Sketch of M. Carnot's Carcer.

LYONS, June 25,-The most intense exditement has been caused everywhere in France by the association of President Carnot. To describe the excitement in this city would be almost impossible. The prosident was visiting Lyons in connecion with the international exhibition, pon his arrival here he was tendered a exception at the prefecture, after which he visited the exhibition. After spending some time at the exhibition he proceeded to the Palais de Commerce, where a ban-quet was given in his honor. At 1625 o'clock last night President Car-

not started for the theater, where a gala performance was to be given because of has presence in the city. Several car-

Car 's carriage was driven slowly along in ront of the Palais de Commerce, and then turned into Rue de la Republique, still following the facade of the paines. When half way down the street, which was lined with enthusiastic crowds of people who were loudy cheering, a man rushed out of the crowd and sprang upon the step of the president's landau

Just at this moment M. Carnot was waving his right hand and saluting with his hat in his left hand in response to the ovation that was being given to him by the crowd. The people close to the car-riage saw that the man standing on the step had a knife in his hand. By the glare of the electric light they saw the bright blade gleam in the air as the assassin's arm descended, and then President Carnot was seen to fall back in his seat, his face deathly pals. One of his hands was crossed over his heart, where the steel had entered his body.

M. Rivand, prefect of Lyons, who was sented beside M. Carnot, immediately struck the assassin a blow full in the face and knocked him from the step, thus preventing the man from again stabbing the president, which it was his evident intention in do. intention to do.

Instantiy cries of "Le presidentest as-assine?" "Mort a la assassin?" were heard on every side, and the crowd in the vicinity of the carriage swelled to enormons proportions, every member in it seemingly intent upon killing the assas-

Even thus surrounded the prisoner was not safe, for men in the crowd made frantic endeavors to reach him. The goards repelled these repeated attacks with the flat sides of their swords, while at the same time keeping watchful eyes upon the rowd to prevent the prisonar from being shot. Maledictions were hurled upon the captive, and never before has such a wild indignation against a human being been een in this city.

In the meantime physicians were hastily summoned to attend the president, who had almost immediately been conveyed to the prefecture. A careful examination was made of the wound, and the doctors declared that the condition of M. Carnot was hopeless. The receipt of the news of the assassina

tion caused a great sensation at the Grand theater, which was filled to the walls by the elite of Lyons. The theater presented a brilliant scene, the handsome toliettes being offset by the gay uniforms of the many military officers present. All were waiting with impatience the arrival of the president, and all were unable to under stand the delay. Suddenly a man entered the theater, crying at the top of his voice. "The president has been assassinated!"

#### Excitement at the Grand Theater.

The most intense excitement followed this abrupt announcement, screamed and several fainted. Wome men, without waiting to secure their bats, ran out of cas building to confirm the news. They found all the streets leading to the paince filled with excited throngs and in a few minutes they were convinced that the report was true. Suddenly through the throng sped a landau con-veying Adrien Dupuy, a brother of Prime Minister Dupuy; Deputy Chaudey and Prefect Rivaud, the crowd falling away before it, as it dashed into the Rue de li Republique, preceded by four monited gendarmes. The growd, thinking now that the report of the assassing of was untrue, and that the president was in the carriage, should "Vive Carnot," "Vive a Republique! The carriage was stopped and MM

The audience then left, many of them proceeding at once to the prefecture, where they stood in the streets waiting for any report that might be youehasfed them from the building and discussing among themselves the horrible crime that they considered had cast disgrace upon the fair fame of their city.

An official note was issued this morning calling upon the senate and chamber of deputies to assemble in congress at Ver-sailles at 1 o'clock Wednesday afternoon for the purpose of electing a new presi dent.

### The Dying President.

After examining the president's wound all the physiciaus in attendance upon him agreed that an operation was necessary, whereupon Dr. Ollier immediately probed the wound. While this was being done M. Carnot came to his senses, and said feebly, but distinctly, "How you are hurt Ing me

The doctors, however, continued to at tend the wound, the outward bleeding of which had stopped. They knew, though, that the president's condition was exthat the president's dymore than sus-tremely grave, as they more than sus-

He refused, however, to answor any of the many questions put to him regarding his motive for stabiling the president, declaring that on this sub-ject he would speak only before a tribu-nal. Three such places in the vicinity of the Palais de Commerce were totally wrecked by the informated mob. There is no doubt that the Italian consultate would have been sacked had it not been for the prompt action of the police, who stopped the crowd and compelled its mem-bers to disperse. The excitement contin-ues at fever heat and it would take very little to precipitate anti-Italian riots. All over threats are made to take summary vengeance upon the countrymen of Santo

After the revolution of Sept. 4 Sadl-Carnot was charged, as com alssary extraordinary of the provision government, to organize the national defense in the three departments of the Seine-Inferieure, the Eure, and Calvados, and was appointed Jan. 10, 1871, prefect of the department of the Seine-Inferieure. He was elected representative from the Cote-d'Or to the national assembly on Feb. 8 following, and took his seat with the left, and had himself inscribed as a member of the party known as the Re-publican Left, of which section he became secretary, and voted for all the measures which tended towards the definite estab-

lishment of the republic. Sadi-Carnot presented himself at the

general elections of Feb. 20, 1876, as a candidate for the chamber of deputies in the Second division or circonscription of the arrondissement of the Beaums, and was elected by 7,058 votes, against about 5,709 votes cast for his two opponents. He followed the same political course in the new chamber, of which he was elected secretary, and, after the act of May 16, 1877, he formed part of the 368 deputies of the United Left, who refused a vote of confidence in the Broglie ministry. In the election of Oct. 14, 1977, Sudi-Carnot was eclected in the same circonscription b .584 votes, against 5,724 obtained by the dicial candidate, M. Varroy in M. Jules

Grevy's presidency. Subsequently he was minister of public works and then minister of finance in President Ferry's cabinet. In 1887, when President Grevy was forced out of power, M. Carnot was put forward as a candi-date for the succession, and on the second ballot M. Carnot was elected president by 616 votes against 188 cast for General Saus-sier and 25 votes scattered among other candidates. It is generally believed that he would have been re-elected had he so desired.
