FINANCE AND TRADE.

Remarkable Statement in the Face of Adverse Conditions.

SOUNDNESS OF BUSINESS AMAZING.

The Stoppage of Railway Traffic, the Delay in the Tariff Bill and the Work of Mobs Has Not Produced the Paralysia Feared.

New York, July 14.-R. G. Dun & Co.'s weekly review of trade says: When cir-cumstances are duly weighed the strength and soundness of business in this country during the past two weeks are amazing. With the second city in the country in the hands of a lawless and murderons mob, besides many other cities and towns, with railway traffic almost en-tirely stopped over the vast area between Toledo an the Pacific, with presidential proclamations declaring the existence of an insurrection, and the passionate answer ordering half a million to stop work, with ordering half a million to stop work, with a prolonged strike of coal miners not fully ended in many states, and with dif-ferences between the house and sente on the tariff question so wide that the duties affecting manufacturers and mining can-not be anticipated, industries and trade have nevertheless gone on with sublime any novertheres gone on with sublime confidence that the people and their gov-ernment would acous restore order. The shrinkage of business and depression of values have been unexpectedly small, the failures relatively few and unimportant, and there are even signs in some indus-tries of actual progress toward recovery from previous troubles.

Wheat is slightly lower, in profound disregard of the government report indi-cating a yield of less than 400,000,000 bush-ols, and as the official estimate of yield in the second sec 1893 was more than 100,000,000 bushels short of actual exports and consumption, it is readily assumed that another discrepaney as large may spring from similar causes. Receipts and exports in the pres-ent disturbed condition of business are

iot significant. The decrease in failures exhibited last week is followed by good returns for July thus far. Reported liabilities in the first five days were only \$811,567, though mail delays kept back some western returns. The number of failures during the past week have been 257 in the United States, against 374 for the same week last year, and 49 in Canada, against 25 last year.

Bradatreets' weekly review of trade says: During the greater portion of the work general wholesale business at Chicago and at centres within the territory tributary has been practically par-alyzed by the railway strike. Larger east-ern cities feit the effect of the tie up in restricted receipts of live stock, meat and produce, while western manufacturers and merchants suffered loss through inand mercannessureren loss through in-ability to secure supplies and raw mater-ials from the east. The railroad strike and boycott in part repeated the effects of the recent soft coal strike by shutting up a large number of important indus-tries through want of fuel. But perhaps no more favorable time, from the point of to inde invasion under trom has point of view of the merchant and manufacturer, than the midsummer of 1894, after the panic season in 1893 could have been chosen to precipitate so widespread a rail-road tie up when business was already so generally and severely restricted. A num-ber of small strikes are reported, but there are 25,000 fewer idle because of strikes on

Friday this week than inst. Fromy this week than inst. Iron, steel, lumber, shoes, wool and cotton manufacturing industries at larger eastern and western centers have prao-tically no shipments, and commercial

travelers throughout the central western states generally have been compelled to leave the road.

The world's stock of wheat has declined during the past fourteen weeks about fo00,000 bushels more than in the like portion of last year, which is significant in view of the insistence in the trade that time)—It doe Blatter in view of the insistence in the tracte that invisible domestic supplies are almost ex-hausted. Exports of wheat, flour in-cluded, both coasts of United States and Canada. this week equal 2,377,000 bushels, compared with 1,550,000 bushels last week, 4,134,000 bushels in the second week of July last year, 2,853,000 bushels in that week two years ago and 2,220,000 three years ago.

Split on the Sugar.

WASHINOTON, July 14.—The Democratic tariff conferees put in a long day's work and did not adjourn until after 6 o'clock last evening. The greater part of the day was devoted to a discussion of the sugar schedule, and no agreement was reached. The house managers of the conference have made a determined fight against the one-eighth of a cent differential on re-fined sugar, and the senate members of the conference have stood out very stub-bornly for the schedule substantially as it was agreed to by the senate. All reports indicate that it is going to be very difficult to reach an agreement on this schedule, and the indications that a disagreement will be reported on it are very decided.

Earthquake Shocks Continue.

CONSTANTINOILE, July 13.-There was nucher severe shock at 4 o'clock yester day afternoon. Its duration was thre day afternoon. Its duration was three seconds. A great deal of damage wa-dome to property, and the disturbance caused a renewal of the panic among the people and started again an exactas. from the city. Reports continue to arrive or damage to projecty and loss of life in the province of Asia Minor: Ismuit, Asia Minor Ghevye, and in towns along the Darda melles. nelles.

A Fruitless Conference.

PUTIM -- no. 86, Pa., July 13 -- The con-erence of operators and miners at this date yesterday insted for two hours and place yesterially instead for two hours and then adjourned, leaving the situation un-changed. A largely attended mass meet-ing was held by the miners at Osceola Mills yesterially, having been called for the purpose of advising the men to go to work at forty cents a ton. No one way present to make the proposition. The men adopted a resolution to remain on strike until they had secured fifty cents a ton.

A Clever Girl Fafger Captured.

New York, July 13.-Lizzie Patterson, a very pretty 15.-year-old girl, with an in-nocent expression, was arrested yesterday afternoon charged with forging the name of W. S. Steamse, of the banking fire family stamme & Co. Inspector McLaughlin said the girl is well known to the pollos. She has been working her game in all the hig cities of the United States. Representing herself as the daughter of Banker Steamse she would go into a jewelry store and purchase, giving in return a certified check on the Broadway National bank, to which the name of W.S. Steamse & Co. which the name of w. s. Standard et al. was signed. The certification and other signatures were eleverly forged. Her bogus checks in return for jewelry are in the hands of several jewelers in the city. A Comical Siluation.

A Bogus "Nobleman" Held for Trial.

NEW YORK, July 14 -- Henry Cook, the reputed English nobleman, with many aliases, who was arrested for sending a forged letter to August Belmont as chair of the Louisville and Nashville railroad for passes, was arraigned in the Tombs police court. It was proven that Cook had the forged letter in his possession the day before its receipt by Mr. Belmont, and he was therefore held in \$2,000 ball for trial.

Spain Pays Indomnity.

WASHINGTON, July 14.-Secretary of State Gresham received a cablegram from United States Minister Taylor, at Madrid, announcing that the Spanish government has paid over the indemnity of \$17,500 for the destruction of the property of the American missionaries who were expelled from Ponape, Caroline Islands. The sject-ment occurred about four years ago, and this subject has been under negotiation since then
