The Democrats and Populists fused in
Oregon, as they fuse in Congress, but the
Republicans confused them all the same.
This may be accepted as a straw showing
which way the November wind will blow.

A MICHIGAN folding bed company has
gone into the hands of a receiver. It is to
be hoped that he will not lay down on
his trust, or, if he does, that he will find his
couch a downy one. Anyhow, he ought
to have an easy berth.

The real helpers of a community are
those who advance business in such a way
as to afford work for wage earners; those
who sell merchandise at fair profits; those
who let dwellings at reasonable rents;
those who make improvements that en-
large the boundaries of a community and
thus provide places where cheap and com-
fortable homes may be erected and owned
by wage earners.

It is said that not since the Hard Cider
campaign of William Henry Harrison
has there been so much party feeling in
Congressman Breckinridge's Ashland
district as exists there today. Mr. Breck-
inridge's friends are standing shoulder to
shoulder and will make the most earnest
fight for him that ever has been given to
a candidate in that nervous, sanguine
center. His last meeting in Frankfort
was the most enthusiastic of the series,
and as the personal encounters have not
yet begun the tension, of course, has not
yet reached its highest pitch. When the
shooting opens and the Coroner's office is
working double turn party lines will be
drawn as tight as a fiddle string and the
news from the Blue Grass region will be
worth reading. We may state in closing
this reference that the chief difference
between the present Ashland campaign
and Hard Cider campaign of 1840 is in
the beverage.

FREE COINAGE.

"Restore silver to free coinage" is the
cry that is coming from all the Republi-
can conventions of the West.

On Wednesday of last week it was
Ohio that raised the silver standard and
demanded the aggressive national action
in its behalf which Blaine outlined, and
for which Tom Reed has just declared in
the Fortnightly Review.

On Thursday of the same week Kansas
Republicans followed suit with a ringing
resolution that closes with this declara-
tion: "The interests of the producers of
the country, its farmers and its work-
men, demand that the mints be opened to
the coinage of silver of the mines of the
of the United States, and that Congress
should enact a law levying a tax on im-
portation of foreign silver sufficient to
fully protect the products of our own
mines."

The passage of the bill unconditionally
suppressing silver coinage was in itself
a great misfortune. The blow that was
thereby struck at the general prosperity
was far heavier than the most reckless
changes in tariff rates could have in-
flicted.

Nevertheless, it has had a vast and
useful educative influence on the popular
mind, East as well as West.

There has been no rallying of industrial
activity either in the factories or on the
farms since Cleveland ran the black flag
of the single gold standard piracy to the
masthead of his Administration.

There never will be any, for none is
possible until that robber rag is torn
down and a patriotic Republican Admin-

istration steps to the front to insist that
silver shall be remonetized, even if the
United States has to put herself at the
head of a league of the silver-using na-
tions and challenge England to a pitched
battle for the monetary and commercial
supremacy of the world.

The Republican party is forming its
lines on this new issue. The tariff ques-
tion will be secondary. The Democratic
free-trade assault upon the act of 1890
has flailed out. The Gorman surrender
bill is the last sputtering of the revenue
reform fireworks of 1892. There will not
be enough vitality left in that question to
make a campaign upon in 1896.

"Restore silver to free coinage as
standard money" is the slogan for the
next national contest. The Democratic
party is committed by its "unconditional
repudiation" madness of 1893 to the wrong side
of it.

Cleveland signed the death warrant of
Democracy when he signed the Wilson
bill for the unconditional suppression of
silver coinage.

INHUMAN ILLINOIS PARENTS.

Indicted for Having Starved a Paralytic
Son to Death.

CARTHAGE, Ill., June 12.—Mr and Mrs.
John Leffler, wealthy residents of this
county, have been arrested and indicted,
charged with having starved their son to
death. John Leffler is 70 years old, and
his wife (the second one) is young and
rather profligate.

Leffler had a son, Henry, by a former
wife, and he was a helpless paralytic. The
boy had been in Iowa some time, but came
back home. This displeased the Lefflers,
who, it is charged, began to starve the
young man. A neighboring woman roused
her friends and a call was made on the
Lefflers. Although admission was re-
fused to the house, an entrance was ef-
fected, and Henry Leffler was found lying
on a cot in a pantry, four or eight feet
covered with flies, and his body developed
in fifth. He was then nearly dead. The
neighbors employed a physician, who tes-
tified that the young man's condition was
due to lack of proper food. The young
man was removed to a poorhouse by the
neighbors and died in a few days.

