PUSHING THE TARIFF RAPIDLY.

Only Sixty-one Pages of the Bill Remain to be Acted Upon, and It Is Believed the Income Tax Discussion Will End by Tomorrow Night.

Washington, June 21.—Very rapid progress was made on the tariff bill yester-day. The income tax on page 170 had been reached when the senate adjourned. only sixty-one pages of the bill, the in-come tax and the internal revenue feat-tire, remain undisposed of, and the end of the long debate seems close at hand. The remaining features of the free list were completed yesterday without fric-tion, both sugar and wool, the great controversial items, contrary to expectation, not giving rise to debate. A yea and nay yote was demanded on striking sugar from the free list, while the final struggle on free wool was postponed until the bill should be reported to the senate. The administrative features of the bill were stricken out, as Mr. Jones expinined,

in order to facilitate the passage of the bill. If it was deemed advisable later to enact the proposed administrative sec-tions it could be done in a separate bill, he added. Mr. Allison intimated that it was the wish of the secretary of the treas-ury to place the new tariff bill in force under the operation of the present adminis-trative law, and if defects were found to correct them later on. The contest over the income tax, which promises to be ex-tremely interesting, if not sensational, be-

gun today.
Senator Vest yesterday introduced the amendments which he appounced heretoamendments which he achounced hereto-fore would be offered by the finance com-mittee to the income tax provisions be-fore that part of the tariff bill was reached. The first amendment provides that mutual life insurance companies shall not be re-quired to pay an income tax upon the sums repaid to their policy holders as dividends repaid to their policy holders as divincing or interest upon the surplus premiums held by such companies. The provision regarding building and loan associations is changed to read as follows: "That noth-ing herein contained shall apply to the loans made by building and loan associa-tions to their shareholders for the purpos of enabling them to provide for them-selves homes." It is also made the duty of persons acting as trustees for estates or trusts to render returns upon them when the incomes annually exceed \$3,500.

The duration of the debate on the in come tax will probably depend largely on Seaator Hill, and he has expressed the opinion that two days time will be suffi-cient to dispose of the matter. Senator Aldrich also expressed the opinion today that two days would be all the time re-quired for this debate. There is a dispotion on the Republican side to allow the Democratic members of the senate to set

Democratic members of the senate to settle this question largely among themselves, and the speeches on the Republican side probably will be brief and fewer
in number than has been expected.

Senator Hill began the proceedings today with a set speech attacking the tax
vigorously, but it is not believed that
other Democrats, whether favoring or opposing the bill, will have set speeches on posing the bill, will have set speeches on the subject. It is quite likely that the Populist senators will have considerable to say upon the question, and it is also probable that Senator Hill's speech, and his tactics will develop more or less de-

The anti-option bill occupied the attention of the house all day, and an agree-ment was made that debate should close at adjournment today and a vote be taken on the bill tomorrow morning after the morning hour. The speaker was still confined to his room by sickness, Mr. Balley performing the duties of the speaker pro tem.

Great Britain Vields to Germany, Pauls, June 21.—The Temps publishes a dispatch from Berlin declaring that in order to avoid the holding of an international conference, which perforce would occupy itself with the Egyptian question, Great Britain has conceded the demands made upon her by Germany, and has conented to renounce her claim to the strip of territory between the Congo state and the German sphere of influence in Africa. In exchange for this concession Germany will permit the construction of a land tell egraph line, to extend from Cape Colony to the Nile, for which purpose the strip of territory was required by Great Britain.

HOT CAROLINA POLITICS

Bitterness Enters Into the Senatorial Campaign.

SENATOR SCORES THE GOVERNOR.

Mr. Butler Denounces South Carolina's Chief Executive, Who Is After Butler's Sent to the National Senate, as a Liar and a Slanderer of Honest Men.

CHARLESTON, S. C., June 21.—The peace which thus far has reigned over the sena-torial campaign in South Carolina was abruptly dispelled yesterday. A bitter speech was made by Senator Butler, which created the greatest excitement. The cause of the eruption dates back to the first meeting at Rocky Hill on Monday. At this meeting Mr. Butler's supporters were apparently in a large majority. The Tillman forces charged that the Butle contingent was composed of allens carried there by the superintendent of the Rich mond and Danville railroad. In his speed at Yorkville, on Tuesday, Governor Till man referred to Buther's Rocky Hill sup

"Possibly some of General Butler's over zealous friends may have engineered this. If the superintendent of the Richmond and Danville railroad is prostituting his

and Danville railroad is prostituting his authority by hailing people free we ought to know it. If there is a corruption found raised in New York then you ought to know it for it is talked about." Yesterday the campaign meeting was held at Chester, S. C. and Senator But-ler made Governor Tillman's statement the text of his speech. He was excited and agreeming and started both is and aggressive, and started out by saying "At Rock Hill I aunounced that I would do nothing to provoke trouble. Governor Tillman said he wanted the issues dis-cussed, and yet at Yorkville he had the reply put as an insult on my character that I permit no man living to do with-

out resenting."
There was great confusion at this point and indications of a storm. Senator But-ler walked across the platform, and rais-ing his voice said: "He must take his ing his voice said: "He must take his punishment like a man. He said yesterday, or if he did not say so he adopted a meaner form by insinuating and suggesting, that I had a corruption fund from Wall street or elsewhere with which to buy my seat in the senate."

Then turning around towards Governor Tillman he said:
"Lany in reals that if Governor Tillman he said:

"I say in reply that if Governor Tillman or any one else makes that tharge against me he is an infamous liar."

me he is an infamous liar."

The crowd was dumfounded. It looked at Senator Butler and Senator Butler looked at Governor Tilman, and everything was as quiet as the calmest sea, when all of a sudden there was an outburst of applianse, with mingled cheers for Butler and Tillman. After order had been restored Senator Butler continued:

"When he has charges to make against me lot him make them like a manof courage and truth. Let him specify and not indulge in the innendo of a blackgund and a builly. The man has never lived and and a bully. The man has never lived and never will live who imputes dishonesty to

"I hope I have not some defects of his "I hope I have not some defects of his character whereby he accuses a man behind his back and the next day denies that he said it. He talks of my friends at Rock Hill being Coxoyites. There is one of my gallant friends from Edgefield (pointing to a man in the crowd), as true a man as ever lived. He would no more undertake to tell that man he was a tramp, if he were on some terms with him there

If he were on equal terms with him, than he would attempt to fly. Those men sim-ply did not get the permission to do as they pleased from 'Marse Ben.'
"I did not provide these men with transportation, and had nothing to do with their coming. I could have nothing to do with them. Governor Tillman perhaps thought he had been bossing this state long enough to think he had a right, title and interest to it. The governor says I was elected because of the Hamburg riots, and that he too was there. Maybe he was, but I was there and did not see Tillman, and I have been told that when the shoot-

ing began he could not be found."

He then took up Tillman's charge that congress is bought and the senate is con-trolled by Wall street. "He charges men at a distance with corruption. He is per-petrating a deliberate slander when he is continually talking of bribery and cor-ruption in the senate. I don't believe any of them can be bought half as easy as the man who stigmatizes them

Senator Butler criticized Governor Till-man's administration in plain terms, and made a very effective speech. What its effect will be no one can tell. There is general thankfulness that there was no disturbance at the meeting yesterday, and efforts will be made by conservative men on both sides to keep the peace.
