If anything is being done in the interest of the electric railway through this valley, it has not yet come to the surface. Nothing has been done since the surveyors started to work on the proposed line.

All the candidates for the Senatorship have been here (that is those on the Democratic side. I prosume they all claim that they are "in it." Francy has interests here which ought to give him a pull, but on the other hand Watson has many warm friends among the farmers. He is well known and his many favors to them in the past are not easily forzotten. Perhaps it will be a great surprise to his neighbor, Mr. Francy, if he should happen to get the delegates from this township. Stranger things have happened in politics.

The rains of the past few days were greatly needed, and much more would be

Meverting to the electric railway project botween here and Shenandoah, there is much speculation about it being built this year. It is bound to come, and the farmers who are anxious to see the trolley cars enter Ringtown are willing to go down into their own pockets to a liberal extent to help the project, and are ready to make any and every concession required of them.

The farmers have little to complain of

The farmers have tittle to complain of this year. If their crops in we not been up to the average they have received good prices for their produce and always re-turned home with empty truck wagons and full purses when at market.

He was placed under \$300 bail for his appearance at court.

It started in the five story brick building at 21 Walker street, occupied by Louis Gor-don, shirt manufacturer. ANOTHER LETTER.

Writes of the Political Field.

The rumor I gave in my last letter in reference to the contemplated withdrawal of T. J. Edwards from the Senatorial fight proves to be considerable more than mere rumor. He is now entirely out of
the fight, for he says so himself. In a card
published in one of the papers of town in
Mr. Edwards gracefully withdraws to accept a situation in Mt. Carmel, and says
"I do this early so that others who desire
to enter the field will have time to make
the canvass. I desire to thank those who
have so generously given me the assurance of support, and actually went to
work in my behalf, so that I felt assured
of success."

I consider this a wise move on the part
of Mr. Edwards. He will find that the
position he has secured will profit him
more than politics. There is no money in
the latter for an honest man, because it
is not an unusual thing to find that the
end of a political office often ends in disaster. Many a bright man has been
ruined from this same cause, and so a
particular friend of "Tom" Edwards I
extend the hand of congratulation for
the wise course he is pursuing.

Ex-Senator King doesn't seem to make
much of a stir in this vieinity just now. It
is his home, and nothing is more natural to
suppose than there should be more activity
among his followers. The absence of his
chief lieurenant, ex-Post master Maurice
Litsch, may in a measure account for the
"innocuous desuetude" of the Eling conmere rumor. He is now entirely out of

Editor Parker, of the Tri Weekly, promises to publish a daily in the loar future. Opinion is divided as to the financial success of such a venture, and I know some newspaper men who have wished a thousand times that they had eschewed daily journalism. However, Mr. Parker is a bright, energetic young man, and circumstances and localities often alter cases.

The new Democratic daily that is to appear here August 17th may never materialize. One thing is sure, two daily puners will never succeed in this town. This statement can be easily verified by a trial.

Last June. Dick Crawford brought his twelve months old child, suffering from infantile diarrhoes, to me. It had been weaned at four months old and being sickly everything ran through it like water through a sieve. I gave it the usual treatment in such cases but without benefit. The child kept growing thinner until it weighed but little more than when born, or perhaps ten pounds. I then started the father to giving Chamberlain's Coile, Cholera and Diarrhoes Remedy. Before one bottle of the 25 cent size had been used, a marked improvement was seen and its continued use cured the child. Its weakness and puny constitution disappeared and its father and myself believe the child's life was saved by the remedy. J. T. Marlow, M. D., Tamaroa, Hi. For sale by Gruhler Bros.

WATSON'S CANVASS.

Mahanoy City Correspondent Again He is Making Great Inroads On His Two Competitors.

Ex-Senator M. C. Watson, of Shenanloah, is making a grand fight for the Senatorial nomination in the Thirtieth district. No man ever made a more honorable contest for political honors, and none have met with greater success than

none have met with greater success than he has, if one is allowed to Judge by the hearty reception with which he is received. He is here, there and everywhere, and it is a mystery how he can cover so much ground. He is not taking anything for granted in this light, and on the day of the convention Francy and king will find out that he is a hustler.

Down in the Brunswigs, among the German farmers, and where nothing but "Dutch" goes, Mr. Watson has been received with open arms. He can spout the accepted language of that district in such a manifer that those good-natured farmers are for him to a man. In fact, there, is no other name mentioned for the nomination but that of Watson, the friend of the farmers.

workers. Besides he has made a personal canvass through these districts, and feels sanguine of winning.

When it is considered that his opponents were in the fight months before, and have brought all their energies into play, it must be gratifying to the friends of Mr. Watson to know that he how sads them in the race. His great strength with the people lies in the fact that he is liberal and good natured, and makes new friends cashly, and holds them, too. Ashland will be heard from in no uncertain tones in his behalf, and he now has some of the leading workers of the town hustling for him.
