

How the Duke of Wellington Trifled With Great Danger.

One day the Duke of Wellington's French cook came to him for orders. "Oh, get anything," said the Duke, impatiently. "I never think of what I put into my stomach."

The chef was horrified. Whether Wellington was punished with indignation or not, history does not tell. One thing is certain. People who don't care what they eat soon find themselves unable to eat anything at all without agony.

What is to be done, then? One cannot live without eating. The only possible help is in a predigested food, which science has furnished in the form of Pascola. It replaces wasted thousands of invigorates the entire system without aid from the stomach.

"I have gained two pounds in a week. There is nothing that helps indigestion like Pascola. I have tried about twelve doctors and have been suffering more than twelve years."

"At times I could work only two days in a week. Formerly three weeks I spent all I had for doctoring and had given up hope."

Any up-to-date druggist will furnish Pascola. If you want to know how it works, send for free pamphlet to The Predigested Food Co., 30 Rensselaer St., New York.

The Centralia Grays and the Mahanoy City club played a great game of ball in the latter place on Sunday. After eight innings of brilliant playing the score stood 5 to 0. At this stage the game was given up but the teams will meet again in the near future. The battery for the home team was Schaeffer, Moran and Bueche, and for Mahanoy City McCreary and Lyons. Mahanoy City could only secure 5 hits from Burke, while our boys touched McCreary for 9 hits. The Grays have progressed greatly since they met this team before.

At the shooting match on Saturday between Higgins and Finnell, the manness of one crowd was plainly shown by them buying the referee to substitute shells loaded with salt for the ones properly loaded. Out of the eleven shots Higgins was to have it was found that six had salt in them. Before this trick was discovered Finnell had shot at three birds and had missed two out of the three. Higgins had shot at two birds and killed one of them and would have probably killed the two, but it is supposed that the first shell used was one filled with salt. One thing is certain that the first bird was a much easier one than the second and any common shooter could have killed it. As Higgins was about to shoot at the third bird the man who was loading his gun found that the shell handed him by the referee was much lighter than it ought to be. He pulled out the wad and found the shell was loaded with coarse salt. Then it was when the rumpus began. All eyes sought the referee but that worthy individual was not to be found. He hid left the grounds. After a half hour wrangling and fighting the crowd left the grounds. Higgins' friends claiming the money and those opponents denying their claim. The fighting was kept up around town all through the night, but who is to get the money is still a question of doubt. The Finnell faction has heavily on the first and second shells, probably because they knew that the shells were false ones, but few of them were found to put money on the second bird. Boys, if this is the way you want to manage shooting matches you had better select fools who are not able to detect you.

TRAIN WRECKERS CAUGHT.

Two Hundred Citizens of a Kansas Town Arrested by Soldiers.

WICHITA, Kan., July 24.—A special from Pond Creek states that nearly two hundred of the citizens have been arrested for train wrecking. The arrests were made by seven deputy marshals, backed by a car load of federal soldiers.

At first the Pond Creek lookouts stationed on the top of buildings saw twenty soldiers marching from Pond Creek station, and so reported.

The citizens took their Winchester in high glee to give the battle, but while they were drawn up a line waiting for the soldiers to demand their surrender two untraced companies of soldiers rolled off a train that had just come from another direction in great haste. The citizens then grounded arms and surrendered.

It is said that when the soldiers were putting the citizens under arrest other citizens, with vengeance in their hearts, rode out of town scattered, and it is expected that they are scattered along the unprotected line of road, applying the torch to bridges and culverts.

May Resume with Negro Miners.

PHILADELPHIA, Pa., July 24.—Another mass meeting of miners in the Houtzdale district will be held in that place this afternoon to hear the report of the committee selected from among the Berwind White Coal Mining company's employees who had a conference with officials of the company yesterday afternoon at Philadelphia. The result of the conference will not be made public until the meeting. As the work of erecting additional barracks at Atlantic mines has continued all day it is surmised that the company did not yield from its position not to pay more than forty cents a ton. Should the meeting not result in declaring the strike off a large number of negroes will probably be set to work in the mines tomorrow morning.

COLUMBIA, S. C., July 24.—Governor Tillman, in his proclamation ordering the reopening of the state dispensaries on Aug. 1, says: "The law will be enforced in accordance with my oath of office, until the court shall have passed upon the same, or until the legislature shall have repealed it. Wanted to Drive Out the Dutch.

CLEVELAND, July 24.—A crank called at the city hall and demanded to see the "lord mayor," saying that he had been insulted by the Dutch, and demanded that every one of that nationality be driven out of the country. He was finally placed in the wagon and later registered at the police station as Henry J. Vinke, Baltimore, Md.

Sustaining the Anti-Ana chist Bill.

PARIS, July 24.—In the chamber of deputies, when M. Dupuy made his proposition to the chamber asking for the rejection of all amendments to the government's anti-anarchist measure, M. Goblet, M. Brisson and others made vehement protests, declaring that the demand was unconstitutional and of the nature of a fresh second of December. In spite of these protests all the amendments were offered and were promptly rejected, the government majorities ranging from 82 to 147.

A Policeman Murderously Assaulted.

Raiding Knights of the Road.

JERKINTOWN, Pa., July 24.—The borough officers made a big sweep of tramps and lodged a dozen of them in the lockup. They were given a hearing before Burgess Harmer, who imposed a fine on some and committed others to jail. The people have been much annoyed by petty thieving, and it is thought these knights of the road were responsible for a good deal of it.

A Village Wiped Out by Flames.

MANISTEE, Mich., July 24.—The village of Moussetown, a suburb of Manistee, containing thirty houses, was entirely consumed by fire during the night.
