A RICH MINE.

The investigations of the Lexow Committee appointed by the New York Legislature to try the charges of corruption brought against the Police Department of New York city are exposing with painful precision, in the cold, white, searching light of day, some of the sources from which Tammany Hall derives its influence, and from which the boss politicians who control it gather their mysterious millions. It appears from the evidence given before the committee that the police force of New York is one great agency for the levying of blackmail. There is a regular scale of prices fixed for police protection, the payment of which is relentlessly exacted, and whose aggregate yield is estimated at something like \$10,000,000 a year. It is computed that of the seven thousand saloons in New York city one-half, at least, in defiance of the law, do a side-door Sunday trade. In this it is necessary for them to obtain the connivance of the police, and for this connivance their owners are accustomed to pay, some more, some less, but on the average not less than ten dollars a week. Assuming that no more than one-half of the licensed saloons do a Sunday trade, and that the average amount of blackmail is not more than stated, the annual receipts of the police from this source alone would be \$1,825,000.

That is quite a neat little sum, but it is not a circumstance compared with the total of the tribute money contributed by the houses which are technically known as disorderly. Of those there are thought to be about nine thousand in the city, and the tariff which the police impose on them is elaborate and high. Upon the opening of a new place of this character there is an initiation fee to be paid, the amount of which varies according to circumstances. If an entire house has been taken, the police are said to exact the payment of \$500, whereas if only a flat is occupied the contribution of \$300 satisfies their demand. The initiation fee, however, is not all. Supplementary to that, the keepers of these places are compelled to pay a monthly tribute of from \$50 to \$100, and every once in a while a demand will be made for extras upon some pretext or other. If a patrolman finds himself in need of a five or ten dollar bill he satisfies the want by "striking" one of the houses on his beat. As all the places exist on sufferance, they are completely at the police officer's mercy, and no doubt it is their practice promptly to accede to any and every demand which it is at all within their power meet. Altogether it is calculated that the mass of these annual contributions for police protection will exceed eight million dollars. Gambling-houses are supposed to yield a big yearly \$100,000, while the odds and ends received from peddlers and business men are set down at \$50,000. In this way the total estimated sum of \$16,150,000 annual aggregate of police blackmail is made up.

It need hardly be said that this great sum does not remain in the pockets of the patrolmen. They, as the collectors of it, are allowed to retain a commission for themselves, but the lion's share goes to their superiors, and in devious ways the bulk of these remarkable contributions goes to the enrichment of Tammany Hall and the men by whom Tammany is controlled. Every member of the police force has to pay for his appointment. If he is a simple patrolman he pays \$300, but sergeants and sergeantships and the other superior positions come much

higher than that. Their market value ranges all the way from \$3,000 to \$10,000, and for every promotion there is a fresh assessment to be met. It ceases to be surprising, in the light of these extraordinary revelations, that politics in New York city should be such a profitable trade, nor is there any cause for wonder that the state of Mr. Croker's health should so suddenly impel him to make a trans-Atlantic journey.

A Purely Vegetable Compound.
Dr. David Kennedy's Favorite Remedy, made at Montreal, N. Y., has the endorsement of the medical profession simply upon its merit as a curative agent. In cases of kidney trouble, sluggish liver, constipation and dyspepsia, it is the only positive and sure remedy. It has effected the most wonderful cures of gravel and stone in the bladder.

Croker Arrives in Europe.

QUEENSTOWN, June 16.—Richard Croker, of New York, with his two sons, arrived here last evening on board the Umbria. To an Associated Press representative Mr. Croker said that he had come to Europe for his health. Asked in reference to the investigation of the New York city police department, Mr. Croker said that he had not been summoned to appear before the committee, but he would be glad to give the committee any assistance in his power should they desire it. He says he is out of politics. Mr. Croker proposes to go direct to Paris. His stay in Europe will be for an indefinite period.

Kelly's Starving Army.

MONMOUTH, June 16.—Kelly's Commonwealthers who are encamped here, threatened to disband and seek aid from house to house, if they were not cared for. Fearing that the half-starved men, who had only a light lunch in twenty-four hours, should resort to rapine, the mayor and others solicited a wagon load of provisions and \$35 for the men, and started them east this morning.

