Tue best way to strike is to not strike

Tim poor delinfed strikers are to be pitted. This is their severest lesson and may they profit by it.

Deus took President, Cieveland's advice and called the strike off. Now let the arbitrators do the rest.

Now LET the tariff-tinkering come to an end and Congress adjourn. The country meds rest, and needs it badly.

PRENDERGAST, the assassin of Mayo Carter Harrison, and the strike of the American Railroad Union made their exit on the same day.

PULLMAN and Carnegie make a good team. The parlor car manufactures should now pull up stakes and join the iron king in Scotland.

Tue men who were induced to strike have the sympathies of nine-tenths of the people, and should be dealt with leulently. Those who are responsible for the destruction of lives and property should be made to suffer.

DEES has ordered the strike off. It would have been money in the pockets of the strikers had they not struck at all. The walking delegates' dupes are all out of a job now.

Ir sympathy is needed anywhere, it is in behalf of the taxpayers of Chicago, who will be called upon to foot a bill of s that in all probability will amount to from four to five millions

Two YEARS ago the HEHALD predicted that if Utah was made a state our old friend, Judge G. W. Bartsch, would most likely be the first Governor. Do not be surprised if our prediction is verified, unless the Judge refuses to accept.

Hon. C. N. Buumar, of Minersville has announced himself. In the columns of this paper as a candidate for the nomina tion for Congress on the Republican ticket. In Mr Brumm the party would have an exceptionally strong candidate, one who could be elected with confidence that whatever interests bearing upon the people of this district, and the country at large, for that matter, might come before Congress would be well championed.

## EX-PRESIDENT HARRISON.

The Democratic press generally has done ex-President Harrison au injustice

rison was too good a soldler to utter the words attributed to him and it gives us pleasure to publish just what he did say. Those who were so quick in helping to circulate the false report should be just as prompt in giving publicity to the cor-

rect version. Here is what he said : I have distinctly and always maintained that it was not only the right but the duty of the President to enforce the laws of the United States without asking anybody's

consent. I acted upon this view of the law, when as a soldier, I marched under orders of the President into states whose Governors did not only not invite us, but were resisting us. As President I further maintained this view of the President's power and duty; and now, as a private citizen, I hold myself ready as a part of the posse conditatus of the country to aid in the enforcement of that view of the national

EDISON'S HEALTH NOTIONS.

He Does About as He Pleases and Keeps Well at It.

They have a little cor at the laboratory where Edison steeps when he spends night at the laboratory, which is not mer than 10 minutes, walk from his handsom house in Lieweilyn park. Upon this come will sunfell an hour and a half a slee at might while waiting for the worker of most an armouser or to bore a hole mor experimental steel. His meals dur conditions are sent down from the the bench or standing up or larger them

This may me on for days at a time, and Edison may not even take the trouble to go to the cut, but may turn in on a heap o so to the cor, but may turn in on a heap of sawdnat or the soft side of a beard and snatch a few minutes of sleep. Mr Edi-son long ago not weary of people who went up to him and said. You will rain your health. Physicians gased at him with a long face and told him if he kept this up his days were numbered.

They wanted me to take drugs," said he to the reporter. "but I am my own doe

He has a poor opinion of doctors who He has a poor opinion of acctors who write prescriptions designed to insert strange drugs into a man. Mr. Edison, who is blessed with a most rugged constitution and an elastic nature, has a ourious theory upon which he 'doctors himself.' He holds that nature somehow balances things. When he has derived balances things. When he has deprived balances things. When he has accrived himself of sleep for several nights in suc-cession, he takes a long sleep to make up for it. When he has been eating meat, and his liver or his kidneys trouble him, he "That he have suddenly turns vogetarian. 'I cat what I like," says Mr. Edison It appears to agree with him. One of the things he likes is ple. He drinks very little and yet is far from being a total abstainer. "When I was in France, they told me that I must drink wine, or I'd get the typhold fever. So I began to drink their wine, but after awhile my hands be gan to shake. I guess they only throw in the typhoid fever to advertise their wine. Tea and coffee and water are the best drinks for mo.

