

THIRD EDITION  
BREAKING OF RECORDS

What Science Can Do in This Line When She Tries Hard.

Steamship captain, horse owners, bicycle riders, and a lot of other people, are making strenuous and untiring efforts to "break the record." The great public looks on at the game with good-natured interest.

Once in a while science does a little record-smashing on her own account. One of her latest and greatest achievements is the discovery and application of a process for artificially digesting food, so that it is absorbed immediately by the system, without imposing the least labor on a weak stomach. This food is called Paskola. It restores the debilitated, and gives fat to the thin because it is starchy. Only starches and real, solid leaving flesh to the body. Oils and fats don't and never will.

Mr. H. O. Mahood, of Eminton, Venango Co., Pa., says: "I was so weak and run down that I thought I would have to give up my business. I could not eat nor sleep, after one bottle of Paskola I began to gain at once and I have gained over fifteen pounds in less than three weeks and I now feel like a new man."

Mrs. S. C. Stouch, of Wellington and Dauphin Sts., Philadelphia, writes: "I have been sick nearly three years, at times suffering terrible burning pains in my back and then cold in the lower part of the bowels. Sometimes I thought I should die. All this time I was constipated. When I first began taking Paskola, I was tempted to give it up, thinking it would do me no good, because I had taken so much medicine. I feel Paskola beginning to do me good, and today I took a longer walk than I have been able to take in three years. I am much stronger. I am taking my fifth bottle of Paskola, and I eat almost everything now. I am 36 years old, and was always active, having worked hard."

Paskola may be bought of any reputable druggist. An interesting pamphlet on food and digestion will be mailed free, on application to The Pre-Digested Food Co., 36 Reade St., New York.

Last June, Dick Crawford brought his twelve months old child, suffering from infantile diarrhoea, to me. It had been weaned at four months old and being sickly everything ran through it like water through a sieve. I gave it the usual treatment in such cases but without benefit. The child kept growing thinner until it weighed but little more than when born, or perhaps ten pounds. I then started the father to giving Chamberlain's Colic, Cholera and Diarrhoea Remedy. Before one bottle of the 25 cent size had been used, a marked improvement was seen and its continued use cured the child. Its weakness and puffy constitution disappeared and its father and myself believe the child's life was saved by this remedy. J. T. Marlow, M. D., Tamaroa, Ill. For sale by Grubler Bros.

Newspaper Extract, A. D. 2000.

A few persons riding in a West Madison street car last night witnessed an amusing episode. The car was full, and a stylish young gentleman who entered was preparing to stand during the rest of the trip, when two handsome ladies arose and politely offered him their seats. He took one with a bow of thanks. Soon after another man clad in cheaper attire and rather plain of feature entered, but the young lady whose seat the first gentleman had not accepted kept her eyes fastened on her newspaper and affected not to see him. The poor fellow would doubtless have had to stand all the way had not the stylish young gentleman arisen with flashing eyes and given up his own seat. The handsome lady evidently felt the rebuke, for she got out at the next crossing, while a suppressed utter ran through the car.—Chicago Record.

GOOD STREET WORK.

The Electric Railway Company Leaves Nothing Undone.

D. H. Lilwell, who has charge of the track extension of the Lakeside Electric Railway, yesterday finished two as neat pieces of street work as ever done in the town. At the north and south side crossings at White and Centre streets he put in lengths of 12-inch pipe which will carry the surface drainage under the crossings and leave them dry, doing away with the unsightly and troublesome open gutters. The pipes are neatly covered with earth and cracked stones and the coverings are nicely graded. The same kind of work will be done at the corner of White and Oak streets. Mr. Lilwell has personal instructions from Mr. Dallas Saunders, president of the road, to do everything that will obviate any possible complaint by any of the property owners along the new line, except to guarantee nickel plate rails. All dirt left after the tracks are in proper condition is to be carted away and care is to be taken that no holes are left beside the track.

