

The Evening Herald.

Published daily, except Sunday by
HERALD PUBLISHING COMPANY,
Publication office and mechanical department,
225 East Coal Street.
The Herald is delivered in Shenandoah and
surrounding towns for Six Cents
a week, payable to the carriers. By mail, Three
Dollars a year or Twenty-five cents per month,
in advance.

Advertisements charged according to space
and position. The publishers reserve the right
to change the position of advertisements when-
ever the publication of news requires it. The
right is also reserved to reject any advertise-
ment, whether paid for or not, that the pub-
lishers may deem improper. Advertising rates
made known upon application.

Entered at the post office at Shenandoah, Pa.,
as second class mail matter.

Susquehanna county,
GEORGE F. HEFF,
Westmoreland county.

IN THEIR OWN TRAP

"The Democratic party has had its trial
and has failed. It has been placed in con-
trol of the Federal Government, and it
has demonstrated its inability to carry
out its pledges."—Harper's Weekly.

It was this same incompetent Demo-
cratic party that the "Journal of Civilization"
did its best to place in power in 1892.
Like all the other Free Trade organs, it
is now denouncing the Democrats in Con-
gress, not for having crippled the indus-
tries of the country first by threats of
Free Trade, followed by a period of ex-
asperating uncertainty, but for having
failed utterly to destroy them with one
decisive blow by removing every vestige
of protection. The incapacity of the
Democratic party to cripple with the in-
dustrial problem of the country was as
well known to thinking men in 1892 as it
is today. The Chicago platform itself
betrayed the incompetency of the party
by its denunciation of protection to home
industries as unconstitutional.

Through false pretences all around, the
Democrats won the support of both free
traders and workmen, as strange as
that may seem, in its last campaign.
They promised the free traders to remove
protection, and at the same time pledged
themselves to secure higher compensation
and steadier work for wage-earners. The
free traders knew that to accomplish this
dual purpose was as impossible as to
make bread out of stones, yet they all,
the Journal of Civilization included, be-
came parties to the barefaced fraud and
deception. Now the free traders wax ex-
cited with wrath because they have them-
selves been deceived. They were willing
enough that the American wage earners
should be included and impoverished, but
it is a terrible offence to a free trade
agent devoted to the advancement of
foreign interests.—Dolgeville Herald.

We agree with a contemporary that dis-
crimination in public school teachers'
salaries is a proceeding so unfair, if not
arbitrary, as to be not only disgraceful in a
public sense, but to be creditable to
the communities in which it is practiced
and tolerated. Under the working of the
school system a female teacher is required
to come up to averages of capacity equal
to those of male teachers, yet the pay of the
former is far below the pay of the latter.
The showings of the female teachers are
in all respects as good as are those of the
male teachers, and on the common prin-
ciple that the laborer is worthy of his hire
the service rendered in any other kind of
work should be paid for in accordance
with its value, without regard to who
does it. If a male teacher does work in
any grade of schools worth a certain
amount of money, a female teacher doing
the same kind of work in the same grade,
should receive the same amount of salary.
Ordinary justice will always warrant
such a remuneration for the work of a
public servant, but for years this has not
been the custom in the public schools of
the state, and the fact is not creditable to
the commonwealth.

The Red Cross Society has completed a
remarkable piece of work in the relief
which it has conveyed to the stricken
people of the Sea Islands off the coast of
South Carolina. It was in September last
that the islands were devastated and
masses of people left homeless and
helpless. The general work of relieving
the distress was entrusted to the Red
Cross Society, which, by reason of its ex-
periences and equipment, was admirably
prepared to perform it during all the in-
creasing months its agents have been
working for those in need of assistance and
distributing the bounty which generous-
minded people provided for the suffering.
Their task has been performed with wis-
dom and discrimination, and while all
wants have been met pains have been taken

to prevent pauperizing the people and to
teach them the need of helping them-
selves. The members of the Red Cross
have just left the scene of their labors
with a most creditable record behind
them.