Setback for Woman Justice.

TRENTON, June 12.—Chief Justice Beas-
ley decided yesterday that the legislature
of New Jersey could not confer upon wo-
men the right to vote for any public offi-
cers. The question came before the court
in connection with the contested election
of a road overseer in Bergen county. The
right of male citizens to vote, Justice
Beasley holds, cannot be extended any
more than it can be abridged by legisla-
tive enactment. Under this decision wo-
men may be debarred from voting for
school trustees in the future.

A Missing City Clerk.

VALPARAISO, Ind., June 12.—The dis-
appearance of City Clerk S. Ross Martin,
of this place, has created a sensation.
Martin has been secretary of a building
association for several years and resigned
to accept the position of deputy postmas-
ter a month ago. He was to have turned
over the association books last Saturday,
but took a train for Chicago, and has not
since been heard from. It is alleged that
Martin is short in his accounts several
thousand dollars.

ALL WISE HEADS

agree that the use
of a liver pill after
dinner, or to ac-
complish special
results, is an im-
portant step in
civilization. Dr.
Pierce's Pleasant
Pilllets are better
than other liver
pills in almost ev-
ery respect. They're
the smallest, easiest to
take, most natural in the way they act,
cheapest, because guaranteed to give sat-
isfaction, or money returned. We all have
weak spots. Generally it's the liver. An
active liver prevents impurities and poisons
from entering the blood. "Pleasant Pilllets"
have a tonic effect upon the liver and the
general system. They cure Indigestion, Dys-
pepsia, Dizziness, Sick or Bilious Head-
aches, and all derangements of the liver,
stomach and bowels.

A COMPROMISE AT COLUMBUS.

The Conference Reached an Agreement to
Resume Work on Monday—Joint Con-
ference of Central Pennsylvania Oper-
ators and Workers.

COLUMBUS, O., June 12.—The conference
of miners and operators here succeeded in
reaching an agreement. At the joint con-
ference last night the agreement was rat-
ified. A. A. Adams, president of the Ohio
miners, who was a member of the scale
committee, refused to sign the agreement.
The settlement, however, is final.

The scale agreed upon is as follows:
Pittsburg, thin vein, 60 cents, thick vein,
64 cents; Hocking valley, 60 cents; In-
diana bituminous, 60 cents; Indiana block,
70 cents; Strevator, Ills., 43 1/2 cents for
summer and 70 cents for winter; Bloom-
ington, Ills., 77 1/2 cents for summer and
85 cents for winter; La Salle and Spring
Valley, Ills., 75 cents for summer and
80 cents for winter. Other sections in
northern Illinois fields at prices relative
to the above. Coal in Pittsburgh district
going east to tidewater shall pay the same
mining price as that paid by the Pennsylv-
ania Gas and Westmoreland Coal com-
panies.

The scale of prices will be in effect and
bind both parties thereto beginning June
18, 1894, and continuing until May 1, 1895.
It provided that the scale for the Pittsburg
district shall be generally recognized and
observed. The operators and miners shall
co-operate in their efforts to secure a gen-
eral observance of the scale, and if during
the period covered by this agreement a
general recognition of the prices cannot
be secured either party may call a meet-
ing of the joint board of arbitration and
determine whether the agreement has
been sufficiently complied with to warrant
its continuance.

PITTSBURGH, June 12.—Interviews with a
number of coal operators in the Pittsburgh
district show a feeling among them that
a general resumption will take place next
week on the basis of the compromise
effected at Columbus.

DESPERATE ALABAMA MINERS.

Charged with Destroying Railroad Bridges
by Dynamite and Fire.

BIRMINGHAM, June 12.—Three com-
panies of the First regiment have been sent
to Blue Creek on information that a large
number of armed men were known to have
massed near that point for the purpose of
going to China Creek bridge, on the Bir-
mingham Mineral railroad, and blowing
that bridge up with dynamite. Up to this
hour nothing has been heard of the
troops.

