The Claim Against Stanford's Estate. WASHINGTON, June 6.—Representative McGuire, of California, vouchers for the statement that Attorney General Olney has filed in behalf of the United States a claim against the estate of the late Senator Stanford for the sum of \$150,000. The claim will be presented to Mrs. Stanford, who is the executrix of the estate. The claim is the proportionate share of the debt of the Central Pacific railroad which the department of justice estimates that that estate owes the United States upon the theory that personal assets of individual members of the original Central Pacific syndicate are liable for the debt of that corporation.

COLORADO'S STRIKE ENDED

The Wartlike Miners Abandon Their Difficulties After Arbitration.

DENVER, June 6.—The strike at Cripple Creek was settled at a late hour, Governor Wallace acting for the miners. Only one point caused serious complication—the allowance of lunch time, the miners demanding thirty minutes. The articles of agreement as adopted provide that the miners shall work eight hours a day, with twenty minutes for luncheon; that they be paid at the rate of \$1 a day, and the mine owners shall not discriminate against either union or non-union men. After the conference the governor issued a proclamation calling on the men to lay down their arms.

In accordance with Governor Walte's instructions, the entire state militia is to be moved for Cripple Creek. There will be about 800 men, infantry and artillery. General Brooks has received private instructions from Governor Walte to get consent of both sides to abide by the articles of agreement, and not to go further than Colorado Springs unless his mission is successful.

CRIPPLE CREEK, Colo., June 6.—Alexander McIntosh, state organizer for the miners' union, read the arbitration agreement to the assembled miners, and immediately all the men on Bull Hill laid down their arms, and pickets were called in and the fortification abandoned. The town has been decorated with flags, and the rejoicing over the settlement of the strike is general.

COLORADO SPRINGS, Colo., June 6.—The mine owners say that after the insurrection is put down and their property restored to them they will arbitrate as to wages, hours, etc. Sheriff Lowers says he has warrants for the arrest of 300 miners, which he will serve. He expects the strikers will make a determined opposition.

WHOLESALE POISONING

Five Boys Dead and Seven Critically Ill from Eating Poisonous Weeds.

TABERTOWN, N. Y., June 6.—Doctors were hurriedly summoned to the home of the Sisters of Mercy to attend a wholesale case of poisoning that had occurred in the home. They found twelve little boys, whose ages range from 5 to 12 years, in a very critical condition, and despite every effort to save them, five died during the night, while but slight hopes are as yet entertained for the recovery of the other seven.

Little from all that can be learned so far the little fellows, while at play in the grounds, were shown an herb by one of their number, which they partook of freely, and from the effects of which it is supposed they died.

The names of the dead are: James Forestal, 10 years old; John Callahan, aged 10 years; Thomas Cassmore, aged 10; Augustus Powers, aged 12; John Donnelly, aged 12.

The coroner's jury rendered a verdict that the boys died of paralysis of the heart caused by eating a poisonous weed.

Was Her Beach of Promise Sulf.

NEW BRUNSWICK, N. J., June 6.—Miss Sarah L. Liming, of South Ambry, secured a verdict of \$5,000 in the Middlesex (N. J.) county court against Julius S. Bartlett, a builder of Hackensack, for breach of promise. Bartlett was in court before the evidence was heard, and there offered to marry Miss Liming, but she refused. The court refused to grant a nonsuit on the ground that Miss Liming had been betrayed under promise of marriage. The jury awarded her the full amount of damages sought.

Two Hundred Coyotes Sentenced.

BOISE, Idaho, June 6.—Judge Beatty yesterday sentenced the 200 Coyotes arrested several days ago for stealing a Union Pacific train. "General" Schiller was given six months. "Quartermaster General" Breckbridge four months and the other leaders, from thirty days to three months in the various county jails in the state. The rank and file, almost 150 in number, were given from thirty to sixty days in a blockade prison to be erected on the Idaho and Oregon line.

Locked the Sheriff in a Cell.

OAKLAND, Md., June 6.—Yesterday afternoon about 2 o'clock Sheriff Charles Wegman entered the jail for the purpose of repairing a cot in one of the cells. Whilst he was engaged at work Albert Obover, a young man who was confined in jail awaiting trial on the charge of atrocious assault, closed the door on the sheriff and locked him in. Obover walked out of the jail and took to the woods, which are close by.

A BIG STEAMER WRECKED

Went Ashore on the New Foundland Coast—The Crew Saved.

St. John's, N. F., June 6.—The British steamer Texas, Captain Hunter, which sailed from Montreal May 29 for Bristol, went ashore at St. John's, St. Mary's bay. At the time the steamer struck and there was a dense fog, during which the vessel had been driven considerably out of her course by the strong currents that are known to exist in St. Mary's bay. When the steamer struck she smashed in her bows and in pounding holes were driven in her bottom, through which the water entered, drowning nearly all the cattle which were housed on the main deck. After reaching land the crew returned to the vessel and saved all their belongings, and also succeeded in saving nearly all the sheep which constituted a part of her cargo.

When the news of the disaster reached here a steamer was immediately sent to the assistance of the wrecked vessel. She arrived during the evening and found the vessel under water and fast breaking up. Owing to the heavy swell and sea that was running it was impossible to approach close to the Texas. The steamer returned here today with the crew and a portion of the cargo that was saved. Another steamer was sent today to bring the remainder of the cargo and fittings.

The greater part of the cargo will be lost, and what has been saved is in very bad condition. The Texas was loaded with a general cargo. She also had on board 250 head of cattle and 1,415 sheep. The wrecked steamer belonged to the Dominion line and carried a crew of forty-eight all told. She measures 2,552 tons.