THERE will not be any false election re-
turns to Cony Island for at least several
years to come. Boss John V. McKane is
in Sing Sing; Justice Sutherland, of
Gravesend, who caused false election re-
turns to be made, will soon join him
there, as soon as he serves a year out in
the Kings county penitentiary; Justice
Newton, also of the returning board, is
in jail, and Inspector Jamieson, who bore
false witness at his examination, is in the
penitentiary. Indictments were found
against twenty-one persons, and these
twenty-one have now all been sentenced
to longer or shorter imprisonment. Big
fore he went to the penitentiary Justice
Sutherland confessed that in 1893, at the
election in Gravesend, 1900 or 1,300 fi-
ctitious votes were cast. Squire Suther-
land himself folded up several hundred
of these fictitious ballots and saw them
deposited in the ballot box. The ocean
breezes will sweep purer over Cony
Island after this wholesale cleaning out.

Yale Wins the College Championship.
The game at Brooklyn on Saturday be-
tween Yale and Princeton attracted an
audience of 10,000 people. The greatest
enthusiasm prevailed, as on this game de-
pended the college championship for 1894.
At the end of the fifth inning the score
stood 4 to 4, but after that Princeton failed
to score, while Yale added 5 to her score,
leaving Yale a winner by 9 to 4.

Looks Bad for the Peach Crop.
WASHINGTON, June 18.—The report of
the statisticians of the department of agri-
culture for June says that a glance at the
percentages of the condition of the
peaches on June 1 is sufficient to show
how disastrous the season has been thus far.
It is safe to construe the extremely
low figures into practical failure of the
crop. The condition for 1894 in the states
producing the commercial crop, as com-
pared with 1893 makes a poor showing for
this year, as follows: New Jersey—1893,
104; 1894, 65. Delaware—1893, 93; 1894, 15.
Maryland—1893, 93; 1894, 21. Virginia—
1893, 63; 1894, 15. Georgia—1893, 82; 1894,
7. Ohio—1893, 74; 1894, 43. Michigan—
1893, 86; 1894, 70. California—1893, 88;
1894, 55. The best prospects east of the
Rocky mountains are in New Jersey and
Michigan.

He Shot to Save His Bride.
NEW YORK, June 18.—Philip Moran, 45
years old, a plasterer, was shot and killed
yesterday morning at his house by Har-
vey Curtis, 22 years old, the fiancé of Mo-
ran's oldest daughter, Frances, whom he
was to marry in a few weeks. Moran was
crazy drunk when he was shot, and held
a revolver in his hand which he had
aimed at his daughter's head. The facts
in the case tend to show that Curtis shot
only as a last resort, and to save the life
of his intended bride. He acknowledged
his guilt as was locked up. The tragedy
occurred as the result of a quarrel between
father and daughter.

Terribly Beaten with a Hoe.
HADDONFIELD, N. J., June 18.—Lewis
Green, a laborer working for Amos Elbert,
a farmer, residing at Ashland, two miles
from here, committed a murderous as-
sault on a boy named Archie Hall by at-
tacking him with a hoe which he was us-
ing. Green cut several gashes in the
boy's head, and tried to finish the lad by
kicking him until he was unconscious,
then left him for dead. Green had been
beaten in an innocent game, and this led
to the assault. Hall's condition is critical.

A WOMAN'S HEAD
is level and her judgment good when she puts her faith in Dr. Pierce's Favorite Prescription. There is no beauty without good health. Nobody expects to become really beautiful from the use of complexion beautifiers. Clear skin and rosy cheeks, follow moderate exercise, fresh air, good food, and the judicious use of the "Prescription."
All women require a tonic and nerve at some period of their lives. Whether suffering from nervousness, dizziness, faintness, displacement, catarrhal inflammation of the lining membranes, bearing-down sensations or general debility, the "Prescription" reaches the origin of the trouble and corrects it. Guaranteed to benefit, or the money is refunded.
The way to cure Catarrh—there is but one way—take Dr. Sage's Remedy. There's \$500 reward offered for an incurable case.

TROOPS AGAIN CALLED.

This Time to Prevent a Threatened Uprising in Illinois.

DEPUTY MARSHALS OVERPOWERED.