Another bridge across Chickasaw creek,
on the main line of the Kansas City,
Memphis and Birmingham, was almost
entirely destroyed with dynamite. This
occurred after fast mail No. 4 had passed
over. The entire abutment of one end
was blown away.

The trunk walker of the Kansas City,
Memphis and Birmingham road at Car-
bon Hill found a trestle two miles be-
yond that point on fire. This bridge is
150 feet long, and was on fire at both ends.
Five feet of this structure were de-
stroyed. Of course, all these bridges
burning are charged to the miners whether
guilty or not. Desperation is depicted on
the countenance of many of the miners,
and it is not unlikely that many of their
families are in desperate circumstances.
Negroes are plentiful and are being em-
ployed in the several mines, and it looks
as if the strikers will not have any offers
from those who own and operate mines
in this district.

CONFERENCE AT ALTOONA.

Employers and Employee of Central Pen-
sylvania Discussing Rates.

ALTOONA, June 12.—Henry Berwind, of
the Berwind-White Coal company, with
the committee of the central Pennsylv-
ania coal operators appointed to meet
their striking employees, arrived in this
city this morning from Philadelphia, in
response to a telegram from District Pres-
ident T. A. Bradley, of the United Mine
Workers' association, and the representa-
tives of employers and employees are now
in secret session. Hopes are entertained
that the conference will end the trouble,
as the message of President Bradley
said to have been couched in more con-
ciliating tones than former communications,
and the fact that the operators are asked
to meet the strikers of central Pennsylv-
ania does away with their objections,
previously expressed, against outside in-
terference.

The Berwind-White Coal company is
making extensive preparations to resume
work at their mines, whatever may be the
result of the conference. The company's
mine at Horatio was started yesterday
with 200 workmen, and the presence of 200
of the coal and iron police was sufficient to deter
the strikers from making any hostile de-
monstration.

Troops Must Not Guard Miners.

CHIFFLE CREEK, Colo., June 12.—The
deputies broke camp and started for Colo-
rado Springs, in accordance with the
agreement with General Brooks and
Sheriff Bowers. The mines will now be
reopened, the mine owners paying \$3 for
eight hours. The agreement made be-
tween General Brooks and Sheriff Bowers
does not meet with Governor Waite's ap-
proval in all respects. The governor wired
Adjutant General Tarsney that the troops
must not be used as guards at the mines,
that receipts must be given the miners for
the arms taken from them, and that not
more than twenty-five miners must be
arrested.

Quiet at Panzutauney.

PANZUTAUNAY, Pa., June 12.—Every-
thing is quiet here. The guards are at
their posts around the mines. At this
place and just below Clayville there were
100 miners that came in on Saturday and
went to work yesterday. The guards will
not allow any one to go in among the men,
nor will they allow crowds to congregate
on the public road near the company's
works. The cooler headed miners and the
citizens of the surrounding towns are do-
ing all they can to prevent an outbreak.
Should it come there will be sad work,
as the guards are in a ravine and can sweep
the hillsides in all directions.

An Unsatisfactory Conference.

POMEROY, O., June 12.—The conference
of the miners and operators here left mat-
ters in worse shape than before. Forty
delegates were in attendance, representing
the sixteen mines in the district, but
only the operators from the Ohio side ap-
peared. They refused to vouch for West-

Virginia operators. The miners made a
proposition of mining for 34 cents per
basket, an increase of one-quarter of a
cent over last year's rate. The operators
refused to consider the proposition, and
left the conference without making an
offer.

Kidnaped Workers Released.

UNIONTOWNS, Pa., June 12.—The four
workmen captured by strikers on Sunday
were discovered by deputy sheriffs yester-
day in a camp of the strikers near Kyle,
and their release was effected without a
conflict. The men bore evidence of rough
treatment, but were not seriously injured.
They were brought to Uniontown and
made information against the strikers
who held them prisoners. The man killed
in Sunday's fight was John Mokoff, aged
40. He leaves a family in southern Aus-
tria. All is quiet today.

The Situation in Maryland.

