CLEVELAND SUSTAINED

The Senate Indorses His Attitude on the Strike.

INCREASING THE PUBLIC DOMAIN.

Railroads Which Have Possession of Unearned Acres Will be Obliged to Forfeit Them Under the Bill Which Passed the National House.

Washington, July 12.—The senate is making up for lest time and is now disposing of the appropriation bills at a rapid rate. The record for yesterday is three—the diplomatic and consular, the invalid pension and the military academy appropriation bills. The strike question again agitated the placid serenity of the senate. After an hour's debate in which the firmness, courage and patriotism of the president were commended by all.

the firmness, courage and patriotism of the president were commended by all, Mr. Daniels' resolution briefly indorsing the president's action and pledging him the sympathy and support of the nation was adapted as a substitute for Senator Peffer's resolution.

By virtue of the adoption of a special order the house was enabled to reach a vote on the McRae land grant forfeiture hill yesterday afternoon, and it was passed. The bill amends the act of Sept. 20, 1800, which in substance declared the forfeit-nre to the United States of lands hereto-fore granted to states and corporations to which is sistance are accurate the operation of the United States and corporations to sid in the construction of railroads to the extent only of lands opposite to and exterminous with the portions of such railroads as were not completed and operated at that date. The bill passed yesterday extends the forfeiture to the partions of the several railroads to sid in the construction of which the grants were made, which were uncompleted when the time expired within which the roads were respectively required to be completed by the several laws making the grants. It involves portions of the grants of twenty-five roads, the principal one of which is the Northern Pacific, and will restore to the public demain about 54,000,000 acres. A provise was added to the bill so as to prevent it from being construed to for-

A provise was added to the bill so as to prevent it from being construed to forfeit the right of way or station grounds of any company and also confirms to purchasers in good faith from such railroads the title to lands, not in excess of \$20 acres to each holder. An effort was made by Mr. Hartmann, of Moutans, to remove the 320 acres limitation on purchase titles, but this was defeated.

MEN TO RESUME WORK AT ONCE.

Mr. Smith, in Consideration of the Fact That Employers Do Not Insist on Sweeping Wage Reductions, Will Try to Fix the Tariff.

Washington, July 12.—Through the good offices of Senator Smith, of New Jursey, the strike of pottery workers, involv-ing about 7,000 laborers in New Jersey, was settled, and as a collateral effect the difficulties in the same trade in Ohio, in-volving about 5000

also be settled. These men went out about Jan 1 rather than accept a reduction of wages. When the Wilson bill came over to the senals the pottery manufacturers appealed to Sensite Se facturers of New Jersey and one from Ohlo and a large delegation of potter; workers met with Senator Smith, and the result of the discussion was an agreemen by which the potters went back to work

this morning at a reduction of 12% per cent, from the scale paid before Jan. I. The agreement does not touch what is called sanitary pottery. Senator Smith does not admit that he offered to make an does not admit that he offered to make an effort to secure an increase of duty on potters as an inducement to the manufacturers to agree to the scale fixed, but the manufacturers undoubtedly hope for an increase from the tariff conference. The agreement is for one year, and stipulates that none of the strikers shall be blacklisted or refused employment for having joined the strike. naving joined the strike.