They Are Compelled to Release Prisoners Whom They Had Arrested for Stopping Coal Trains—The Strikers Gradually Resuming

CHICAGO, June 18.—At a late hour last night General Wheeler, commanding the First brigade, Illinois National Guard, received orders from the adjutant general to send the Seventh regiment, Colonel Colby commanding, to Mount Olive at once to assist the local authorities in preserving peace.

The strikers have been acting in a riotous manner at Mount Olive for a week past, preventing the movement of trains containing coal laden cars, and committing other lawless acts. Saturday night a party of United States deputy marshals went to Mount Olive from Springfield and arrested several of the leaders of the men who had been instrumental in stopping traffic on a road in the hands of the federal court. Nearly a thousand strikers and sympathizers gathered, however, and made such threatening demonstrations that the deputies released the men and returned to Springfield.

The sheriff reported to the governor that he was unable to cope with the mob without aid, and although there had been no serious rioting as yet, it was deemed best to take precautionary measures. The Seventh regiment left this city shortly after midnight on a special train.

Indiana Miners Weakening.

BRAZIL, Ind., June 18.—The block coal miners of this district are greatly dissatisfied over the decision of the strikers in conference at Terre Haute, when the O'Connell non-resistance was denounced and the national officers urged to resign. When the report reached this city crowds of strikers congregated and many declared they would return to work if they had to carry Winchester for protection. The mines in the county did not begin operations today as most of the operators have not expressed a willingness to pay the price. The block miners will hold a mass meeting here some day this week to determine whether they shall notify the operators that they are willing to go to work or continue the strike. If a strike is voted part of the strikers will return to work, which may result in serious trouble. At Knightsville, Harmony, Centre Point and in this city the miners voted Friday to go to work, and so instructed their delegates to the state convention, and it is generally believed that they will return to work soon.

Indiana Miners' Demands.

SPRINGFIELD, Ind., June 18.—The miners' conference adjourned late last night after a two days' session. A scale of prices for mining coal and for all day laborers in and around coal mines was adopted, which is about the same as that for 1893. In some districts the demanded price is a fraction higher and in others lower, averaging about the same as was paid last year. Resolutions were adopted calling for pay every two weeks, check weighmen and an arbitration committee of three persons to be chosen, one by the miners, who take Lieutenant Governor Gill, one by the operators, and the third to be chosen by these two. Any operator granting the demanded scale can resume work by June 20.

Massillon Miners Still Out.

MASSILLON, O., June 18.—Captain Freed and Corporal Van Dusen, of the Logan Rifles of Youngstown, personally captured J. E. and C. D. Bair at Beach City and held them under arrest for shooting from ambush. Nine shots were fired. The prisoners turned state's evidence. Work was resumed today in the Pittsburgh district on the Wheeling and Lake Erie railroad at Laurelton, Long Run and Dillonvale. At Sherrodsville the miners continue idle, and this is also true at all the Cleveland, Lorraine and Wheeling mines. The strike in the Massillon district will continue indefinitely.

Revengeful Cripple Creek Miners.

COLORADO SPRINGS, Colo., June 18.—A private dispatch received in this city from Cripple Creek states that the Bull Hill miners are already forming a vigilance committee to rid the camp of the men who are not to their liking. If this thing is kept up there is liable to be a lively conflict. The indignation of the people is also raised over the fact that several men who recently went to the camp as deputies have received threatening letters. A quiet systematic effort is being made to discover the writers, and should they be apprehended they will undoubtedly be roughly treated.

President McBride's Confidence.

COLUMBUS, O., June 18.—President John McBride, of the United Mine Workers, said today that in his opinion the whole of the Hocking Valley mining region would resume work tomorrow. President McBride thinks they will all go to work eventually under the settlement, and hopes that the resumption of work may not be postponed longer than two weeks.

Ohio Miners Resume.

BELLAIRE, O., June 18.—Today finds Belmont county without a soldier, the last regiment breaking camp yesterday. This region has seen the last of the greatest conflict in its history thus far. The big coal mines along the Baltimore and Ohio, the Cleveland, Lorraine and Wheeling, and the Wheeling and Lake Erie roads are in full operation today.