FERMENT AT SCOTSDALE

Fatal Fight Between Imported Negro "Seabs" and Police Officers.

SCOTSDALE, Pa., July 10.—Scotsdale is the scene of the wildest excitement. A regular pitched battle has been fought between the negro coke workers and the town authorities, and one negro is fatally shot and will die. Yesterday afternoon three negroes came into town from the Painter coke plant. The strikers, on getting sight of them, set up a howl and ran the men almost to their homes, throwing stones and making every kind of threats. When the negroes reached home they raised an excitement among their neighbors at the plant, and forty of them started for the strikers.

Six Hungarians were found near the plant. They were badly beaten, and a rush was then made for Scotsdale, the maddest negroes entering town, each armed with clubs and revolvers. A fight was soon raised between the negroes and the police authorities. The colored men became frantic and in a few seconds resolved themselves into a mob and commenced shooting. The officers called upon the citizens for help, and a rush was made for them, when they all took to their heels and ran out of town. They were followed by three or four hundred citizens, who gave them close pursuit in the face of volleys after volleys of shot from revolvers in the hands of the negroes. When two hundred yards out of town one negro fell, shot in the head, while the others made their escape.

Six had been received from the plant that the negroes are arming themselves with Winchester and will return to town to rescue their comrades taken in charge by the police. The citizens are in a fever of excitement. The Sons of Veterans' headquarters have been looted of its guns, and every firearm to be found has been brought into requisition.

TERRIFIED BY ANARCHISTS.

Bureau County, Ill., in a State of Siege and Panic.

LADE, Ill., July 10.—The stores were looted at this place yesterday afternoon by a mob of 400 foreign miners. The city is now guarded by city deputies. The national banks have removed their vaults from the city, and many of the business houses have closed temporarily. Reports from surrounding districts are to the effect that the anarchists of Peru, La Salle and other towns are moving toward Spring Valley for an attack on that place. The town is now guarded by two militia companies and 150 deputies. Home guards are being organized in a dozen different points in this vicinity.

Scouts on horseback are out from each town on the public highways watching all means of approach to the various towns. The rioters have cut the telephone and telegraph wires to such an extent that it is difficult to get news throughout the country from mining towns. Between Spring Valley and Ladd and Laceyville only the wires have been cut, but the police as well either pulled out or cut down.

An uprising is imminent in Grundy county, and a force of deputy sheriffs have gone to Coal City to quell it. At Morris the Grand Army of the Republic and Sons of Veterans have been asked to assist the sheriff. The English speaking miners voted to go to work, but the Italians drove them out of town and threaten to kill them if they go to work.

To Investigate Chinese Smuggling.

WASHINGTON, July 10.—The attention of Secretary Carlisle was called to a statement published in the New York World to the effect that large numbers of Chinamen had been smuggled into this country through the connivance of treasury officials and the railroads. The secretary declined to say anything in regard to the matter further than that the whole subject would be thoroughly investigated, and any officials or employees found guilty of wrong doing would be summarily dismissed and punished to the full extent of the law.

The Fireman Saved the Little One.

SHAMOKIN, Pa., July 10.—While Mrs. Sarah Stoppel and her child were crossing a high trestle along the line of the Lehigh Valley railroad they were overtaken by a passing freight train and were in imminent danger of being run down. Charles Barry, the fireman of the train, climbed out over the pilot of the locomotive and pushed the child off the superstructure into the street beneath just as the train reached her. The mother escaped by clinging to a pier. The mother and child sustained slight bruises.

Fiji Cannibals Defeated.

AUCKLAND, N. Z., July 10.—Several hundred of Vanu Levu Island, of the Fiji group, refused to pay communal duties, and armed with clubs, attacked the native police, who tried to enforce their collection. The tribes have revived the practice of eating human flesh. Sir John B. Thurston, the British governor of Fiji, immediately took steps to quell the uprising, and after a severe encounter was successful. Seven of the rebels were killed, and a large number wounded. Several troops were also wounded.

New York Federal Appointments.