Punishing an Anti-Suffragist.

WICHITA, Kan., June 16.—At Kingman, when Editor Brown arrived from the Populist state convention, where he bitterly fought woman suffrage, he was met at the depot, taken from the side of his wife, clothed in a Mother Hubbard dress and sun bonnet, and compelled to march through the streets before a brass band. The friends of woman suffrage did it.

Two Hundred Train Stealers Captured.

JULESBURG, Colo., June 16.—Two hundred Coxeyites captured an east-bound train at Big Springs while the deputies and United States marshals were here for dinner. The train progress was stopped by a west-bound train, and they were overtaken by the deputies. They were arrested without resistance and taken to Olathe. This breaks up the whole crowd.

Sat Down on the Track to Sleep.

SCRANTON, Pa., June 16.—Oscar Sampson, an Erie and Wyoming Valley railroad brakeman, sat down to rest upon the track while his train was switched to allow another to pass. He fell asleep and was run over by the latter train and mangled so terribly that death resulted.

The Weather.

Generally fair; southerly winds.

A LONG TRAIN

of diseases follows bad blood and inactive liver. Every one knows when their blood is impure and liver sluggish; pimples and boils appear, or they feel drowsy, weak, tired and thick-headed.

We want to teach you how to fight it. Begin in time. Plenty of fresh air, exercise, and Dr. Pierce's Golden Medical Discovery will bring you out of danger. The reason! "Discovery" enriches and purifies the blood and renders the liver active. As the purifying system through the liver, they can be retained there and in the blood. In these scurvy conditions of the blood, which invite catarrh, bronchitis, and end in Consumption, you have the means of prevention and cure. You can save yourself from Grip, Malaria, or Fever by putting all the functions of the body in a healthy state, besides you will enjoy healthy flesh, by taking the "Discovery." Better than all the emulsions of Cod liver oil which put on fat, but not wholesome flesh. G. M. D. is guaranteed to benefit or cure all blood disorders, or money refunded.

McBRIDE'S DEFENSE.

The Coal Miners' Leader Explains the Columbus Compromise.

SCARCITY OF FUNDS THE CAUSE.

The Necessity of Immediate Action Was Forced on the National Officers—Pennsylvania Miners Have Accepted the Compromise and Others Will Follow.

COLUMBUS, O., June 16.—John McBride, president of the United Mine Workers, was asked today: "What authority has your national committee to make a settlement for the miners?"

He replied: "Our authority was delegated to us by the national convention at Cleveland, May 15, by resolution. The miners' representatives were told in plain terms before passing the resolution that when the danger line was reached I would favor saving all that could be saved rather than meet defeat, with its consequent demoralization and disaster."

"Do you think you had reached the danger line at the time the agreement was made?"

The reply to this, in substance, was that the men had been held in line by the agitation. "Our funds," continued Mr. McBride, "were exhausted, and we are hundreds of dollars in debt, and our field workers, unable to pay their own expenses, were compelled to stay at home, while from all points came the cry, 'For God's sake send us men or money to keep our men in line or the fight is lost.' We could not aid them, because we had no money. If money does not come from some source the next issue of our official journal will be the last. We have a dozen men in jail for conspiracy, among them W. B. Wilson, of our national board, at Cumberland, Md. With no money to defend them, many of them, though innocent, will suffer."

"Four thousand men deserted us at Coal Creek, Tenn., nearly 7,000 are at work in Kansas, while 14,000 in Virginia and West Virginia are also at work. Others are waiting aside our policy of peace. We had reached the danger line, and made the best we could of the situation."

Governor McKisley is so much encouraged by the favorable turn affairs have taken in the miners' strike that he has ordered the Seventeenth regiment withdrawn. The other troops will be withdrawn in a few days. The opposition to the acceptance of the compromise is rapidly disappearing. At Nelsonville, Sand Run and Minerton, in the Hooking valley, the miners unanimously accepted the compromise, and it is believed the Columbus convention will also accept it.

PENNSYLVANIA MINERS SETTLED.