Michigan Iron Miners on Strike.

IRONWOOD, Mich., June 18.—The miners on the Gogebic range went on strike today for more pay. The companies refuse to negotiate with committees from the unions, but are willing to hear their workmen individually as to their grievances. Three thousand men are affected. The mine owners threaten to close down their properties indefinitely.

To Resume on Full Time.

SCRANTON, Pa., June 18.—Orders have been issued for the mine of the Delaware and Hudson Canal company to resume work at full time for an indefinite period. The order affects 10,000 men at the mines, and will greatly help the railroad employees. It is said that the coal trade will be heavier for some time to come.

Another Conference of Employers.

ALTOONA, Pa., June 18.—All the operators here have received notice to attend a conference to be held in Philadelphia today. Those who have conceded the ques-

tion promise price are at a loss to account for the reason for the conference, but all will attend. Five companies at South Park and one at Gallitzin have posted notices to their miners that the present rate will go into effect at once, and that hereafter forty-five cents a net ton will be paid for mining. The miners who remained from work today will resume tomorrow.

Fuel for the New York Central.

ROCHESTER, N. Y., June 18.—The miners employed along the Buffalo, Rochester and Pittsburgh railroad returned to work this morning. Most of the coal will be shipped over the Buffalo, Rochester and Pittsburgh road to the New York Central, which is practically out of fuel at present.

Troops Still at Canal Dover.

CANAL DOVER, O., June 18.—In a conference with Colonel Cutler Sheriff Adams decided to retain the troops here until tomorrow. A number of the heaviest taxpayers of the county claim the railroad bridges here will be burned as soon as the troops leave.

Ten Thousand to Strike.

KANSAS CITY, Mo., June 18.—District President McGroogery is authority for the statement that 10,000 miners in Kansas will go on a sympathetic strike next Thursday. The strike is to force a settlement in Missouri and the Indian Territory.

AUSTRIAN SILESIA'S MINE HORROR

It Resulted in the Killing of Two Hundred and Thirty Men.

TROPPAC, June 18.—The total number of deaths resulting from the explosion that occurred in a mine near here a few days ago is 230. Engineer Kohut, the sole survivor of the party that went to attempt the rescue of the miners, said in an interview today that he heard a fearful explosion on Thursday night. He immediately rushed to the pit head, from which a dense smoke and a cloud of coal dust belched forth. He formed a party and descended 800 feet into the mine. They entered the fourth level, where they found the bodies of twenty-four miners and several dead horses lying at the entrance. The gallery was blocked with fallen beams and coal.

While waiting for reinforcements fifteen survivors issued from the well leading from the fifth level. They were almost exhausted and in a dazed condition, but all joined in the work of rescue. Herr Kohut returned to the main shaft and signalled for assistance. Suddenly another terrific explosion occurred, hurling the vagons together and throwing Herr Kohut to the ground. His hat fell down the shaft, but he clutched a door, which prevented him going down also. The lamps of the level were extinguished. Herr Kohut held a handkerchief to his mouth, and this prevented him from being choked to death by the afterdamp. He was, however, gradually losing his senses when the cage, in which the pitmen were fleeing from the lower level, rose in the shaft. Herr Kohut shouted, and was taken into the cage and raised to the surface.

A second party descended into the mine and bravely entered the galleries. They found all the first rescue party dead. The rescuers continued their explorations, and although they were badly burned, recovered some bodies, most of which were unrecognizable. The mine is still burning, and it will not be possible to resume work for six months. Four hundred children are left fatherless.

Uncle Sam Cannot Aid Kizimiski.

BUFFALO, June 18.—A letter from Acting Secretary Edwin F. Uhl, of the state department, has been received by Attorney W. W. Saperston, representing the petition in the Kizimiski case, praying for the aid of the United States government to release this Polish-American citizen from Siberian mines. Mr. Uhl finds that Kizimiski was a native Pole, who came to the United States after having taken part in the unsuccessful revolution of 1863. He says: "There is no naturalization convention between the two countries and no treaty limitation upon the power of either government to proceed against a foreign nation or subject returning to its territory for an offense prior to emigration." Nothing can be done for Kizimiski.