WASHINGTON, July 10.—The president sent to the senate the following nominations: John C. McGuire, surveyor of customs at New York; Edward J. Taylor, collector of customs at Niagara, N. Y.; William A. Beach, collector of internal revenue for the Twenty-first district of New York; John H. McCarthy, United States marshal for the Southern district of New York.

New Jersey Senators Surprised.

WASHINGTON, July 10.—The president yesterday nominated Captain James Parker to be United States district attorney for the New Jersey district. It was a complete surprise to both the senators from that state. He was known to be a candidate, but had received from the senators only a perfunctory endorsement. They had another man slated for the place.

President Blunt Not a Performer.

NEW YORK, July 10.—The indictments against Joseph F. Blunt, president of the Madison Square bank, for perjury were dismissed by Justice Barrett in the court of oyer and terminer. On the indictment charging him with receiving deposits when he knew the bank was insolvent Judge Barrett has fixed bail for President Blunt at \$10,000.

Vigilant Again Defeated.

GLASGOW, July 10.—For the third time in succession the Prince of Wales' yacht Britannia yesterday defeated Mr. George Gould's Vigilant. The course was the same as that sailed over in the two previous races, and the race was for a prize of £75. The finishing time of the two yachts was: Britannia, 5h., 34 min., 45 sec.; Vigilant, 5h., 44 min., 19 sec.

READING'S CHURCH WAR

Another Outbreak Results in a Determination to Suspend Services.

READING, Pa., July 10.—Another outbreak occurred yesterday at St. Mary's Polish Catholic church, Twelfth and Spruce streets, being a repetition of Sunday's disgraceful affair, when the pastor was driven out of the church, and an attempt was made to do him violence in his parsonage.

Yesterday members opposed to the pastor assembled in the vicinity of the church, and later on proceeded to the parsonage, where they began using insulting remarks about Rev. Janauskiewicz, ringing his door bell and demanding admission. Detective Marts and Joe Kovalski appeared and warned them off, but no attention was paid to this. Finally the party made a rush for the door of the parsonage, but no one succeeded in effecting an entrance, and the crowd became enraged. Kovalski was then seized, and knocked about very roughly before he was rescued by Detective Marts and others from the parsonage. He was badly bruised about the body, and his clothing torn and stained with blood. A call was sent to the police station for aid, and Chief Cullen and eight officers arrived and cleared the street.

Three of the leaders of the mob were arrested, and subsequently officers arrested Father Janauskiewicz on a warrant charging him with choking a parishioner at a funeral. Bail was furnished for a hearing. The priest was protected on the way by magistrates' office by officers and followed by about 20 excited foreigners. Warrants have been issued for twenty of the rioters. The authorities have decided to close up the church, allowing no more services.

Striking Miners Still Determined.

PHILLIPSBURG, Pa., July 10.—Formal notice was yesterday given the sheriff of Clearfield county by the Herwind White Mining company that it will hold the county responsible for any destruction of its property. It also gave notice to its striking miners to remove their tools from the mines. Miners are of the opinion that the notice means that new men are to be brought into these regions. Mass meetings were held near Houtzdale and Coaldale mine. At both places resolutions were adopted reiterating the intention of the strikers to stand firm.

An Insane Murderer Sentenced.

BORDENTOWNS, N. J., July 10.—The case of Charles Hunter, colored, charged with the murder of James Reynolds at the Burlington county almshouse, Pemberton, on July 20, 1903, came up for trial before Judge Garrison at Mount Holly yesterday. The testimony of Dr. Parsons Meisler and Theodore B. Gaskill, steward of the almshouse, showed that Hunter was subject to epileptic fits, and was not responsible for his acts. Judge Garrison thereupon ended the trial by sentencing the accused to the state insane asylum.

General McCauley's Death.

