If Mary still has her little lamb now she has time to market it. The meat trains are beginning to get through.

"BAY" SHRA, the cold-blooded murderer of Robert Ross, at the polls to Troy, has been sentenced to death. He gets the electricity the 21st of next month.

In Congress and out it is proposed to try all sorts of schemes to settle the trouble between capital and labor except the golden rule, backed by a revival of religion.

Out of 16 governors asked for an opinion on the use of Federal troops at Chicago only four refused to give it, and Gov. Pattison was one of the four. Is he not clear on the issue yet?

It is the proper thing now for the office seeker in Washington not to say that he is on "private business," but that he is on his way to Mt. Vernon to shed a tear on Washington's grave.

The Hamburg-American line has put on a new steamer with a capacity for 2,300 stowage passengers, and for all of them, from Russia and elsewhere, the United States is supposed to have room.

The military staff of Argentina has ordered that the army, about as big as the militia force of Rhode Island, be commanded by 42 generals. Not even the army of labor is better supplied with commanders.

The indignation of Congressmen at having to stay at their posts or go without their pay has reached white heat. If it is country had known as much about them at the beginning as it does now it would have paid them to stay at home.

BUT ONE COURSE.

We are in accord with the Media American as to the cause of the present labor troubles. It says: We are passing through an era of labor strikes, most of them due to threatened legislation adverse to American labor. This legislation would not have been possible if the men who now show their discontent had not voted in the way sure to bring this result. They did not know it, and some are yet too ignorant to realize the great cause of all our present troubles. If they must be educated through suffering, the effect will be lasting.

The strikes, with Chicago as their centre, have been full of danger, not alone to that city and its property, or the property of the railroads, but to our government, and that liberty of law which is its only safety. Three Governors have questioned the authority of the President to aid in preserving the peace until state and local resources have been exhausted. They base their protests upon doctrines of state sovereignty as dangerous as those proclaimed by Jeff. Davis. Fortunately for the country President Cleveland is not a demagogue, and that he has a realistic sense of his duty and sufficient bravery to discharge it faithfully. He and his Cabinet were right in ordering the uninterrupted delivery of the United States mails, and the untroubled operation of laws governing the commerce between the States. The soil of Illinois and Kansas and Missouri is the soil of the United States, and amenable to all its laws. Any other doctrine is subversive of our National government, and it must be maintained at whatever cost.

The first thing in order is to restore

peace and the smooth operation of the laws, and it is the duty of every citizen who loves his country, whatever his calling or station, to sympathize with his government in its efforts to promote these things. No sophistry or demagoguery should be permitted to push aside this plain thought and yet plainer duty.

Peace will come because too many interests desire to compel its coming, and Debs and his agitators will pass into history as but later examples of the folly and crime of Martin Irons. The people will sustain the National authorities, and they will visit the earliest possible condemnation upon state or city executives who fail in their duty. While we must ever condemn Cleveland for his political course, we must commend his exercise of the executive power in the matter of current strikes, and his course ought to be accepted as the only one possible to a government which hopes to live by every officer and citizen throughout the land.

DESPERATE COKE STRIKERS

Drilling for an Attack on the Negroes Who Replaced Them. WASHINGTON, Pa., July 13.—The conviction is growing that a general uprising of the English element against the negroes who displaced them and the coke operators is imminent. Wednesday night two more houses from which strikers had been evicted were burned. These incendiary fires, together with the recent attacks, strengthen the conviction.

For two weeks past the Slavs have been drilling every day. They preserve deep secrecy about their plans, and will let nothing drop that will give a clue to their purpose. They have been procuring arms ever since the strike began, and are known to have quantities of dynamite concealed. It is feared that, having become convinced that their plans have become completely lost and taken by the negroes, in a desperate attempt for revenge they may be planning a general attack on the coke company's properties, and that there will be so many places attacked that the county authorities will be powerless. A Slav interpreter said today that his people are in a murderous mood toward the negroes, and are anxious for a chance to kill any of them who may go beyond the protection of the deputies after dark. At Oliver the new men have been warned to be careful, because the Slavs there openly threaten to kill the first negro they catch away from the works.

Arresting Spring Valley's Looters.

SPRING VALLEY, Ill., July 13.—The long expected wholesale arrests for the looting of the Spring Coal company store in this city commenced yesterday. Scores of houses were ransacked from cellar to garret and any quantity of brass goods, shoes, provisions and groceries were discovered and identified as property stolen from the store. In each instance the head of the household was arrested and thrown into the guard house at the military camp. Ten arrests were made, and the prisoners, mostly Lithuanians, were taken to Princeton under a heavy guard. About thirty or forty more arrests will follow.

