# SUGAR INVESTIGATION. GIVEN UP ALL HOPE

Mr. Terrell, of the Trust, Before the Senate Committee.

DENIES PUBLISHED STATEMENTS.

There Were No Souators Present at the Midnight Meeting in His Boom at the Arlington Hotel-Senator Brice's interriew with Mr. Havemoyer.

WASHINGTON, June 9 .- Mr. Terrell, of the sugar trust, was before the senate investigating committee yesterday. Mr. Terrell said he had no doubt from Mr. Gaston's testimony that he was in his room on the night of March 7, and he thought it probable that Messra. Have-meyer and Reed were in the room, as the three were in the habit of meeting in one another's rooms every evening. No sen-ators were, however, in the habit of meeting with them. He and Senator Brice were, he said, old time and intimate friends, and the senators generally dropped in upon him at the hotel about once a week, but he was not in the room on March 7.

Mr. Terrell said he could remember only one occasion when Senator Brice had come fato his room when Mr Havemeyer was there. "I remember it," he said, "dis-tinctly, because they had some talk on nigar

The Chairman - Was anything said about engaging Mr. Brice's interest as a senator?

Mr. Terrell-No, I recall now that there was one remark that Mr. Havemeyer made that rather started Mr. Brice's temper. He is a red headed man and very quick sometimes. Mr. Havemeyer talked as if he felt that if the sugar refining in-terests of this country had been scattering into separate concerns there would be no trouble about its getting what he called fair treatment or reasonable protection with other great interests of this country, but, as he put it, there was such a great clamor against the sugar trust that no-body dared stand up and fight what was really right in its behalf.

and said to Mr. Havemeyer: "I do not want to hear anything of that sort. There is no subject that I do not dare face and discuss or defend if I think it is right, and the fact that 30 per cent. of it is controlled by a single company would make no dif-ference to me."

Mr. Terrell said that while he had talked with Senator Brice many times about the sugar question, he had never said a word to him on the subject that he 4 Altentown (10 innings)—Hazleton, 5 Altentown (10 innings)—Hazleton, 5 Altentown, 4. When Mr. Edwards account of the supposed meeting between himself, Senators Briee and Smith, Mr. Havemeyer and Mr. Reed, of Boston, was read to Mr. Terrell, he said that no such thing had ever occurred at any place, but he remembered one occasion when these gentlemen met in which Mr. Havemeyer had been discuss-ing the sugar question with Mr. Smith He, Brice, Havemeyer and Reed were in the room when a boy came to the room saying that Senator Smith was down stairs and wanted to see Senator Brice. Senator Brice told the boy to tell him to come up. Senator Smith came up, and said he had been over to Senator Brice's house, and not finding him home had come over to the hotel, Senator Davis cross-questioned the wit-

ness closely with regard to the conversa-tion at the Arlington after Senator Smith went in, but he maintained that he could talk with Senator Brice on sugar before Senator Smith appeared.

Mr. Terrell denied the truth of the story of the meeting of the refiners and planters in a committee room at the Capitol adjoining a room in which the finance committee meeting on the Sunday preceding the re-porting of the tariff bill. He said he had ver been at the Capitol on Sunday, and had never on any day participated in such

meeting any day of the week. Mr Terrell said he had represented Mr. Havemeyer in Washington in the capacity of an attorney after Mr. Havemeyer left Washington on the 16th of March, but he

BELAIR, Md., June 9 .- Stephen Archer, ex-state treasurer and ex-congressman arrived from the Baltimore city hospital today. His condition has improved conospital siderably during the month he spent at the hospital. Mr. Archer had not seen his one occasion when these gentlemen met in home since July, 1890, where he went to his room, and that was the evening on Baltimore to plead guilty of the charge of embezzling state funds. Since then his former homestead has passed into the hands of his sureties to partly reimburse them for the money they were compelled to pay the state in his behalf. Mrs. Archer, herself and two daughters, have since resided at a cottage on the outskirts of Belair.

# FINANCE AND TRADE.

Weekly Reports of the Leading Mercantile Agencies.

SLIGHT SIGNS OF IMPROVEMENT.

#### Speculation in Agricultural Freducts Has Turned Toward Higher Prices, and the Number of Business Failures Are Much Lower Than for the Sams Week Last Year

NEW YORR, June 9,-R. G. Dun & Co.'s weekly review of trade says: The outlook for business seems a little better on the whole, though the improvement is not great. Moreover, it is impossible to dis tinguish between mere replacement of or ders canceled for want of fuel or other causes, and the new business for which works are anxiously looking.

It is somewhat encouraging that the de-orease in payments through clearing houses is but 24.3 per cent, for the first week of June-27.2 at New York, but only 19.4 elsewhere. The decrease in compari son with 1892 is about 30 per cent. Rallroad tonnage is larger than a year ago in live stock and moderate in cereal, but considerably smaller in coal and iron pro-ducts and in other manufactured goods west bound.

Speculation in products has turned to wards higher prices, and wheat has risen five cents, with an official state report of injury in Kansas which is high flavored enough even for Farmers' Alliances. Ac ording to the estimate of The Financial Chronicle the acreage this year increases 506,000, or 3.07 per cent. indicating a larger crop, with favorable weather. With only 2,037 cole overas working and 14,576 idle, with the Cambria discharging half its force, and seven out of nine of the Cambrian force and seven out of nine of the

Carnegie furnaces at Bessemer out of blast, the production and manufacture of iron and steel are smaller than at any other time for years. While it is believed other time for years. While it is believed that deferred work will cause heavy production after the strike terminates, the demand for products is at present much below general expectations, even at the best. Other industries have been less even in New England, have now been closed for lack of fuel or of orders, besides other concerns in great number between the Atlantic and the Mississippi river. The returns of failures are still encour-

aging, there being \$16 in the United States for the week, against 322 for the same week last year, and 40 in Canada, against 27 has year. The Habilities in all failures reported in the months of May were \$15,005,357, about \$5,420,000 at the east, \$4,500,000 at the south, and \$3,400,000

at the west. Of the aggregate \$5,165,025 as of manufacturing and \$6,683,499 of trading concerns.

Bradstreets' review says: Nearly all the unfavorable business conditions of the ast three weeks continue to exercise so past three weeks continue to exercise an influence. The few exceptions where im-provement is noted are of practically local importance. Retail trade at many centers has been interfered with by unfavorable weather and by further restriction of the purchasing power of thousands of wage-earners by further industrial trouble or by shrinkage in production. Among southern cities covered Rich-mond, Savanah, Jacksonville and Au-mista report the more further and Au-

mond, Savainan, Jacksonville and Au-gusta report the more favorable condi-tions. At the first there is a better de-mand for groceries and provisions, for agricultural implements and leaf tobacco, which is contactive. For the dewhich is quite active. Eastern Florida vegetable regions report continued im-provement in crops and corresponding stimulation among merchants, while at the Georgia centers the volume of business is fair in most lines and improved in one or two Elsewhere south dullness, collections and surplus funds in bank

characterize business conditions. There is little evidence of improvemen reported from the west. At Louisville there is more demand for tobacco, a good business being reported. There is more doing by jobbers in hardware at Chicago, although interior merchants tributary to that market have not begun to buy in advance of actual needs, and, on the other hand, the spread of the coal strike is checking business there.