An American Whaler Wrecked.

NANAIMO, B. C., June 18.—The steamer Willamette brings a meager report of the loss of the American whaler bark James Allen, which was wrecked off Atka Island, 300 miles west of Alaska, May 11. The steamer Doris picked two of the crew up on June 11. The men were starving, their only food being salt meat. The Allen ran on a rock off Atka Island and sank almost immediately. The captain and first mate were lost. The rest of the crew, who left in one of the boats to head for Unalaska, are still missing. The United States patrol Petrel is out searching for them.

Baby Left in a Bureau Drawer.

NEW YORK, June 18.—A man and woman who registered as J. Armstrong and wife came to the Rochester hotel, in Blacker street, on Saturday night. They were assigned to a room, and were not seen again until yesterday, when the man went away. The woman left the place in the afternoon. A chambermaid went into the room they occupied soon after. While there she heard a faint cry come from a bureau. On opening one of the drawers of the bureau she found a newly born baby boy wrapped up in a sheet. The infant was sent to Bellevue hospital.

Shot by a Discharged Employee.

CHICAGO, June 18.—Frederick F. Swain, president of the Swain Lubricating company, was shot and fatally injured in his office last evening by an ex-employee named Henry Vaughan. Two employees of the company who heard the shooting rushed to the scene, and in endeavoring to subdue Vaughan injured him so seriously that he had to be taken to a hospital. The shooting was caused by Vaughan being discharged some time ago for alleged incompetency.

Grief Killed Her.

READING, Pa., June 18.—Near Black Bear, three miles from this city, Alfred Lebach was taken suddenly ill, dying a few hours later. A few minutes after he was pronounced dead his wife became unconscious and expired fifteen minutes later. Her death was attributed to heart disease brought on by the shock and grief of her husband's demise.

Fell with the Grand Stand.

PERRY, O. T., June 18.—During a game of baseball at Jerome Park, near here, between an Indian nine and a nine here, the grand stand gave way under the heavy load and 500 people went down in a heap. Many were injured, a little daughter of A. C. Potter fatally.

Mr. Frederick Seller
St. Peters, Pa.

Like a Young Man

Although 71 Years Old

Rheumatism Cured and Strength Given by Hood's.

"C. I. Hood & Co., Lowell, Mass.:
"I have taken three bottles of Hood's Sarsaparilla and am now using the fourth. I can truly say it has made a new man of me at my advanced age of 71. I have suffered with rheumatism for many years. For ten years there has been a swelling in my sides and also under my knee joints. It was so severe I could not stoop down without pain. Nothing gave me relief until after I commenced to take Hood's Sarsaparilla. I have continued to improve steadily and the pain has left my sides and knees, enabling me to stoop to the ground with ease. I am working like a young man, thanks to Hood's Sarsaparilla. I cannot praise it enough in return for the good it has done for me, not only as rheumatism, but also for kidney trouble." FREDERICK SELLER, St. Peters, Pa.

Hood's Pills Cure Constipation by restoring the peristaltic action of the alimentary canal.

IN EFFECT MAY 18, 1894.

Passenger trains leave Shenandoah for:
Penn. Haven Junction, 6:45 a. m.;
Light, Slatton, White Hall, Catawago,

a. m., 1:10, 5:15 p. m.

JAMES O. SAMPSEL,

AGENT for the EVENING HERALD PHILADELPHIA AND NEW YORK DAILY PAPERS.

Parties wishing any of these papers delivered
can leave orders at Max Reese's, Dougherty
building, West Centre street.

Safe and Reliable Horses to Hire.

SNEDDEN'S LIVERY

Pear Alley, Rear Coffee House.

The best rigs in town. Horses taken to
board. Hauling promptly attended to.

Your Stomach:—

Cannot stand the same washing that
your boots do, and the water you drink
isn't even fit for that purpose. Use

Lorenz Schmidt's Beer and Porter.

JAMES SHIELDS,
Manager Shenandoah Branch.