Ex-Banker Rockefeller Goes to Prison.

WILKESBARRE, Pa., July 13.—When the decision, rendered yesterday in Philadelphia, affirming the judgment of the local criminal court in the case of ex-Banker T. V. Rockefeller, reached this city the eminent financier was locked up in jail a month longer. Rockefeller is over 70 years of age, and went bitterly when he parted with his family and liberty. He was sentenced to a term of two years and two months in the penitentiary. An appeal was taken on his behalf to the state supreme court, where the carrying out of the sentence was ordered.

Pennsylvania's Board of Health.

HARRISBURG, July 13.—At a meeting of the state board of health, held in this city last night, Dr. S. T. Davis, of Lancaster, was re-elected president. Drs. Lee and Groff were appointed a committee to represent the board at a meeting of the American Public Health association. Secretary Lee submitted a report showing that during the present year smallpox has appeared in twelve counties in the state, the number of cases aggregating 304, with fifteen fatalities.

Driven from Work by Strikers.

CONNEAUT, O., July 13.—One thousand Ashtabula dock strikers marched to this place, headed by a band, and compelled the dockmen here to cease work. A large force attempted to keep order, but to no purpose, and the Geneva Rifles were ordered out. The mob consists of Finns, Italians, Hungarians and other foreigners and they are desperate. Thus far no serious trouble has occurred, but an outbreak is looked for.

The Situation in Korea.

LONDON, July 12.—A dispatch to The Times, from Chemulpo says that Major General Odium commands 9,000 Japanese troops who are now in Korea, and that more are daily expected. Chemulpo is occupied by 800 admirably disciplined troops. Commerce is suspended, owing to the exodus of Chinese traders and artisans. Seoul is occupied by 6,000 men. The city is now invested by Japanese pickets and detachments of troops have been extended along the great northern road from China. Ping Yang, the principal pass, is held in force. The Chinese troops remain sixty miles south of Chemulpo, where they originally landed.

QUIETING DOWN AT CHICAGO.

Some Deputy Marshals, However, Become Rattled Over the Explosion of Torpedoes, and Discharge Their Revolvers with Fatal Effect—Disorder at Oakland.

WASHINGTON, July 13.—John W. Hayes, the general secretary-treasurer of the Knights of Labor, last night gave out the following statement covering the labor committee's interview with President Cleveland: "We had an hour's talk with President Cleveland this afternoon for the purpose of calling his attention to the arbitration act of 1888, introduced in the house of representatives at that time by Hon. John J. O'Neill, of Missouri. The delegation consisted of John W. Hayes, general secretary-treasurer; Thomas R. McGuire and C. A. French, of the general executive board, and J. C. Schonfelder, editor of the Knights of Labor Journal. "I had full authority from President E. V. Dubs, of the American Railway union, and J. W. Heathcote, of the Pullman employees, to represent their interests and act on their behalf. Senator Kyle, of South Dakota, accompanied us and introduced us to the president. The president seemed pleased to receive us and immediately opened the subject by referring to the law which the parties interested desired to see enforced. An hour was spent in discussing the various provisions of the act, which authorized the president on his own motion to appoint two arbitrators together with United States Labor Commissioner Carroll D. Wright to act as a commission of arbitration and investigate and decide what should be done by either party to settle the controversy. The commission has all of the powers necessary to administer oaths, subpoena witnesses, etc. "The president finally decided to appoint the commission, and at once so informed us, at the same time stating that he would name the arbitrators in a day or two. We expect to secure much more from this arbitration than the final settlement of the present difficulty in Chicago, for it gives official recognition to the justice of our demands for arbitration."

QUIETING DOWN AT CHICAGO.

Deputies Become Rattled and Fatally Shot Two Persons. CHICAGO, July 13.—United States Deputy Marshal Fische and an 11-year-old boy, Arthur Gregory, were fatally wounded last night in a fusillade by deputies in Kenosha. Some unknown parties had placed on the Illinois tracks several torpedoes, which were exploded by an outgoing train. The explosion occurred two miles west of Kenosha, and rushed out from cars in which they were sleeping on opposite sides of the tracks. They seemed rattled by the unexpected incident and began discharging their revolvers recklessly, with the result named above. The boy Gregory was one of a number of residents of the vicinity who rushed out at the sign of the shooting. Five of the deputies were arrested by the police.

The following telegram was sent to President Cleveland by the American Federation of Labor conference: "The gravity of the industrial situation of the country demands extraordinary and exceptional action of a conciliatory character at the hands of all men. We ask you, in the name of the working people and the entire citizenship of our country, to lend your influence and give us your aid, so that the present industrial crisis may be brought to an end, alike to the advantage of the people of our country and the institutions under which we live. We therefore ask you to come to Chicago and meet this conference, or if the state of public business does not warrant such a course that you will deputize some one as your representative."