Will Resume on Monday Under the Columbus Compromise.

PITTSBURGH, June 16.—A delegate convention of the miners of the Pittsburgh district was held here yesterday, and was attended by 124 representatives. President Cairns, of the district, presided. The address of the national officers was read and a motion made to adopt it. After two hours' discussion a vote was taken, resulting in 89 for and 31 against resuming on Monday next. As quite a number of the delegates had been instructed to vote with the majority, a motion was made and carried to make the vote unanimous.

Instead of voting by assemblies and pits, as had been agreed on earlier in the evening, a rising vote was had and resulted in a victory for the compromisers. The scale committee made a partial report, but as it was late the convention adjourned until today to consider the case of the miners east of Pittsburgh, the scale for them not having been covered in the Columbus compromise.

A meeting of all railroad coal operators who favor the Columbus settlement is now in session in the Ferguson building.

Vice President Penna's Views.

BRAZIL, Ind., June 16.—Vice President Penna, of the United Mine Workers, said in an interview: "The miners are disappointed by the settlement, and so are we. I believe, however, that when the excitement incident to the disappointment has subsided and more sober thought asserts itself the miners will see that only their interests were considered, and the best that could be secured is obtained. The charge that McBride sold out is the sheerest nonsense. The figures of the compromise were agreed on in a meeting of the national board, composed of twenty-two men in all. There was not one voice or vote against it. President Adams was one of the district presidents present, and did not oppose it. I believe that when the miners hear all the facts there will be a change of feeling and expression."

Maryland "Seams" Attacked by Women.

FROSTBURG, Md., June 16.—Another bloodless battle has been fought in the Maryland coal regions. Yesterday afternoon as a number of miners were returning from the Union and Allegany mines they were met by a crowd of about sixty women, armed with tin pans. They taunted the "blacklegs," as they called the working miners, and one woman attempted to assault a man with a baseball bat, but was driven back with a stone. Another slight increase in the number of miners at work in the Consolidated company's mines is recorded.

Prospects Bright for Settlement.

PHILADELPHIA, Pa., June 16.—The prospects are brightening for a settlement of the mining troubles in central Pennsylvania. At Pottsville the occupants of the companies' houses have been notified by the sheriff that they might remain until further notice, and Superintendent Fisher is reported as saying that a proposition to pay forty cents a ton will be made to Berwind, White & Co.'s men if that rate is accepted by the employees of Bell, Lewis & Yates, to whom it has been offered.

A Captured Coal Train Released.

GREENSBURG, Pa., June 16.—Sheriff McCann and a posse of deputies went to Strickler and found about 50 strikers guarding a coal train which they had forced the trainmen to take back from Shoop's Station. All but five obeyed the sheriff when he ordered them to disperse, and those were arrested and brought here on a special train. When the others found that their companions were under arrest they ran after the engine in the hope of capturing it, but failed.

President Adams Sits in Jail.

MINERAL POINT, O., June 16.—A meeting of miners of Ohio, presided over by Sherredale, with over 200 present, decided not to accept the conditions of the Columbus conference, but to submit the question to another convention.

Waiting the Columbus Convention.

BELLAIR, O., June 16.—At the opera house here the coal miners of this section of Ohio held a meeting to consider and act upon the Columbus compromise, nearly a thousand miners being present. The scale was fully discussed for over four hours. They could arrive at no conclusion, and adjourned to await the outcome of the convention to be held in Columbus next Tuesday.

Attempt to Burn a Mine.

BEVIER, Mo., June 16.—Another attempt was made to burn mine 43 yesterday, and Frank Manning, one of the guards, was shot in the leg by the incendiaries. There was a hot fight between the firebugs and the guards who came to Manning's assistance. The firebugs escaped, but there is a report that one of them was badly wounded.

Evicted by Wholesale.

UNIONTOWNS, Pa., June 16.—Thirty families were evicted at the Trotter coke works yesterday and 100 negroes put into the houses. The operators are leasing eviction papers by the wholesale. So far the deputies have had no trouble in making evictions.

Working Miners Intimidated.