Mr. Edison expects to live to be 90 years of age. "My father went to Europe at the age of 84," said he. "When in Paris, his companion, a young fellow of 65, proposed going out to Versailles. The old gentleman declined to ride, and they walked out and back. My grandfather lived to be 103, despite the harrible influence of tobacco, and I think my chances are good for 90, barring accidents." Mr. are good for 90, barring accidents." Mr. Edison's reference to 'the horrible influ-ence of tobacco' is what he calls his "little joke." He is an inveterate smoker

"How many cigars do you smoke?"
"From 10 to 20 a day," was the reply.
"Strong ones?"

"The strongest I can get," he answered.

"Doesn't it hurt your nerves?

"No. I never saw a sign of it. If I thought it hurt me, I'd stop it." Mr. Edison was asked what he did for amusement, and he replied that he liked a good story and was fond of the theater On account of being slightly deaf, how-ever, he cannot hear all the actors say and is therefore more devoted to light row and hear all the music.-New York World.

A Shocking Plant.

It appears that a plant which grows in the forests of India, called the Philotacea electrica, has the power to emit electric sparks. The hand which breaks a leaf rom this plant immediately receives a shock equal to that produced by an induc-tion coil. At a distance of six yards a ranged if brought near. The energy of this singular influence varies with the annulled during the night. During rain the plant seems to succumb, and it bends its head during a thunder shower. a reason why Dr. Pierce's Pellets give the best satisfaction.
Probably because they're supar-ceated, small

Debs and Sovereign Both Refuse to Give It Up.

PEDERATION MEN NOT TO STRIKE.

Another Fight in Sacramento, Resulting in Fatal Injuries to Two Men, Causes the United States Marshal to Deciare the City Under Martial Law.

CHICAGO, July 14.—The conference of the American Federation of Labor ad-journed at 7:30 last evening after having decided against a general strike. The ac-tion of President Debs and the American Railway union was indorsed, however, and \$1,000 voted for a defense fund for the coming trial of Debs. An address to the public was issued, which says in part:

"In the light of all the evidence obtainable, and in view of the peculiar compli-sation now enveloping the situation, we are forced to come to the conclusion—that the best interests of the unions affiliated with the American Federation of Labor demand that they refrain from participating in any general or local strike which may be proposed in connection with the present railroad troubles. naking this declaration we do not wish t understood that we are in any way an tagonistic to labor organizations now struggling for right or justice, but rather to the fact that the present center has be come surrounded and beset with compilcations so grave in their nature that w cannot consistently advise a course which would be to add to the general confusion

"The public press, ever alive to the in-terest of corporate wealth, have with fevexceptions so maliciously misrepresented natiers that in the public mind the work ing classes are now arrayed in open hostil ity to federal authority. This is a position we do not wish to be placed in, nor will we occupy it without a protest. We claim to be patriotic and law abiding as any other class of citizens, as substantiated by our actions in time of public need and public peril. By misrepresentation and public peril. duplicity certain corporations assume that those opposing them represent lawless-ness and anarchy. We protest against this assumption, as we protest against the inference that because a certain individual or a certain class enjoy a monopoly in par ticular lines of trade or commerce that is necessarily follows that they are entitled to a monopoly in loyalty and good citizen

ship."
Yesterday President Debs sent a propo sition to the railway managers in which the strikers, through the board of directors of the American Rallway union make the following proposition as a basis of settlement: "They agree to return to work in a body at once provided they shall be restored to their former positions without projudice, except in cases, if any there be, where they have been convicted of crime. They do not ask the recognition of their organization or of any or ganization."

This proposition, which was signed by Eugene V. Debs, George W. Howard and Sylvester Keilher, was presented to the chairman of the General Managers' asso-ciation by Mayor Hopkins. Upon hearing the views of the managers who had called-which were forcibly expressed-the chairman decided that it was proper to return the communication to the mayor without answer, which was done, and with the information that re-communi-cation whatever from the parties signing could be received or considered by the as

General Master Workman Sovereign was seen after he had received the de-cision of the managers of the associa-tion and the Federation of Labor.

