Sorn Sibley and Hensel decline to allow the use of their names as candidates for Sovernor, and the Democratic party is having a hard time to get candidates for the other state offices. To go into a state canvass, with the probability of being snowed under by 200,000, is not a very inwiting dose.

A WASHINGTON newspaper stated the other day that Senator Quay was conperned in a street railway deal in that city for which enlarged franchises were asked from Congress. Senator Quay at once brought up the subject in the Senate as a question of personal privilege, denying it in toto, and asking that it be reterred to an investigating committee. This was done. Senator Quay does not ose to rest under suspicion and trust to posterity for a vindication, but chalanges his accusers to the proof, and that without delay. If anybody downs Quay t will be after a fight.

THE statement is now published that one of the heirs of the Crocker millions has received \$400,000 for letting liquor alone for five years, and that if he gives the flowing bowl a wide berth for five years longer he will receive \$400,000 more This salaried tectotaler is a young man He gets more money per year for keeping sober than the President of the United States does for keeping the ship of State affoat. Even the gorgeous salary of the President of a life insurance company is somewhat dimmed by the lustre of his stipend. Eighty thousand dollars a year for drinking soda-water and sarsaparilla and snubbing the demon rum is a very nice job, and every young man ought to be auxious for one like it. But there are not many familles able to keep a high salaried refrainer from disgraceful acts m its payroll. Then there are young men who couldn't or wouldn't let whiskey gione for eighty millions a year. The only pang which this Crocker story will give them is that the young man who appepts \$80,000 a year for keeping sober is bosing a lot of fan all the while,

> THE streets of a town or city are said to be a bad school for young boys and girls If this is correct the time is not far distant when Shenandoah streets will graduate a blg class who will wind up their days in disgrace and infamy. Every night boys and girls scarcely in their teens yet can be found running over the streets of the town oftentimes in doubtful company and until juite a late hour of the night. The be envior of these young people is fre mently such as to show that they are rapid learners and are fast following the fuotsteps of older ones already far gone in vice and immorality. The lines of conduct chosen by a boy or girl from ten to fifteen years of age will in most cases determin the character for life. Many a young girl's life is already blighted in this fast age before she reaches fifteen years. The trest at night is a fearful school for th young to learn in and parents who allow their children the privilege of this school ere but sowing seed that they will reap a fearful heart burnings and sorrow in the future. It needs no prophets to tell what is going to be the future of the boys and girls whose evenings and larger part of the nights are spent on the streets and in doubtful company. Make homes mor attractive and pleasant and keep your children off the street, parents, if you do not want to reap a harvest of bitter tear

Famous First Editions.

It may be that its form, two thickish quarto volumes, militates against it rang-ing as a "collector's book," for it is re-markable what a dislike even confirmed book fanciers have to anything beyond an octave in size, and many a work owes its popularity to its natty appearance on the shelf. There is something reasonable in this, after all, for who could wax enthusi astic over an editio princeps, say, of 'Bayle's Dictionaire Historique,'' five volumes folio, or any kindred mammoth among books?—Cornbill Magazine.

A man of ordinary grasp could clasp his fingers around the body of little Tracy and easily join them with the thumb without causing the little one the least inconvenience.—St. Louis Republic

STRIKERS DETERMINED

The Ohio Miners Preparing to Oust President McBride.

DECLARE THEY WILL NOT RESUME.

Secretary McBryde, of the National Or ganization, Says the National Officers Will Resign if the Compromise Is Not Accepted-Two More Bridges Burned.

COLUMBUS, O., June 15 .- President A. A. Adams, of the Ohio miners' associa-tion, issues a call for a meeting of the miners in Columbus on Tuesday next. He asks the miners to select their best men to represent them, as business of vast importance will have to be acted upon. See retary McBryde, of the national miners organization, states that unless the compromise is accepted by the miners a gen ral meeting will be called at which the national officers will tender their resigna tions. McBryde gives it as his opinion that unless the Ohio miners accept the agreement they will be compelled to go ack to work at forty cents a ton instead fifty. Provident McBride recognize the imports to of giving the Adams movement more than passing attention. The fact that the miners are following Adams, holding meetings and demanding the resignations of the national officers eads to the conclusion that Adams is get ing in line to fill McBride's place should the latter resign. McBride claims that the action of the executive board in signng the scale was in accord with the view of the district presidents, of whom Adams

The attitude of the Sherrodsville miners grows more menacing, and ten car-coads of soldiers are now en route to that 6 point, on the Wheeling and Lake Eric coad, on a special train. The miners folowed the successful buring of two bridges at Fuller's mine by setting fire twice the railway station and to a small trestle These fires were put out by the several bridge and repair crews, and while they were so engaged the miners started another fire under a string of empty box

Quiet at Punxsutawney.

PUNNSUTAWNEY, Pa., June 15.—The alt-uation here has not changed any, except that the fears of any outbreak have at last subsided. The guards at the Berwind-White company's mines are now more for ornament than use, as the miners, for-eigners included, declare there will be no disturbance on their part. It looks now as though the strike at the Bell, Lowis and Yates mines here would be settled

Coke Workers Still Defiant.

SCOTTDALE, Pa., June 15 .- The delegate convention of coke workers here yesterday was attended by seventy delegates. The delegates were all instructed to continue the strike and passed a unanimous vote to that effect. Almost every train coming into the region is carrying new men to take the places of the strikers.

Buffalo's Ex-Chief Clerk Murdered.

BUFFALO, June 15. - Last night, shortly after 6 o'clock, William Delaney, ex-city clerk, one of the best known Democratic politicians in Buffalo and a lawyer of growing reputation, was shot and killed in his room in the Ribble building. The man who did the shooting escaped, and for a few hours the case was shrouded in mystery. At midnight George A. Bartholoning, a young man who runs the ele-vator in the Elbble building, walked into a police station and said he was the man who killed Delaney. He said that Delaney had been intimate with his wife.

A ROW IN THE HOUSE

Mesers, Johnson and Maddox Separated by Sergeants-at-Arms.

Washington, June 15.—Yesterday was one of excitement in the house. Less than seven pages of the Indian bill were cov-ered, but there was a great amount of discussion. The sensational event of the day was a personal controversy between Mr. Johnson, of Indiana, and Mr. Maddox, of Georgia. The row between the Indiana and Georgia representatives occurred in the space before the speaker's desk, on the Ilemocratic side, but before a blow was struck the belligerent members were separated by deputy sergeants at arms, and the excitement blew over. The day was also marked by a bitter personal attack on Mr. Holman by Mr. Jehnson, which Mr. Holman received in silence. tarish school question also came up, but without exciting any ill feeling.

Again yesterday eight hours were spent in general debate in the senate upon the proposition to place raw wool on the free list, without reaching a vote. Those who participated were Messrs. Lodge, Hoar, Piatt, Higgins, Chandler and Dolph. There were no unusual incidents. During the day Mr. Harris, the floor manager of the tariff bill, reached an agreement with Senator Aldrich, who is managing the opi position for the Republicans, to take a rote on the free wool proposition before Mr. Quay and Mr. Dolph refused to acqui-esce in the agreement, and after a slight attempt at filibustering Mr. Harris co ng the general opinion expressed by the Republican leaders that a vote could be reached today, although no formal agreement was made. In case a vote is not had before 6 o'clock Mr. Harris insisted that he would hold the senate tonight until a vote was obtained.

Hood's Sarsaparilla Purified and Built Up the System.

C. I. Hood & Co., Lowell, Mass.: "Gentlemen-Two years ago I was taken with a very severe lineas, beginning with erysipelas, and then had typhold and malaria fever.
