidetrack the coal and pro-ceed without it. A dispatch from Shelburn, Ind., says 200 miners held up an other coal train there yesterday. The sher iff and the train crew were unable to start

the train, and had to abandon it. Twenty Years in Slumber's Chains. GLOVERSVILLS, N. HE COMMITTED SUICIDE!

The Cause and Its Lesson.

Why did he commit suicide? Oh! for the same reason that thousands of others are on the verge of the same sin, or in immediate danger of insanity, paralysis, idiory, or some other equally infortunate result of any nervous affection. He knew he was affleted with a nervous disorder, but was careless, apparently indifferent to the outcome; or he may have lessened his chances for recovery by treating with physicians who had little or no knowledge of such affections, or by deluging himself with worthfections, or by deluging himself with worth-less so-called remedies. His case was a sad one, but no worse than that of any other nervous sufferer, who has nervous or sick nearlache, billoueness, dezanoss, irritability, metuneholy, failing memory, hos flashes, fainting, sleeplessness, nervous dyspepsis, faming, sleepleseness, nervous dyspepsis, several debility epilepsy, etc. The same or aunilar consequences are likely to result to any one who has any of these advance symptoms of an awful end.