NEW YORK, July 10.—The news of the sudden death of General Daniel McCauley, at Manassas, Nicaragua, was a great shock to the hosts of friends possessed by that distinguished soldier in this city. He was known to many of our citizens as a permanent agent of the Maritime Canal company, and up to the middle of last week was in the best of health. No details of his last illness have been received as yet. The president of Nicaragua has decreed that he be buried with military honors.

Altenberger on Trial for Murder.

JERSEY CITY, July 10.—The trial of Bernard Altenberger, charged with the murder of Katie Rupp on the night of May 13 was begun in the Hudson county court of oyer and terminer in Jersey City yesterday. The jury was quickly selected. Assemblyman Sallinger, in behalf of the prisoner, argued that the trial be postponed on the ground that the expected evidence from Germany had not arrived. This was denied and the trial proceeded. A verdict is expected tomorrow.

Murderer Hurt Anxious to Die.

DOYLESTOWN, Pa., July 10.—Wallace Burt, the half breed Indian, who is to hang here on the 30th for the murder of Mr. and Mrs. Samuel Rightley, asked Sheriff Nicholson to procure an attorney to draw up his will. He is desirous of leaving his body to the sheriff. Burt says he is glad his end is near, and is counting his few remaining days on earth.

A Farmer's Mysterious Disappearance.

LANCASTER, Pa., July 10.—The police authorities have been notified of the mysterious disappearance of Wilson Brubaker, a rich and well known farmer living near this city. He came to town on Saturday with considerable money in his possession, and has not been heard from since. His wife and brother fear foul play or suicide.

Thieving Cashier Confesses.

PITTSBURGH, July 10.—Clarence G. Harman, the cashier of the defunct Corry National bank, of Corry, Pa., pleaded guilty in the United States court to an indictment of ten counts for making false entries in the books of the bank. His relatives and friends here turned over securities amounting to \$100,000 to make good the deficiency. Sentence has been deferred.

Carnot's Murderer Weakens.

LONDON, July 10.—A dispatch from Lyons says of Santo Caserio, the murderer of President Carnot: "His spirit is completely broken. He lies on his cot and groans continually that he is only 20 years old, and does not wish to die. The guards watch him most carefully to prevent his suicide."

A Russian Town Wiped Out by Flames.

ST. PETERSBURG, July 10.—The entire township of Plungan, Russia, has been completely destroyed by fire. Three hundred and seventy houses have been burned and over 2,000 persons are now without shelter. Some children and a number of cattle perished in the flames.

To Inquire into Lizzie Halliday's Sanity.

ALBANY, July 10.—Governor Flower has appointed a commission to examine into the sanity of Mrs. Lizzie Halliday. Drs. J. M. Lee, Rochester; J. G. Spencer, Watertown, and Dr. Bloomer, Utica, form the commission.

Slugging for the Strike.

A party of eleven striking miners from the bituminous coal region arrived in town to-day. They are from Phillipsburg and are on a singing tour through the county to earn a livelihood pending the termination of the strike. They have appeared in Mt. Carmel and Ashland and the papers of those places speak very highly of their singing.

Scientific Experiments.

A very striking proof of the extreme elasticity of steel is exhibited in some experiments made at the rollers works and described in The American Machinist. Three cylindrical steel posts 1 1/2 inches in diameter and 18 feet long were placed in a vertical position upon a steel disk, the three posts arranged in the form of a triangle. On top of these was placed another steel disk, and arrangements were made by which a pound weight could be carefully placed upon or removed from the upper disk. An electrical contact was arranged in such a manner that any diminution of length of the columns would cause a bell to ring, and it was found that this pound weight was sufficient to make and break the contact, the bell continuing to ring so long as the weight was in place and stopping whenever it was removed. By experiments made upon specimens of the same bar of steel and by calculation it was determined that the steel bars were compressed about 2-1/2,000,000 of an inch, which, though but a small amount, showed that even the highest strain cannot be imposed upon such materials without a corresponding yielding, which yielding may or may not be disregarded according to circumstances, and to this fact that metals always yield under strain is undoubtedly due much of the "wearing to a boning" that is often considered necessary in new machinery.