DANVILLE, Ill., June 16.—The miners at Mission Field who went to work on Thursday came out again yesterday. A large number of miners congregated there, and those at work were intimidated.

FATAL DISOBEDIENCE.

It Results in the Killing of a Hundred Miners in Austrian Silesia.

TROPPAU, June 16.—A terrible disaster, involving great loss of life, is reported from Karwin. An explosion took place in a pit of the Franziska mines, and resulted in the death of nearly a hundred miners. The first explosion was almost immediately followed by a series of other explosions in the mines, the most disastrous of the latter being in the Johannes pit, where eighty miners were killed.

Fourteen of a mining party which descended into one of the pits also perished. The party consisted of several foremen, officials and miners, of whom one overseer, two head miners, one official and ten miners were killed by ensuing explosions. The official report places the total number of killed at 180, with twenty persons fatally injured. The galleries of the mines are still on fire, and it is believed that the majority of the bodies of the killed will be consumed.

The men who escaped from the burning mines state that the explosions originated through dynamite blasting by a miner. Such blasting was against the rules, but the rules were disobeyed by the miner in order to save himself work.

Train Held Up in Illinois.

CENTRALIA, Ill., June 16.—Five desperadoes boarded an Air Line train near here early in the morning. Two of them boarded the "blind baggage," and two entered the chair car, while one took refuge in the smoker. The men in the chair car made a bold attack upon the passengers. One gentleman was relieved of \$100, while his companion lost several mileage books and a number of valuable papers. The men then apparently became frightened, as they jumped from the train while it was going at full speed. Their comrades followed suit before an attempt was made to enter the express car.

Armed Coxeyites in North Dakota.

BISMARCK, N. D., June 16.—Ten boats, containing 250 Coxeyites, arrived here yesterday from Helena, having traveled by the Missouri river. Their stock of provisions was about exhausted. The city refused to provide food, and the men threaten to leave their boats and make their way east over the railroad. Latest reports are that a band of 100 have stolen an engine and car at Dawson, and are now on a siding awaiting the passage of another train. Fifty deputies will make every effort to capture the stolen train and arrest the Coxeyites, who are armed.

Where a Boy's Power is Absolute.

MADRID, June 17.—Sultan Abdul Aziz in his proclamation to the people promises amnesty to persons who have been guilty of offenses against his father, but threatens to impose the most severe punishment on any one who dares to resist his authority. The sultan has ordered the summary execution of several Bedouins who are charged with robbing caravans.

Quartet of Thieves Sentenced.

BOSTON, June 16.—Four of five Jews, whose temporary domiciles in the west end recently yielded \$1,000 worth of stolen property, were sentenced in the superior criminal court. Two of the quartet were women, and each was given five years in Sherborn prison. The two men got two years each in the house of correction.

Ex-Minister Phelps' Condition.

ENGLEWOOD, N. J., June 16.—At midnight Mr. Phelps was resting easily. Dr. Currie thought there was no immediate danger of death. The patient is now taking regular nourishment in the shape of brandy and milk, though still unconscious. His heart is stronger and more regular.

Richmond and Danville Sold.

RICHMOND, June 16.—The Richmond and Danville property as a whole was sold to Charles H. Coster and A. J. Thomas, of the purchasing committee representing Bazel, Moran & Co. The property was bid for \$2,000,000.

Reinforced Downpour of Rain.

MADRID, Neb., June 16.—A remarkable downpour of rain fell here yesterday. The water was so high that a fall of seven feet took place. Much hail accompanied the rain. It was general in this part.

Raised from a Weak and Low Condition

To Perfect Health and Strength After Four Years Suffering.

"C. I. Hood & Co., Lowell, Mass." "Gentlemen—I think Hood's Sarsaparilla is the grandest discovery yet made, and it fulfills even more than you claim for it. My wife has been sick for the past four years. For three years she was so bad that she was unable to do any of her household work. We had good physicians, but she did not recover her health. She was suffering from Bright's disease and

Lameness in the Back.

Her tongue was covered with blisters; had no appetite, and was very weak and low with general debility. I insisted on her taking Hood's Sarsaparilla, and she has been improving ever since. She has taken five bottles, and is so well