Deliberate Murder in West Virginia.

HUNTINGTON, W. Va., July 13.—A shooting affray took place at Thacker, in Logan county, forty miles south, and Thomas Vance, a prominent citizen, is dying from the effects of three bullet wounds in his entrails. He and Melvin Runyon had some trouble several days ago, and the latter swore vengeance. He left the vicinity and returned Wednesday evening. As soon as he quitted the train he went to the home of Vance, where he pulled his revolver and commenced to fire upon the latter, with the above result. Runyon then left for parts unknown.

A Deadly Duel for Love.

BIRMINGHAM, Ala., July 13.—News comes from Liberty, Blount county, of a deadly duel between two youngsters who were suitors for the affections of a country damsel. John Spears, aged 17 years, and Howell Rainwater, aged 19 years, were the principals. They decided to settle their differences with pistols. As the result Rainwater was shot through the heart and instantly killed. Spears was unhurt. He is now in jail on the charge of murder.

A Rejected Suitor's Crime.

NEW HAVEN, Conn., July 13.—Frank A. Dams, a painter, some time ago proposed marriage to Miss Mary G. Perry and was rejected. He shot her yesterday. The ball fractured her left jaw and passed through. HARTFORD, July 13.—At 1:15 this morning the second section of Forepaugh's circus train, loaded with wagons and baggage, crashed into the rear of the first section on the Berlin branch of the Consolidated, a mile east of New Britain. Many cars were derailed, and as the first section was loaded with animals it is supposed that many were maimed and perhaps killed.

Not a Sympathy Strike.

rushed into the yards on the mole. They killed all the locomotives that had been fired up, and in order to further blockade the tracks derailed one locomotive and a long line of coaches. Later another crowd of strikers ran to the yards and wrecked a turntable by shoving a heavy freight car into the pit. Damage was also done at the round house. Trouble on the mole came to an end last evening, however, when a force of 250 United States marines from Mare Island were landed there by the ferry steamer Alameda. This force of marines is under command of Lieutenant Commander William H. Reeder, executive officer of the cruiser Charleston. Their equipment includes five Gatling guns and several Hotchkiss cannons. The marines are to act under the direction of General Ruger.

The people of Sacramento are practically living under military government. Colonel Graham has thrown a cordon of troops around the railroad property and citizens are not allowed through the lines. Along the railroad, in the vicinity of Wednesday's disaster, cavalrymen and squads of infantry are scouring the underbrush. Several suspicious characters found in hiding there have been arrested and put in a military guard house. It was reported that strikers were preparing to demolish the railroad bridge across the American river. A train bearing fifty regulars was hastily dispatched. The regulars returned with six prisoners. The men had been found on the bridge. Though they were not strikers they have been thrown into the guard house. During the day several citizens were arrested and also thrown into the guard house. "The sheriff's men are confident that they have evidence to convict one of the men now in custody, a striker named Worden.

Indicted for Contempt.

TACOMA, Wash., July 13.—C. A. Bands, ex-chief of the freight department of the Northern Pacific, was arrested for contempt of court. The complainants, George Hunter and A. C. McClelland, claim he tried with threats and intimidation to induce them to quit working for the company. He was held in \$3,000 bonds by Judge Gilbert. The federal grand jury brought in an indictment against him.

Arrested for Inciting Riot.

WEST OAKLAND, Cal., July 13.—Charles Hall, one of the most prominent leaders of the strike, was arrested last night during a fight with the police. He was charged with inciting riot and was refused bail. The mob lost heart after this, and the work of clearing the track and yards was continued without interruption.

Opposing Chief Sargeant.

CINCINNATI, July 13.—District Master Odell of the local assembly of the Brotherhood of Local Firemen, has ordered out all the men of his assembly. Chief Sargeant, of the Brotherhood, who has steadily opposed a strike, will be laid on the shelf, it is believed, by the less conservative portion of the Brotherhood.

Devastated by Flames.

TOLEDO, O., July 13.—Edon, a small town in Williams county, was visited by a most disastrous conflagration, resulting in a loss of \$175,000 worth of property. Seventy-two buildings were destroyed, including nearly the entire business section of the town. In many cases there was no insurance. The fire started at 11:30 a. m., and at 2 o'clock p. m. the destruction was complete, as a brisk wind was blowing. The village fire department consists of one hand engine. Relief was sent for to Bryan and Montpelier, but the fire had burned itself out by the time they arrived.