"Well," said he, "the general managers treat us with contempt and coudemn us to death, do they? I suppose they expect us to die without any resistance, but they are mistaken. We will make a struggle. We shall try to the up-all of the roads. But if we cannot do that we can at least tie up one road and keep it tied up. I have seen Debs tonight, and we all agree that there is but one thing to do that is to fight on to the end and with re-

As to the declaration of the Federation of Labor, Sovereign said: 'It is too ver-bose to merit much consideration. It is far better as to its rhetoric than as to its We are in a crisis. This doenand is therefore more devoted to light ment deals with theories. What we need opera. He says he can get down in the is action. Sympathy is not what we want; we want a colition of forces against corporate powers, and unless we can get it we might as well at once consent to be serfs. This decinration can have no effect on the strike. Up to this time these peo-

ple have given us no assistance.
"The strike has just begun. I think the position taken by the Federation of Labor will only weaken their own forces. They have served others with notice that if they get into trouble they may expect sympathy, and sympathy only, from the other labor organizations. And that is exactly what they will get. I see no way but to fight it to a finish, and shall stand by the A. R. U. until they call the strike off.

MARTIAL LAW AT SACRAMENTO, It Followed a Skirmish in Which Two

Men Were Fatally Shot. SAGRAMENTO, Cal., July 14.—Yesterday was one of the most exciting days in the history of the strike. As a result two men lie wounded in the receiving hos-pital, while several others are reported dead or injured. Shortly after 10 o'clock a switch engine was proceeding along Front street to clear the track. A company of regulars under command of Cap-tain Roberts, of Battery L. Fifth United States artillery, accompanied the engine. As they reached I street, it is claimed, a gang of strikers fired on the troops. The soldiers returned the fire and several men were seen to fall. Two of them, John Stuart and Frank Buckley, were picked up by the police and removed to the re-ceiving hospital.

The former was a marine of the United States steamer Alliance, and he was at-tracted to the scene of the conflict by a large crowd. He was shot through body and is dying. Buckley lives in Butte county, and was here on a visit. He was shot through the right shoulder. Both men deny that they are in any way connected with the strikers. Stuart has made an ante-mortem statement in which he declares he was shot down because he re- was very hitter. declares he was shot down because he re-fused to halt when ordered to do so by the

regulars.

street to J. and thence to Front, sweeping street to J. and thence to Front, aweeping everything before them. United States Marshai Baldwin was in the lead, and proclaimed martial law. He called upon the people in the name of the United States to go to their homes and remain there until the trouble is over. A few observed but the obeyed, but the majority remained on the streets, in definice of the marshal's order. The streets are now comparatively de-serted, and few atrikers are to be seen, and they are being closely watched.

Train Wrecked by Strike Sympathizers. TERRE HAUTS, Ind., July 14.—The Big Four, New York express train No. 7, on its way to St. Louis, was wrecked near Fontanel, this county, by strike sympa-thizers. Engineer Mochrmau, of Indian-anolis and Electronic Strike Sympaapolis, and Fireman Fleek, of Mattoon, were buried under the wreck and instantly killed. Their bodies were grushed into an unrecognizable mass. The engine, bag-gage car, express car and the day coach are piled in the ditch, a broken mass. The train dashed through a displaced switch. United States Marshal Hawkins arrested two men suspected of the train wrecking

Pullman Opposes Arbitration. NEW YORK, July 14.—George M. Pull-man has issued a lengthy statement of the attitude of his company in reference to the strike, its causes, its merits and its settlement. He does not declare nitely against submitting to arbitration, but urges that it would be unbusiness like to consent to an arbitration which might decide that the Pullman works be

Strike Sympathizors Held in Bail. St. Louis, July 14.—Chief Deputy United States Marshal Neil arrived here having in custody ten strikers sympa-thizers accepted at Thayer, Mo., for ob-structing trains. All were held in bonds of from \$2,000 to \$5,000 each. One of the prisoners, H. Garwood, is ex-major of Thayer. H. Pevis, another of the ac-cused, is city marshal of Thayer.