FROSTBURG, Md., June 12.—Especially
large details of the Fourth and Fifth reg-
iments are guarding the mines in the
vicinity of Frostburg. Large gains were
made in the number of miners who went
to work yesterday. The mine superinten-
dents think the backbone of the strike has
been broken, and if the increase continues
tomorrow this will appear to be the case.
It is not thought the strikers will give up
the fight without violence, however, and
the situation here may grow interesting
in a day or so.

The Other Side of the Story.

UNIONTOWNS, Pa., June 12.—The strikers'
side of the story of the Lemont killing
differs materially from that told by the
deputies. They say the deputies were go-
ing through houses looking for the four
kidnaped workmen, and were being killed
by women. John Mokoff, who was killed,
was shot in the back while in his own
yard. Stephen Cornack and George Res-
torchick were also at their homes when
shot. The strikers were not armed, and
not a shot was fired by them.

Dynamite on a Railroad Bridge.

WHEELING CREEK, O., June 12.—Two
men were observed acting in a very sus-
picious manner at the Wheeling Creek
bridge of the Cleveland, Lorain and
Wheeling road. On the approach of two
soldiers belonging to the Second Ohio reg-
iment the men fled. An examination dis-
closed the fact that a dynamite bomb had
been so placed that a train passing would
have exploded the bomb, destroyed the
bridge and wrecked the train.

Fired a Trestle Near Midvale.

MIDVALE, O., June 12.—Miners fired
a trestle two miles north of the station yester-
day and stopped a mail train. They
forcibly prevented repairs to the trestle.
The guards were covered by revolvers.
Coal oil was then used, the bridge burn-
ing down in an hour. Passenger train 38,
carrying mail, got to the bridge just after
the fire. It backed to Uhrichsville.

Settled by Compromise.

HAZLETON, Pa., June 12.—The strike
among the anthracite coal miners at Sil-
verbrook mine has been settled by the
operators acceding an advance of from five
to ten cents a ton in wages. This is con-
sidered a fair compromise, the strikers not
getting the sum demanded. This was the
only strike in the Pennsylvania anthracite
coal region.

Indiana Troops Recalled.

INDIANAPOLIS, June 12.—Governor Mat-
thews ordered four companies home from
Sullivan and Farmersburg. There will be
eight companies on guard there until the
conditions change. Citizens of Shelby
have renewed their pledges to keep order
in that vicinity, and no troops will be on
duty there.

Miners Encamped Near Marion, Ills.

MARION, Ills., June 12.—About 250 min-
ers from Carterville have gone into camp
in this city, awaiting the outcome of the
cases of twenty miners who are being
tried for offenses growing out of the strike
at Cedarville. They have tents and pro-
visions with them.

THE best investment

in real estate is to keep build-
ings well painted. Paint protects
the house and saves repairs. You
sometimes want to sell—many a
good house has remained unsold
for want of paint. The rule should
be, though, "the best paint or
none." That means

Strictly Pure White Lead

You cannot afford to use cheap
paints. To be sure of getting Strictly
Pure White Lead, look at the
brand; this one is safe:

"John T. Lewis & Bros."

FOR COLORS.—National Lead Co.'s
Pure White Lead Tinting Colors.

These colors are sold in one-pound cans, each
can being sufficient to tint 25 pounds of strictly
Pure White Lead the desired shade; they are in
no sense ready-mixed paints, but a combination
of perfectly pure colors in the handiest form to

Scrofula

The Worst Case the Doc- tors Ever Saw

Hood's Sarsaparilla Perfectly Cured

"G. L. Hood & Co., Lowell, Mass.:"
"Dear Sirs:—I wish to testify to the great
value of Hood's Sarsaparilla. For some time I
had been troubled with scrofula, which early
last winter assumed a very bad form.

Sores appeared on my face
and hands and gradually increased in number
until they reached to my shoulders. The doctors
said it was the worst case of scrofula they ever
saw and also went so far as to say it was in-
curable. I tried ointments and other remedies
but to no avail. A friend recommended Hood's
Sarsaparilla, and although I was completely dis-
couraged, as a last chance I resolved to give it a
trial. After taking one bottle I noticed the sores
had commenced to heal. After the sixth bottle

They Were All Healed.

I continued to take it, however, until I had used
nine bottles, and now I am perfectly well."
