THE BELLIGERENT FOREIGNERS.

It Is Feared Tiest When Only the Coal and Iron Police Are Left This Turbulent Element Will Again Besort to Acts of Violence.

PUNNSUTAWNEY, Pa., June 26.—The attitude of the striking foreigners at Walston and Adrian would indicate that they intend to make trouble. The sight of the coal and iron police throws them into a paroxysm of rage, and they are continually offering limits. With the militia it is different. They look upon the state troops with awe, but the miners, generally are making a vigorous kick against their presence here, and the miners are their presence here, and the miners are going to state the situation to Governor Pattison and petition him to have the troops withdrawn.

One of the Italian leaders said that

when the state troops are taken away there will be bloody work done to the guards and to any man who goes to work. Threats of this kind are heard on all sides, coming from this class of foreigners, who have lost favor with the Hochester and Pittsburg Coal and Iron company, but Pittsburg Coal and Iron company but who intend to stay. The women are the bold at in the outbreaks that frequently occur. Yesterday they stoned the work train at Walston, and at Adrian they made a fleree attack upon some men who were repairing the railroad track. The militia were compalled to me. militia were compelled to use force of bayonets to drive them away, and one voman was injured.

A committee of miners called upon Gen eral Wylie to find out what the troop were here for. The general told them he would not answer nor ask questions from an official standpoint, as all his official conferences must be with the sheriff of the county. He told the committee that his duty was to protect property. He said that he was in sympathy with the miners as long as they kept within the bounds of the law. He denounced company stores, and said that where it was known that a company had any interest in a store the law should be enforced. He said he en-dorsed the United Mine Workers, had worked around mines himself, and knew that the union was a help to the men. He spoke against our present immigration system, and advised the miners to us their association in making an attack upon our legislative bodies and urge them to pass laws to compel companies to pay cash for their labor, and give them the right to spend it wherever they pleased.

One of the grievance committee said

that a soldier was put to running one of the pumps. The general told them his private was put there because the miners had shut the water off from the camp, and he would have water even if he had to shoot men to get it. The general was told that the pump was connected with nuschinery that pumped water out of the mines, and they looked upon that as working for the company. General Wylie said that his soldiers were not here to work for the company, and he would look the matter up.

Punxsutawney and Clayville citizens
held a joint meeting last night and urged
that the troops be withdrawn.

ALTOONA, Pa., June 26.—The convention
of the miners of the Clearfield and adjoin-

ing districts adjourned at 11:45 last night, after adopting resolutions permitting re-sumption by all operators who are willing to pay forty cents net, or forty-five cents a gross ton for mining. This, it is believed, will lead to a general resumption.

CHICAGO, June 26.—Mrs. Carrie Reed, who was employed as bookkeeper in an office at Blackhawk street and Cherry avenue, was shot and killed yesterday af-ternoon by an unknown man, who imme-diately afterward shot and killed himself. The murderer called his victim out-side the office, and a short and excited a oversation ensued, ending in the double t agedy. The only clew to the murderer's identity is the name Hunt found on his identry is the name Hunt found on his underclothing, and the fact that Mrs. Reid called him "Fred." Mrs. Reid's husband, who is said to be a fugitive from justice and a defaulter for \$20,000, is now, the police think, in Bismarck, S. D.

VINELAND, N. J., June 25.—Charles and Anna, the twin children of Charles Buck, were killed while playing on the tracks of the West Jersey railroad, near here, yesterday afternoon. St. PAUL, Minn., June 26.—The Dis-patch makes startling charges of frauds in the recent municipal elections by which it is claimed that possibly 11,000 votes were bought and paid for and the goods duly delivered as so much merchandise The method by which the fraud is al-eged to have been accomplished shows a ost serious defect in the Australian system of voting.

A TERRIFIC CYCLONE.

A Little Town in Kansas Almost Wiped Off the Earth.

MANY FATALITIES PROBABLE.

The News Brought to Wichits by a Courter on Horseback -- Houses Crushed Like Eggshells and Many People Finned Under the Debria.

Withira, Kan., June 20 -- At 7:30 last evening a terrible cyclyone from the southwest struck the village of Keighley. Butler county, and nearly wiped the little town off the earth. All the telegraph wires are down, and the information was brought to Leon by a courier who rode or a swift horse.

a swift horse.

Owing to the fact that the convier left immediately after the cyclone passed over all the details are meager. It is known, however, that Ed. Thurman was crushed to death in a stable. Many were pluned under falling houses, and their fearful walls indicate serious injuries. It is thought that many work alled as the cycles. thought that many were killed, as the cy-clone awept on its course as far east as the people could see it.

Two general stores, the largest buildings in the village, were crushed like egg-shells. A freight train was standing on the Frisco track at the time, and six cur-were lifted up and turned upside down This would indicate that the cyclone was at least 200 feet wide. The wreck stand-ing on the track piled up thirty feet highand trains cannot pass until some time