Strike Leader Phelan Sentenced. CINCINNATI, O., July 14.—Judge Taft, of the United States court of appeals, found Representative Phelan, sent here by Debs to manage the local strike, guilty of contempt in interfering with the operation of the Southern railroad, now in the hands of a United States receiver, and sentenced him to six months in jail.

Charged Against Strike Sympathizers. DANVILLE, Ills., July 14.—A switch mis-placed at Momenco, presumably by some sympathiser with the strikers, threw a sympatimer with the strikers, threw a Chicago and Eastern Illinois passenger train onto a siding, where it crashed into a lot of freight cars. The engine was de-molished and Engineer Frank Folsom killed. The passengers were not injured.

Auxiety for Walter Wellman

LONDON, July 14 .- A dispatch to The Times from Tromsoe, in the north of Norway, says that the yacht Saide, of the Royal Yacht squadron, touched at Danes Island, on the northwest coast of Spitzbergen, on July 6. The yachtsmen found on the island Professor Oyen, the geolo-gist, who was left there by the American polar expedition, under Walter Weilman, to await their return and to guard the depot established on the island. Nothing had been heard of the expedition since their steamer, the Ragavald Jarl, left Danes Island. The Saide started on a search for her, but found all the routes blocked by ice.

This Was Not a Strike Outrage.

Wellington, Kan., July 14.—The adverse decision of the Oklahoma supreme verse decision of the Oklahoma supreme court on the application of the towns of South Enid and Pond Creek to compel the Rock Island railroad to build depots and stop trains, has quickly been followed by an outrage. A mile south of Enid the Rock Island bridge was blown up with dynamite and a freight train demolished The engine and a couple of cars had passed safely over when the dynamite exploded, hurling the train from the track. Thirteen cars were piled in the ditch and Brakeman Cordry and Larry Lyon, a transp, were badly injured.

Charges Her Husband with Murder. NEWARK, N. J., July 14.—Mrs. Henry Kohl, of 279 Sixteenth avenue, virtually confeased that her husband murdered his cousin, Joseph Preinel, whose body was found in Shinder creek on June 10. Mrs. Kohl said that her husband came home after midnight with the right sleeve of his coat torn off, and his clothes covered with mud. He was laboring under great excitement. He confessed to her that he had murdered his cousin Joe, Kohl is now under arrest on a charge of assault pre-ferred by his wife.

CUMBERLAND, Md., July 14.—Mr. P. L.
Burwell announces his resignation as
general superintendent of the Cumberland and Pennsylvania Railroad company
and resident agent of the Consolidation Coal company, to take effect July 30. He will be succeeded by Mr. L. N. Hamilton, the present assistant to Mr. Burwell. Mr. Burwell will hereafter be consulting en-gineer of the Cumberland and Pennsylvania Railroad company.

Wiman Released on Bail.

NEW YORK, July 14 .- Justice Barrett, of the supreme court, issued an order admitting Erastus Wiman to bail in the anm of \$30,000. The order was issued to Assistant District Attorney John D. Lind-say, who opposed the motion for a certificate of reasonable doubt. The bail was promptly furnished, Charles Broadway Rouss becoming bondsman, and Wiman was released.

Military Prevent a Lynching.

CRIPPLE CREEK, Colo., July 14 .- A telephone message from Anaconda reports great excitement there over an attempt to lynch a man confined in fall, charged with having committed rape. The state militia, which has been held near there ever since the miners' strike last month, were called to the scens and are now aur rounding the Jail.

Breekinridge Talks Vindictively.

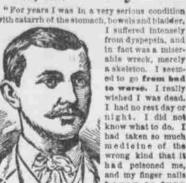

LEXISOTON, Ky., July 14 .- At Beards, in Oldham county, yesterday Congress man Breckinvidge spoke to a large crowd. He arraigned Hon. W. C. Owens, his chief opponent, for making serious charges against him. He challenged Mr. Owens to prove the truth of his assertion or stand
